

NEWS RELEASE

# Aduro Clean Technologies to Participate in the 51st Annual New Orleans Investment Conference

2025-10-14

LONDON, Ontario, Oct. 14, 2025 (GLOBE NEWSWIRE) -- **Aduro Clean Technologies Inc.** ("Aduro" or the "Company") (Nasdaq: ADUR) (CSE: ACT) (FSE: 9D5), a clean technology company using the power of chemistry to transform lower-value feedstocks, like waste plastics, heavy bitumen, and renewable oils, into resources for the 21<sup>st</sup> century, today announced its participation in the 51<sup>st</sup> Annual New Orleans Investment Conference as Gold Sponsor, taking place November 2-5, 2025.

51<sup>st</sup> Annual New Orleans Investment Conference

Dates: November 2-5, 2025

Location: Hilton New Orleans Riverside, New Orleans, Louisiana

Presentation: November 4, 2025 – 10:50 AM

Exhibition Booth: 320

Website: <https://neworleansconference.com/>

Registration: <https://www.eventbrite.com/e/2025-new-orleans-investment-conference-tickets-1073141658589>

Founded in 1974, the New Orleans Investment Conference is one of the oldest and most respected investment forums in North America. The event attracts sophisticated retail and institutional investors from across the United States and more than 35 countries for multi-day programming featuring keynote speakers, panel discussions, and exhibitor sessions. With a strong focus on macro trends, commodities, energy, precious metals, and emerging technologies, the Conference is known for delivering deep market insight and high-level networking with influential thought leaders and decision-makers.

The management team will also be available for one-on-one meetings with investors during the conference. These

sessions provide an opportunity to discuss the Company's strategy, technology development, and upcoming milestones. On-site meeting space will be available throughout the conference. To request a meeting, please contact KCSA Strategic Communications at [aduro@kcsa.com](mailto:aduro@kcsa.com)

#### About Aduro Clean Technologies

Aduro Clean Technologies is a developer of patented water-based technologies to chemically recycle waste plastics; convert heavy crude and bitumen into lighter, more valuable oil; and transform renewable oils into higher-value fuels or renewable chemicals. The Company's Hydrochemolytic™ Technology relies on water as a critical agent in a chemistry platform that operates at relatively low temperatures and cost, a game-changing approach that converts low-value feedstocks into resources for the 21<sup>st</sup> century.
