COASTAL
FINANCIAL CORPORATION

LEGAL INFORMATION AND DISCLAIMER

This presentation and oral statements made regarding the subject of this presentation contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect Coastal Financial Corporation ("Coastal" or "CFC")'s current views with respect to, among other things, future events and Coastal's financial performance. Any statements about Coastal's expectations, beliefs, plans, predictions, forecasts, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as "anticipate," "believes," "can," "could," "may," "predicts," "potential," "should," "will," "estimate," "plans," "projects," "continuing," "ongoing," "expects," "intends" and similar words or phrases. Any or all of the forward-looking statements in (or conveyed orally regarding) this presentation may turn out to be inaccurate. The inclusion of or reference to forward-looking information in this presentation should not be regarded as a representation by Coastal or any other person that the future plans, estimates or expectations contemplated by Coastal will be achieved. Coastal has based these forward-looking statements largely on its current expectations and projections about future events and financial trends that Coastal believes may affect its financial condition, results of operations, business strategy and financial needs. Coastal's actual results could differ materially from those anticipated in such forward-looking statements as a result of risks, uncertainties and assumptions that are difficult to predict. Factors that could cause actual results to differ materially from those in the forward-looking statements include, without limitation, the risks and uncertainties discussed under "Risk Factors" in Form 10-K for the year ended December 31, 2020, Coastal's Quarterly Report on Form 10-Q for the most recent quarter, and in any of Coastal's subsequent filings with the Securities and Exchange Commission.

If one or more events related to these or other risks or uncertainties materialize, or if Coastal's underlying assumptions prove to be incorrect, actual results may differ materially from what Coastal anticipates. You are cautioned not to place undue reliance on forward-looking statements. Further, any forward-looking statement speaks only as of the date on which it is made and Coastal undertakes no obligation to update or revise any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events.

This presentation includes industry and trade association data, forecasts and information that Coastal has prepared based, in part, upon data, forecasts and information obtained from independent trade associations, industry publications and surveys, government agencies and other information publicly available to Coastal, which information may be specific to particular markets or geographic locations. Some data is also based on Coastal's good faith estimates, which are derived from management's knowledge of the industry and independent sources. Industry publications, surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable. Statements as to Coastal's market position are based on market data currently available to Coastal. Although Coastal believes these sources are reliable, Coastal has not independently verified the information contained therein. While Coastal is not aware of any misstatements regarding the industry data presented in this presentation, Coastal's estimates involve risks and uncertainties and are subject to change based on various factors. Similarly, Coastal believes that its internal research is reliable, even though such research has not been verified by independent sources.

Non-GAAP Financial Measures

This presentation includes certain non-GAAP financial measures for 2017 to exclude the impact of a deferred tax asset revaluation due to the enactment of the Tax Cuts and Jobs Act of 2017 (the "Tax Cuts and Jobs Act"), including adjusted net income, adjusted earnings per share, adjusted return on average assets and adjusted return on average shareholders' equity. These non-GAAP financial measures and any other non-GAAP financial measures that we discuss in this presentation should not be considered in isolation, and should be considered as additions to, and not substitutes for or superior to, measures of financial performance prepared in accordance with GAAP. There are a number of limitations related to the use of these non-GAAP financial measures versus their most directly comparable GAAP equivalents. For example, other companies may calculate non-GAAP financial measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of Coastal's non-GAAP financial measures as tools for comparison. See the Appendix to this presentation for a reconciliation of the non-GAAP financial measures used in (or conveyed orally during) this presentation to their most directly comparable GAAP financial measures.

This presentation also contains certain non-GAAP financial measures in addition to results presented in accordance with GAAP relating to "pre-tax, pre-provision net income" and "pre-tax, pre-provision return on average assets" to illustrate the impact of provision for loan losses and provision for income taxes on net income and return on average assets. The most directly comparable GAAP measure to "pre-tax, pre-provision net income" is net income. The most directly comparable GAAP measure to "pre-tax, pre-provision return on average assets" is return on average assets. See the Appendix to this presentation for a reconciliation of the non-GAAP financial measures used in (or conveyed orally during) this presentation to their most directly comparable GAAP financial measures.

This presentation also contains certain non-GAAP financial measures in addition to results presented in accordance with GAAP to illustrate and identify the impact of Paycheck Protection Program ("PPP") loans, Paycheck Protection Program Liquidity Facility ("PPPLF") borrowings, customer deposits from PPP loans, and related earnings and expenses. By removing these significant items and show what the results would have been without them we are providing investors with the information to better compare results with periods that did not have these significant items. "Adjusted Tier 1 leverage capital ratio, excluding PPP loans" is a non-GAAP measure that excludes the impact of PPP loans on balance sheet. The most directly comparable GAAP measure is Tier 1 leverage capital ratio. See the Appendix to this presentation for a reconciliation of the non-GAAP financial measures used in (or conveyed orally during) this presentation to their most directly comparable GAAP financial measures.

- **Integrate Coastal LPs**

Since Inception of the Wholesale Banking Group in 2016

FINTECH COMPANY STAGE

- **CCBX Division introduced January 2020 and was previously referred to as Wholesale Banking Group.**
  - Provides Banking as a Service ("BaaS") enabling broker dealers and digital financial service providers to offer banking services to their communities.
  - The "X" in CCBX is indicative of the technology services that our partners provide.

- **Infrastructure –** We continue to hire staff to build our infrastructure and for the addition of new partners. The investments we are making today are not for immediate returns but for longer-term returns that we believe will build value for shareholders while benefiting our customers, employees, and communities that we serve. We continue to work with a Fintech, with which we have an agreement and an investment in, to build a standardized platform to allow us to more profitably deliver BaaS to Fintechs desiring standardized banking services for their customers.

- **Cost –** As we build out CCBX, we will do our best to cover related costs with new revenues from CCBX customers. These hires are investments in our future and necessary to perform the services safely and soundly and to manage the risks associated with this line of business.

- **Risk –** Our Chief Risk Officer and Data Scientist/Architect with PhD in Artificial Intelligence are responsible for providing these services safely and soundly. We are building an integrated compliance and reporting system to monitor and address these risks. Although we carefully underwrite and complete extensive due diligence of each partner, we know that all of partners may not be successful, and like any new business some might fail. Through ongoing monitoring of each relationship, we believe that we will be able to minimize any impact, but recognize that income streams may diminish should a partner fail.

- **Compliance –** We are very cognizant of both our compliance responsibility and the *True Lender Doctrine*, and should any of our partners offer lending products, the Bank will be the True Lender and engage with the relationships accordingly.

- **Financial Reporting –** Starting with the fourth quarter 2019, we have changed references made to "wholesale" and "wholesale banking services" to "BaaS" and "BaaS fees."

- **Asset Growth –** Some of our fintech contracts include lending products which, if successful, may potentially lead to additional loan growth beyond the community bank's organic growth, use of funding from partners, increased utilization of capital, and additional growth in assets.

BANKING AS A SERVICE AND FINANCIAL INCLUSION

Coastal began offering Banking as a Service ("BaaS") with the belief that being flexible while holding our partners to strong compliance and regulatory standards would benefit both the fintech and their customers. We also believed that the partnerships would better help Coastal better understand the disruption that is occurring in the banking industry and allow us to meet the changing environment with a more informed view.

As we onboarded new partners, we began to appreciate the focus many fintechs have on financial services for the under-banked and un-banked in our country. Because we believe that financial inclusion is key to reducing poverty and inequities and could see the impact our partners were having on a variety of underserved constituents, we began to actively solicit like-branded fintechs to help them with the resources they needed to go to market.

Partnering with organizations focusing on financial inclusion through CCBX allows Coastal to broaden its impact on a scale and speed that could not be otherwise realized as a community bank.

Additionally, we are prioritizing diversity and inclusion focused proposals in our pipeline to ensure additional financial service providers are able to come to market and provide these much-needed resources. In these situations, CCBX is uniquely positioned to bring value to inclusion-focused challenger banks. CCBX has developed a business model which collaborates with each fintech partner as it is brought to market. Helping the partner ensure they will meet rigorous compliance requirements, understand how to implement unique products, all while having adequate capital to survive are key components of the relationship. Rather than offer a standard delivery model, the CCBX relationship is to consult with each business to deliver the services and support needed to launch their business.

STRONG COMMITMENT TO DIVERSITY & INCLUSION

73% of our CCBX partners have a diverse* CEO

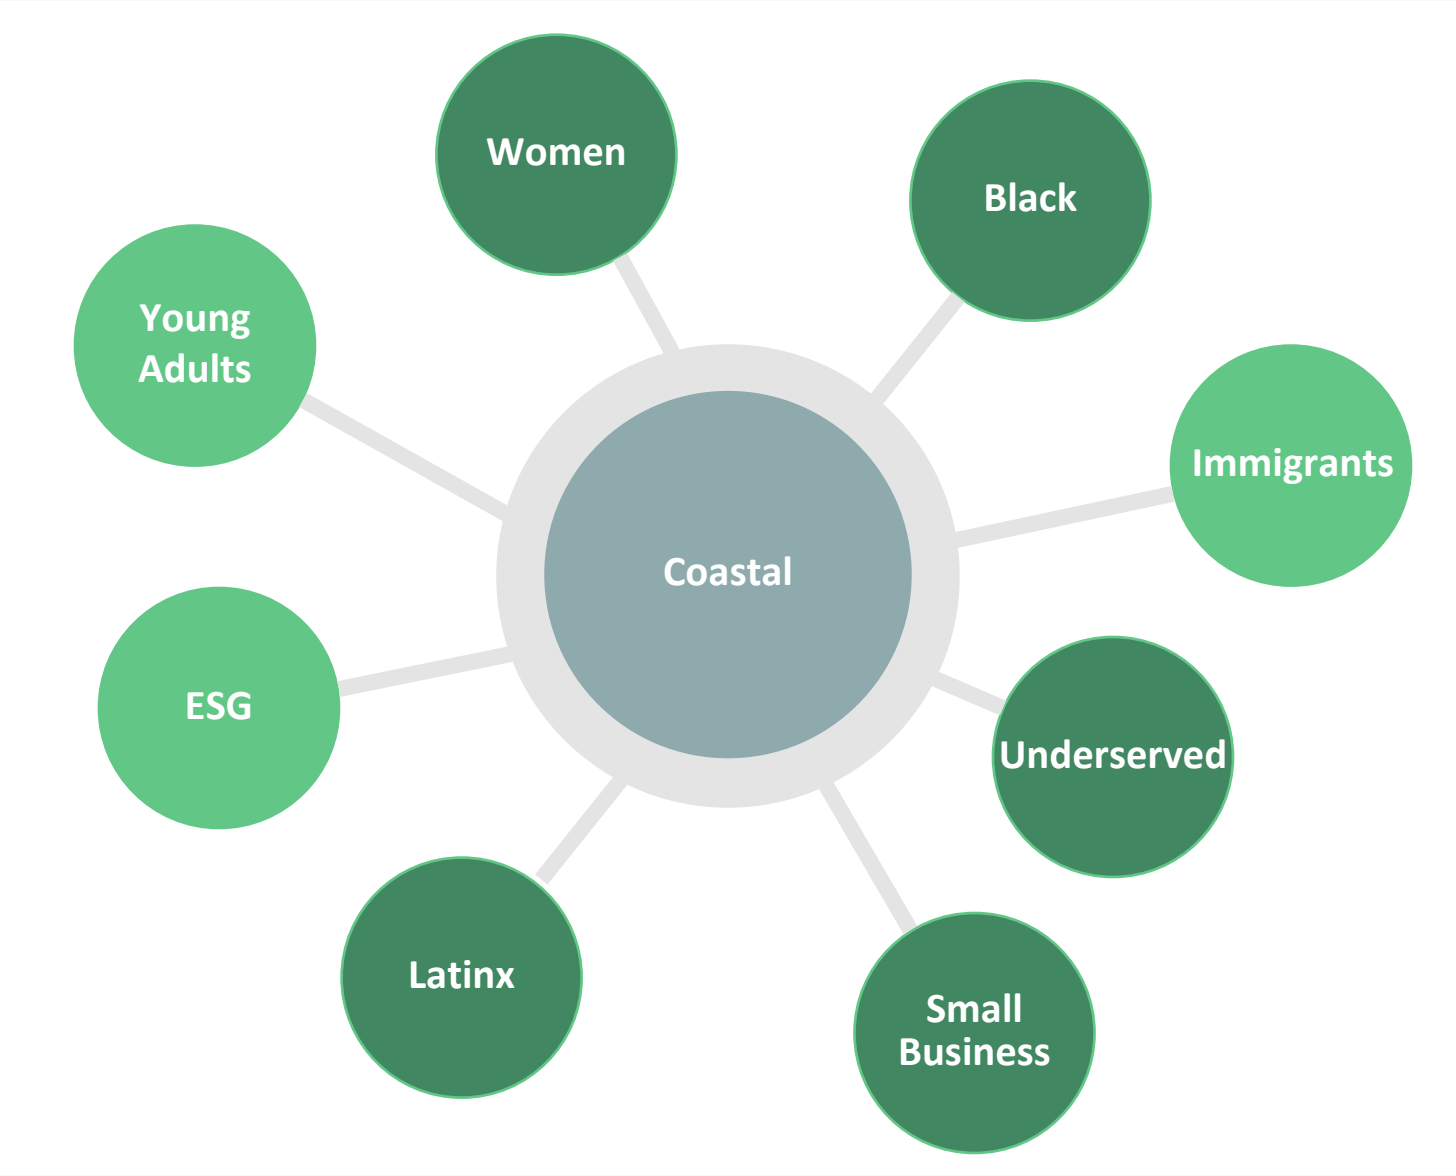

88% of our partners have a diverse* co-founder

Diversity and inclusion has been incorporated throughout our partnering process including:

- **Financial literacy for at-risk communities**
- **Underserved and under-represented minority communities**
- **Small dollar lending programs for underserved communities**
- **Environmental and social governance programs for environmental sustainability**
- **Green financing and responsible investments**
- **Low/no costs, no overdraft fees, robust transaction capabilities and free bill pay options**

* Minority or Female CEO

AUDIENCES SERVED BY CCBX FINTECH PARTNERS

CCDB - COASTAL'S DIGITAL BANK THROUGH COLLABORATION WITH GOOGLE

- **Coastal's collaboration with Google is anticipated to be a great avenue for us to reach existing customers, our communities, and expand to new communities in the coming years. We expect that the new platform will provide customers with an enhanced customer experience and provide them with new avenues to interact with us.**

- **Once launched, the Google Plex accounts will give Coastal the opportunity to tap into a younger demographic and offer consumer products to further diversify our customer base.**

- **Why is this important?**

  - **Already this year, we have seen community banks launch their own stand-alone digital bank (like Incredible Bank and Rising Bank).**

  - **To have sustained success, banks must continue to evolve by exploring new strategies, building new expertise and establishing new ways of doing business.**

NON-GAAP RECONCILIATION – PRE-TAX, PRE-PROVISION

Some of the financial measures included in this presentation are not measures of financial performance recognized by GAAP.

The following non-GAAP measures are presented to illustrate the impact of provision for loan losses and provision for income taxes on net income and return on average assets.

"Pre-tax, pre-provision net income" is a non-GAAP measure that excludes the impact of provision for loan losses and provision for income taxes from net income. The most directly comparable GAAP measure is net income.

"Pre-tax, pre-provision return on average assets" is a non-GAAP measure that excludes the impact of provision for loan losses and provision for income taxes from return on average assets. The most directly comparable GAAP measure is return on average assets.

Reconciliations of the GAAP and non-GAAP measures are presented below.

NON-GAAP RECONCILIATION – 2017 ADJUSTED MEASURES

Some of the financial measures included in this presentation are not measures of financial performance recognized by GAAP. Our management uses the non-GAAP financial measures set forth below in its analysis of our performance for 2017 to exclude the impact of a deferred tax asset revaluation due to the enactment of the Tax Cuts and Jobs Act.

- "Adjusted net income" is a non-GAAP measure defined as net income increased by the additional income tax expense that resulted from the revaluation of deferred tax assets as a result of the reduction in the corporate income tax rate under the recently enacted Tax Cuts and Jobs Act. The most directly comparable GAAP measure is net income.
- "Adjusted earnings per share" is a non-GAAP measure defined as net income, plus additional income tax expense as noted above, divided by weighted average outstanding shares (diluted). The most directly comparable GAAP measure is earnings per share.
- "Adjusted return on average assets" is a non-GAAP measure defined as net income, plus additional income tax expense as noted above, divided by average assets. The most directly comparable GAAP measure is return on average assets.
- "Adjusted return on average shareholders' equity" is a non-GAAP measure defined as net income, plus additional income tax expense as noted above, divided by average shareholders' equity. The most directly comparable GAAP measure is return on average shareholders' equity.
