### **B2Gold Completes Upsized Offering of Convertible Senior Notes**

**Vancouver, BC, January 28, 2025** – B2Gold Corp. (TSX: BTO, NYSE AMERICAN: BTG, NSX: B2G) (“B2Gold” or the “Company”) has closed its previously announced offering of 2.75% convertible senior unsecured notes due 2030 (the “Notes”) in an aggregate principal amount of US\$460 million (the “Offering”), which includes exercise of the full amount of the option to purchase an additional US\$60 million aggregate principal amount of Notes. The initial conversion rate for the Notes is 315.2088 common shares of the Company (“Shares”) per US\$1,000 principal amount of Notes, equivalent to an initial conversion price of approximately US\$3.17 per Share.

The Company intends to use the net proceeds from the Offering to fund working capital requirements and for general corporate purposes. In order to reduce interest expense, the Company will initially apply the net proceeds to pay down the outstanding balance under the Company’s revolving credit facility (the “Revolving Credit Facility”) and then subsequently use future draws on the Revolving Credit Facility to fund such working capital requirements and for general corporate purposes.

In connection with the Offering, B2Gold entered into a cash settled total return swap with respect to approximately US\$50 million of Shares with one of the initial purchasers of the Notes. The total return swap is intended to give B2Gold economic exposure to its Shares during the term of the total return swap, which is expected to be approximately one month. In connection with establishing its initial hedge of the total return swap, B2Gold has been advised that the total return swap counterparty or its affiliate has purchased Shares at the close of trading on January 23, 2025. Such purchases may have, or have had, the effect of increasing (or reducing the size of any decrease in) the market price of the Shares. Any unwind of such hedge positions, including at settlement of the total return swap, may have the effect of decreasing (or reducing the size of any increase in) the market price of the Shares or the Notes.

The Notes and the Shares issuable upon the conversion thereof have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “Securities Act”), or qualified by a prospectus in Canada. The Notes and the Shares may not be offered or sold in the United States absent registration under the Securities Act or an applicable exemption from registration under the Securities Act.

This news release is neither an offer to sell nor the solicitation of an offer to buy the Notes or any other securities and shall not constitute an offer to sell or solicitation of an offer to buy, or a sale of, the Notes or any other securities in any jurisdiction in which such offer, solicitation or sale is unlawful. The Notes were offered only to “qualified institutional buyers” (as defined in Rule 144A under the Securities Act). Offers

and sales in Canada were made only pursuant to exemptions from the prospectus requirements of applicable Canadian securities laws.
