Qualcomm Powers Next Generation Samsung Galaxy Note7

-- The Samsung Galaxy Note7 Integrates new Features, Including a Secure Iris Scanning Biometrics Support --

SAN DIEGO, Aug. 3, 2016 /PRNewswire/ -- Qualcomm Incorporated (NASDAQ: QCOM) today announced that its subsidiary, Qualcomm Technologies, Inc., is powering Samsung's most intelligent smartphone, the Samsung Galaxy Note7 for select regions. The Samsung Galaxy Note7 features the Qualcomm® Snapdragon™ 820 processor with an integrated X12 LTE modem, Qualcomm® Adreno™ 530 GPU, Qualcomm® Hexagon™ 680 DSP, and Qualcomm Haven™ that is a secure foundation for eye-based biometric scanning. The built-in Snapdragon 820 processor supports 4K video capture and playback on the Samsung Galaxy Note7 and offers support for slow motion video at 240 frames per second (fps). It also powers the Qualcomm Aqstic™ audio codec, providing users with impressive high-fidelity audio performance. Users will also be able to rapidly replenish the Note7's powerful 3,500mAh battery using Qualcomm® Quick Charge™ technology.

"Qualcomm Technologies and Samsung continue to build upon a long history of working together to provide consumers with superior mobile experiences, and we are pleased to do so again with the Galaxy Note7," said Alex Katouzian, senior vice president, product management, Qualcomm Technologies, Inc. "The powerful Snapdragon 820 processor, in concert with secure eye-based biometric authentication, offers users a truly next-generation mobile experience at their fingertips."

"We are pleased to offer a smartphone that comes with a secure iris scanning feature," said Hyungsuk Kim, vice president, multimedia R&D group, mobile communication business, Samsung Electronics. "We worked very closely with Qualcomm Technologies engineers to deliver security for biometrics technologies. The user can simply use their eyes to unlock the phone or make a mobile payment, while at ease that the latest mobile technologies are used to protect their personal and professional data."

The Samsung Galaxy Note7 will be available starting on August 19 in Blue Coral, Gold Platinum, Silver Titanium and Black Onyx. For additional product information, please visit www.samsungmobilepress.com, <http://news.samsung.com/galaxy> or www.samsung.com/galaxy.

About Qualcomm Incorporated
