Qualcomm Announces Snapdragon 5G Module Solutions to Rapidly Scale 5G Adoption in Smartphones and Major Verticals

-- New Highly Integrated and Optimized 5G Modules Designed to Support Faster Time to Market Through Simplifying end Device Designs, Reducing System Complexity and Lowering Entry Barriers for OEMs --

BARCELONA, Spain, Feb. 27, 2018 /PRNewswire/ -- Qualcomm Technologies, Inc., a subsidiary of Qualcomm Incorporated (NASDAQ: QCOM), today announced the launch of its Qualcomm® Snapdragon™ 5G Module Solutions engineered to support original equipment manufacturers (OEMs) looking to capitalize on 5G technologies with an easy path to commercialize 5G in smartphones and major verticals quickly. By aggregating the most fundamental components of 5G into simple modules, Qualcomm Technologies aims to simplify end device designs, lowers total cost of ownership and support faster time to commercialization to ultimately accelerate new OEM entrants' ability to adopt 5G in their systems.

About Qualcomm

Qualcomm invents breakthrough technologies that transform how the world connects and communicates. When we connected the phone to the Internet, the mobile revolution was born. Today, our inventions are the foundation for life-changing products, experiences, and industries. As we lead the world to 5G, we envision this next big change in cellular technology spurring a new era of intelligent, connected devices and enabling new opportunities in connected cars, remote delivery of health care services, and the IoT — including smart cities, smart homes, and wearables. Qualcomm Incorporated includes our licensing business, QTL, and the vast majority of our patent portfolio. Qualcomm Technologies, Inc., a subsidiary of Qualcomm Incorporated, operates, along with its subsidiaries, all of our engineering, research and development functions, and all of our products and services businesses, including, the QCT semiconductor business.
