NEWS RELEASE

Brita® Hydration Station's™ Sustainable Water Solution to be Showcased at BOMA Conference

6/23/2011

SPARKS, Nevada, June 16, 2011 - The revolutionary Brita® Hydration Station™ will be highlighted at the Building Owners and Managers Association (BOMA) International Conference in Washington, DC June 26-28. The BOMA Conference pulls together commercial building owners and managers from around the globe and provides a forum for education and discussion about current trends and best practices. The Brita® Hydration Station™ is a touch-free, hygienic, water dispenser that allows users to enjoy the benefits of healthier*, great-tasting water without the waste and cost of bottled water. On average, one unit can help reduce the consumption of as many as 36,000 standard 16.9-oz bottles each year. The Brita® Hydration Station™ will be showcased in the Haws Corporation booth during the international conference. The Brita® Hydration Station™ has had large appeal across many commercial markets including schools and colleges, manufacturing facilities and office buildings, as well as providing a sustainable water solution to various entertainment events and tours including Jackson Browne, UCLA Jazz Festival, Sundance Film Festival and DC Water's Bike to Work Week. The Brita® Hydration Station™ encourages hydration with its aesthetically appealing design, can help save money when used as an alternative to bottled water and helps encourage sustainability efforts.
