

## Environmental Footprint Metrics for P&G Operations

The table below summarizes environmental statistics for our manufacturing operations, technical centers, and distribution centers for fiscal year 2025.

[Please see our ESG Investor Portal for additional detailed perspective on our efforts related to climate, waste, water, and nature.](#)

	Total			2025 Global Business Units Details					
	2025	2024	2023	Baby, Feminine and Family Care	Beauty	Fabric & Home Care	Grooming	Health Care	Other
<b>Manufacturing Waste</b>									
<b>Solid Waste Generated</b> (metric tons x1,000)	653	652	677	265	99	187	35	46	21
% Recycled/Reused Waste	99.7%	99.7%	99.5%	99.8%	>99.9%	99.5%	>99.9%	>99.9%	98.0%
% Disposed - Hazardous	0.1%	0.2%	0.1%	<0.01%	<0.01%	0.3%	<0.01%	<0.1%	1.0%
% Disposed - Non-Hazardous	0.2%	0.2%	0.4%	0.2%	<0.1%	0.2%	0.00%	0.00%	1.1%
<b>Other Waste</b> (metric tons x1,000)									
<b>Effluents (excluding water; COD<sup>3</sup>)</b>	19	19	16	5.1	1.6	9.2	0.2	2.9	0.3
<b>Air Emissions<sup>4</sup></b>	7	9	6	4.9	1.1	0.6	<0.05	0.2	0.1
<b>Construction &amp; Demolition Waste</b>	16	14	7	6.8	0.3	1.2	6.8	0.3	<0.01
<b>Energy</b> (gigajoules x1,000)									
<b>Energy Consumption</b>	59,245	59,410	60,943	39,330	3,606	9,259	2,383	2,176	2,491
<b>Greenhouse Gas (GHG)</b> (metric tons x1,000)									
<b>Total GHG Emissions<sup>5</sup></b>	2,080	2,125	2,250	1,485	84	316	56	54	85
<b>Scope 1 - Direct GHG Emissions</b>	1,966	1,988	2,121	1,482	75	237	56	54	63
<b>Scope 2 - Indirect GHG Emissions<sup>6</sup></b>	113	138	129	3	9	80	0	0	22
<b>Biogenic GHG Emissions<sup>7</sup></b>	53	50	45						
<b>Water</b> (cubic meters x1,000)									
<b>Water Withdrawn<sup>8</sup></b>	66,733	68,641	69,725	42,468	5,020	14,661	920	2,052	1,612

1. Estimated from fiscal year 2025 finished product production volumes and average weights.

2. Data is tracked at a corporate level. Value represents quantities of recycled resins and recycled paper used in packaging.

3. Wastewater chemical oxygen demand (COD).

4. Air emissions include particulates, SO<sub>2</sub>, NO<sub>x</sub>, CO and VOC.

5. Total GHG emissions = Scope 1 + Scope 2. Scope 2 emissions calculated using a market-based method.

6. Market-based Scope 2 GHG emissions. Note: Location-based Scope 2 emissions in 2025 were 2,107 metric tons (x1,000).

7. P&G reports biogenic emissions separately from Scope 1 emissions. This includes biogenic CO<sub>2</sub> from the use of biogas and biomethane delivered via the natural gas pipeline where 3rd party certified energy attribute certificates are provided by the supplier.

8. Water withdrawn data is the water entering P&G facilities.

Note: The total number of facilities included in P&G's Corporate Environmental Footprint tracking is 133 for FY 24/25. This is comprised of 101 manufacturing facilities, major stand-alone offices/technical centers that support the business units, and our largest distribution facilities. Contract manufacturers are not included, following operational control boundaries. Our environmental sustainability footprint is driven by adherence to international reporting standards; primarily the GHG Protocol. Baby, Feminine and Family Care includes Baby Care, Feminine Care and Family Care. Beauty Care includes Hair Care and Skin & Personal Care. Fabric and Home Care includes Fabric Care, Home Care and P&G Chemicals. Grooming includes Blades and Razors and Appliances. Health Care includes Personal Health Care and Oral Care. "Other" includes major stand-alone offices/technical centers that support the business units and our largest distribution facilities. P&G obtains 3rd party assurance of our Scope 1, 2, and portions of our Scope 3 inventory.
