

QXO Launches 2025 QXO for Veterans Program

Now accepting nominations for 13 Veterans and Gold Star Families to receive new roofs at no cost

GREENWICH, Conn. — November 11, 2025 — In honor of Veterans Day, QXO, Inc. (NYSE: QXO) today announced the launch of its annual QXO for Veterans initiative, continuing the company’s mission to support veterans and their families. Now in its seventh year, the QXO for Veterans program is significantly expanding to award 13 winners with a new roof at no cost. This North American program honors veterans, Gold Star Families and organizations that serve veterans by providing essential home improvements that restore security, dignity and peace of mind.

“Supporting our veterans is about honoring their commitment, perseverance and sacrifice,” said Josephine Berisha, chief human resources officer at QXO. “We’re humbled to continue this tradition and encourage the public to nominate veterans and Gold Star Families in their communities.”

The 2025 QXO for Veterans nomination period opens today, Veterans Day, and runs through December 17, 2025. The program is open to all military veterans in the U.S. and Canada, and Gold Star Family members. Nominations can be submitted online at go.qxo.com/qxoforveterans or by emailing QXOforVeterans@QXO.com.

A panel of judges including QXO executives and veterans, the publishers of Roofers Coffee Shop and Roofing Contractor, as well as executives from [GAF](#) and other organizations will review all submissions and select 13 winners who will each receive new roofs installed by local professionals using TRI-BUILT® products, QXO’s private label brand, and materials from GAF, the 2026 exclusive partner for the program.

QXO for Veterans is a key part of QXO’s broader commitment to support neighbors, strengthen communities and give back to those who have given so much. Since launching the program in 2018, QXO has installed over 60 roofs, partnering with local roofing contractors and suppliers across North America to give back to those who have served.
