

A portrait of Douglas D. Monroe, Jr., an older man with white hair, smiling. He is wearing a dark suit jacket, a light blue dress shirt, and a red tie with thin white and blue diagonal stripes. The background is a dark gradient.

I would hope that in
10 years we're providing
a number of community
inputs to nonprofits in the
community for those truly
in need, which we do now.
I think that will make
a strong bank and a
strong community.

Douglas D. Monroe, Jr.

AUGUST 18, 1933 - AUGUST 31, 2023

IN MEMORY OF DOUGLAS D. MONROE, JR.

1965

Hired as EVP of
Chesapeake Bank,
formerly Lancaster
National Bank

**1965 – 1977
& 1999 – 2005**

Chesapeake
Academy, Founding
Board Member &
Chairman of the
Board

1968

Opened first
Boat 'N' Bank
in the nation!

1968 – 1998

Chesapeake Bank
President & CEO

1969 – 1971

Federal Reserve
Bank of Richmond
Board of Directors

1973

Founded
Chesapeake Trust
Department (now
CWM) alongside
Thomas Denegre

AUGUST 18, 1933 - AUGUST 31, 2023

Doug Monroe was a driving
force for the betterment of
our community and our
community bank for the
entire 59 years he lived
in the Northern Neck. In
addition to all he did to
make Chesapeake Financial
Shares what it is today, as
the surrounding timeline
shows, he was instrumental
in starting Chesapeake
Academy, Rappahannock
General Hospital,
Rappahannock Westminster-
Canterbury and Virginia
Quality Life.

All of these organizations
live on helping to make our
community richer.

1979 – 1998

Rappahannock General Hospital,
Board of Directors, Finance
Chair, Executive Committee,
Chair of the Board

1980 – 1995

Rappahannock Westminster-
Canterbury, Founding Board
Member, Board of Directors,
Secretary of Corporation

2015

Expanded into
Richmond with
branch on
Patterson Avenue
in Westhampton

2001 – 2023

Chesapeake
Bank, Chairman
Emeritus

2020

Chesapeake
Bank Celebrated
120 years!

1996 – 2008

Virginia Quality
Life, Inc.,
Founding Board
Member, Board
of Directors and
President

1991 – 1992

President of
Virginia Bankers
Association

1988 – 1999

ABA Corporation
for American
Banking Board
of Directors

1983 – 2007

Chairman of the
Board of Directors &
CEO of Chesapeake
Financial Shares, Inc.

We have traditionally used part of our “Dear Shareholder” letter to highlight the passing of people who have made significant contributions during their time on this Earth. This year there were several – Sandra Day O’Connor, Henry Kissinger, Tina Turner and Jimmy Buffett, to name a few. Most importantly, however, our former CEO and Chairman Douglas D. Monroe, Jr. passed away. Doug had such a profound effect on the trajectory of not only Chesapeake Financial Shares but even more so on our community. The facing page highlights just a few of the ways Doug made our bank thrive and our community become a much better place. These are just the tip of the iceberg!

Chesapeake Financial Shares weathered a tumultuous 2023 following a turbulent 2022. The Federal Reserve continued to raise rates rapidly to stave off inflation and we responded accordingly. We strongly feel we remain well-positioned as we anticipate interest rates to normalize.

Our net income was \$10,119,738 representing a 43% decrease from our 2022 record year. We used the year to continually reposition our balance sheet for greater long-term shareholder value realizing \$2,884,185 in losses as part of that repositioning. Our net interest margin decrease of \$2,470,815 was the largest contributor to our decrease – a direct function of the long-term inversion of the yield curve. Total assets increased to \$1,471,046,795 representing a 10.6% increase from 2022. Loans had their second straight year of 10+% net growth. All three specialty lines of business, Chesapeake Payment Systems, Flexent and Chesapeake Wealth Management, collectively accounted for over 40% of our net income. A diversified income stream serves us well!

Thank you for being a shareholder and participating in our profits as well as building the communities in which we serve. Doug Monroe set a very high bar for this dual mandate, and we intend to carry on his legacy.

Please join us Friday, April 5th, for our Annual Shareholders Meeting.

I look forward to seeing you there.

Sincerely,

Jeffrey M. Szyperski
Chairman, CEO & President
Chesapeake Financial Shares, Inc.

To the Board of Directors and Shareholders
Chesapeake Financial Shares, Inc.

Opinion

We have audited the consolidated financial statements of Chesapeake Financial Shares, Inc. and Subsidiaries (the “Company”), which comprise the consolidated balance sheets as of December 31, 2023 and 2022, the related consolidated statements of income, comprehensive income (loss), changes in shareholders’ equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements (collectively, the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with auditing standards generally accepted in the United States of America (GAAS), the Company’s internal control over financial reporting as of December 31, 2023, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations or the Treadway Commission in 2013, and our report dated February 16, 2024, expressed an unmodified opinion on the effectiveness of the Company’s internal control over financial reporting.

Basis for Opinion

We conducted our audits in accordance with GAAS. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 3 to the financial statements, the Company has changed its method of accounting for credit losses effective January 1, 2023 due to the adoption of Financial Accounting Standards Board Accounting Standards Codification No. 326, Financial Instruments – Credit Losses (ASC 326). The Company adopted the new credit loss standard using the modified retrospective method such that prior period amounts are not adjusted and continue to be reported in accordance with previously applicable generally accepted accounting principles. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company’s ability to continue as a going concern within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued when applicable).

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

INDEPENDENT AUDITOR'S REPORT

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

Other Information Included in the Annual Report

Management is responsible for the other information included in the annual report. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Note 1. Summary of Significant Accounting Policies

General

Chesapeake Financial Shares, Inc. (“CFS” or “Company”) is a bank holding company whose principal business activity consists of ownership in Chesapeake Bank (the “Bank”) and Chesapeake Wealth Management, Inc. (“CWM”). The consolidated financial statements include the accounts of CFS and its wholly-owned subsidiaries, except for CFS Capital Trust II (the “Trust”), which is not a consolidated subsidiary of the Company. The subordinated debt payable to the Trust by the Company is reported as a liability of the Company. All significant intercompany accounts have been eliminated.

Subsequent Events

Subsequent events have been considered through February 16, 2024, the same date on which these consolidated financial statements were issued.

Significant Accounting Policies

The accounting and reporting policies of CFS are in accordance with accounting principles generally accepted in the United States of America and conform to general practices within the banking industry. The more significant of these policies are summarized below.

Securities

Debt securities that management has the positive intent and ability to hold to maturity are classified as “held to maturity” and recorded at amortized cost. The Company currently does not have any securities classified as held to maturity. Debt securities not classified as held to maturity or trading are classified as “available for sale” (AFS) and recorded at fair value, with unrealized gains and losses excluded from earnings and reported in other comprehensive income. Purchase premiums and discounts are recognized in interest income using the interest method over the terms of the securities. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method. CFS classifies all debt securities as available for sale.

Equity securities are reported at cost. These securities do not have a readily determinable fair value and lack a market. Securities in this category consist mainly of Federal Reserve Bank and Federal Home Loan Bank stock.

The Company evaluates the fair value and credit quality of its AFS securities portfolio on a quarterly basis. If the Company has the intent to sell the security, or it is more likely than not that the Company will be required to sell the security, the security is written down to fair value, and the entire loss is recorded in earnings.

If either of the above criteria is not met, the Company evaluates whether the decline in fair value is the result of credit losses or other factors. In making the assessment, the Company may consider various factors including the extent to which fair value is less than amortized cost, performance on any underlying collateral, downgrades in the ratings of the security by a rating agency, the failure of the issuer to make scheduled interest or principal payments and adverse conditions specifically related to the security. If the assessment indicates that a credit loss exists, the present value of cash flows expected to be collected is compared to the amortized cost basis of the security and any excess is recorded as an allowance for credit loss, limited to the amount that the fair value is less than the amortized cost basis. Any amount of unrealized loss that has not been recorded through an allowance for credit loss is recognized in other comprehensive income.

Changes in the allowance for credit loss are recorded as provision for (or reversal of) credit loss expense. Losses are charged against the allowance for credit loss when management believes an available-for-sale security is confirmed to be uncollectible or when either of the criteria regarding intent or requirement to sell is met. At December 31, 2023, there was no allowance for credit loss related to the available-for-sale portfolio.

Accrued interest receivable on available-for-sale debt securities totaled \$2,840,068 at December 31, 2023 and was excluded from the estimate of credit losses.

Loans

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at amortized cost. Amortized cost is the principal balance outstanding, net of purchase premiums and discounts and

deferred fees and costs. Accrued interest receivable related to loans totaled \$2,997,150 at December 31, 2023 and was reported in accrued interest receivable on the consolidated balance sheets. Interest income is accrued on the unpaid principal balance.

The accrual of interest is generally discontinued when a loan becomes 90 days past due and is not well collateralized and in the process of collection, or when management believes, after considering economic and business conditions and collection efforts, that the principal or interest will not be collectible in the normal course of business. Past due status is based on contractual terms of the loan. A loan is considered to be past due when a scheduled payment has not been received 30 days after the contractual due date.

All accrued interest is reversed against interest income when a loan is placed on nonaccrual status. Interest received on such loans is accounted for using the cost-recovery method, until qualifying for return to accrual. Under the cost-recovery method, interest income is not recognized until the loan balance is reduced to zero. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current, there is a sustained period of repayment performance, and future payments are reasonably assured.

Allowance for Credit Losses

The allowance for credit losses is a valuation account that is deducted from the loans' amortized cost basis to present the net amount expected to be collected on the loans. Loans are charged off against the allowance when management believes the uncollectibility of a loan balance is confirmed. Expected recoveries do not exceed the aggregate of amounts previously charged-off and expected to be charged-off. Accrued interest receivable is excluded from the estimate of credit losses.

The allowance for credit losses represents management's estimate of lifetime credit losses inherent in loans as of the balance sheet date. The allowance for credit losses is estimated by management using relevant available information, from both internal and external sources, relating to past events, current conditions, and reasonable and supportable forecasts.

The Company measures expected credit losses for loans on a pooled basis when similar risk characteristics exist. The Company has identified the following portfolio segments and calculates the allowance for credit losses for each using a discounted cash flow methodology:

- Commercial & industrial – Include both secured and unsecured loans for working capital, expansion, and other business purposes.
- Commercial real estate – Loans secured by commercial property both owner and non-owner occupied.
- Construction, land development & other land loans – Loans granted for residential and commercial construction along with land.
- Residential (1-4 family) first mortgages – Loans collateralized with 1-4 family single family homes.
- Home equity loans/lines of credit – Equity loans and lines of credit granted based on equity on 1-4 family properties.
- Consumer loans – Loans secured and unsecured to consumer customers.

The Company has elected to use the discounted cash flow methodology which estimates the lifetime credit loss of the portfolio. Discounted cash flow models, being periodic in nature, allow for effective incorporation of a reasonable and supportable forecast in a directionally consistent and objective manner. In an effort to aggregate the portfolio with similar risk characteristics, the Company has elected to use the Federal Call Code for segmentation. The company has also utilized top-down data from prior cycles, both the institution's own data and peer institution data from FFIEC Call Report filings. This data has been used to inform regression analysis designed to quantify the impact of reasonable and supportable forecasts in the model. To obtain a reasonable and supportable forecast, the Company has elected to forecast the first four quarters of the credit loss estimate and revert to a long-run average of each considered economic factor. Based on the final values in the forecast, management has elected to revert over four quarters.

Additionally, the allowance for credit losses calculation includes subjective adjustments for qualitative risk factors that are likely to cause estimated credit losses to differ from historical experience. These qualitative adjustments may increase or reduce reserve levels and include adjustments for lending management experience and risk tolerance, loan review and audit results, asset quality and portfolio trends, loan portfolio growth, industry concentrations, trends in underlying collateral, external factors and economic conditions not already captured.

Loans that do not share risk characteristics are evaluated on an individual basis. When the borrower is experiencing financial difficulty and repayment is expected to be provided through operation or sale of the collateral, the expected credit losses are based on the fair value of collateral at the reporting date, adjusted for selling costs as appropriate.

Modified Loans

ASU 2022-22 *Financial Instruments – Credit Losses (Topic 326) Troubled Debt Restructurings and Vintage Disclosures* which eliminated the concept of troubled debt restructurings (“TDRs”) from the accounting standards for companies that have adopted ASC 326. ASU 2022-02 requires additional disclosures for certain loan modifications and disclosures of gross charge-offs by year of origination. Specifically, loan modification disclosures in periods subsequent to the adoption of ASC 326 must be made for modifications of existing loans to borrowers who were experiencing financial difficulties at the time of the modification. The modification type must include a direct change in the timing or amount of a loan’s contractual cash flows. The additional disclosures are applicable to situations where there is: principal forgiveness, an interest rate reduction, an other-than-insignificant payment delay, a term extension, or any combination thereof.

Allowance for Credit Losses – Unfunded Commitments

Financial instruments include off-balance sheet credit instruments, such as commitments to make loans and commercial letters of credit issued to meet customer financing needs. The Company’s exposure to credit loss in the event of nonperformance by the other party to the financial instrument for off-balance sheet loan commitments is represented by the contractual amount of those instruments. Such financial instruments are recorded when they are funded.

The Company records an allowance for credit losses on off-balance sheet credit exposures, unless the commitments to extend credit are unconditionally cancelable, through a charge to provision for unfunded commitments in the Company’s income statements. The allowance for credit losses on off-balance sheet credit exposures is estimated by loan segment at each balance sheet date under the current expected credit loss model using the same methodologies as portfolio loans, taking into consideration the likelihood that funding will occur as well as any third-party guarantees. The allowance for unfunded commitments is included in other liabilities on the Company’s consolidated balance sheets.

Cash Management Accounts

CFS purchases trade accounts receivable from customers. These receivables are stated at face value, net of discounts and an allowance for losses. CFS retains reserves against these customer balances in a separate liability account to cover unpaid receivables, returns, allowances and other adjustments.

Commercial Mortgage Loan Repurchase Facilities

Commercial mortgage loan repurchase facilities are accounted for as collateralized financing transactions as the terms of purchase agreements do not qualify for sale accounting and are therefore recorded at the amount of cash advanced. Interest earned is recorded in interest income. Commercial mortgage loan repurchase facilities are collateralized by commercial mortgage loans. The fair value of collateral is monitored daily and additional collateral is obtained or excess collateral is returned for margin maintenance purposes. Collateral accepted under commercial mortgage loan repurchase facilities transactions is not permitted by contract to be sold or repledged.

Premises and Equipment

Land is carried at cost. Premises and equipment are stated at cost less accumulated depreciation. Depreciation is computed using both straight-line and accelerated methods over the assets’ estimated useful lives. Estimated useful lives range from 10 to 39 years for buildings and leasehold improvements and 3 to 7 years for furniture, fixtures, and equipment.

The Company determines if an arrangement is a lease at inception. Finance leases are included in premises and equipment and other liabilities on our consolidated balance sheets. The amortization of the finance leases are included in occupancy expense on the consolidated income statement. The interest expense on finance leases is included in short-term debt on the consolidated income statement.

ROU assets represent the Company’s right to use an underlying asset for the lease term and lease liabilities represent the Company’s obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. Most of the Company’s leases do not provide an implicit rate, as such an incremental borrowing rate is developed based on the information available

at commencement date in determining the present value of lease payments has been used. The operating lease ROU asset also includes any lease payments made and excludes lease incentives. The lease terms may include options to extend or terminate the lease when it is reasonably certain that the option will be exercised. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

The Company has lease agreements with lease and non-lease components, which are generally accounted for separately. For certain leases, the lease and non-lease components are accounted for as a single lease component. Additionally, for certain equipment leases, a portfolio approach is applied to effectively account for the operating lease ROU assets and liabilities.

Foreclosed Assets

Foreclosed assets are recorded at the time of foreclosure at their fair value, net of estimated costs to sell. At foreclosure, any excess of the loan balance over the fair value of the property, less cost to sell, is charged to the allowance for credit losses. Such carrying value is periodically reevaluated and written down as a direct expense if there is an indicated decline in the net realizable value. Costs to bring a property to salable condition are capitalized up to the fair value of the property, while costs to maintain a property in salable condition are expensed as incurred.

Goodwill and Other Intangible Assets

Goodwill, which represents the excess of purchase price over fair value of net assets acquired, is not amortized but is evaluated at least annually for impairment by comparing its fair value with its carrying amount. Impairment is indicated when the carrying amount of a reporting unit exceeds its estimated fair value.

Goodwill arises from business combinations and is generally determined as the excess of the fair value of the consideration transferred, plus the fair value of any noncontrolling interest in the acquiree, over the fair value of the net assets acquired and liabilities assumed as of the acquisition date. Goodwill and intangible assets acquired in a business combination and determined to have an indefinite useful life are not amortized, but tested for impairment at least annually or more frequently if events and circumstances exist that indicate that a goodwill impairment test should be performed. The Company performs the impairment test annually during the fourth quarter. Goodwill is the only intangible asset with an indefinite life on the Company's balance sheet.

Intangible assets with definite useful lives are amortized over their estimated useful lives and tested for impairment if events and circumstances exist that might indicate impairment may have occurred. The Company's intangible assets with definite useful is related to customer relationships acquired as part of the PDM Financial, LLC acquisition.

No impairment was recorded for goodwill and other intangible assets in 2023.

Transfers of Financial Assets

Transfers of financial assets are accounted for as sales, when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (a) the assets have been isolated from CFS – put presumptively beyond the reach of the transferor and its creditors, even in bankruptcy or other receivership, (b) the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and (c) CFS does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity or the ability to unilaterally cause the holder to return specific assets.

Derivative Instruments and Hedging Activities

The Company records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives used to hedge the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative is initially reported in other comprehensive income (outside of earnings) and subsequently reclassified to earnings when the hedged transaction affects earnings, and the ineffective portion of the change in the fair value of the derivative is recognized directly in earnings. The Company assesses the effectiveness of the hedging relationship by comparing the changes in cash flows of the derivative hedging instrument with the changes in cash flows of the designated hedged transactions.

The Company's objective in using derivatives is to add stability to net interest income and to manage its exposure to adverse changes in interest rates.

Accounting for Business Combinations

Business combinations are accounted for under the acquisition method of accounting in accordance with Accounting Standards Codification ("ASC") 805. ASC 805 requires that the assets acquired and liabilities assumed in a business combination be recorded based on their estimated fair values at the date of acquisition. The excess of the cost of an acquired entity over the net of the amounts assigned to assets acquired and liabilities assumed, including identifiable intangibles, is recorded as goodwill. The determination of fair values requires management to make estimates about future expected cash flows, market conditions, and other future events that are highly subjective in nature and subject to actual results that may differ materially from the estimates made.

Income Taxes

The income tax accounting guidance results in two components of income tax expense: current and deferred. Current income tax expense reflects taxes to be paid or refunded for the current period by applying provisions of the enacted tax law to the taxable income or excess deductions over revenues. CFS determines deferred income taxes using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is based on the tax effects of the differences between book and tax bases of assets and liabilities, and enacted changes in tax rates and laws are recognized in the period in which they occur.

Deferred income tax expense results from changes in deferred tax assets and liabilities between periods. Deferred tax assets are recognized if it is more-likely-than-not, based on the technical merits, that the tax position will be realized or sustained under examination. The term more-likely-than-not means a likelihood of more than 50 percent; the terms examined and upon examination also include resolution of the related appeals or litigation processes, if any. A tax position that meets the more-likely-than-not recognition threshold is initially and subsequently measured as the largest amount of tax benefit that has a greater than 50 percent likelihood of being realized upon settlement with a taxing authority that has full knowledge of all relevant information. The determination of whether or not a tax position has met the more-likely-than-not threshold considers the facts, circumstances, and information available at the reporting date and is subject to management's judgment. Deferred tax assets are reduced by a valuation allowance if, based on the weight of the evidence available, it is more-likely-than-not that some portion or all of a deferred tax asset will not be realized.

CFS accounts for income taxes in accordance with the accounting guidance related to uncertainty in income taxes, which sets out a consistent framework to determine the appropriate level of tax reserves to maintain for uncertain tax positions.

Consolidated Statements of Cash Flows

For purposes of the consolidated statement of cash flows, CFS considers cash equivalents to include cash on hand, amounts due from banks, interest-bearing deposits, and federal funds sold.

Advertising Costs

CFS follows the policy of charging the production costs of advertising to expense as incurred.

Use of Estimates

In preparing consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses, the valuation of deferred tax assets, unrealized losses on securities, and the valuation of foreclosed assets.

Earnings Per Common Share

Basic earnings per common share represents income available to common shareholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per common share reflects additional common

shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by CFS related solely to outstanding stock options and restricted stock, are determined using the treasury stock method.

Stock-Based Compensation

Stock-based compensation accounting requires that the compensation cost relating to stock-based payment transactions be recognized in financial statements. That cost will be measured based on the grant date fair value of the equity or liability instruments issued. The stock compensation accounting guidance covers a wide range of stock-based compensation arrangements including stock options, restricted share plans, and performance-based awards.

The stock-based compensation accounting guidance requires that compensation cost for all stock awards be calculated and recognized over the employees' service periods, generally defined as the vesting period. Compensation cost is recognized on a straight-line basis over the requisite service period for the award. A Black-Scholes model is used to estimate the fair value of stock options, while the fair value of the Company's common stock at the date of grant is used for restricted awards. See Note 11 for additional details on grants awarded.

Fair Value of Financial Instruments

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully discussed in Note 21. Fair value estimates involve uncertainties and matters of significant judgment. Changes in assumptions or in market conditions significantly affect the estimates.

Assets Under Management

Securities and other property held by Chesapeake Wealth Management in a fiduciary or agency capacity are not assets of CFS and are not included in the accompanying consolidated financial statements.

Recent Accounting Pronouncements

ASU 2022-06:

In December 2022, the FASB issued amendments to defer the sunset date of the Reference Rate Reform Topic of the Accounting Standards Codification from December 31, 2022, to December 31, 2024, because the current relief in Reference Rate Reform Topic may not cover a period of time during which a significant number of modifications may take place. The amendments were effective upon issuance. The Company does not expect these amendments to have a material effect on its financial statements.

ASU 2023-09:

In December 2023, the FASB amended the Income Taxes topic in the Accounting Standards Codification to improve the transparency of income tax disclosures. The amendments are effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. The Company does not expect these amendments to have a material effect on its financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Company's final position, results of operations or cash flows.

Reclassification

Certain items for prior years have been reclassified to conform to the current year presentation. Such reclassifications had no effect on net income, total assets or shareholders' equity as previously reported.

Note 2. Securities

Amortized cost and fair values of securities available for sale as of December 31, 2023 and 2022, are as follows:

2023				
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
US Treasury	\$ 490,514	\$ —	\$ (46,451)	\$ 444,063
Securities of state and political subdivisions	212,794,313	—	(31,803,200)	180,991,113
SBA loan pooled securities	2,646,296	22,691	(4,133)	2,664,854
Mortgage-backed securities				
Agency	57,813,638	28,157	(3,415,711)	54,426,084
Non-agency	191,897,344	1,314,366	(6,756,569)	186,455,141
Other debt securities	60,738,968	41,101	(2,843,493)	57,936,576
Total	\$ 526,381,073	\$ 1,406,315	\$ (44,869,557)	\$ 482,917,831

2022				
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
US Treasury	\$ 488,714	\$ —	\$ (56,507)	\$ 432,207
Securities of state and political subdivisions	283,305,105	95,285	(45,795,490)	237,604,900
SBA loan pooled securities	2,295,558	6,107	—	2,301,665
Mortgage-backed securities				
Agency	54,097,779	18,591	(3,860,091)	50,256,279
Non-agency	119,737,078	21,851	(8,190,604)	111,568,325
Other debt securities	47,064,746	2,541	(2,781,382)	44,285,905
Total	\$ 506,988,980	\$ 144,375	\$ (60,684,074)	\$ 446,449,281

The amortized cost and fair value of securities available for sale as of December 31, 2023, by contractual maturity are shown below. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations without penalties.

	Amortized Cost	Fair Value
Due in one year or less	\$ 25,191,616	\$ 24,702,755
Due after one year through five years	170,655,214	166,203,398
Due after five years through ten years	209,622,294	186,669,591
Due after ten years	120,911,949	105,342,087
Total	\$ 526,381,073	\$ 482,917,831

Proceeds from sales of securities available for sale during 2023 and 2022 were \$64,287,308 and \$83,181,399, respectively. Gross realized gains amounted to \$162,074 and \$409,140 in 2023 and 2022, respectively. Gross realized losses amounted to \$3,046,259 and \$3,712,427 in 2023 and 2022, respectively.

The amortized cost of securities pledged to secure public deposits, borrowings from the Federal Home Loan Bank, fiduciary powers and for other purposes required or permitted by law amounted to \$293,150,925 and \$308,763,670 at December 31, 2023 and 2022, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Unrealized Losses

The following tables present fair value and gross unrealized losses, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position as of December 31, 2023 and 2022:

		2023					
		Less Than 12 Months		12 Months or More		Total	
	Number of Securities	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Gross Unrealized Losses

The Company reviews its AFS securities portfolio for potential credit losses no less than quarterly. As of December 31, 2023, there was no allowance for credit losses for the Company's AFS securities portfolio.

Note 3. Adoption of New Accounting Standard

On January 1, 2023, the Company adopted ASU 2016-13 *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* (ASC 326). This standard replaced the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss ("CECL") methodology. CECL requires an estimate of credit losses for the remaining estimated life of the financial asset using historical experience, current conditions, and reasonable and supportable forecasts and generally applies to financial assets measured at amortized cost, including loan receivables and held-to-maturity debt securities, and some off-balance-sheet credit exposures such as unfunded commitments to extend credit. Financial assets measured at amortized cost will be presented at the net amount expected to be collected by using an allowance for credit losses.

In addition, CECL made changes to the accounting for available-for-sale debt securities. One such change is to require credit losses to be presented as an allowance rather than as a write-down on available-for-sale debt securities if management does not intend to sell and does not believe that it is more likely than not they will be required to sell.

The Company adopted ASC 326 and all related subsequent amendments thereto effective January 1, 2023, using the modified retrospective approach for all financial assets measured at amortized cost and off-balance sheet credit exposures. The transition adjustment of the adoption of CECL included a decrease in the allowance for credit losses on loans of \$98 thousand, which is presented as an increase to net loans outstanding, and an increase in the allowance for credit losses on unfunded loan commitments of \$470 thousand, which is recorded within Other Liabilities. The Company recorded an increase in the allowance for credit losses for cash management accounts of \$135 thousand, which is presented as a

reduction to net cash management accounts outstanding. The Company recorded a net decrease to retained earnings of \$400 thousand as of January 1, 2023, for the cumulative effect of adopting CECL, which reflects the transition adjustments noted above, net of the applicable deferred tax assets recorded. Results for reporting periods beginning after January 1, 2023, are presented under CECL while prior period amounts continue to be reported in accordance with previously applicable accounting standards ("Incurred Loss").

The Company adopted ASC 326 using the prospective transition approach for debt securities for which other-than-temporary impairment had been recognized prior to January 1, 2023. As of December 31, 2022, the Company did not have any other-than-temporarily impaired investment securities. Therefore, upon adoption of ASC 326, the Company determined that an allowance for credit losses on available-for-sale securities was not deemed material.

	January 1, 2023 As Reported Under ASC 326	December 31, 2022 Pre-ASC 326 Adoption	Impact of ASC 326 Adoption
<i>(dollars in thousands)</i>			
Assets:			
Allowance for credit losses on loans:			
Commercial & industrial	\$ 3,694	\$ 2,898	\$ 796
Commercial real estate	2,175	3,051	(876)
Construction, land development & other land loans	586	377	209
Residential (1-4 family) first mortgages	189	428	(239)
Home equity loans/lines of credit	306	333	(27)
Consumer loans	130	91	39
Allowance for credit losses on cash management	\$ 1,807	\$ 1,672	\$ 135
Liabilities:			
Allowance for credit losses for unfunded commitments	\$ 470	\$ —	\$ 470

The Company elected not to measure an allowance for credit losses for accrued interest receivable and instead elected to reverse interest income on loans or securities that are placed on nonaccrual status, which is generally when the instrument is 90 days past due, or earlier if the Company believes the collection of interest is doubtful. The Company has concluded that this policy results in the timely reversal of uncollectible interest.

Note 4. Loans and Allowance for Credit Losses

Loans by Major Category

The following is a summary of the major categories of total loans outstanding:

	December 31,	
	2023	2022
Commercial & industrial	\$ 143,076,930	\$ 145,295,992
Commercial real estate	369,584,496	329,103,834
Construction, land development & other land loans	76,500,917	69,628,394
Residential (1-4 family) first mortgages	165,377,862	147,084,928
Home equity loans/lines of credit	53,806,198	40,332,136
Consumer loans	12,682,090	9,367,673
Gross loans	\$ 821,028,493	\$ 740,812,957
Less: allowance for credit losses	(7,881,960)	(7,512,577)
Loans, net	\$ 813,146,533	\$ 733,300,380

Overdrafts totaling \$89,083 and \$122,007 at December 31, 2023 and 2022, respectively, were reclassified from deposits to consumer loans.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Delinquencies

The following table represents an analysis of past-due loans as of December 31, 2023:

	Loans 30-59 Days Past Due	Loans 60-89 Days Past Due	Loans 90 Days or More Past Due & Still Accruing	Nonaccrual Loans	Current Loans	Total Loans
Commercial & industrial	\$ —	\$ 10,000	\$ —	\$ 546,429	\$ 142,520,501	\$ 143,076,930

Consumer loans	15,830	522	—	22,865	12,642,873	12,682,090
Total loans	\$ 836,148	\$ 152,600	\$ —	\$ 1,275,346	\$ 818,764,399	\$ 821,028,493

Credit Quality

The Bank's internal risk rating definitions are:

Pass: These are considered satisfactory loans which do not require additional monitoring and show no heightened risk of weakness.

Watch: These include satisfactory loans which may have elements of risk that the Bank has chosen to monitor formally. The objective of monitoring is to assure that no weaknesses develop in these loans.

Special Mention: These loans have a potential weakness that requires management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in the Bank's credit position at some future date. These credits do not expose the Bank to sufficient risk to warrant further adverse classification.

Substandard: A substandard asset is inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Loans classified as such must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.

Doubtful: Loans classified doubtful have all the weaknesses inherent in a substandard asset with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loss: Loans classified loss are considered uncollectible and of such little value that their continuance as a bankable asset is not warranted. This classification does not mean that the asset has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing off this basically worthless asset even though partial recovery may be received in the future.

The following table represents the accrued interest receivables written off by reversing interest income during the year ended December 31, 2023:

	For the Year Ended December 31, 2023
Commercial & industrial	\$ 3,810
Consumer loans	125
Total loans	\$ 3,935

Collateral Dependent

The Company has certain loans for which repayment is dependent upon the operation or sale of collateral, as the borrower is experiencing financial difficulty. The underlying collateral can vary based upon the type of loan. The following provides more detail about the types of collateral that secure collateral-dependent loans:

- Commercial real estate loans can be secured by either owner-occupied commercial real estate or non-owner-occupied investment commercial real estate. Typically, owner-occupied commercial real estate loans are secured by office buildings, warehouses, manufacturing facilities and other commercial and industrial properties occupied by operating companies. Non-owner-occupied commercial real estate loans are generally secured by office buildings and complexes, retail facilities, multifamily complexes, land under development, industrial properties, as well as other commercial or industrial real estate.
- Residential real estate loans are typically secured by first mortgages, and in some cases could be secured by a second mortgage.
- Home equity lines of credit are generally secured by second mortgages on residential real estate property.
- Consumer loans are generally secured by automobiles, motorcycles, recreational vehicles and other personal property. Some consumer loans are unsecured and have no underlying collateral.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table details the amortized cost of collateral dependent loans:

	December 31, 2023
Commercial & industrial	\$ 417,102
Commercial real estate	1,839,364
Construction, land development & other land loans	—
Residential (1-4 family) first mortgages	—
Home equity loans/lines of credit	166,702
Consumer loans	18,645
Total loans	\$ 2,441,813

Allowance for Credit Losses

The following table summarizes the activity related to the allowance for credit losses for the year ended December 31, 2023 under the CECL methodology:

	Commercial & Industrial	Commercial Real Estate	Construction, Land Development & Other Land Loans	Residential (1-4 family) First Mortgages	Home Equity Loans/Lines of Credit	Consumer Loans	Unallocated	Total Loans
Balance, December 31, 2022	\$ 1,397,202	\$ 3,421,950	\$ 673,109	\$ 1,426,724	\$ 391,221	\$ 99,927	\$ 102,444	\$ 7,512,577
Adjustment to allowance for adoption of ASU 2016-13	796,169	(876,074)	208,847	(239,450)	(26,968)	39,305	—	(98,171)

Impaired Loans (Prior Periods)

Prior to the adoption of ASU 2016-13, loans were considered impaired when, based on current information and events, it was probable the Company would be unable to collect all amounts due in accordance with the original contractual terms of the loan agreements. Impaired loans include loans on nonaccrual status and accruing troubled debt restructurings. When determining if the Company would be unable to collect all principal and interest payments due in accordance with the contractual terms of the loan agreement, the Company considered the borrower's capacity to pay,

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

which included such factors as the borrower's current financial statements, an analysis of global cash flow sufficient to pay all debt obligations and an evaluation of secondary sources of repayment, such as guarantor support and collateral value. The Company individually assessed for impairment all nonaccrual loans greater than \$100 thousand and all troubled debt restructurings (including all troubled debt restructurings, whether or not currently classified as such). The tables below include all loans deemed impaired, whether or not individually assessed for impairment. If a loan was deemed impaired, a specific valuation allowance was allocated, if necessary, so that the loan was reported net, at the present value of estimated future cash flows using the loan's existing rate or at the fair value of collateral if repayment was expected solely from the collateral. Interest payments on impaired loans were typically applied to principal unless collectability of the principal amount was reasonably assured, in which case interest was recognized on a cash basis.

The following table presents loans individually evaluated for impairment by class of loans as of December 31, 2022:

	Recorded Investment	Unpaid Principal Balance	Related Allowance	Average Recorded Investment
<i>Impaired loans with no related allowance recorded</i>				
Commercial & industrial	\$ 1,254,565	\$ 1,254,565	\$ —	\$ 817,277

Total impaired loans with allowance	\$ 1,834,166	\$ 1,834,166	\$ 231,874	\$ 2,088,459

Unfunded Commitments

The Company maintains an allowance for off-balance-sheet credit exposures such as unfunded balances for existing lines of credit, commitments to extend future credit, as well as both standby and commercial letters of credit when there is a contractual obligation to extend credit and when this extension of credit is not unconditionally cancellable (i.e., the commitment cannot be canceled at any time). The allowance for off-balance sheet credit exposures is adjusted as a provision for credit loss expense. The estimate includes consideration of the likelihood that funding will occur, which is based on a historical funding study derived from internal information, and an estimate of expected credit losses on commitments expected to be funded over its estimated life, which are the same loss rates that are used in computing the allowance for credit losses on loans, and are discussed in Note 3. The allowance for credit losses for unfunded loan commitments of \$560 thousand at December 31, 2023 is separately classified on the balance sheet within Other Liabilities.

The following table presents the balance and activity in the allowance for credit losses for unfunded loan commitments for the year ended December 31, 2023:

	Total Allowance for Credit Losses - Unfunded Commitments
Balance, December 31, 2022	\$ —
Adjustment to allowance for unfunded commitments for adoption of ASU 2016-13	469,789
Provision for unfunded commitments	90,000
Balance, December 31, 2023	\$ 559,789

Note 5. Premises and Equipment

A summary of the cost and accumulated depreciation of premises and equipment follows:

	December 31,	
	2023	2022
Land	\$ 4,630,245	\$ 4,917,999
Buildings	26,777,757	27,863,990
Furniture, fixtures and improvements	3,423,241	3,164,035
Equipment	6,512,416	6,025,144
Leasehold improvements	4,332,466	4,353,380
	\$ 45,676,125	\$ 46,324,548
Less accumulated depreciation	(24,243,897)	(23,123,129)
Total	\$ 21,432,228	\$ 23,201,419

For the years ended December 31, 2023 and 2022, depreciation expense was \$1,603,875 and \$1,719,184, respectively.

Included in the consolidated balance sheet presentation of these financial statements, premises and equipment also includes the right-of-use asset for leases totaling \$577,114 and \$662,482 as of December 31, 2023 and 2022, respectively. Refer to Note 13 for additional disclosure on the right-of-use asset.

Note 6. Time Deposits

Remaining maturities on certificates of deposit are as follows:

2024	\$ 219,544,599
2025	12,259,752
2026	4,336,721
2027	516,531
2028	89,933,448
Thereafter	—
Total	\$ 326,591,051

The Bank obtains certain deposits through the efforts of third-party brokers. At December 31, 2023 and 2022, brokered deposits totaled \$89,800,000 and \$0, respectively, and were included in certificates of deposit on the consolidated balance sheets.

As of December 31, 2023, there was one deposit relationship that exceeded 5% of total deposits.

Note 7. Trust Preferred Capital Notes

On July 2, 2007, CFS Capital Trust II was formed by the Company for the purpose of issuing redeemable capital securities. Trust II is not a consolidated subsidiary of the Company. On July 5, 2007, \$15.5 million of trust preferred securities which have a SOFR-indexed floating rate of interest were issued. The weighted-average interest rate for the year ended December 31, 2023 was 6.65%. The interest rate as of December 31, 2023 was 7.04%. The securities have a mandatory redemption date of October 1, 2037, and became subject to varying call provisions beginning on September 6, 2012.

In August 2014, CFS was notified that \$5.0 million of the \$15.0 million in trust preferred securities of Trust II would be auctioned off as part of a larger pooled collateralized debt obligation liquidation. CFS placed a bid of \$3.9 million for the securities which was accepted by the trustee and the transaction closed on September 5, 2014. In January 2015, CFS was notified that \$5.0 million of the \$10.0 million remaining in trust preferred securities of Trust II would be auctioned off as part of a larger pooled collateralized debt obligation liquidation. CFS placed bids totaling \$3.9 million for the securities which were accepted by the trustee and the transactions closed on February 5, 2015 and February 13, 2015.

As of December 31, 2023, \$5.0 million in preferred stock and \$155,000 in common stock of Trust II were still outstanding.

The trust preferred securities may be included in Tier 1 capital for regulatory capital adequacy determination purposes up to 25% of Tier 1 capital after its inclusion. The portion of the trust preferred not considered as Tier 1 capital may be included in Tier 2 capital.

The obligations of CFS with respect to the issuance of the capital securities constitute a full and unconditional guarantee by CFS of the Trust's obligations with respect to the capital securities.

Subject to certain exceptions and limitations, CFS may elect from time to time to defer interest payments on the junior subordinated debt securities, which would result in a deferral of distribution payments on the related capital securities.

Note 8. Borrowings

FHLB Borrowings

The Bank has lines of credit with the FHLB that can equal up to 25% of total assets of the Bank. As of December 31, 2023, loans with a carrying value of \$174,666,226 and securities with an amortized cost of \$126,388,418 were pledged to the FHLB as collateral for borrowings. The FHLB lines of credit totaled \$159.8 million with an outstanding balance of \$32 million as of December 31, 2023. At December 31, 2022 the FHLB line of credit totaled \$116.3 million with an outstanding balance of \$20 million. Additional loans are available that can be pledged as collateral for future borrowings from the FHLB above the current lendable collateral value.

FRB Borrowings

Advances under the Bank Term Funding Program ("BTFP") with the Federal Reserve are up to a one-year term and are priced at the one-year overnight index swap rate plus 10 basis points, which is fixed for the term on the advance date. Advances can be repaid at any time without penalty. As of December 31, 2023, the Company had an immediately available line through the BTFP of \$37.2 million, of which the Company had an outstanding balance of \$30.0 million. The maturity of the BTFP borrowings are \$10 million maturing April 2024 and \$20 million maturing December 2024. The BTFP plan is due to expire in March 2024 at which time, no further advancements will be made. At that time, the Company will utilize other forms of borrowing including FHLB.

As of December 31, 2023, availability through the FRB Discount Window was \$10.5 million, of which the Company had no outstanding balance.

Other Borrowings

The Bank also maintains an additional secured line of credit with another correspondent bank totaling \$20 million, which had no outstanding balance as of December 31, 2023 and \$11 million as of December 31, 2022. In addition to the available credit from the FHLB, the Bank also has unsecured lines of credit with correspondent banks totaling \$82.1 million available for overnight borrowings, which had an outstanding balance of \$429 thousand as of December 31, 2023.

and \$15 million as of December 31, 2022. The Company has a line of credit secured by 400,000 shares of Chesapeake Bank common stock with a correspondent bank totaling \$10.0 million available for borrowing as of December 31, 2023. There was no outstanding balance as of December 31, 2023 and 2022.

On June 15, 2021, the Company entered into a Subordinated Note Purchase Agreement with 32 institutional accredited investors under which the Company issued an aggregate of \$20 million of subordinated notes (the “2021 Notes”) to institutional accredited investors. The 2021 Notes have a maturity date of June 15, 2031. The 2021 Notes bear interest, payable on the 15th of June and December of each year, commencing December 15, 2021, at a fixed rate of 3.25% per year for the first 5 years, and thereafter will bear a floating interest rate of 3-Month Term SOFR plus 260 basis points. The 2021 Notes are not convertible into common stock or preferred stock and are not callable by the holders. The Company has the right to redeem the 2021 Notes, in whole or in part, without premium or penalty, at any interest payment date on or after December 15, 2026 and prior to the maturity date, but in all cases in a principal amount with integral multiples of \$1,000, plus interest accrued and unpaid through the date of redemption. If an event of default occurs, such as the bankruptcy of the Company, the holder of a 2021 Note may declare the principal amount of the note to be due and immediately payable. The 2021 Notes are unsecured, subordinated obligations of the Company, and rank junior in right of payment to the Company’s existing and future senior indebtedness. The 2021 Notes qualify as Tier 2 capital for regulatory reporting; though, Tier 2 capital treatment is reduced by 20% in each year subsequent to the first date of the redemption right.

Note 9. Income Taxes

The income tax provision differs from the amount of income tax determined by applying the U.S. federal income tax rate to pretax income for the years ended December 31, 2023 and 2022, due to the following:

	2023	2022
Income tax at federal statutory rate	\$ 2,592,170	\$ 4,294,960
Increase (decrease) in income taxes resulting from:		
State and local taxes	2,374	5,146
Tax exempt income	(575,092)	(1,128,793)
Other	204,477	(347,709)
Total	\$ 2,223,929	\$ 2,823,604

The provision for income taxes charged to operations for the years ended December 31, 2023 and 2022, consists of the following:

	2023	2022
Current tax expense		
Federal	\$ 2,081,236	\$ 3,204,768
State	3,005	6,514
Deferred tax expense (benefit)	139,688	(387,678)
Total	\$ 2,223,929	\$ 2,823,604

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The components of the net deferred tax asset, included in other assets, are as follows:

	December 31,	
	2023	2022
Deferred tax assets:		
Allowance for credit and cash management account losses	\$ 2,015,192	\$ 1,976,350
Foreclosed assets	55,385	63,380
Deferred compensation	398,338	403,935
Premises and equipment	(399,000)	(237,229)
Restricted stock	(99,523)	(113,881)
Unrealized loss on securities	9,127,281	12,713,336
Other	387,352	404,877
Total deferred tax assets	\$ 11,485,025	\$ 15,210,768
Deferred tax liabilities:		
Securities available for sale	—	—
Net deferred tax assets	\$ 11,485,025	\$ 15,210,768

CFS, on a consolidated basis, files income tax returns in the U.S. federal jurisdiction, the Commonwealth of Virginia and other states where income is generated. With few exceptions, CFS is no longer subject to U.S. federal or state income tax examinations by tax authorities for years before 2020.

The Company has analyzed the tax positions taken or expected to be taken in its tax returns and concluded it has no liability related to uncertain tax positions.

Note 10. Employee Benefit Plans

Employee Stock Ownership Plan

CFS sponsors an employee stock ownership plan (ESOP) that generally covers full-time employees who have completed one calendar year of service. CFS makes annual contributions to the ESOP at the discretion of the Board of Directors. ESOP compensation expense was \$550,000 and \$500,000 for the years ended December 31, 2023 and 2022, respectively.

401(k) Plan

CFS has adopted a contributory 401(k) plan that covers substantially all employees. Under the plan, employees may elect to defer up to 100% of their salary, subject to Internal Revenue Service limits. CFS will make a matching contribution of 100% of the first 3% and 50% of the second 3% of the employee's salary deferred. CFS may also make a discretionary contribution to the plan. Total expense related to the plan was \$863,043 and \$758,473 for 2023 and 2022, respectively.

Post-retirement benefits

The Company has entered into deferred compensation arrangements with certain key personnel, which call for the payment of benefits upon the retirement or death of the individuals. The agreements provide that a retirement benefit is payable upon a defined normal retirement age while in service to the Company and a lesser benefit is payable upon early retirement. Other benefits are payable upon disability, death or change in control.

These agreements are unfunded arrangements maintained primarily to provide supplemental retirement benefits and comply with Section 409A of the Internal Revenue Code.

The Company has elected to finance the retirement benefits by purchasing annuities that have been designed to provide a future source of funds for the lifetime retirement benefits of the agreements. The liabilities associated with these deferred compensation arrangements were \$1,912,431 and \$1,627,929 for the years ended December 31, 2023 and 2022, respectively. The annuity had a balance of \$3,545,225 and \$3,592,671 as of December 31, 2023 and 2022, respectively, and is recorded at amortized cost. Salaries and employee benefits expense included \$284,502 and \$419,758 of expense related to these arrangements for 2023 and 2022, respectively.

Note 11. Stock Option Plans

On April 4, 2014, CFS's shareholders approved a stock incentive plan under which options or restricted stock may be granted to certain key employees. The plan reserved 504,000 shares of voting common stock for issuance and expires on January 16, 2024. There was no compensation cost charged to income for those plans related to stock options for 2023.

Incentive Stock

The incentive stock option plans require that options be granted at an exercise price equal to at least 100% of the fair market value of the common stock on the date of the grant; however, for those individuals who own more than 10% of the stock of CFS, the option price must be at least 110% of the fair market value on the date of grant. Such options are generally not exercisable until 3 years from the date of issuance and require continuous employment during the period prior to exercise. The options will expire in no more than 10 years after the date of grant. The fair value of each option grant is estimated on the date of the grant using the Black-Scholes option-pricing model. Expected volatility is based on the historic volatility of CFS's stock price over the expected life of the options. The expected term is estimated as the average of the contractual life and vesting schedule for the respective options. The risk-free interest rate is the U.S. Treasury zero-coupon issue with a remaining term equal to the expected term of the options granted. The dividend yield is estimated as the ratio of CFS's historical dividends paid per share of common stock to the stock price on the date of grant. There were no options granted or outstanding during the years ended December 31, 2023 and 2022.

Aggregate intrinsic value of stock options represents the total pre-tax intrinsic value (the amount by which the current market value of the underlying stock exceeds the exercise price of the option) that would have been received by the option holders had all the option holders exercised their options on December 31, 2023. This amount changes based on changes in the market value of CFS's stock.

The total intrinsic value of options exercised during the year ended December 31, 2023 and 2022 was \$0 and \$348,271, respectively. As of December 31, 2023 and December 31, 2022 there are no unrecognized compensation costs related to nonvested stock options granted under the plans.

Restricted Stock

The Company grants shares of restricted stock to key employees. These awards help align the interests of these employees with the interests of the shareholders of the Company by providing economic value directly related to increases in the value of the Company's common stock. The value of the stock awarded is established as the fair market value of the stock at the time of grant. The Company recognizes expense, equal to the total value of such awards, ratably over the vesting period of the stock grants. Restricted stock vests over 36 months based on the term of the award.

Nonvested restricted stock activity for the year ended December 31, 2023 is summarized in the following table:

	Shares	Weighted Average Grant Date Value
Nonvested at December 31, 2022	29,683	\$ 26.19
Granted	25,900	19.50
Vested	(14,233)	24.54
Forfeited	(1,234)	26.99
Nonvested at December 31, 2023	40,116	\$ 22.43

	Shares	Weighted Average Grant Date Value
Nonvested at December 31, 2021	32,615	\$ 22.96
Granted	15,950	28.75
Vested	(18,882)	22.61
Forfeited	—	—
Nonvested at December 31, 2022	29,683	\$ 26.19

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

At December 31, 2023, there was \$648,625 in unrecognized compensation cost related to nonvested restricted stock granted under the 2014 Plan. This cost is expected to be recognized over the next 31 months. Stock based compensation expense for nonvested restricted stock totaled \$364,806 and \$411,630 during 2023 and 2022, respectively.

Note 12. Shareholders' Equity

During 2023 and 2022, CFS issued 11,169 and 6,843 shares, respectively, of common stock to its directors for partial compensation. Also, during 2023 and 2022, the Company purchased and retired 26,719 and 46,015 shares, respectively of common stock.

Note 13. Leases

The Company's long-term lease agreements are classified as finance leases. These leases offer the option to extend the lease term and the Company has included such extensions in its calculation of the lease liabilities to the extent the options are reasonably assured of being exercised.

The components of lease expense are as follows:

	2023	2022
Finance lease expense		
Amortization of right-of-use asset	\$ 85,368	\$ 85,371
Interest on lease liabilities	31,304	32,064
Total finance lease expense	\$ 116,672	\$ 117,435

Cash paid for amounts included in the measurement of lease liabilities are as follows:

	2023	2022
Operating cash flows from finance leases	\$ 115,489	\$ 112,156

Supplemental balance sheet information related to leases are as follows:

	2023	2022
Finance Leases:		
Premises and equipment	\$ 662,482	\$ 747,853
Accumulated depreciation	85,368	85,371
Premises and equipment, net	\$ 577,114	\$ 662,482
Other long-term liabilities	766,904	853,272
Total finance lease liabilities	\$ 766,904	\$ 853,272
Weighted average remaining lease term:	6 Years	8 Years
Weighted average discount rate:	3.6%	3.6%

Maturities of lease liabilities are as follows:

For the year ending December 31,	2023
2024	118,920
2025	122,452
2026	126,090
2027	129,835
2028	133,691
Thereafter	237,072
Lease payments	\$ 868,060
Amounts representing interest	(101,156)
Present value of net future minimum lease payments	\$ 766,904

Rent expense under operating leases totaled \$86,374 and \$80,093 for the years ended December 31, 2023 and 2022, respectively.

Note 14. Related Party Transactions

Officers, directors and their affiliates had loans of \$19,016,544 and \$17,751,998 at December 31, 2023 and 2022, respectively, with the Bank.

Changes in related party loans during 2023 were as follows:

Balance, December 31, 2022	\$ 17,751,998
Additions	2,465,615
Payments	(1,201,069)
Balance, December 31, 2023	\$ 19,016,544

These transactions occurred in the ordinary course of business on substantially the same terms as those prevailing at the time for comparable transactions with unrelated persons.

Related parties had deposits of \$10,965,157 and \$12,095,550 as of December 31, 2023 and 2022, respectively.

Note 15. Other Income and Expenses

The principal components of "Other income" in the consolidated statements of income are:

	2023	2022
ATM fee income	\$ 2,511,453	\$ 2,396,683
Gain on termination of interest rate cap	—	3,468,395
Gain on investment buyback	—	2,163,342
Gain on sale of VISA B stock	2,241,178	—
Gain on life insurance	482,899	—
K-1 adjustments in SBIC funds	873,004	949,920
Gain on sale of properties	574,518	—
Increase in cash value of BOLI	409,023	420,296
Other	1,784,358	1,239,135
Total	\$ 8,876,433	\$ 10,637,771

The principal components of "Other expenses" in the consolidated statements of income are:

	2023	2022
Advertising	\$ 1,738,506	\$ 1,881,565
Debit card expense	1,061,530	947,279
Franchise tax	907,112	1,072,053
Charitable contributions	500,036	461,016
Exam and audit	348,900	273,741
Delivery and transportation	358,592	319,108
Stationery and supplies	314,967	292,292
Other	3,759,479	2,909,949
Total	\$ 8,989,122	\$ 8,157,003

Note 16. Revenue from Contracts with Customers

During the years ended December 31, 2023 and 2022, the Company recognized revenues from contracts with customers totaling \$19,442,910 and \$17,804,976, respectively. There were no impairment losses recognized on any receivables or contract assets arising from the Company's contracts with customers during the years ended December 31, 2023 and 2022. While the Company does have noninterest income related to changes in cash surrender value of life insurance, sales of investments, and income from government sponsored entities, these are not within the scope of ASC 606.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

All of the Company's revenue from contracts with customers in the scope of ASC 606 is recognized within noninterest income. The following table represents the Company's sources of noninterest income for the years ended December 31, 2023 and 2022. Items outside the scope of ASC 606 are noted as such.

	2023	2022
Noninterest income		
Service charges	\$ 1,015,833	\$ 972,320
ATM fee income	2,511,453	2,396,683
Trust and wealth management income	3,983,834	4,074,761
Merchant services income, net	5,190,703	4,934,928
Cash management fee income	5,233,108	3,196,595
Mortgage banking income	874,437	1,678,833
Other ^(a)	3,963,699	4,937,801
Total	\$ 22,773,067	\$ 22,191,921

(a) The Other category includes \$628,524 and \$500,551 of income sources that are within the scope of ASC 606 but determined immaterial as of December 31, 2023 and 2022, respectively; the remaining balance of \$3,335,175 and \$4,437,250 is outside of the scope of ASC 606 as of December 31, 2023 and 2022, respectively.

A description of the Company's revenue streams accounted for under ASC 606 follows:

Service Charges on Deposit Accounts: The Company earns fees from its deposit customers for transaction-based, account maintenance, and overdraft services. Transaction-based fees are recognized at the time the transaction is executed as that is the point in time the Company fulfills the customer's request. Account maintenance fees are earned over the course of a month, representing the period over which the Company satisfies the performance obligation. Overdraft fees are recognized at the point in time that the overdraft occurs. Service charges on deposits are withdrawn from the customer's account balance.

ATM Fee Income: The Company earns interchange fees from debit cardholder transactions conducted through the VISA payment network. Interchange fees from cardholder transactions represent a percentage of the underlying transaction value and are recognized daily, concurrently with the transaction processing services provided to the cardholder.

Merchant Services: The Company earns interchange fees from customer debit and credit card transactions that are earned at the time a cardholder engages in a transaction with a merchant as well as fees charged to merchants for providing them the ability to accept and process the debit and credit card transactions. Revenue is recognized when the performance obligation has been met as it is satisfied upon the completion of the card transaction. Additionally, revenue recognition guidance requires costs associated with cardholder and merchant services transactions to be netted against the fee income from such transactions when an entity is acting as an agent in providing services to customer.

Wealth Management Services: The Company earns wealth management fees from its contracts with trust and brokerage customers to manage assets for investment, and/or to transact on their accounts. These fees are earned as the Company provides the contracted monthly or quarterly services and are generally assessed based on a tiered scale of the market value of assets under management at month-end. Fees that are transaction based, including trade execution services, are recognized at the point in time that the transaction is executed, i.e. the "trade date". Other related services provided include financial planning services, which are based on a fixed fee schedule, and are recognized when the services are rendered.

Cash Management: The Company earns fee income on accounts receivable financing relationships. The Company recognizes the fee income when the invoices are funded.

Mortgage Banking Income: The Company earns revenues from both selling and servicing of consumer 1-4 family mortgages sold to Freddie Mac. The origination revenues are recognized when the loan is sold and funded by Freddie Mac. Servicing revenues are earned for maintaining the payment processing of the loan and are recognized each month when the loan payment is processed.

Gains/Losses on Sales of OREO: The Company records a gain or loss from the sale of OREO when control of the property transfers to the buyer, which generally occurs at the time of an executed deed. When the Company finances

the sale of OREO to the buyer, the Company assesses whether the buyer is committed to perform their obligations under the contract and whether collectability of the transaction price is probable. Once these criteria are met, the OREO asset is derecognized and the gain or loss on sale is recorded upon the transfer of control of the property to the buyer. In determining the gain or loss on the sale, the Company adjusts the transaction price and related gain (loss) on sale if a significant financing component is present.

Based on the Company's analysis, none of the contracts discussed above required a material cost to obtain or fulfill the contract, which resulted in no capitalized assets associated with these contracts as of December 31, 2023 and 2022.

Note 17. Earnings Per Common Share

The following data shows the amounts used in computing earnings per common share and the effect on the weighted average number of shares of dilutive potential common stock. The potential common stock did not have an impact on net income. Shares related to unvested restricted stock grants are included in the weighted average number of common shares outstanding because the holders participate in non-refundable dividends and have voting rights during the vesting period.

	2023	2022
Weighted average number of common shares, basic	4,705,673	4,717,918
Effect of dilutive stock options	—	8,412
Weighted average number of common shares and dilutive potential common stock used in diluted EPS	4,705,673	4,726,330

There were no antidilutive options for the years ended December 31, 2023 and 2022.

Note 18. Financial Instruments with Off-Balance-Sheet Risk

The Bank is a party to credit related financial instruments with off-balance-sheet risk in the normal course of business to meet the financial needs of its customers. These financial instruments include commitments to extend credit, standby letters of credit and commercial letters of credit. Such commitments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets.

The Bank's exposure to credit loss is represented by the contractual amount of these commitments. The Bank follows the same credit policies in making commitments as it does for on-balance-sheet instruments.

At December 31, 2023 and 2022, the following financial instruments were outstanding whose contract amounts represent credit risk:

	Contract Amount	
(dollars in thousands)	2023	2022
Commitments to grant loans	\$ 10,998	\$ 8,836
Unfunded commitments under lines of credit	188,125	196,747
Commercial and standby letters of credit	3,860	5,325
Cash management unfunded commitments	68,017	35,383

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments for lines of credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if it is deemed necessary by the Bank, is based on management's credit evaluation of the customer.

Unfunded commitments under commercial lines of credit, revolving credit lines and overdraft protection agreements are commitments for possible future extensions of credit to existing customers. These lines of credit usually do not contain a specified maturity date and may not be drawn upon to the total extent to which the Bank is committed. The amount of collateral obtained, if it is deemed necessary by the Bank, is based on management's credit evaluation of the customer.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Commercial and standby letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Those letters of credit are primarily issued to support public and private borrowing arrangements. Essentially all letters of credit issued have expiration dates within one year. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank generally holds collateral supporting those commitments, if deemed necessary.

The Company's reserve for unfunded commitments totaled \$559,789 and \$0 at December 31, 2023 and 2022, respectively. (See Notes 3 & 4 for additional information.)

The Company has invested in several funds primarily consisting of Small Business Investment Companies (SBIC) and housing equity funds. The unfunded commitment remaining on these funds totaled \$6,074,813 and \$4,927,400 as of December 31, 2023 and 2022, respectively. In 2022, the Company invested in two Fintech investments which are included in other assets at cost on the consolidated balance sheet. The balance of these investments total \$1,148,326 and \$643,813 as of December 31, 2023 and 2022, respectively. The unfunded commitment remaining on these funds totaled \$2,614,745 and \$3,296,684 as of December 31, 2023 and 2022, respectively.

CFS maintains its cash accounts in several correspondent banks. The total amount by which cash on deposit in those banks exceeded the federally insured limits was \$2,401,983 at December 31, 2023.

Note 19. Derivatives

To mitigate exposure to interest costs, in May 2020, the Company purchased an interest rate cap with a rate of 0.75% and a 10-year term. The instrument's hedge was \$50 million of FHLB borrowings maturing quarterly with similar reset dates. These borrowings were expected to be rolled quarterly, with its fixed rate set based on 3-month LIBOR. In February 2022, the Company terminated this interest rate cap and recognized a gain of \$3.5 million, which is included in other noninterest income on the consolidated statements of income. In connection with the termination of the interest rate cap, the Company repaid the \$50 million of FHLB borrowings that were associated with these hedges.

In March 2022, the Company entered into a receive fixed/pay variable interest rate swap agreement. Also, in June 2023 and November 2023, the Company entered into two receive variable/pay fixed interest rate swap agreements. The Company mitigates the interest rate risk entering into these swap agreements by entering into equal and offsetting swap agreements with a highly rated third-party financial institution. These back-to-back swap agreements are freestanding derivatives and are recorded at fair value in the Company's consolidated balance sheets (asset positions are included in other assets and liability positions are included in other liabilities).

The following table presents the notional and fair values of the derivative agreements for December 31, 2023:

<i>(dollars in thousands)</i>	December 31, 2023	
	Notional amount	Fair Value
Interest rate swap agreement		
Receive fixed/pay variable swap	\$ 50,000	\$ (1,751)
Receive variable/pay fixed swap	177,065	(2,194)

The Company does not use derivatives for trading or speculative purposes.

Note 20. Business Acquisition

On May 1, 2023, the Company acquired 100% of the assets of PDM Financial, LLC. Under the terms of the acquisition, the Company received \$8,870,207 in outstanding receivables which is included in the total assets acquired amount in the table below. With the acquisition, the Company is expanding its cash management division while also diversifying the overall concentration by industry. Acquisition-related costs of \$58,535 are included in professional fees on the Company's income statement for the year ended December 31, 2023.

Included in the consideration paid amount below is a contingent liability of \$2,492,000, in which payments will be made based on growth of the portfolio. This amount is recorded in other liabilities. An assessment will be performed to revalue the liability at each reporting period.

The Company recorded \$5,292,000 in goodwill as part of the transaction, which represents the excess of purchase price over the fair value of net assets acquired. The amount of goodwill that is expected to be deductible for income tax purposes is \$4.8 million.

<i>(dollars in thousands)</i>	
Consideration paid	\$ 14,505
Factoring portfolio acquired	\$ 8,870
Other assets	2,040
Portfolio reserves assumed	1,697
Total identifiable net assets	\$ 9,213
Goodwill	\$ 5,292

Assets acquired and liabilities assumed were recorded at their respective fair values as of the acquisition date, the fair value adjustments in relation to carrying value were not significant.

The following table presents information on amortizable intangible assets included on the consolidated balance sheet as of December 31, 2023:

<i>(dollars in thousands)</i>	December 31, 2023		
	Gross Carrying	Accumulated	Net Carrying
Customer relationships intangible	\$ 2,200	\$ 147	\$ 2,053

Intangible amortization expense is included in noninterest expense in the consolidated statements of income.

The following table represents estimated intangible asset amortization expense of the customer relationships intangibles for the next five years and thereafter from the date stated:

<i>(dollars in thousands)</i>		December 31,
2024		\$ 220
2025		220
2026		220
2027		220
2028		220
Thereafter		953
Total		\$ 2,053

Note 21. Fair Value of Assets and Liabilities

Determination of Fair Value

CFS uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in many instances, there are not quoted market prices for CFS's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument.

Fair value guidance provides a consistent definition of fair value, which focuses on exit price in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment. The fair value is a reasonable point within the range that is most representative of fair value under current market conditions.

Fair Value Hierarchy

In accordance with this guidance, CFS groups its financial assets and financial liabilities generally measured at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

Level 1 - Valuation is based on quoted prices in active markets for identical assets and liabilities and generally includes debt and equity securities that are traded in an active exchange market. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 - Valuation is based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The valuation may be based on quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.

Level 3 - Valuation is based on unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following methods and assumptions were used by CFS in estimating fair value disclosures for financial instruments:

Cash and Cash Equivalents and Interest-Bearing Deposits in Banks

The carrying amounts of cash and short-term instruments approximate fair values based on the short-term nature of the assets.

Securities

Securities available for sale are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted market prices, when available (Level 1). If quoted market prices are not available, fair values are measured utilizing independent valuation techniques of identical or similar securities for which significant assumptions are derived primarily from or corroborated by observable market data (Level 2). If the inputs used to provide the evaluation for certain securities are unobservable and/or there is little, if any, market activity then the security would fall to the lowest level of the hierarchy (Level 3).

The Company's investment portfolio is primarily valued using fair value measurements that are considered to be Level 2. The Company has contracted with a third-party portfolio accounting service vendor for valuation of its securities portfolio. The vendor's primary source for security valuation is Interactive Data Corporation ("IDC"), which evaluates securities based on market data. IDC utilizes evaluated pricing models that vary by asset class and include available trade, bid, and other market information. Generally, the methodology includes broker quotes, proprietary modes, vast descriptive terms and conditions databases, as well as extensive quality control programs.

The vendor utilizes proprietary valuation matrices for valuing all municipal securities. The initial curves for determining the price, movement, and yield relationships within the municipal matrices are derived from industry benchmark curves or sourced from a municipal trading desk. The securities are further broken down according to issuer, credit support, state of issuance and rating to incorporate additional spreads to the industry benchmark curves.

The Company uses an independent valuation information source that draws on quantitative models and market data contributed from over 4,000 market participants, to validate third party valuations. Any material differences between valuation sources are researched by further analyzing the various inputs that are utilized by each pricing source.

Other investments, which include FRB and FHLB stock, are carried at cost.

Loans Held For Sale

Loans held for sale include mortgage loans and are carried at the lower of cost or market value. The fair values of mortgage loans held for sale are based on current market rates from investors within the secondary market for loans with similar characteristics. Carrying value approximates fair value.

Loans Receivable

Fair values for loans are estimated using discounted cash flow analyses, using market interest rates for comparable loans. Also included in the fair values for loans is a credit component adjustment. Fair values for nonperforming loans are estimated using discounted cash flow analyses or underlying collateral values, where applicable.

Cash Management Accounts

The carrying value of cash management accounts approximates their fair value. The future cash flows from these accounts are short-term in nature (less than 90 days) and the rate of return approximates current market rates.

Commercial Mortgage Loan Repurchase Facilities

The fair value of commercial mortgage loan repurchase facilities was determined using a discount cash flow technique. Interest rates appropriate to the maturity and underlying collateral are used for discounting the estimated cash flows. As observable market interest rates are used, the fair value of commercial mortgage loan repurchase facilities was classified as Level 2.

Deposits

The fair values disclosed for demand deposits (for example, interest and noninterest checking, savings, and certain types of money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (that is, their carrying amounts). The carrying amounts of variable-rate, fixed-term money market accounts and certificates of deposit, if any, approximate their fair values at the reporting date. Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies market interest rates on comparable instruments to a schedule of aggregated expected monthly maturities on time deposits.

Short-Term Debt

The carrying amounts of short-term debt maturing within 90 days approximate their fair values. Fair values of short-term debt are estimated using discounted cash flow analyses based on current market rates and similar types of borrowing arrangements.

Subordinated Notes and Trust Preferred Capital Notes

Current market rates for debt with similar terms and remaining maturities are used to estimate fair value of existing debt. Fair value of long-term debt is based on quoted market prices or dealer quotes for the identical liability when traded as an asset in an active market. If a quoted market price is not available, an expected present value technique is used to estimate fair value.

The fair value of the Company's subordinated notes is estimated by utilizing recent issuance rates for subordinated debt offerings of similar issuer size.

Accrued Interest

The carrying amounts of accrued interest approximate fair value.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Off-Balance-Sheet Credit-Related Instruments

Fair values for off-balance-sheet, credit-related financial instruments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standings.

Derivative Asset

Derivative instruments held or issued by the Company for risk management purposes are traded in over-the-counter markets. For those derivatives, the Company measures fair value using models that use primarily market observable inputs, such as yield curves and option volatilities, and include the value associated with counterparty credit risk. The Company classifies derivative instruments held or issued for risk management purposes as Level 2. As of December 31, 2022, the Company's derivative instrument consists solely of an interest rate swap.

Assets Measured at Fair Value on a Recurring Basis

The following table presents the balances of financial assets measured at fair value on a recurring basis as of December 31, 2023 and 2022:

		Fair Value Measurements Using		
	Carrying Value	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs (Level 3)
<i>(dollars in thousands)</i>				
December 31, 2023				
Securitized available-for-sale:				
US Treasury	\$ 444	\$ —	\$ 444	\$ —
Securities of state and political subdivisions	180,991	—	180,991	—
SBA loan pooled securities	2,665	—	2,665	—
Mortgage-backed securities				
Agency	54,426	—	54,426	—
Non-agency	186,455	—	186,455	—
Other debt securities	57,937	—	57,937	—
Total assets at fair value	\$ 482,918	\$ —	\$ 482,918	\$ —
December 31, 2022				
Securitized available-for-sale:				
US Treasury	\$ 432	\$ —	\$ 432	\$ —
Securities of state and political subdivisions	237,605	—	237,605	—
SBA loan pooled securities	2,302	—	2,302	—
Mortgage-backed securities				
Agency	50,256	—	50,256	—
Non-agency	111,568	—	111,568	—
Other debt securities	44,286	—	44,286	—
Total assets at fair value	\$ 446,449	\$ —	\$ 446,449	\$ —

As of December 31, 2023, there were no assets classified as Level 3 to be measured at fair value on a recurring basis.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Assets Measured at Fair Value on a Nonrecurring Basis

Under certain circumstances, CFS makes adjustments to the fair value of certain assets and liabilities although they are not measured at fair value on a recurring basis. The following table presents assets carried on the consolidated balance sheet by caption and by level in the fair value hierarchy at December 31, 2023 and 2022, for which a nonrecurring change in fair value has been recorded:

	Fair Value Measurements at December 31, 2023 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<i>(dollars in thousands)</i>			
Collateral-dependent loans	\$ —	\$ —	\$ 242
Foreclosed assets	—	—	839

	Fair Value Measurements at December 31, 2022 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<i>(dollars in thousands)</i>			
Impaired loans	\$ —	\$ —	\$ 1,602
Foreclosed assets	—	—	971

Fair Value Measurements at December 31, 2023				
<i>(dollars in thousands)</i>	Fair Value	Valuation Techniques	Unobservable Inputs	Weighted Average
Assets:				
Collateral-dependent loans	\$ 242	Market comparables	Discount applied to market comparables ⁽¹⁾	35.6%
Foreclosed assets	839	Market comparables	Discount applied to market comparables ⁽¹⁾	55.7%
Total	\$ 1,081			

⁽¹⁾ A discount percentage is applied based on age of independent appraisals, selling costs, current market conditions, and experience within the local market.

Fair Value Measurements at December 31, 2022				
<i>(dollars in thousands)</i>	Fair Value	Valuation Techniques	Unobservable Inputs	Weighted Average
Assets:				
Impaired loans	\$ 1,602	Market comparables	Discount applied to market comparables ⁽¹⁾	12.6%
Foreclosed assets	971	Market comparables	Discount applied to market comparables ⁽¹⁾	41.3%
Total	\$ 2,573			

⁽¹⁾ A discount percentage is applied based on age of independent appraisals, selling costs, current market conditions, and experience within the local market.

Collateral-dependent Loans

Collateral-dependent loans with specific reserves are carried at fair value, which equals the estimated market value of the collateral less estimated costs to sell. Collateral may be in the form of real estate, securities, or business assets, including equipment, inventory, and accounts receivable. A loan may have multiple types of collateral; however, the majority of the Company's loan collateral is real estate. The value of real estate collateral is generally determined utilizing a market valuation approach based on an appraisal conducted by an independent, licensed appraiser outside of the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Company using observable market data (Level 2). However, if the collateral value is significantly adjusted due to differences in the comparable properties or is discounted by the Company because of lack of marketability, then the fair value is considered Level 3. The value of business equipment is based upon an outside appraisal if deemed significant or the net book value on the applicable borrower's financial statements if not considered significant. Likewise, values for inventory and accounts receivables collateral are based on financial statement balances or aging reports (Level 3). Fair value adjustments are recorded in the period incurred as provision for credit losses on the consolidated statements of income.

Foreclosed Assets

Fair values of foreclosed assets are carried at the lower of carrying value or fair value less selling costs. Fair value is based upon independent market prices, appraised values of the collateral, or management's estimation of the value of the collateral. When the fair value of the collateral is based on an observable market price or a current appraised value, the Company records the foreclosed asset as Level 2 valuation. When an appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Company records the foreclosed asset as Level 3 valuation. Any fair value adjustments are recorded in the period incurred as a foreclosed asset expense on the Consolidated Statements of Income.

The estimated fair values, and related carrying or notional amounts, of CFS's financial instruments are as follows:

		Fair Value Measurements at December 31, 2023				
	Carrying Value	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs	Total Fair Value	
		Level 1	Level 2	Level 3

CFS assumes interest rate risk (the risk that general interest rate levels will change) as a result of its normal operations. As a result, the fair values of CFS's financial instruments will change when interest rate levels change and that change may be either favorable or unfavorable to CFS. Management attempts to match maturities of assets and liabilities to the extent believed necessary to minimize interest rate risk. However, borrowers with fixed rate obligations are less likely to prepay in a rising rate environment and more likely to prepay in a falling rate environment. Conversely, depositors who are receiving fixed rates are more likely to withdraw funds before maturity in a rising rate environment and less likely to do so in a falling rate environment. Management monitors rates and maturities of assets and liabilities and attempts to minimize interest rate risk by adjusting terms of new loans and deposits and by investing in securities with terms that mitigate CFS's overall interest rate risk.

Note 22. Minimum Regulatory Capital Requirements

CFS and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on CFS's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, financial institutions must meet specific capital guidelines that involve quantitative measures of assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. A financial institution's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors. Prompt corrective action provisions are not applicable to bank holding companies.

The final rules implementing Basel Committee on Banking Supervision's capital guidelines for U.S. banks (Basel III rules) became effective for the Company on January 1, 2015 with full compliance of all requirements being phased in over a multi-year schedule, and fully phased in by January 1, 2019. The net unrealized gain or loss on available for sale securities is not included in computing regulatory capital. Management believes, as of December 31, 2022, the Company and Bank meet all capital adequacy requirements to which they are subject.

Now fully phased in on January 1, 2019, the Basel III Capital Rules require the Company and the Bank to maintain (i) a minimum ratio of Common Equity Tier 1 capital to risk-weighted assets of at least 4.5%, plus a 2.5% "capital conservation buffer" (which is added to the 4.5% Common Equity Tier 1 capital ratio as that buffer is phased in,

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

effectively resulting in a minimum ratio of Common Equity Tier 1 capital to risk-weighted assets of at least 7.0% upon full implementation), (ii) a minimum ratio of Tier 1 capital to risk-weighted assets of at least 6.0%, plus the capital conservation buffer (which is added to the 6.0% Tier 1 capital ratio as that buffer is phased in, effectively resulting in a minimum Tier 1 capital ratio of 8.5% upon full implementation), (iii) a minimum ratio of total capital (that is, Tier 1 plus Tier 2) to risk-weighted assets of at least 8.0%, plus the capital conservation buffer (which is added to the 8.0% total capital ratio as that buffer is phased in, effectively resulting in a minimum total capital ratio of 10.5% upon full implementation) and (iv) a minimum leverage ratio of 4.0%, calculated as the ratio of Tier 1 capital to average quarterly assets.

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
(dollars in thousands)	Amount	Ratio	Amount	Ratio	Amount	Ratio

Note 23. Accumulated Other Comprehensive Income

Changes in each component of accumulated other comprehensive income for the years ended December 31, 2023 and 2022 were as follows:

	Unrealized Gains on Available-for- Sale Securities	Unpaid Unrealized Gains on Cash Flow Hedges	Total
Balance at December 31, 2022	\$ (47,826,361)	\$ (2,304,603)	\$ (50,130,964)
Other comprehensive income before reclassification	10,606,215	(853,764)	9,752,451
Amounts reclassified from accumulated other comprehensive income	2,884,185	—	2,884,185
Net current-period other comprehensive income	13,490,400	(853,764)	12,636,636
Balance at December 31, 2023	\$ (34,335,961)	\$ (3,158,367)	\$ (37,494,328)
Balance at December 31, 2021	\$ 9,444,494	\$ 1,586,054	\$ 11,030,548
Other comprehensive income before reclassification	(60,574,142)	(3,890,657)	(64,464,799)
Amounts reclassified from accumulated other comprehensive income	3,303,287	—	3,303,287
Net current-period other comprehensive income	(57,270,855)	(3,890,657)	(61,161,512)
Balance at December 31, 2022	\$ (47,826,361)	\$ (2,304,603)	\$ (50,130,964)

Details regarding reclassifications out of accumulated other comprehensive income for the years ended December 31, 2023 and 2022 were as follows:

Year Ended December 31, 2023	Amount Reclassified from AOCI	Affected Line Item in the Consolidated Income Statement
Realized loss on sale of securities	\$ (2,884,185)	Net loss on sales of securities available for sale
Income tax benefit	605,679	Income tax benefit
Total reclassifications	\$ (2,278,506)	Net of tax

Year Ended December 31, 2022	Amount Reclassified from AOCI	Affected Line Item in the Consolidated Income Statement
Realized gain on sale of securities	\$ (3,303,287)	Net gain on sales of securities available for sale
Income tax expense	693,690	Income tax expense
Total reclassifications	\$ (2,609,597)	Net of tax

Note 24. Condensed Parent Company Financial Statements

The following parent company accounting policies should be read in conjunction with the related condensed balance sheets, statements of income, and statements of cash flows.

Investments in subsidiaries are accounted for using the equity method of accounting. The parent company and its subsidiaries file a consolidated federal income tax return. The subsidiaries' individual tax provisions and liabilities are stated as if they filed separate returns and any benefits or detriments of filing the consolidated tax return are absorbed by the parent company.

The parent company's principal assets are its investments in its wholly-owned subsidiaries. Dividends from the Bank are the primary source of funds for the parent company. The payment of dividends by the Bank is restricted by various statutory limitations. Banking regulations also prohibit extensions of credit by the Bank to the parent company unless appropriately secured by assets. As of December 31, 2023, the amount available for payment of additional dividends without prior regulatory approval from the Bank to the parent company is \$31,651,807 or 40.03% of consolidated net assets.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Financial Overview: Chesapeake Financial Shares, Inc. (CFS or the "Company") recorded net income of \$10,119,738 for 2023. The return on average equity in 2023 was 11.04% and return on average assets was 0.73% compared to 20.89% and 1.32%, respectively, in 2022. At December 31, 2023, CFS had total assets of \$1.471 billion, which was an increase of 10.7% when compared to December 31, 2022. The Company ended 2023 with total gross loans of \$821.0 million, and total deposits of \$1.27 billion, an increase of 10.8% and 8.6%, respectively.

The current economic environment continued to cause competitive pricing pressures on loans and deposits. Despite the pressures mentioned, loan volume was up \$80.2 million for 2023, which brought the average annual loan growth rate for the last five years to 10.1%. Total past due and nonaccrual loans decreased by \$1.2 million from December 31, 2022 to December 31, 2023. The allowance for credit loss to gross loans less unearned discounts remained at 1.0% as of December 31, 2023 and December 31, 2022. The deposit increase of 8.6% for 2023 brought the average annual deposit growth rate for the last 5 years to 11.2%. With the significant rate increases by the Federal Reserve, rising 5.25% over the last 2 years, CFS had increasing competitive pressures with attracting and retaining deposits during the year. These pressures have resulted in increasing cost of funds throughout 2023 rising from 0.50% in December 31, 2022 to 1.99% at December 31, 2023.

Summary of Results of Operations: Net income for 2023 was \$10,119,738, or \$2.15 per share (fully diluted) compared to \$17,628,587 or \$3.73 per share (fully diluted) in 2022, a decrease of \$7,508,849. Net interest income before the provision for loan losses was down 5.9% from 2022. There was a 2.6% or \$581,146 increase in noninterest income, primarily due to the gain on sale of VISA B shares totaling \$1,901,178 along with cash management income increasing from 2022 by \$2,036,513, or 63.7%. Merchant services income increased from 2022 by \$255,775, or 5.2% while trust and wealth management remained flat year over year. During 2023, the Company recognized net losses on sale of securities totaling \$2,884,185 due to repositioning of the investment portfolio. Noninterest expense increased by 13.6% or \$6,128,855 in 2023 over 2022.

Assets

Loan Portfolio: The loan portfolio is the largest component of earning assets for the Company and accounts for the greatest portion of total interest income. The gross loan portfolio totaled \$821.0 million and \$740.8 million as of December 31, 2023 and 2022, respectively, representing an increase of 10.8% year over year. Commercial loans (including real estate and non-real estate combined) were up 8.1% or \$38.3 million while residential and consumer loan balances were up 15.0% or \$38.6 million and 35.4% or \$3.3 million, respectively, at December 31, 2023 compared to December 31, 2022.

On December 31, 2023, the loan portfolio consisted of 62.4% commercial and commercial real estate loans, 36.0% single-family residential and construction/land loans, and 1.5% consumer. Commercial loans consisted primarily of business loans such as owner-occupied commercial development, retail, builders/contractors, medical, service and professional, hospitality, nonprofits, marine industry, and a small portion of agricultural and seafood loans.

Total nonperforming assets consisted of nonaccrual loans, performing restructured loans, repossessed and foreclosed properties, and other real estate owned. Nonperforming assets were \$2,128,058 at December 31, 2023, which represented a 61.4% decrease from \$5,518,766 at December 31, 2022. Past due loans over 30 days, excluding nonaccrual, totaled \$988,748 and \$366,697 as of December 31, 2023 and 2022, respectively. Nonaccrual loans were \$1.3 million or 0.2% of total loans at December 31, 2023. On December 31, 2022, nonaccrual loans totaled \$3.1 million or 0.4% of total loans.

Investment Securities: All of CFS's debt securities are classified as securities available for sale and are carried at fair market value. Debt securities may be classified as investment securities (held to maturity) when management has the intent and CFS has the ability at the time of purchase to hold the securities to maturity. Securities available for sale include securities that may be sold in response to changes in market interest rates, changes in the securities option or credit risk, increases in loan demand, general liquidity needs and other similar factors.

The fair market value of the portfolio was \$43,463,242 pre-tax less than amortized cost at December 31, 2023, and was \$60,539,699 less than amortized cost at December 31, 2022. Investments are reviewed quarterly for potential credit losses and subsequent write-down. As of December 31, 2023, there was no allowance for credit losses recorded for the Company's available for sale securities portfolio. All decreases in fair market value were as a result of the current rate and economic environment.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

At December 31, 2023, total securities at fair market value were \$482.9 million, up \$36.5 million from \$446.4 million on December 31, 2022. The below table represents the investment mix for the years ended December 31, 2023 and 2022:

	2023	2022	Change	Percent Change
US Treasury	\$ 444,063	\$ 432,207	\$ 11,856	2.7%
Securities of state and political subdivisions	180,991,113	237,604,900	(56,613,787)	(23.8%)
SBA loan pooled securities	2,664,854	2,301,665	363,189	15.8%
Mortgage-backed securities	240,881,225	161,824,604	79,056,621	48.9%
Other debt securities	57,936,576	44,285,905	13,650,671	30.8%
	\$ 482,917,831	\$ 446,449,281	\$ 36,468,550	8.2%

Asset Quality-Provision/Allowance for Loan Losses: The provision for credit losses is a charge against earnings necessary to maintain the allowance for loan losses at a level consistent with management's evaluation of the credit quality and risk adverseness of the loan portfolio. The allowance for credit losses represents management's estimate of the amount adequate to provide for potential losses inherent in the loan portfolio. To achieve this goal, the credit loss provision must be sufficient to cover loans charged off plus any growth in the loan portfolio and recognition of specific loan impairments. In determining the adequacy of the allowance for credit losses, management uses a methodology which specifically identifies and reserves for higher risk loans. Loans in a nonaccrual status and over 90 days past due are considered in this evaluation as well as other loans, which may be a potential loss. The status of nonaccrual and past due loans varies from quarter to quarter based on seasonality, local economic conditions, and the cash flow of customers. A general reserve is established for nonspecifically reserved loans.

The allowance for credit losses was \$7,881,960, or 1.0%, of gross loans at December 31, 2023. This ratio was 1.0% on December 31, 2022, and 1.0% at December 31, 2021. The table below represents the provision for credit losses taken in years 2023 and 2022 as well as loans charged off and subsequent recoveries:

	2023	2022
Provision for credit losses	\$ 699,996	\$ 699,996
Loans charged off	284,631	156,417
Recoveries	52,189	175,598

Management and the Board of Directors believe that the total allowance at December 31, 2023 was adequate relative to current levels of risk in the portfolio. However, continued loan growth or increases in specific problem loans may warrant additional provisions in the future.

Adoption of Current Expected Credit Loss (CECL): On January 1, 2023, CFS replaced the incurred loss methodology with the expected loss methodology for estimating credit losses for the remaining estimated life of the financial asset. The impact of this standard decreased the allowance for credit losses on loans \$98 thousand, increased the allowance for credit losses on unfunded loan commitments \$470 thousand (which is recorded within other liabilities on the financial statements), and increased the allowance for credit losses for cash management \$135 thousand. The cumulative effect of the adoption of CECL, net of deferred tax, totaled a \$400 thousand decrease to retained earnings.

Foreclosed Assets: As of December 31, 2023, the Bank held \$839,212 in foreclosed assets. These assets are being actively marketed through real estate channels and represent near term secondary sources of liquidity. The Company was able to dispose of one other real estate owned property during 2023.

Liabilities

Deposits: CFS depends on deposits to fund most of its lending activities, generate fee income opportunities, and create a market for other financial service products. Deposits are also the largest component of CFS's liabilities and account for the greatest portion of interest expense.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Deposits totaled \$1.3 billion and \$1.2 billion, as of December 31, 2023 and 2022, respectively, and represented an increase of 8.6% for December 31, 2023 over December 31, 2022. The below table represents a breakdown of total deposits:

	2023	2022	Change	Percent Change
Demand accounts	\$ 275,582,472	\$ 343,930,336	\$ (68,347,864)	(19.9%)
Savings and interest bearing deposits	663,803,703	702,647,684	(38,843,981)	(5.5%)
Certificates of deposit	236,791,051	119,661,968	117,129,083	97.9%
Brokered certificates of deposit	89,800,000	—	89,800,000	100.0%
Total deposits	\$ 1,265,977,226	\$ 1,166,239,988	\$ 99,737,238	8.6%

Net Interest Income: The principal source of earnings for CFS is net interest income. Net interest income is the difference between interest plus fees generated by earning assets and interest expense paid to fund those assets. As such, net interest income represents the gross profit from the Bank's lending, investment, and funding activities.

A large number of variables interact to affect net interest income. Included are variables such as changes in the mix and volume of earning assets and interest bearing liabilities, market interest rates, and the statutory federal tax rate. During 2023, CFS had a significant shift in deposit mix, moving from non-maturing deposits to certificates of deposits, in an effort to remain competitive with competition. It is management's ongoing policy to maximize net interest income through the development of balance sheet and pricing strategies while maintaining appropriate risk levels as set by the Board of Directors.

Net interest income totaled \$41.6 million and \$44.1 million, for 2023 and 2022, respectively, representing a decrease of 5.9% for 2023 over 2022. Total interest income was \$59.9 million and \$47.3 million for 2023 and 2022, respectively. Total interest expense was \$18.3 million and \$3.2 million for 2023 and 2022, respectively. On a consolidated tax equivalent annualized basis, the 2023 net interest margin was 3.5%. As the Federal Reserve increased rates, CFS had increasing pressures to increase deposit rates, however, yields on loans did not move at the same levels causing increased compression on the net interest margin.

Noninterest Income: Noninterest income represented 27.5% of the total gross revenue for the Company. Sources of noninterest income include the Company's merchant processing services (Chesapeake Payment Systems), accounts receivable financing (Flexent), wealth management and trust services (Chesapeake Wealth Management) and mortgage banking income.

For the year ended December 31, 2023, noninterest income was \$22.8 million. This represents an increase in noninterest income of \$581,146 for the year. A large contributor to the increase in noninterest income included an increase in cash management of \$2,336,513 for 2023. Of that, \$1,601,526 is related to the acquisition of a trucking factoring company in Iowa, PDM Financial, LLC which closed May 1, 2023. This acquisition allows CFS to expand the cash management division while also diversifying that portfolio of business.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Changes in noninterest income categories are highlighted below:

	2023	2022	Change	Percent Change
Trust and wealth management income	\$ 3,983,834	\$ 4,074,761	\$ (90,927)	(2.2%)
Service charge income	1,015,833	972,320	43,513	4.5%
Net loss on sales of securities available for sale	(2,884,185)	(3,303,287)	419,102	(12.7%)
Mortgage banking income	874,437	1,678,833	(804,396)	(47.9%)
Merchant services income, net	5,190,703	4,934,928	255,775	5.2%
Cash management fee income	5,533,108	3,196,595	2,336,513	73.1%
Interchange income	2,511,453	2,396,683	114,770	4.8%
Gain on termination of interest rate cap	—	3,468,395	(3,468,395)	(100.0%)
Gain on sale of investment held at cost	1,901,178	2,163,342	(262,164)	(12.1%)
Gain on life insurance	482,899	—	482,899	100.0%
K-1 adjustments on SBIC funds	873,004	949,920	(76,916)	(8.1%)
Gain on sale of real estate	574,518	—	574,518	100.0%
Change in cash value of BOLI	409,023	420,296	(11,273)	(2.7%)
Other income	1,824,358	1,239,135	585,223	47.2%
Total noninterest income	\$ 22,290,163	\$ 22,191,921	\$ 98,242	0.4%

Noninterest Expenses: Total noninterest expenses increased 13.6%, or \$6.1 million in 2023 over 2022.

Comparing 2023 to 2022, technology expenses increased \$785,599 due to implementing a multi-year human + digital strategy, FDIC assessments increased \$255,151 and professional fees increased \$383,266. Below is a breakdown of other expenses for 2023 over 2022:

	2023	2022	Change	Percent Change
Provision for cash management account losses	\$ 240,000	\$ 240,000	\$ —	0.0%
Advertising	1,738,506	1,881,565	(143,059)	(7.6%)
Technology expense	6,171,384	5,385,785	785,599	14.6%
Professional fees	2,754,900	2,371,634	383,266	16.2%
Debit card expense	1,061,530	947,279	114,251	12.1%
Franchise tax	907,112	1,072,053	(164,941)	(15.4%)
Charitable contributions	500,036	461,016	39,020	8.5%
Exam and audit	348,900	273,741	75,159	27.5%
Amortization on intangible assets	146,667	—	146,667	100.0%
FDIC assessments	624,719	369,568	255,151	69.0%
Delivery and transportation	358,592	319,108	39,484	12.4%
Stationery and supplies	314,967	292,292	22,675	7.8%
Other	3,759,479	2,909,949	849,530	29.2%
Total noninterest expenses	\$ 18,926,792	\$ 16,523,990	\$ 2,402,802	14.5%

Liquidity, Interest Rate Sensitivity, and Inflation: The objectives of CFS's liquidity management policy include providing adequate funds to meet the needs of depositors and borrowers at all times, as well as providing funds to meet the basic needs for ongoing operations of CFS, and to allow funding of longer-term investment opportunities and regulatory requirements. The objective of providing adequate funding should be accomplished at reasonable costs and on a timely basis. At December 31, 2023, management considers CFS's liquidity to be more than adequate.

The Company obtains funding from a variety of sources, including customer deposits and certificates of deposit, and payments on our loans and investments. In addition, the Company maintains lines of credit with the FHLB of Atlanta and various other correspondent banks as well as the discount window. Bank management maintains overnight borrowing relationships with correspondent banks for up to \$325.9 million, secured and unsecured. CFS has access to an additional secured borrowing relationship of \$10.0 million. During 2023, CFS utilized the brokered CD market to aid in liquidity management and to enter into asset-liability management strategies to foster net interest margin.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Since the assets and liabilities of a bank are primarily monetary in nature (payable in fixed, determinable amounts), the performance of a bank is affected more by changes in interest rates than by inflation. Interest rate sensitivity refers to the difference between assets and liabilities subject to repricing, maturity, or volatility during a specified period. Management's objective in controlling interest rate sensitivity is to reprice loans and deposits and make investments that will maintain a profitable net interest margin (see "Net Interest Income"). The Company's Asset-Liability Committee ("ALCO") meets regularly and is responsible for reviewing the interest rate sensitivity position and establishing policies and strategies to monitor and limit exposure. From time to time CFS will enter into derivative contracts to aid in the asset-liability management of its balance sheet. During 2023, the Company entered into two receive-variable, pay-fixed interest rate swaps with a combined notional amount of \$177.1 million.

While the effect of inflation is normally not as significant as its influence on those businesses that have large investments in plant and inventories, it does have an effect. There are normally corresponding increases in the money supply, and banks will normally experience above average growth in assets, loans and deposits. Also, general increases in the prices of goods and services will result in increased operating expenses.

Shareholders' Equity: Capital represents funds, earned or obtained, over which management can exercise greater control in comparison with deposits and borrowed funds. Future growth and expansion of CFS is dictated by the ability to produce capital. The adequacy of CFS's capital is reviewed by management and the Board of Directors on an ongoing basis with reference to the size, composition and quality of CFS's asset and liability levels and consistent with regulatory requirements and industry standards. Management seeks to maintain a capital structure that assures an adequate level to support anticipated asset growth and absorb potential losses.

The Company's capital position as of December 31, 2023 is consistent with being well-capitalized under the regulatory framework for prompt corrective action. The table below represents CFS's capital ratios as of December 31, 2023 and December 31, 2022:

	2023	2022
Total capital to risk-weighted assets	13.8%	15.9%
Tier 1 capital to risk-weighted assets	11.3%	13.0%
Tier 1 capital to average assets	9.1%	9.6%
Common equity tier 1 capital to risk-weighted assets	10.8%	12.5%

Dividend and Market Information: The Company's stock trades on the "OTC" (Over the Counter) market under the symbol "CPKF". The Company has increased its dividend payment annually for more than 31 years. The Company raised its dividend to \$0.61 per share in 2023, an increase of \$0.03 over 2022. Trades in the Company's common stock occurred infrequently and generally involved a relatively small number of shares. Based on information available, the selling price for the Company's common stock during 2023 ranged from \$16.51 to \$23.95, and during 2022, from \$19.15 to \$31.00. Such transactions may not be representative of all transactions during the indicated periods of the fair value of the stock at the time of such transactions due to the infrequency of trades and the limited market for the stock. At December 31, 2023, there were 4,718,467 shares of the Company's common stock outstanding held by approximately 243 holders of record. During 2023 CFS purchased and retired 26,719 shares of CPKF.
