P&G PALM OILS MILL LIST

This document provides the list of Palm Oils Mills that are part of P&G's supply value chain. It is reviewed, revised and published publicly twice a year. In-line with industry practices our mill list are published retrospectively and covers the previous January-June and July-December supply periods. To provide more specificity, we provide categorization of the type of mill lists related to our supply value chain:

- **Palm Oil and Palm Kernel Oil** mills cover purchases of oils from our Tier 1 Suppliers for our direct use, fractionation or derivatisation. This category covers both direct (P&G Tier 1) and in-direct purchases i.e. P&G Tier 2, 3, etc.

- **Palm Oil Derivatives and Palm Kernel Oil Derivatives** mills covers purchases of products derivatized from palm kernel oil by our Tier 1 Suppliers. These suppliers use palm oils as a feedstock to produce derivatives that are commercially available and purchased by P&G (not produced exclusively for us). The additional processing step can make these supply chains more complex and any changes in supply may take longer to manage. The category covers in-direct purchases of oils i.e. Tier 2, 3, etc.

- **Mills with Active Grievance Suspension in Progress** – where we receive a Grievance, we investigate it according to **P&G Forestry Grievance Process**. We publish the outcome of our investigations on P&G Palm Oil Grievance Tracker publicly three times per year. Where we decide a suspension of supply is warranted, it may take time to implement and may not be immediately reflected in our current public Mill List. This list provides stakeholders with transparency regarding mills in our list where we have announced a suspension and an action plan to phase out is in progress.

Palm Oils Mill List

Disclaimer: The list of mills shown above is based on our direct suppliers' responses to our traceability request and publicly available information. Mills that are not in our sourcing regions are not included and will be reviewed in further details with our direct suppliers.

Whereas every effort has been made to ensure that the information contained within this list is accurate at the time of publishing, the Procter & Gamble Company and its affliates make no warranty, representation or undertaking whether expressed or implied, nor does it assume any legal liability, whether direct or indirect, or responsbility for the accuracy, completeness, or usefulness of any information.

Mills with Active Grievance Suspension in Progress

In cases of identified non-compliance or grievance (from a stakeholder or rightsholder), we investigate it according to **P&G Forestry Grievance Process**. We publish the outcome of our investigations on P&G Palm Oil Grievance Tracker publicly three times per year. Where we decide a suspension of supply is warranted, it may take time to implement and may not be immediately reflected in our current public Mill List.

Following a decision to suspend, we will inform all our suppliers on our decision.
With those identified suppliers with known supply chain linkages, we will have a detail action plan as follows:

- Communicate and engage with Tier 1 Suppliers who maybe currently supplying materials linked to suspended mill/ company.
- Collaborate with suppliers to develop a suspension action plan to be completed as soon as possible.
- We work with suppliers to ensure action plan remains on track with prompt implementation.
- Continuous monitoring and due diligence on our mill list to ensure suspension effectiveness ongoing.

While we aim to complete all suspensions swiftly, we recognise that full implementation of the action plan may often require time. In addition, since Palm Oil Mill lists are retrospective, some mills may appear on our Mill Lists even where suspension has been implemented. This list provides further clarity on progress towards full implementation. Once a suspension if fully completed, the mill will no longer be included in our mill list. However, we will continue to monitor these mills and take action if necessary.
