

P&G PALM OILS MILL LIST

This document provides the list of Palm Oils Mills that are part of P&G's supply value chain. It is reviewed, revised and publicly published twice a year. In-line with industry practices our mill list is published retrospectively and covers the previous January-June and July-December supply periods. To provide more specificity, we provide categorization of the type of mills related to our supply value chain:

- **Palm Oil and Palm Kernel Oil** mills cover purchases of oils from our Tier 1 Suppliers for our direct use, fractionation or derivatization, as well as indirect purchases of oils from suppliers Tier 2 and below.
- **Palm Oil Derivatives and Palm Kernel Oil Derivatives** mills covers purchases of products derivatized from palm kernel oil by our Tier 1 Suppliers, and indirect purchase of oils from Tier 2 and below. These suppliers use palm oils as a feedstock to produce derivatives that are commercially available and purchased by P&G (not produced exclusively for us). The additional processing step can make these supply chains more complex and any changes in supply may take longer to manage. The category covers indirect purchases of oils i.e. Tier 2, 3, etc.
- **Mills with Active Grievance Suspension Plans in Progress** – where we receive a Grievance, we investigate in-line with the [P&G Forestry Grievance Process](#). If a decision to suspend a supplier or mill is made, we publish this publicly via our [P&G Palm Oil Grievance Tracker](#). We recognise that a suspension may not be immediately reflected in our mill list. This is because mill lists are retrospective and action plans to suspend require time to fully implement. In order to provide transparency for interested stakeholders – this list highlights mills where we have an active suspension action plan in progress at the time the mill list is published.

Disclaimer: The list of mills shown above is based on our direct suppliers' responses to our traceability request and publicly available information. Mills that are not in our sourcing regions, are not included and will be reviewed in further detail with our direct suppliers.

Whereas every effort has been made to ensure that the information contained within this list is accurate at the time of publishing, the Procter & Gamble Company and its affiliates make no warranty, representation or undertaking whether expressed or implied, nor does it assume any legal liability, whether direct or indirect, or responsibility for the accuracy, completeness, or usefulness of any information.

Mills with Active Grievance Suspension Plans in Progress

Where we receive a Grievance, we investigate in-line with the [P&G Forestry Grievance Process](#). If a decision to suspend a supplier or mill is made, we publish this publicly via our [P&G Palm Oil Grievance Tracker](#). We recognise that a suspension may not be immediately reflected in our mill list. This is because mill lists are retrospective and actions plans to suspend require time to fully implement. In order to provide transparency for interested stakeholders - this list highlights mills where we have an active suspension action plan in progress at the time the mill list is published.

Following a decision to suspend, we share our decision with all Tier 1 suppliers. For those Tier 1 Suppliers with a potential linkage (direct or indirect) we:

- Engage with any Tier 1 Suppliers linked to a suspended mill/ company on the conclusion of our investigation and decision to suspend.
- Work with these suppliers requiring submission of a suspension action plan - that is to be completed as soon as possible.
- Conduct regular engagement with them to ensure suspension remain on track with timely implementation.
- On-going we continue to monitor and conduct due diligence via our mill lists to ensure suspension effectiveness on-going.

Mills are only removed from our mill list once a suspension has been fully completed for that time period, when they will be removed from this list.

Mills with Active Grievance Suspension Plans in Progress
