XPEL INTRODUCES INTERIOR PROTECTION SOLUTION AND EXPANDS PATTERN LIBRARY

XPEL – a leading supplier of automotive paint protection films, window films, ceramic coatings and commercial/residential flat glass film – is pleased to introduce Interior Protection as a new solution for utilizing ULTIMATE PLUS, RX, STEALTH and the newly released ULTIMATE PLUS 7 and ULTIMATE PLUS 10 films. The Interior Protection solution, which offers pre-cut patterns for vehicle applications will address the accelerated advances in vehicle interiors.

The XPEL product family can be used to protect surfaces such as the center console, touch screens/infotainment systems, dashboards, door trims, and carbon fiber or piano black trims. Films are customized with a tailored fit to offer maximum durability and an optically clear finish that is virtually undetectable. XPEL films are self-healing and address damage to existing surfaces by filling in scratches to renew and restore the original finish.

The XPEL ULTIMATE PLUS product line offers a gloss finish and STEALTH line provides a matte finish. The RX film is designed to protect touch screens and provides an advanced anti-microbial barrier to control the spread of germs and bacteria.

Interior Protection Solutions:

- ULTIMATE PLUS, ULTIMATE PLUS 7 and ULTIMATE PLUS 10 for protecting gloss surfaces such as piano black interior consoles and trim pieces.
- RX for protecting touch screens.
- STEALTH for protecting and maintaining factory matte or stain finishes
- Expanded pattern library for interior vehicle surfaces

“We are extremely excited to introduce Interior Protection as a new solution for our XPEL product lineup,” said Mat Moreau, VP Sales & Products at XPEL. “Consumers and installers are eager to leverage our suite of protective films to protect, restore and renew vehicle interiors so they can look great and last a lifetime.”

The Interior Protection solution is now available through the existing XPEL installer network. XPEL films used in accordance with the warranty terms and conditions carry a comprehensive warranty package for ten years from the date of application and registration.
