PLUMAS BANCORP AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. THE BUSINESS OF PLUMAS BANCORP

During 2002, Plumas Bancorp (the "Company") was incorporated as a bank holding company for the purpose of acquiring Plumas Bank (the "Bank") in a one bank holding company reorganization. This corporate structure gives the Company and the Bank greater flexibility in terms of operation, expansion and diversification. Plumas Bancorp's Principal Executive Office is located in Reno, Nevada.

The Bank operates thirteen branches in California, including branches in Alturas, Chester, Chico, Fall River Mills, Greenville, Kings Beach, Portola, Quincy, Redding, Susanville, Tahoe City, Truckee and Yuba City. The Bank's newest branch was opened in April 2023 and is located in Chico, California. The Bank's administrative headquarters are in Quincy, California. In December 2015 the Bank opened a branch in Reno, Nevada, its first branch outside of California, and in 2018 the Bank purchased a branch located in Carson City, Nevada. In addition, the Bank operates a lending office specializing in government-guaranteed lending in Auburn, California, and a commercial/agricultural lending office in Klamath Falls, Oregon. The Bank's primary source of revenue is generated from providing loans to customers who are predominately small and middle market businesses and individuals residing in the surrounding areas.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Consolidation and Basis of Presentation

The consolidated financial statements include the accounts of the Company and the consolidated accounts of its wholly-owned subsidiary, Plumas Bank. All significant intercompany balances and transactions have been eliminated.

The accounting and reporting policies of Plumas Bancorp and subsidiary conform with accounting principles generally accepted in the United States of America and prevailing practices within the banking industry. In the opinion of management, the unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the Company's financial position at March 31, 2025 and the results of its operations and its cash flows for the three-month periods. Our condensed consolidated balance sheet at December 31, 2024 is derived from audited financial statements.

The unaudited condensed consolidated financial statements of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") for interim reporting on Form 10-Q. Accordingly, certain disclosures normally presented in the notes to the annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted. The Company believes that the disclosures are adequate to make the information not misleading. These interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2024 Annual Report to Shareholders on Form 10-K. The results of operations for the three-month period ended March 31, 2025, may not necessarily be indicative of future operating results. In preparing such financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the periods reported. Actual results could differ significantly from those estimates.

Segment Information

An operating segment is generally defined as a component of business for which discrete financial information is available and whose operating results are regularly reviewed by the chief operating decision maker. As a community-oriented financial institution, substantially all of the Company's operations involve the delivery of loan and deposit products to customers.

The chief operating decision maker makes operating decisions and assesses performance based on an ongoing review of the Company's community banking activities, which constitutes the Company's only operating segment for financial reporting purposes. The Company's single reportable segment is determined by the Chief Financial Officer, who is the designated chief operating decision maker, based upon information provided about the Company's products and services offered, primarily banking operations. The segment is also distinguished by the level of information provided to the chief operating decision maker, who uses such information to review performance of various components of the business such as branches and departments, which are then aggregated if operating performance, products/services, and customers are similar. The chief operating decision maker will evaluate the financial performance of the Company's business components such as by evaluating revenue streams, significant expenses, and budget to actual results in assessing the Company's segment and in the determination of allocating resources. The chief operating decision maker uses revenue streams to evaluate product pricing and significant expenses to assess performance and evaluate return on assets. The chief operating decision maker uses consolidated net income to benchmark the Company against its competitors. The benchmarking analysis coupled with monitoring of budget to actual results are used in assessment performance and in establishing compensation. Loans, investments, and deposits provide the revenues in the banking operation. Interest expense, provisions for credit losses, and payroll provide the significant expenses in the banking operation. The consolidated expense information is the same as is reported on the income statement as consolidated net income. The measure of segment assets is reported on the balance sheet as total consolidated assets. All operations are domestic.

3. INVESTMENT SECURITIES AVAILABLE FOR SALE

The amortized cost and estimated fair value of investment securities at March 31, 2025 and December 31, 2024 consisted of the following, in thousands:

Available-for-Sale

	March 31, 2025			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Debt securities:				
U.S. Government-sponsored agencies collateralized by mortgage obligations - residential	241,045	804	(12,295)	229,554
U.S. Government-agencies collateralized by mortgage obligations - commercial	139,991	962	(10,203)	130,750
Obligations of states and political subdivisions	96,442	435	(9,888)	86,989
	<u>\$ 477,478</u>	<u>\$ 2,201</u>	<u>\$ (32,386)</u>	<u>\$ 447,293</u>

Unrealized losses on available-for-sale investment securities totaling \$30,185,000 were recorded, net of \$8,923,000 in tax benefit, as accumulated other comprehensive loss within shareholders' equity at March 31, 2025. No investment securities were sold during the three months ended March 31, 2025. During the three months ended March 31, 2024, the Company sold 155 available-for-sale investment securities for proceeds of \$114,838,000 recording a \$19,826,000 loss on sale. The Company realized a gain on sale from 9 of these securities totaling \$86,000 and a loss on sale of 146 securities totaling \$19,912,000.

Available-for-Sale

	December 31, 2024			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Debt securities:				
U.S. Government-sponsored agencies collateralized by mortgage obligations - residential	243,709	138	(15,456)	228,391
U.S. Government-agencies collateralized by mortgage obligations - commercial	133,749	77	(11,956)	121,870
Obligations of states and political subdivisions	95,975	315	(8,816)	87,474
	<u>\$ 473,433</u>	<u>\$ 530</u>	<u>\$ (36,228)</u>	<u>\$ 437,735</u>

Unrealized losses on available-for-sale investment securities totaling \$35,698,000 were recorded, net of \$10,553,000 in tax benefits, as accumulated other comprehensive loss within shareholders' equity at December 31, 2024. During the twelve months ended December 31, 2024, the Company sold 157 available-for-sale investment securities for proceeds of \$116,285,000 recording a \$19,817,000 net loss on sale. The Company realized a gain on sale from ten of these securities totaling \$115,000 and a loss on sale of 147 securities totaling \$19,932,000.

There were no transfers of available-for-sale investment securities during the three months ended March 31, 2025 and twelve months ended December 31, 2024. There were no securities classified as held-to-maturity at March 31, 2025 or December 31, 2024.

Investment securities with unrealized losses at March 31, 2025 and December 31, 2024 are summarized and classified according to the duration of the loss period as follows, in thousands:

<u>March 31, 2025</u>	<u>Less than 12 Months</u>		<u>12 Months or More</u>		<u>Total</u>	
	<u>Fair Value</u>	<u>Unrealized Losses</u>	<u>Fair Value</u>	<u>Unrealized Losses</u>	<u>Fair Value</u>	<u>Unrealized Losses</u>
Debt securities:						
U.S. Government-sponsored agencies collateralized by mortgage obligations - residential	\$ 44,532	\$ 692	\$ 93,425	\$ 11,603	\$ 137,957	\$ 12,295
U.S. Government-agencies collateralized by mortgage obligations - commercial	8,360	41	66,966	10,162	75,326	10,203
Obligations of states and political subdivisions	18,959	492	47,945	9,396	66,904	9,888
	<u>\$ 71,851</u>	<u>\$ 1,225</u>	<u>\$ 208,336</u>	<u>\$ 31,161</u>	<u>\$ 280,187</u>	<u>\$ 32,386</u>

<u>December 31, 2024</u>	<u>Less than 12 Months</u>		<u>12 Months or More</u>		<u>Total</u>	
	<u>Fair Value</u>	<u>Unrealized Losses</u>	<u>Fair Value</u>	<u>Unrealized Losses</u>	<u>Fair Value</u>	<u>Unrealized Losses</u>
Debt securities:						
U.S. Government-sponsored agencies collateralized by mortgage obligations - residential	107,328	1,917	94,506	13,539	201,834	15,456
U.S. Government-agencies collateralized by mortgage obligations - commercial	55,921	926	57,735	11,030	113,656	11,956
Obligations of states and political subdivisions	18,938	250	48,460	8,566	67,398	8,816
	<u>\$ 182,187</u>	<u>\$ 3,093</u>	<u>\$ 200,701</u>	<u>\$ 33,135</u>	<u>\$ 382,888</u>	<u>\$ 36,228</u>

At March 31, 2025, the Company held 312 securities of which 39 were in a loss position for less than twelve months and 178 were in a loss position for twelve months or more. Of the 312 securities 94 are U.S. Government-sponsored agencies collateralized by residential mortgage obligations, 48 were U.S. Government agencies collateralized by commercial mortgage obligations and 170 were obligations of states and political subdivisions. The unrealized losses relate to market rate conditions. All of the securities continue to pay as scheduled. For available-for-sale debt securities in an unrealized loss position, the Company first assesses whether it intends to sell, or it is more likely than not that it will be required to sell the security before recovery of its amortized costs basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. At March 31, 2025, neither of the criteria regarding intent or requirement to sell was met for any of the securities in an unrealized loss position.

Unrealized losses on investments in obligations of U.S. government agencies and U.S. government sponsored agencies are caused by interest rate increases.

Obligations of states and political subdivisions: Management reviewed the collectability of the obligations of the states and political subdivisions taking into consideration such factors as the financial condition of the issuers, credit ratings, and other information. Management believes the unrealized losses on the obligations of states and political subdivisions are attributable to changes in the investment spreads and interest rates and not changes in the credit quality of the issuers.

The amortized cost and estimated fair value of investment in debt securities at March 31, 2025 by contractual maturity are shown below, in thousands.

	<u>Amortized Cost</u>	<u>Estimated Fair Value</u>
Within one year	\$ 585	\$ 584
After one year through five years	7,188	7,157
After five years through ten years	17,389	17,269
After ten years	71,280	61,979
Investment securities not due at a single maturity date:		
Government- agencies commercial mortgage-backed securities	139,991	130,750
Government-sponsored agencies residential mortgage-backed securities	241,045	229,554
	<u>\$ 477,478</u>	<u>\$ 447,293</u>

Expected maturities will differ from contractual maturities because the issuers of the securities may have the right to call or prepay obligations with or without call or prepayment penalties.

Investment securities with amortized costs totaling \$411,065,000 and \$225,313,000 and estimated fair values totaling \$387,167,000 and \$212,001,000 at March 31, 2025 and December 31, 2024, respectively, were pledged to secure deposits, repurchase agreements and Federal Reserve Bank borrowings.

4. LOANS AND THE ALLOWANCE FOR CREDIT LOSSES

Outstanding loans are summarized below, in thousands:

	March 31, 2025	December 31, 2024
Commercial	\$ 77,745	\$ 77,444
Agricultural	112,018	118,866
Real estate – residential	11,606	11,539
Real estate – commercial	660,926	646,378
Real estate – construction and land development	46,730	53,503
Equity lines of credit (Equity LOC)	38,634	37,888
Auto	58,295	64,734
Other	4,769	5,072
Total loans	1,010,723	1,015,424
Deferred loan costs, net	3,247	3,147
Loans, amortized cost basis	1,013,970	1,018,571
Allowance for credit losses	(13,319)	(13,196)
Total net loans	\$ 1,000,651	\$ 1,005,375

Salaries and employee benefits totaling \$603,000 and \$700,000 have been deferred as loan origination costs during the three months ended March 31, 2025 and 2024, respectively.

The Company assigns a risk rating to all loans and periodically, but not less than annually, performs detailed reviews of all criticized and classified loans over \$100,000 to identify credit risks and to assess the overall collectability of the portfolio. These risk ratings are also subject to examination by independent specialists engaged by the Company and the Company's regulators. During these internal reviews, management monitors and analyzes the financial condition of borrowers and guarantors, trends in the industries in which borrowers operate and the fair values of collateral securing these loans. These credit quality indicators are used to assign a risk rating to each individual loan.

The risk ratings can be grouped into three major categories, defined as follows:

Special Mention – Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard – A substandard loan is not adequately protected by the current sound worth and paying capacity of the borrower or the value of the collateral pledged, if any. Loans classified as substandard have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. Well defined weaknesses include a project's lack of marketability, inadequate cash flow or collateral support, failure to complete construction on time or the project's failure to fulfill economic expectations. They are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected.

Doubtful – Loans classified doubtful have all the weaknesses inherent in those classified as substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently known facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above-described process are considered to be pass-rated loans.

For other loans, which are primarily consumer loans and automobile loans the Company evaluates credit quality based on the aging status of the loan and by payment activity. Non-performing loans consist of nonaccrual loans and loans past due 90 days or more and still accruing.

Other Real Estate Owned

Other real estate owned relates to real estate acquired in full or partial settlement of loan obligations. At March 31, 2025, and December 31, 2024, other real estate owned totaled \$91,000, consisting of one single family residential real estate (SFR) property. There was one equity line of credit with a balance of \$122,000 secured by a SFR property for which formal foreclosure proceedings were in process at March 31, 2025 and one commercial loan with a balance of \$53,000 secured by a SFR property for which formal foreclosure proceedings were in process at December 31, 2024.

The following table presents the amortized cost basis of the loan portfolio allocated by management's internal risk ratings or payment activity at the dates indicated, in thousands:

<u>Amortized Cost Basis by Origination Year and Risk Grades - As of March 31, 2025</u>

The Company places loans 90 days or more past due on nonaccrual status unless the loan is well secured and in the process of collection. A loan is considered to be in the process of collection if, based on a probable specific event, it is expected that the loan will be repaid or brought current. Generally, this collection period would not exceed 90 days. When a loan is placed on nonaccrual status the Company's general policy is to reverse and charge against current income previously accrued but unpaid interest. Interest income on such loans is subsequently recognized only to the extent that cash is received, and future collection of principal is deemed by management to be probable. Where the collectability of the principal or interest on a loan is considered to be doubtful by management, it is placed on nonaccrual status prior to becoming 90 days delinquent.

The following tables show interest reversed against interest income for loans placed on nonaccrual status during the three months ended March 31, 2025 and 2024.

Three months ended:

(in thousands)	March 31, 2025	March 31, 2024
Commercial	\$ 4	\$ 4
Agricultural	1	-
Real estate – residential	-	9
Real estate – commercial	-	14
Equity lines of credit	4	10
Auto	3	2
Other	1	-
Total	\$ 13	\$ 39

On March 31, 2025, and December 31, 2024, there was one commercial nonaccrual loan with an amortized cost of \$52,000 and \$55,000, respectively that had an allowance for credit losses totaling \$29,000. No income was recognized on nonaccrual loans accounted on a cash basis during the three months ended March 31, 2025 and 2024.

The following table presents the amortized cost basis of loans at March 31, 2025, that were both experiencing financial difficulty and modified during the three months ended March 31, 2025, by class and by type of modification. The percentage of the amortized cost basis of loans that were modified to borrowers in financial distress as compared to the amortized cost basis of each class of financing receivable is also presented below.

<i>(in thousands)</i>	Term Extension	
	Amortized Cost Basis	Total Class of Financing Receivable
Agricultural	6,638	5.91%
Real estate – commercial	772	0.12%
Total	<u>\$ 7,410</u>	<u>0.73%</u>

The following table presents the financial effect of the loan modifications presented above to borrowers experiencing financial difficulty as of March 31, 2025:

	Weighted-Average Term Extension (in months)
Agricultural	5.4
Real estate – commercial	3.0
Total	<u>5.1</u>

The following table presents the amortized cost basis of loans at March 31, 2024, that were both experiencing financial difficulty and modified during the three months ended March 31, 2024, by class and by type of modification. The percentage of the amortized cost basis of loans that were modified to borrowers in financial distress as compared to the amortized cost basis of each class of financing receivable is also presented below.

<i>(in thousands)</i>	Term Extension	
	Amortized Cost Basis	Total Class of Financing Receivable
Commercial	<u>36</u>	<u>0.04%</u>

The following table presents the financial effect of the loan modifications presented above to borrowers experiencing financial difficulty as of March 31, 2024:

	Weighted-Average Term Extension (in months)
Commercial	<u>6.0</u>

Loans with payment defaults by borrowers experiencing financial difficulty during the three months ended March 31, 2025, which had material modifications in rate, term or principal forgiveness during the twelve months prior to default consisted of one Agricultural loan totaling \$2.0 million. This loan had a payment during the current quarter which brought it current as of March 31, 2025, under its modified terms. There were no loans payment defaults by borrowers experiencing financial difficulty during the three months ended March 31, 2024, which had material modifications in rate, term or principal forgiveness during the twelve months prior to default.

The following tables show the allocation of the allowance for credit losses at the dates indicated, in thousands:

5. COMMITMENTS AND CONTINGENCIES

The Company is party to claims and legal proceedings arising in the ordinary course of business. In the opinion of the Company's management, the amount of ultimate liability with respect to such proceedings will not have a material adverse effect on the financial condition or result of operations of the Company taken as a whole. In the normal course of business, there are various outstanding commitments to extend credit, which are not reflected in the financial statements, including loan commitments of \$157.9 million and \$155.4 million and stand-by letters of credit of \$0 at March 31, 2025 and December 31, 2024, respectively.

Of the loan commitments outstanding at March 31, 2025, \$15.5 million are real estate construction loan commitments that are expected to fund within the next twelve months. The remaining commitments primarily relate to revolving lines of credit or other commercial loans, and many of these are expected to expire without being drawn upon. Therefore, the total commitments do not necessarily represent future cash requirements. Each loan commitment and the amount and type of collateral obtained, if any, are evaluated on an individual basis. Collateral held varies, but may include real property, bank deposits, debt or equity securities or business assets. The reserve for unfunded commitments at March 31, 2025 and December 31, 2024 totaled \$620,000.

Stand-by letters of credit are conditional commitments written to guarantee the performance of a customer to a third party. These guarantees are primarily related to the purchases of inventory by commercial customers and are typically short-term in nature. Credit risk is similar to that involved in extending loan commitments to customers and accordingly, evaluation and collateral requirements similar to those for loan commitments are used.

6. EARNINGS PER SHARE

Basic earnings per share is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock, such as stock options, result in the issuance of common stock which shares in the earnings of the Company. The treasury stock method has been applied to determine the dilutive effect of stock options in computing diluted earnings per share.

(In thousands, except per share data)	For the Three Months Ended March 31,	
	2025	2024
Net Income:		
Net income	\$ 7,180	\$ 6,254
Earnings Per Share:		
Basic earnings per share	\$ 1.21	\$ 1.06
Diluted earnings per share	\$ 1.20	\$ 1.05
Weighted Average Number of Shares Outstanding:		
Basic shares	5,911	5,887
Effect of dilutive of stock options and restricted stock	91	59
Diluted shares	<u>6,002</u>	<u>5,946</u>

There were no stock options having an antidilutive effect during the three-month period ended March 31, 2025 and 2024.

7. STOCK-BASED COMPENSATION

In May 2022, the Company's shareholders approved the 2022 Equity Incentive Plan (the "2022 Plan"), which provides for the grant of up to 576,550 shares of common stock, including 126,550 shares that remained available for grant under the 2013 Stock Option Plan when the 2022 Plan was adopted. The 2022 Plan provides for the grant of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units and other stock-based awards. The frequency, amount and terms of stock-based awards may be determined by the Board of Directors or its compensation committee, consistent with the terms and purposes of the 2022 plan.

In May 2013, the Company established the 2013 Stock Option Plan for which 114,342 shares of common stock are reserved. With the establishment of the Company's 2022 Equity Incentive Plan, no further options may be issued under the 2013 Stock Option Plan, though options previously granted continue to be outstanding and governed by the 2013 Stock Option Plan.

There were no options granted under the 2022 Plan during the three months ended March 31, 2025. 107,200 options were granted under the 2022 Plan during the three months ended March 31, 2024. The fair value of each option was estimated on the date of grant using the following assumptions.

	2024
Expected life of stock options (in years)	6.2
Risk free interest rate	3.98%
Annualized Volatility	32.3%
Dividend yields	3.17%
Weighted-average fair value of options granted during the three months ended March 31, 2024	\$ 9.25

A summary of the activity within the 2013 Plan follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term in Years	Intrinsic Value
Options outstanding at January 1, 2024	165,517	\$ 21.52		
Options exercised	(32,070)	17.03		
Options cancelled	(1,600)	24.40		
Options outstanding at December 31, 2024	131,847	\$ 22.58		
Options cancelled				
Options exercised	(17,505)	23.44		
Options outstanding at March 31, 2025	<u>114,342</u>	\$ 22.45	2.0	\$ 2,381,744
Options exercisable at March 31, 2025	114,342	\$ 22.45	2.0	\$ 2,381,744

A summary of the activity within the 2022 Plan follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term in Years	Intrinsic Value
Options outstanding at January 1, 2024	105,500	\$ 31.00		
Options granted	107,200	34.07		
Options cancelled	(1,200)	34.07		
Options exercised	(1,300)	31.00		
Options outstanding at December 31, 2024	210,200	\$ 32.55		
Options granted	-			
Options cancelled	(1,560)	34.07		
Options exercised	(120)	34.07		
Options outstanding at March 31, 2025	208,520	\$ 32.54	7.9	\$ 2,237,420
Options exercisable at March 31, 2025	64,560	\$ 32.00	7.6	\$ 727,591
Expected to vest after March 31, 2025	134,271	\$ 32.78	8.1	\$ 1,408,503

As of March 31, 2025, there was \$1.2 million in total unrecognized compensation cost related to non-vested stock options under the 2022 plan. That cost is expected to be recognized over a weighted average period of 3.3 years. There were no unrecognized costs remaining under the 2013 plan as of March 31, 2025.

Information related to the stock options plans during the three months ended March 31, 2025 and 2024.

	2025	2024
Fair value of options vested	\$ 193,000	\$ 199,000
Intrinsic value of options exercised	\$ 372,000	\$ 532,000
Cash received from option exercises	\$ 329,000	\$ 359,000
Tax benefit from option exercises	\$ 17,000	\$ 69,000
Compensation cost	\$ 67,000	\$ 88,000
Tax benefit associated with compensation cost	\$ 5,000	\$ 7,000

During the three months ended March 31, 2024, the Company granted 3,033 restricted stock units with a fair value of \$34.07 per share and a one-year vesting period. Compensation costs related to these units during the three months ended March 31, 2025, and March 31, 2024, were \$14,000 and \$12,000, respectively. As of March 31, 2025, there was no unrecognized compensation cost related to restricted stock units.

8. INCOME TAXES

The Company files its income taxes on a consolidated basis with its subsidiary. Income tax expense is the total of current year income tax due or refundable and the change in deferred tax assets and liabilities.

Deferred tax assets and liabilities are recognized for the tax consequences of temporary differences between the reported amount of assets and liabilities and their tax bases. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. A valuation allowance is recognized if, based on the weight of available evidence, management believes it is more likely than not that some portion or all of the deferred tax assets will not be realized. On the consolidated balance sheet, net deferred tax assets are included in accrued interest receivable and other assets.

When tax returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the accompanying balance sheet along with any associated interest and penalties that would be payable to the taxing authorities upon examination.

Interest expense and penalties associated with unrecognized tax benefits, if any, are classified as income tax expense in the consolidated statements of income. There have been no significant changes to unrecognized tax benefits or accrued interest and penalties for the three months ended March 31, 2025 and 2024.

9. FAIR VALUE MEASUREMENT

FASB ASC 820, "Fair Value Measurement and Disclosures," defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

The Company measures fair value under the fair value hierarchy described below.

Level 1: Quoted prices for identical instruments traded in active exchange markets.

Level 2: Quoted prices (unadjusted) for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable or can be corroborated by observable market data.

Level 3: Model based techniques that use one significant assumption not observable in the market. These unobservable assumptions reflect the Company's estimates of assumptions that market participants would use on pricing the asset or liability. Valuation techniques include management judgment and estimation which may be significant.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

Management monitors the availability of observable market data to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total assets, total liabilities or total earnings.

Fair Value of Financial Instruments

FASB ASC 825, Financial Instruments, requires disclosure about fair value of financial instruments, including those financial assets and financial liabilities that are not required to be measured and reported at fair value on a recurring or nonrecurring basis. ASC 825 excludes certain financial instruments and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented may not necessarily represent the underlying fair value of the Company. The carrying amounts and estimated fair values of the Company's financial instruments are presented in the following tables whether or not recognized on the Consolidated Balance Sheets at fair value.

The carrying amounts and estimated fair values of financial instruments, at March 31, 2025 follows, in thousands:

		Fair Value Measurements at March 31, 2025, Using:			
	Carrying Value	Level 1	Level 2	Level 3	Total Fair Value
Financial assets:					
Cash and cash equivalents	\$ 87,327	\$ 87,327	\$ -	\$ -	\$ 87,327
Investment securities	447,293	-	447,293	-	447,293
Loans, net	1,000,651	-	-	974,008	974,008
FHLB stock	6,234	-	6,234	-	6,234
FRB Stock	1,383	-	1,383	-	1,383
Financial liabilities:					
Deposits	1,373,061	1,290,082	-	81,862	1,371,944
Repurchase agreements	18,732	-	18,732	-	18,732
Borrowings	15,000	-	-	14,083	14,083

The carrying amounts and estimated fair values of financial instruments, at December 31, 2024 follows, in thousands:

		Fair Value Measurements at December 31, 2024 Using:			
Financial assets:	Carrying Value	Level 1	Level 2	Level 3	Total Fair Value
Cash and cash equivalents	\$ 82,018	\$ 82,018	\$ -	\$ -	\$ 82,018
Investment securities	437,735	-	437,735	-	437,735
Loans, net	1,005,375	-	-	981,114	981,114
FHLB stock	6,234	-	6,234	-	6,234
FRB Stock	1,380	-	1,380	-	1,380
Financial liabilities:					
Deposits	1,371,101	1,276,912	-	94,161	1,371,073
Repurchase agreements	22,073	-	22,073	-	22,073
Borrowings	15,000	-	-	13,967	13,967

The methods and assumptions used to estimate the fair value of each class of financial instruments not measured at fair value are as follows:

Cash and cash equivalents - The carrying values of cash and due from banks are of such short duration that carrying value reasonably approximates fair value.

Loans - Loans are generally valued by discounting expected cash flows using market inputs with adjustments based on cohort level assumptions for certain loan types as well as internally developed estimates at a business segment level. Due to the significance of the unobservable market inputs and assumptions, as well as the absence of a liquid secondary market for most loans, these loans are classified as Level 3. Nonaccrual loans are written down and reported at their estimated recovery value which approximates their fair value and classified as Level 3.

FHLB/FRB stock -The carrying value of restricted equity investments approximates fair value based on the redemption provisions of the issuer and classified as Level 2.

Deposits - The estimated fair value of deposits with no stated maturity, such as demand deposit accounts, money market accounts, and savings accounts was the amount payable on demand at the reporting date. The fair value of time deposits was estimated based on a discounted cash flow technique using Level 3 inputs appropriate to the contractual maturity.

Repurchase agreements - The fair value of the repurchase agreement is based on Level 2 inputs. The primary inputs used in the valuation include the market interest rate and the credit quality of the underlying securities.

Borrowings - The cash flows were calculated using the contractual features of the borrowing and then discounted using observable market

Because no market exists for a significant portion of the Company's financial instruments, fair value estimates are based on judgments regarding current economic conditions, risk characteristics of various financial instruments and other factors. Those estimates that are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision are included in Level 3. Changes in assumptions could significantly affect the fair values presented.

These estimates do not reflect any premium or discount that could result from offering the Company's entire holdings of a particular financial instrument for sale at one time, nor do they attempt to estimate the value of anticipated future business related to the instruments. In addition, the tax ramifications related to the realization of unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in any of these estimates.

The following tables present information about the Company's assets and liabilities measured at fair value on a recurring and non-recurring basis as of March 31, 2025 and December 31, 2024, and indicate the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value:

Assets and liabilities measured at fair value on a recurring basis at March 31, 2025 are summarized below, in thousands:

		Fair Value Measurements at March 31, 2025 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	Total Fair Value			
Assets:				
U.S. Government-sponsored agencies collateralized by mortgage obligations-residential	229,554	-	229,554	-
U.S. Government agencies collateralized by mortgage obligations-commercial	130,750	-	130,750	-
Obligations of states and political subdivisions	86,989	-	86,989	-
	<u>\$ 447,293</u>	<u>\$ -</u>	<u>\$ 447,293</u>	<u>\$ -</u>

Assets and liabilities measured at fair value on a recurring basis at December 31, 2024 are summarized below, in thousands:

		Fair Value Measurements at December 31, 2024 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	Total Fair Value			
Assets:				
U.S. Government-sponsored agencies collateralized by mortgage obligations - residential	228,391	-	228,391	-
U.S. Government-agencies collateralized by mortgage obligations - commercial	121,870	-	121,870	-
Obligations of states and political subdivisions	87,474	-	87,474	-
	<u>\$ 437,735</u>	<u>\$ -</u>	<u>\$ 437,735</u>	<u>\$ -</u>

The fair value of securities available-for-sale equals quoted market price, if available. If quoted market prices are not available, fair value is determined using quoted market prices for similar securities or matrix pricing. There were no changes in the valuation techniques used during 2025 or 2024. Transfers between hierarchy measurement levels are recognized by the Company as of the beginning of the reporting period. Changes in fair market value are recorded in other comprehensive income.

Assets and liabilities measured at fair value on a non-recurring basis at March 31, 2025 are summarized below, in thousands:

	Fair Value Measurements at March 31, 2025 Using				
	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Losses Three Months Ended March 31, 2025
Assets:					
Collateral-dependent loans					
Commercial	\$ 24	\$ -	\$ -	\$ 24	\$ -
Other Real Estate Owned:					
RE – Residential	\$ 91	\$ -	\$ -	\$ 91	\$ -

Assets and liabilities measured at fair value on a non-recurring basis at December 31, 2024 are summarized below, in thousands:

	Fair Value Measurements at December 31, 2024 Using				
	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Losses Three Months Ended March 31, 2024
Assets:					
Collateral-dependent loans					
Commercial	\$ 24	\$ -	\$ -	\$ 24	\$ -
Other Real Estate Owned:					
RE – Residential	\$ 91	\$ -	\$ -	\$ 91	\$ -

The following methods were used to estimate fair value.

Collateral-Dependent Loans: The Bank does not record loans at fair value on a recurring basis. However, from time to time, fair value adjustments are recorded on these loans to reflect partial write-downs, through charge-offs or specific reserve allowances, that are based on fair value estimates of the underlying collateral. The fair value estimates for collateral-dependent loans are generally based on recent real estate appraisals or broker opinions, obtained from independent third parties, which are frequently adjusted by management to reflect current conditions and estimated selling costs (Level 3). No impairment charges were recognized during the three months ended March 31, 2025, and 2024, related to the above collateral dependent loan. The collateral- dependent loans at March 31, 2025 and December 31, 2024 consist solely of one loan which had been allocated a specific credit reserve.

Other Real Estate: Nonrecurring adjustments to certain real estate properties classified as other real estate owned are measured at the lower of carrying amount or fair value, less costs to sell. In cases where the carrying amount exceeds the fair value, less costs to sell, an impairment loss is recognized. Fair values are generally based on third party appraisals of the property which are commonly adjusted by management to reflect current conditions and selling costs (Level 3).

Appraisals for both collateral-dependent loans and other real estate are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Company. Once received, a member of the Loan Administration Department reviews the assumptions and approaches utilized in the appraisal as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. On a quarterly basis, the Company compares the actual selling price of similar collateral that has been liquidated to the most recent appraised value for unsold properties to determine what additional adjustment, if any, should be made to the appraisal value to arrive at fair value. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available.

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at March 31, 2025 and December 31, 2024 (dollars in thousands):

Description	Fair Value 3/31/2025	Fair Value 12/31/2024	Valuation Technique	Significant Unobservable Input	Range (Weighted Average) 3/31/2025	Range (Weighted Average) 12/31/2024
<u>Collateral-dependent loans</u>						
Commercial	\$ 24	\$ 24	Third Party appraisals	Management Adjustments to Reflect Current Conditions and Selling Costs	55%	53%
<u>Other Real Estate:</u>						
RE – Residential	\$ 91	\$ 91	Third Party appraisals	Management Adjustments to Reflect Current Conditions and Selling Costs	60%	60%

10. OTHER COMPREHENSIVE LOSS

The changes in the accumulated balances for each component of other comprehensive loss, net of tax for the three months ended March 31, 2024 and March 31, 2025 were as follows:

	Unrealized Losses on AFS Securities	Accumulated Comprehensive Loss, net of tax
Beginning Balance, January 1, 2024	\$ (46,088)	\$ (32,464)
Current year-to-date other comprehensive income	12,847	9,049
Ending balance, March 31, 2024	<u>\$ (33,241)</u>	<u>\$ (23,415)</u>
Beginning Balance, January 1, 2025	\$ (35,698)	\$ (25,145)

11. RECENT ACCOUNTING PRONOUNCEMENTS

Pending Accounting Pronouncements

Accounting Standards Update 2023-09 “Income Taxes (Topic 740) - Improvements to Income Tax Disclosures” (“ASU 2023-09”): In December 2023, the FASB amended the Income Taxes topic in the Accounting Standards Codification to improve the transparency of income tax disclosures. The amendments are effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. The Company does not expect these amendments to have a material effect on its financial statements. .

Accounting Standards Update 2024-03 “Income Statement Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): In November 2024, the FASB amended the Income Statement— Reporting Comprehensive Income topic in the Accounting Standards Codification to require public companies to disclose, in interim and annual reporting periods, additional information about certain expenses in the notes to financial statements. The amendments are effective for annual periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Early adoption is permitted. The Company does not expect these amendments to have a material effect on its financial statements.

Impact of Recently Issued Accounting Pronouncements

In November 2023, FASB issued ASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures" ("ASU 2023-07"), which amends the disclosure requirements related to segment reporting primarily through enhanced disclosure about significant segment expenses and by requiring disclosure of segment information on an annual and interim basis. ASU 2023-07 was effective January 1, 2024 and did not have a significant impact on the Company's financial statements.

PART I – FINANCIAL INFORMATION

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain matters discussed in this Quarterly Report are forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those projected in the forward-looking statements. Such risks and uncertainties include, among others, (1) significant increases in competitive pressures in the financial services industry; (2) changes in the interest rate environment resulting in reduced margins; (3) general economic conditions, either nationally or regionally, may be less favorable than expected, resulting in, among other things, a deterioration in credit quality; (4) changes in regulatory environment; (5) loss of key personnel; (6) fluctuations in the real estate market; (7) changes in business conditions and inflation; (8) operational risks including data processing systems failures or fraud; and (9) changes in securities markets. Therefore, the information set forth herein should be carefully considered when evaluating the business prospects of Plumas Bancorp (the “Company”).

When the Company uses in this Quarterly Report the words “anticipate”, “estimate”, “expect”, “project”, “intend”, “commit”, “believe” and similar expressions, the Company intends to identify forward-looking statements. Such statements are not guarantees of performance and are subject to certain risks, uncertainties and assumptions, including those described in this Quarterly Report. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, expected, projected, intended, committed or believed. The future results and stockholder values of the Company may differ materially from those expressed in these forward-looking statements. Many of the factors that will determine these results and values are beyond the Company’s ability to control or predict. For those statements, the Company claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

INTRODUCTION

The following discussion and analysis sets forth certain statistical information relating to the Company as of March 31, 2025 and December 31, 2024 and for the three-month periods ended March 31, 2025 and 2024. This discussion should be read in conjunction with the condensed consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q and the consolidated financial statements and notes thereto included in Plumas Bancorp’s Annual Report filed on Form 10-K for the year ended December 31, 2024.

Plumas Bancorp trades on The NASDAQ Capital Market under the ticker symbol “PLBC”.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

There have been no changes to the Company’s critical accounting policies from those disclosed in the Company’s 2024 Annual Report to Shareholders on Form 10-K.

SALES/LEASEBACK AND INVESTMENT RESTRUCTURING - March 31, 2024

On January 19, 2024, Plumas Bank entered into a purchase and sale of real property (the “Sale Agreement”). The Sale Agreement provided for the sale to MountainSeed of nine properties owned and operated by Plumas Bank as branches (the “Branches”) for an aggregate cash purchase price of approximately \$25.7 million. The sale was completed on February 14, 2024, resulting in a net gain on sale of \$19.9 million, recording of right-of-use assets totaling \$22.3 million and recording a lease liability of \$22.3 million.

Concurrently with the closing of the sale of the branch properties, we entered into triple net lease agreements (the “Lease Agreements”) pursuant to which Plumas Bank leased back each of the properties sold. Each Lease Agreement has an initial term of fifteen years with one 15-year renewal option. The Lease Agreements provide for an annual rent of approximately \$2.4 million in the aggregate for the nine properties increased by two percent (2%) per annum for each year during the initial Term. During the renewal term, the initial rent will be the basic rent during the last year of the initial term, increased by two percent (2%) per annum for each year during the renewal term.

The gain on sales of the branches was offset by losses on the sale of approximately \$115 million in investment securities. During the three months ended March 31, 2024, we sold \$115 million in investment securities having a weighted average tax equivalent yield of 2.24% recording a \$19.8 million net loss on the sales. As part of the restructuring, beginning in December 2023 and ending on March 27, 2024, we purchased \$120 million in investment securities having a weighted average tax equivalent yield of 5.25%.

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2025

Net Income. The Company recorded net income of \$7.2 million for the three months ended March 31, 2025, up from net income of \$6.3 million for the three months ended March 31, 2024. Increases of \$1.1 million in net interest income and \$1.1 million in non-interest income and a decline of \$571,000 in the provision for credit losses were partially offset by increases of \$1.1 million in non-interest expense and \$731,000 in the provision for income tax expense. The annualized return on average assets was 1.79% for the three months ended March 31, 2025, up from 1.55% for the three months ended March 31, 2024. The annualized return on average equity decreased from 16.4% during the first quarter of 2024 to 16.0% during the current quarter.

Net-interest income increased by \$1.1 million from \$17.4 million during the three months ending March 31, 2024, to \$18.5 million during the current quarter. The provision for credit losses decreased from \$821 thousand during the first quarter of 2024 to \$250 thousand during the current quarter.

Non-interest income increased by \$1.1 million from \$2.1 million during the three months ended March 31, 2024 to \$3.2 million during the first quarter of 2025 related to a legal settlement totaling \$1.1 million. This settlement related to the Dixie Fire in August of 2021 which swept through the town of Greenville, California. The fire caused severe damage to the Greenville area, including the telecommunications infrastructure which adversely affected our ability to service our customers in this area during the last few years.

Non-interest expense increased by \$1.1 million from \$10.4 million during the first quarter of 2024 to \$11.5 million during the current quarter. Of this amount \$569 thousand relates to costs associated with our pending acquisition of Cornerstone Community Bancorp. We signed a definitive agreement to acquire Cornerstone Community Bancorp on January 28, 2025. Merger transaction costs that facilitate the merger are not deductible for income tax purposes. Of the \$569 thousand in merger related costs, \$562 thousand is estimated to be not deductible for state and federal income tax.

The provision for income taxes increased by \$731 thousand from \$2.1 million, or 25.4% of pre-tax income, during the three months ended March 31, 2024 to \$2.9 million, or 28.5% of pre-tax income, during the current quarter.

The following is a detailed discussion of each component of the change in net income.

Net interest income before provision for credit losses. Driven mostly by growth in the loan portfolio and the repayment of the Bank Term Funding Program (BTFP) borrowings, net interest income increased by \$1.1 million from \$17.4 million during the three months ended March 31, 2024, to \$18.5 million for the three months ended March 31, 2025. The increase in net interest income includes an increase of \$564 thousand in interest income and a decline of \$518 thousand in interest expense.

Interest and fees on loans increased by \$804 thousand related both to an increase in average balance and an increase in yield. Average loan balances increased by \$48 million, while the average yield on loans increased by 8 basis points from 6.09% during the first quarter of 2024 to 6.17% during the current quarter. The average prime interest rate decreased from 8.5% during the first quarter of 2024 to 7.5% during the current quarter. Approximately 16% of the Company's loans are tied to the prime interest rate and most of these repriced within one to three months with a change in prime. The negative effect of the decrease in prime was offset by an increase in average yield on the bank's fixed rate portfolio which includes growth in fixed rate SBA loans which totaled \$74 million at March 31, 2025, and \$42 million at March 31, 2024. The weighted average rate earned on this portfolio at March 31, 2025, was 8.3%.

Interest on investment securities increased by \$114 thousand related to an increase in yield on investment securities of 44 basis points to 4.12%. The increase in investment yields is consistent with the partial restructuring of the investment portfolio during the first quarter of 2024. The effect of this increase in yield was mostly offset by a decline of \$36 million in average investment securities.

Interest on cash balances decreased by \$354 thousand related to a decline in average balance of \$14 million and a decrease in average rate paid on cash balances of 105 basis points from 5.57% during the first quarter of 2024 to 4.52% during the current quarter. This decline in yield was mostly related to a decline in rate paid on balances held at the Federal Reserve Bank (FRB). The average rate earned on FRB balances decreased from 5.40% during the first quarter of 2024 to 4.40% during the current quarter.

Interest expense decreased by \$518 thousand, mostly related to the repayment of the BTFP borrowings. See "Short-term Borrowing Arrangements" for a discussion additional discussion related to the BTFP. The average rate paid on interest bearing liabilities decreased from 1.33% during the 2024 quarter to 1.14% in 2025 related mainly to the decrease in these borrowings.

Interest paid on deposits increased by \$710 thousand and is broken down by product type as follows: money market accounts - \$770 thousand and savings deposits - \$26 thousand. The increase in interest paid on money market accounts mostly relates to an increase in public entity balances. Interest on time deposits declined by \$86 thousand related to a decline in average balance of \$3 million and a decline in rate paid of 27 basis points. During the second half of 2024 and continuing into 2025, we have offered a premium rate on large balances of public entities in our service area, matching the rate they could earn from the California local agency investment fund. This has led to a significant increase in these balances and an increase in the overall rate paid on money market accounts. The average rate paid on interest-bearing deposits increased from 0.75% during the first quarter of 2024 to 1.11% during the current quarter.

Net interest margin for the three months ended March 31, 2025, increased 33 basis points to 4.95%, up from 4.62% for the same period in 2024.

The following table presents for the three-month periods indicated the distribution of consolidated average assets, liabilities and shareholders' equity. It also presents the amounts of interest income from interest earning assets and the resultant annualized yields expressed in both dollars and annualized yield percentages, as well as the amounts of interest expense on interest bearing liabilities and the resultant cost expressed in both dollars and annualized rate percentages. Average balances are based on daily averages. Nonaccrual loans are included in the calculation of average loans while nonaccrued interest thereon is excluded from the computation of yields earned:

	For the Three Months Ended March 31, 2025			For the Three Months Ended March 31, 2024		
	Average Balance (in thousands)	Interest (in thousands)	Yield/ Rate	Average Balance (in thousands)	Interest (in thousands)	Yield/ Rate
Interest-earning assets:

Cost of funding interest-earning assets (4)			0.55%			0.68%
Net interest income and margin (5)		<u>\$ 18,539</u>	4.95%		<u>\$ 17,457</u>	4.62%

(1) Not computed on a tax-equivalent basis.

(2) Average nonaccrual loan balances of \$3.8 million for 2025 and \$5.6 million for 2024 are included in average loan balances for computational purposes.

(3) Net costs included in loan interest income for the three-month period ended March 31, 2025 and 2024 were \$275,000 and \$344,000, respectively.

(4) Total annualized interest expense divided by the average balance of total earning assets.

(5) Annualized net interest income divided by the average balance of total earning assets.

The following table sets forth changes in interest income and interest expense for the three-months ended March 31, 2025, and the amount of change attributable to variances in volume, rates and the combination of volume and rates based on the relative changes of volume and rates:

2025 over 2024 change in net interest income for the three months ended March 31,				
(in thousands)				
	Volume (1)	Rate (2)	Mix (3)	Total
Interest-earning assets:				
Loans	\$ 718	\$ 197	\$ (111)	\$ 804
Taxable investment securities	(25)	380	(33)	322
Non-taxable investment securities	(242)	58	(24)	(208)
Interest-bearing deposits	(186)	(194)	26	(354)
Total interest income	265	441	(142)	564
Interest-bearing liabilities:				
Money market deposits	120	494	156	770
Savings deposits	(6)	35	(3)	26
Time deposits	(21)	(62)	(3)	(86)
Other borrowings	(1,178)	(250)	206	(1,222)
Repurchase agreements & other	-	(6)	-	(6)
Total interest expense	(1,085)	211	356	(518)
Net interest income	\$ 1,350	\$ 230	\$ (498)	\$ 1,082

(1) The volume change in net interest income represents the change in average balance divided by the previous year's rate.

(2) The rate change in net interest income represents the change in rate divided by the previous year's average balance.

(3) The mix change in net interest income represents the change in average balance multiplied by the change in rate.

Provision for credit losses. During the first quarter of 2025 we recorded a provision for credit losses of \$250,000 consisting of a provision for credit losses on loans of \$250,000. This compares to a provision for credit losses of \$821,000 consisting of a provision for credit losses on loans of \$900,000 and a decrease in the reserve for unfunded commitments of \$79,000 during the first quarter of 2024. See "Analysis of Asset Quality and Allowance for Loan Losses" for a discussion of loan quality trends and the provision for credit losses.

Non-interest income. During the three months ended March 31, 2025, non-interest income totaled \$3.2 million, an increase of \$1.1 million from the three months ended March 31, 2024. The largest component of this increase was the \$1.1 million settlement related to the Dixie Fire as discussed earlier. This settlement is included in Other in the following table.

The following table describes the components of non-interest income for the three-month periods ended March 31, 2025 and 2024, dollars in thousands:

For the Three Months Ended March 31,				
	2025	2024	Dollar Change	Percentage Change
Service charges on deposit accounts	\$ 705	\$ 715	\$ (10)	(1.4)%
Interchange income	690	739	(49)	(6.6)%
Loan servicing fees	186	213	(27)	(12.7)%
FHLB Dividends	137	137	0	-%
Earnings on life insurance policies	109	96	13	13.5%
Gain on sale of buildings	-	19,854	(19,854)	(100.0)%
Loss on sale of investment securities	-	(19,826)	19,826	100.0%
Other	1,386	212	1,174	553.8%
Total non-interest income	\$ 3,213	\$ 2,140	\$ 1,073	50.1%

Non-interest expense. Non-interest expense increased by \$1.1 million from \$10.4 million during the first quarter of 2024 to \$11.5 million during the current quarter. Of this amount \$569,000 relates to costs associated with our pending acquisition of Cornerstone Community Bancorp. We signed a definitive agreement to acquire Cornerstone Community Bancorp on January 28, 2025. Merger transaction costs that facilitate the merger are not deductible for income tax purposes. Of the \$569,000 in merger related costs, \$562,000 is estimated to be not deductible for state and federal income tax. Salary and benefit expense increased by \$514,000 which includes an increase in salary expense of \$269,000 related primarily to merit and promotional salary increases. Related mostly to an increase in pre-tax income, bonus expense increased by \$216,000. A decrease in deferred loan origination fees of \$97,000 was offset by a decline in commission expense of \$137,000. Both items mostly relate to a decline in SBA loan production during the comparison quarters. Occupancy and equipment expense increased by \$324,000 from \$1.7 million during the first quarter of 2024 to \$2.0 million during the current quarter related to an increase of \$338,000 in rent expense related to the February 2024 sales/leaseback transaction.

The following table describes the components of non-interest expense for the three-month periods ended March 31, 2025 and 2024, dollars in thousands:

	For the Three Months Ended March 31,				Percentage Change
	2025	2024	Dollar Change		
Salaries and employee benefits	\$ 5,880	\$ 5,366	\$ 514		9.6%
Occupancy and equipment	2,014	1,690	324		19.2%
Outside service fees	1,263	1,132	131		11.6%
Merger and acquisition expenses	569	-	569		100.0%
Advertising and shareholder relations	262	244	18		7.4%
Professional fees	229	439	(210)		(47.8)%
Armored car and courier	217	203	14		6.9%
Deposit insurance	182	187	(5)		(2.7)%
Telephone and data communication	174	222	(48)		(21.6)%
Director compensation and expense	167	167	-		-%
Business development	167	153	14		9.2%
Loan collection expenses	72	104	(32)		(30.8)%
Amortization of Core Deposit Intangible	44	51	(7)		(13.7)%
Other	226	439	(213)		(48.5)%
Total non-interest expense	\$ 11,466	\$ 10,397	\$ 1,069		10.3%

Provision for income taxes. The Company recorded an income tax provision of \$2.9 million, or 28.5% of pre-tax income, for the three months ended March 31, 2025. This compares to an income tax provision of \$2.1 million, or 25.4% of pre-tax income, for the three months ended March 31, 2024. The percentages for 2025 and 2024 differ from statutory rates as tax exempt items of income such as earnings on Bank owned life insurance and municipal securities interest decrease taxable income. While non-deductible merger transaction costs incurred during the current quarter effectively increase taxable income.

FINANCIAL CONDITION

Total assets on March 31, 2025, were \$1.6 billion, an increase of \$10 million from December 31, 2024. The largest components of this increase were increases in investment securities of \$9.6 million and \$5.3 million in cash equivalents. These increases were partially offset by a decrease of \$4.7 million in net loans. Deposits increased by \$2.0 million and totaled \$1.4 billion at March 31, 2025. Accrued interest payable and other liabilities increased by \$1.9 million to \$14.4 million. The largest decline in liabilities was a decrease in repurchase agreements of \$3.3 million. Total liabilities were \$1.4 billion on March 31, 2025, and December 31, 2024. Shareholders' equity increased by \$9.7 million from \$177.9 million on December 31, 2024, to \$187.6 million on March 31, 2025. A detailed discussion of each of these changes follows.

Loan Portfolio. Gross loans decreased by approximately \$4.7 million, or 0.5%, and totaled \$1.0 billion on March 31, 2025, and December 31, 2024. The largest increases in loans were \$14.5 million in commercial real estate loans and \$746,000 in equity lines of credit. These were offset by declines of \$6.8 million in agricultural loans, \$6.8 million in construction and land development loans and \$6.4 million in auto loans. Although the Company offers a broad array of financing options, it continues to concentrate its focus on small to medium sized commercial businesses. These loans offer diversification as to industries and types of businesses, thus limiting material exposure in any industry concentrations. The Company offers both fixed and floating rate loans and obtains collateral in the form of real property, business assets and deposit accounts, but looks to business and personal cash flows as its primary source of repayment. In the fourth quarter of 2023 we terminated our indirect automobile loan program. Ending this program, which was our lowest yielding loan segment, also improved our loan loss risk profile since this program had historically higher charge-off rates. Terminating this program also improved our consumer compliance risk profile.

As shown in the following table the Company's largest lending categories are commercial real estate loans, agricultural loans, commercial loans and auto loans.

	Balance at End of Period		Percent of Loans in Each Category to Total Loans		Balance at End of Period		Percent of Loans in Each Category to Total Loans	
	03/31/2025		03/31/2025		12/31/2024		12/31/2024	
Commercial	\$	77,745	7.7%		\$	77,444	7.6%	
Agricultural		112,018	11.1%			118,866	11.7%	
Real estate – residential		11,606	1.1%			11,539	1.1%	

(dollars in thousands)

Real estate – commercial	660,926	65.4%	646,378	63.7%
Real estate – construction & land	46,730	4.6%	53,503	5.3%
Equity Lines of Credit	38,634	3.8%	37,888	3.7%
Auto	58,295	5.8%	64,734	6.4%
Other	4,769	0.5%	5,072	0.5%
Total Gross Loans	<u>\$ 1,010,723</u>	<u>100%</u>	<u>\$ 1,015,424</u>	<u>100%</u>

The Company's real estate related loans, including real estate mortgage loans, real estate construction and land development loans, consumer equity lines of credit, and agricultural loans secured by real estate, comprised 83% of the total loan portfolio at March 31, 2025. Moreover, the business activities of the Company currently are focused in the California counties of Butte, Lassen, Modoc, Nevada, Placer, Plumas, Shasta and Sutter and in Washoe and Carson City Counties in Northern Nevada. Consequently, the results of operations and financial condition of the Company are dependent upon the general trends in these economies and, in particular, the commercial real estate markets. In addition, the concentration of the Company's operations in these areas of Northeastern California and Northwestern Nevada exposes it to greater risk than other banking companies with a wider geographic base in the event of catastrophes, such as earthquakes, fires and floods in these regions.

Commercial real estate loans ("CRE"), which comprised 65% of the lending portfolio at March 31, 2025, included 27% investor-owned, 29% owner-occupied, and 9% multi-family. Concentrations by real estate type within the CRE portfolio, excluding multi-family, were 13% Mixed Commercial Real Estate, 13% Retail, 12% Office, 8% Hospitality, 8% Gas Stations, 8% Special Purpose, 7% Industrial, 6% Mini Storage Facilities, 6% Residential, and 5% Mixed Commercial and Residential, with all remaining concentrations below 5%. There were no rent-controlled properties within the multi-family category. Office facilities are typically small and located in more rural areas. 28% of CRE loans were located in northern Nevada and 48% were located in northern California. Of the \$3.7 million in non-accrual balances at March 31, 2025, approximately 29% were CRE. Of the \$21.5 million in substandard balances at March 31, 2025 approximately 23% were CRE.

CRE loans consist of term loans secured by a mortgage lien on real property and include both owner occupied CRE loans as well as investor-owned loans. Investor-owned CRE loans consist of mortgage loans to finance investments in real property that may include, but are not limited to, multi-family, industrial, office, retail and other specific use properties. The primary risk characteristics in the investor-owned portfolio include impacts of overall leasing rates, absorption timelines, levels of vacancy rates and operating expenses. The Company requires collateral values in excess of the loan amounts, cash flows in excess of expected debt service requirements and equity investment in the project. The expected cash flows from all significant new or renewed income producing property commitments are stress tested to reflect the risks in varying interest rates, vacancy rates and rental rates. Inherent lending risks are monitored on a continuous basis through quarterly monitoring and the Bank's annual underwriting process, incorporating an analysis of cash flow, collateral, market conditions and guarantor liquidity, if applicable. CRE loan policies are specific to individual product types and underwriting parameters vary depending on the risk profile of each asset class. CRE loan policies are reviewed no less than annually by management and approved by the Company's Board of Directors to ensure they align with current market conditions and the Company's moderate risk appetite. CRE concentration limits have been established by product type and are monitored quarterly by the Company's Board of Directors.

The rates of interest charged on variable rate loans are set at specific increments in relation to the Company's lending rate or other indexes such as the published prime interest rate or U.S. Treasury rates and vary with changes in these indexes. The frequency in which variable rate loans reprice can vary from one day to several years. At March 31, 2025, and December 31, 2024, approximately 77% of the Company's loan portfolio was comprised of variable rate loans. Loans indexed to the prime interest rate were approximately 20% of the Company's variable rate loan portfolio on March 31, 2025; these loans reprice within one day to three months of a change in the prime rate. The remainder of the Company's variable rate loans mostly consist of commercial real estate loans tied to U.S. Treasury rates and reprice every five years. Approximately 77% of the variable rate loans are indexed to the five-year T-Bill rate and reprice every five years. While real estate mortgage, agricultural, commercial and consumer lending remain the foundation of the Company's historical loan mix, some changes in the mix have occurred due to the changing economic environment and the resulting change in demand for certain loan types

Analysis of Asset Quality and Allowance for Credit Losses. The Company attempts to minimize credit risk through its underwriting and credit review policies. The Company's credit review process includes internally prepared credit reviews as well as contracting with an outside firm to conduct periodic credit reviews. The Company's management and lending officers evaluate the loss exposure of classified and nonaccrual loans on a quarterly basis, or more frequently as loan conditions change. The Management Asset Resolution Committee (MARC) reviews the asset quality of criticized and past due loans monthly and reports the findings to the full Board of Directors. In management's opinion, this loan review system helps facilitate the early identification of potential criticized loans. MARC also provides guidance for the maintenance and timely disposition of OREO properties including developing financing and marketing programs to incent individuals to purchase OREO. MARC consists of the Bank's Chief Executive Officer, Chief Financial Officer and Chief Credit Officer, and the activities are governed by a formal written charter. The MARC meets monthly and reports to the Board of Directors.

The allowance for credit losses is established through charges to earnings in the form of the provision for credit losses. Loan losses are charged to, and recoveries are credited to, the allowance for credit losses. The allowance for credit losses is maintained at a level deemed appropriate by management to provide for known and inherent risks in the loan portfolio.

To estimate the Allowance for Credit Loss (ACL), the Company elected to use the Discounted Cash Flow (DCF) methodology. This method uses loan level repayment terms to determine expected cash flows which are then discounted by various assumptions such as prepayment or curtailment rates, Probability of Default and Loss Given Default rates.

The ACL is measured on the loan's amortized cost over the remaining contractual lives of the loan portfolios, adjusted for industry average prepayment and curtailment rates. The Company established a 12-month term for forecasting economic conditions followed by a 24-month straight line reversion to historical average conditions as its basis for the probability of loan default. The probability of default rate is determined by reviewing loans with similar risk characteristics that are combined to form loan pools which are statistically correlated with historical credit losses, defaults and various economic metrics, including California Unemployment rates, California Housing Prices and California Gross Domestic Product. Pool balances that are determined to have probable default are then adjusted for expected Loss Given Default. The Company selected the Frye Jacobs Index as its basis for Loss Given Default. Model forecasts may be adjusted for inherent limitations or biases that have been identified through independent validation and annual back-testing of model performance to actual realized results.

At January 1, 2023, the adoption and implementation date of ASC Topic 326, March 31, 2025, and December 31, 2024, the Company utilized a reasonable and supportable forecast period of approximately four quarters and obtained the forecast data from publicly available sources. The Company also considered the impact of portfolio concentrations, changes in underwriting practices, and other risk factors that might influence its loss estimation process. Management believes that the allowance for credit losses at March 31, 2025, appropriately reflected expected credit losses inherent in the loan portfolio at that date.

In determining the allowance for credit losses, accruing loans with similar risk characteristics are generally evaluated collectively. The Company's policy is that loans designated as nonaccrual no longer share risk characteristics similar to other loans evaluated collectively and as such, all nonaccrual loans, in excess of \$100,000, are individually evaluated for reserves. As of March 31, 2025 and December 31, 2024, the Bank's nonaccrual loans comprised the entire population of loans individually evaluated. The Company's policy is that nonaccrual loans, in excess of \$100,000, also represent the subset of loans where borrowers are experiencing financial difficulty where an evaluation of the source of repayment is required to determine if the nonaccrual loans should be categorized as collateral dependent. Nonaccrual loans with a balance less than or equal to \$100,000 are evaluated collectively and consist primarily of automobile loans.

The following table provides certain information for the dates indicated with respect to the Company's allowance for credit losses as well as charge-off and recovery activity.

(dollars in thousands)	For the Three Months Ended March 31,		For the Year Ended December 31,

Total	\$ 13,319	100%	\$ 13,196	100%

At least quarterly, the Company evaluates each specific reserve and if it determines that the loss represented by the specific reserve is uncollectable it records a charge-off for the uncollectable portion. Specific reserves related to collateral dependent loans totaled \$29,000 at March 31, 2025, and December 31, 2024. The allowance for credit losses as a percentage of total loans was 1.32% on March 31, 2025, and 1.30% on December 31, 2024.

The following table sets forth the amount of the Company's nonperforming assets as of the dates indicated.

	At March 31, 2025	At December 31, 2024 2023 2022			
		(dollars in thousands)			
Nonaccrual loans	\$ 3,686	\$ 4,105	\$ 4,820	\$ 1,172	
Loans past due 90 days or more and still accruing	-	-	-	-	
Total nonperforming loans	3,686	4,105	4,820	1,172	
Other real estate owned	91	91	357	0	
Other vehicles owned	10	111	138	18	
Total nonperforming assets	\$ 3,787	\$ 4,307	\$ 5,315	\$ 1,190	
Interest income forgone on nonaccrual loans	\$ 69	\$ 301	\$ 257	\$ 121	
Interest income recorded on a cash basis on nonaccrual loans	\$ -	\$ -	\$ -	\$ -	
Nonperforming loans to total loans	0.36%	0.40%	0.50%	0.13%	
Nonperforming assets to total assets	0.23%	0.27%	0.33%	0.07%	

The Company places loans 90 days or more past due on nonaccrual status unless the loan is well secured and in the process of collection. A loan is considered to be in the process of collection if, based on a probable specific event, it is expected that the loan will be repaid or brought current. Generally, this collection period would not exceed 90 days. When a loan is placed on nonaccrual status the Company's general policy is to reverse and charge against current income previously accrued but unpaid interest. Interest income on such loans is subsequently recognized only to the extent that cash is received and future collection of principal is deemed by management to be probable. Where the collectability of the principal or interest on a loan is considered to be doubtful by management, it is placed on nonaccrual status prior to becoming 90 days delinquent.

Nonperforming loans at March 31, 2025, were \$3.7 million, a decrease of \$0.4 million from \$4.1 million at December 31, 2024.

A substandard loan is not adequately protected by the current sound worth and paying capacity of the borrower or the value of the collateral pledged, if any. Total substandard loans decreased by \$1.5 million from \$23.0 million on December 31, 2024, to \$21.5 million on March 31, 2025. Loans classified as special mention increased by \$12.2 million from \$12.0 million on December 31, 2024, to \$24.2 million at March 31, 2025. The increase relates to several agricultural loans that migrated to the special mention category.

It is the policy of management to make additions to the allowance for credit losses so that it remains appropriate to absorb the inherent risk of loss in the portfolio. Management believes that the allowance on March 31, 2025, is appropriate. However, the determination of the amount of the allowance is judgmental and subject to economic conditions which cannot be predicted with certainty. Accordingly, the Company cannot predict whether charge-offs of loans in excess of the allowance may occur in future periods.

OREO represents real property acquired by the Bank either through foreclosure or through a deed in lieu thereof from the borrower. Repossessed assets include vehicles and other commercial assets acquired under agreements with delinquent borrowers. OREO holdings represented one property totaling \$91,000 on March 31, 2025, and December 31, 2024.

Nonperforming assets as a percentage of total assets were 0.23% at March 31, 2025 and 0.27% at December 31, 2024.

The following table provides a summary of the change in the number and balance of OREO properties for the three months ended March 31, 2025 and 2024 (dollars in thousands):

	Three Months Ended March 31,			
	#	2025	#	2024
Beginning Balance	1	\$ 91	1	\$ 357
Additions	-	-	-	-
Dispositions	-	-	-	-
Provision from change in OREO valuation	-	-	-	-
Ending Balance	1	\$ 91	1	\$ 357

Investment Portfolio and Federal Reserve Balances. Total investment securities were \$447.3 million as of March 31, 2025, and \$437.7 million at December 31, 2024. Unrealized losses on available-for-sale investment securities totaling \$30.2 million were recorded, net of \$8.9 million in tax benefits, as accumulated other comprehensive loss within shareholders' equity at March 31, 2025. Unrealized losses on available-for-sale investment securities totaling \$35.7 million were recorded, net of \$10.6 million in tax benefits, as accumulated other comprehensive loss within shareholders' equity at December 31, 2024. During the first quarter of 2024 we sold \$116 million in investment securities having a weighted average tax equivalent yield of 2.24% recording a \$19.8 million loss on sale. Beginning in December 2023 and ending on March 27, 2024 we purchased \$120 million in investment securities having a weighted average tax equivalent yield of 5.25%. These sales and purchases were made as part of the investment restructure described earlier. No securities were sold during the three months ended March 31, 2025.

The investment portfolio at March 31, 2025, consisted of \$360.3 million in securities of U.S. Government-sponsored agencies and U.S. Government agencies, and 170 municipal securities totaling \$87.0 million. The investment portfolio at December 31, 2024, consisted of \$350.2 million in securities of U.S. Government-sponsored agencies and U.S. Government agencies, and 170 municipal securities totaling \$87.5 million.

There were no Federal funds sold at March 31 2025, and December 31, 2024; however, the Bank maintained interest earning balances at the Federal Reserve Bank totaling \$53.2 million at March 31, 2025, and \$47.2 million at December 31, 2024. The balance, on March 31, 2025, earns interest at the rate of 4.40%.

The Company classifies its investment securities as available-for-sale or held-to-maturity. Currently all securities are classified as available-for-sale. Securities classified as available-for-sale may be sold to implement the Company's asset/liability management strategies and in response to changes in interest rates, prepayment rates and similar factors.

Deposits. Deposits totaled \$1.4 billion on March 31, 2025, an increase of \$2 million from December 31, 2024. The increase in deposits includes increases of \$22.5 million in money market accounts and \$13.6 million in savings deposits. Partially offsetting these increases were declines of \$22.9 million in demand deposits, and \$11.2 million in time deposits. At March 31, 2025, 49% of the Company's deposits were in the form of non-interest-bearing demand deposits. The Company has no brokered deposits.

The following table shows the distribution of deposits by type at March 31, 2025 and December 31, 2024.

<i>(dollars in thousands)</i> Distribution of Deposits by Type	Balance at End of Period	Percent of Deposits in Each Category to Total Deposits	Balance at End of Period	Percent of Deposits in Each Category to Total Deposits
	03/31/2025	03/31/2025	12/31/2024	12/31/2024
Non-interest bearing	\$ 676,461	49.3%	\$ 699,401	51.0%
Money Market	290,125	21.1%	267,582	19.5%
Savings	323,496	23.6%	309,929	22.6%
Time	82,979	6.0%	94,189	6.9%
Total Deposits	\$ 1,373,061	100%	\$ 1,371,101	100%

Deposits represent the Bank's primary source of funds. Deposits are primarily core deposits in that they are demand, savings and time deposits generated from local businesses and individuals. These sources are considered to be relatively stable, long- term relationships thereby enhancing steady growth of the deposit base without major fluctuations in overall deposit balances. The Company experiences, to a small degree, some seasonality with the slower growth period between November through April, and the higher growth period from May through October. To assist in meeting any funding demands, the Company maintains several borrowing agreements as described below.

The Company estimates that it has approximately \$510 million in uninsured deposits which includes uninsured deposits of Plumas Bancorp. Of this amount, \$190 million represents deposits that are collateralized such as deposits of states, municipalities and tribal accounts. Uninsured amounts are estimated based on the portion of the account balances in excess of FDIC insurance limits.

The following table presents the maturity distribution of the portion of time deposits in excess of the FDIC insurance limit.

Maturity Distribution of Estimated Uninsured Time Deposits

<i>(dollars in thousands)</i>	March 31, 2025	December 31, 2024
Remaining maturity:		
Three months or less	\$ 8,024	\$ 11,697
After three through nine months	4,507	6,712
After six through twelve months	8,161	4,452
After twelve months	61	61
Total	\$ 20,753	\$ 22,922

Short-term Borrowing Arrangements. The Company is a member of the Federal Home Loan Bank of San Francisco (FHLB) and can borrow up to \$251 million from the FHLB secured by commercial and residential mortgage loans with carrying values totaling \$441 million. The Company is also eligible to borrow at the FRB Discount Window. At March 31, 2025 the Company could borrow up to \$115 million at the Discount Window secured by investment securities with a fair value of \$119 million. In addition to its FHLB borrowing line and the Discount Window, the Company has unsecured short-term borrowing agreements with two of its correspondent banks in the amounts of \$50 million and \$20 million. There were no outstanding borrowings to the FHLB, FRB Discount Window or the correspondent banks at March 31, 2025, and December 31, 2024.

The Federal Reserve Board, on March 12, 2023, announced the creation of the BTFP. At March 31, 2024, the Company had outstanding borrowings under the BTFP totaling \$105 million. All BTFP borrowings were paid off during 2024. Interest expense recognized on the BTFP borrowings for the three months ended March 31, 2024, was \$1.2 million.

Note Payable. The Company's borrowing at March 31, 2025, and December 31, 2024, consist of a Term Note entered into on January 25, 2022, which matures on January 25, 2035, and can be prepaid at any time. The Term Note bears interest at a fixed rate of 3.85% for the first 5 years and then at a floating interest rate linked to WSJ Prime Rate for the remaining eight-year term. The Note is secured by the common stock of the Bank. The Loan Agreement contains certain financial and non-financial covenants, which include, but are not limited to, a minimum leverage ratio at the Bank, a minimum total risk-based capital ratio at the Bank, a maximum Texas Ratio at the Bank, a minimum level of Tier 1 capital at the Bank and a return on average assets needed to generate a 1.25X debt service coverage ratio. The Loan Agreement also contains customary events of default, including, but not limited to, failure to pay principal or interest, the commencement of certain bankruptcy proceedings, and certain adverse regulatory events affecting the Company or the Bank. Upon the occurrence of an event of default under the Loan Agreement, the Company's obligations under the Loan Agreement may be accelerated. The Company was in compliance with all covenants related to the Term Note at March 31, 2025. Interest expense recognized on the Term Note for the three months ended March 31, 2025 and 2024 totaled \$145,000 and \$151,000, respectively.

Repurchase Agreements. The Bank offers a repurchase agreement product for its larger customers which use securities sold under agreements to repurchase as an alternative to interest-bearing deposits. Securities sold under agreements to repurchase totaling \$18.7 million and \$22.1 million at March 31, 2025, and December 31, 2024, respectively, are secured by U.S. Government agency securities with a carrying amount of \$38.8 million and \$38.5 million at March 31, 2025, and December 31, 2024, respectively. Interest paid on this product is similar to, but less than, that which is paid on the Bank's money market accounts; however, these are not deposits and are not FDIC insured. Interest expense recognized on repurchase agreements for the three months ended March 31, 2025 and 2024 totaled \$10,000 during both periods.

Shareholders' Equity. Shareholders' equity increased by \$9.7 million from \$177.9 million at December 31, 2024 to \$187.6 million at March 31, 2025. The \$9.7 million increase was related to net income during the current quarter of \$7.2 million, a decline in accumulated other comprehensive loss of \$3.9 million and stock option and restricted stock activity of \$411,000 partially offset by shareholder dividends of \$1.8 million.

It is the policy of the Company to periodically distribute excess retained earnings to the shareholders through the payment of cash dividends. Such dividends help promote shareholder value and capital adequacy by enhancing the marketability of the Company's stock. All authority to provide a return to the shareholders in the form of a cash or stock dividend or split rests with the Board of Directors. The Board will periodically, but on no regular schedule, review the appropriateness of a cash dividend payment. Banking regulations limit the amount of dividends that may be paid without prior approval of regulatory agencies. The Company paid a quarterly cash dividend of \$0.30 per share on February 17, 2025 and a quarterly cash dividend of \$0.27 per share on February 15, 2024, May 15, 2024, August 15, 2024, and November 15, 2024.

Capital Standards. The Company uses a variety of measures to evaluate its capital adequacy. Management reviews these capital measurements on a monthly basis and takes appropriate action to ensure that they are within established internal and external guidelines. The FDIC has promulgated risk-based capital guidelines for all state non-member banks such as the Bank. These guidelines establish a risk-adjusted ratio relating capital to different categories of assets and off-balance sheet exposures.

In July, 2013, the federal bank regulatory agencies adopted rules implementing the Basel Committee on Banking Supervision's capital guidelines for U.S. depository organizations, sometimes called "Basel III," that increased the minimum regulatory capital requirements for bank holding companies and depository institutions and implemented strict eligibility criteria for regulatory capital instruments. The Basel III capital rules include a minimum common equity Tier 1 ratio of 4.5%, a Tier 1 capital ratio of 6.0%, a total risk-based capital ratio of 8.0%, and a minimum leverage ratio of 4.0% (calculated as Tier 1 capital to average consolidated assets). The minimum capital levels required to be considered "well capitalized" include a common equity Tier 1 ratio of 6.5%, a Tier 1 risk-based capital ratio of 8.0%, a total risk-based capital ratio of 10.0% and a leverage ratio of 5.0%. In addition, the Basel III capital rules require that banking organizations maintain a capital conservation buffer of 2.5% above the minimum capital requirements in order to avoid restrictions on their ability to pay dividends, repurchase stock or pay discretionary bonuses. Including the capital conservation buffer of 2.5%, the Basel III capital rules require the following minimum ratios for a bank holding company or bank to be considered well capitalized: a common equity Tier 1 capital ratio of 7.0%, a Tier 1 capital ratio of 8.5%, and a total capital ratio of 10.5%. At March 31, 2025, the Company's and the Bank's capital ratios exceeded the thresholds necessary to be considered "well capitalized" under the Basel III framework.

Under the FRB's Small Bank Holding Company and Savings and Loan Holding Company Policy Statement (the "Policy Statement"), qualifying bank holding companies with less than \$3 billion in consolidated assets are exempt from the Basel III consolidated capital rules. The Company qualifies for treatment under the Policy Statement and is not currently subject to the Basel III consolidated capital rules at the bank holding company level. The Basel III capital rules continue to apply to the Bank.

In 2019, the federal bank regulators issued a rule establishing a “community bank leverage ratio” (the ratio of a bank’s tier 1 capital to average total consolidated assets) that qualifying institutions with less than \$10 billion in assets may elect to use in lieu of the generally applicable leverage and risk-based capital requirements under Basel III. A qualifying banking organization that elects to use the new ratio will be considered to have met all applicable federal regulatory capital and leverage requirements, including the minimum capital levels required to be considered “well capitalized,” if it maintains a community bank leverage ratio exceeding 9%. The new rule became effective on January 1, 2020. Plumas Bank has chosen not to opt into the community bank leverage ratio at this time.

The following table sets forth the Bank's actual capital amounts and ratios (dollar amounts in thousands):

	Minimum Amount of Capital Required					
	Actual		For Capital Adequacy Purposes (1)		To be Well-Capitalized Under Prompt Corrective Provisions	
					Amount	Ratio
March 31, 2025	Amount	Ratio	Amount	Ratio	Amount	Ratio
Common Equity Tier 1 Ratio	\$ 204,310	17.8%	\$ 51,717	4.5%	\$ 74,703	6.5%
Tier 1 Leverage Ratio	204,310	12.3%	66,234	4.0%	82,792	5.0%
Tier 1 Risk-Based Capital Ratio	204,310	17.8%	68,956	6.0%	91,942	8.0%
Total Risk-Based Capital Ratio	218,249	19.0%	91,942	8.0%	114,927	10.0%
December 31, 2024	Amount	Ratio	Amount	Ratio	Amount	Ratio
Common Equity Tier 1 Ratio	\$ 199,308	17.3%	\$ 51,981	4.5%	\$ 75,084	6.5%
Tier 1 Leverage Ratio	199,308	11.9%	66,856	4.0%	83,570	5.0%
Tier 1 Risk-Based Capital Ratio	199,308	17.3%	69,308	6.0%	92,411	8.0%
Total Risk-Based Capital Ratio	213,124	18.5%	92,411	8.0%	115,514	10.0%

(1) Does not include amounts required to maintain the capital conservation buffer under the new capital rules.

Management believes that Plumas Bank currently meets all its capital adequacy requirements.

The current and projected capital positions of the Bank and the impact of capital plans and long-term strategies are reviewed regularly by management. The Company policy is to maintain the Bank’s ratios above the prescribed well-capitalized ratios at all times.

Off-Balance Sheet Arrangements

Loan Commitments. In the normal course of business, there are various commitments outstanding to extend credits that are not reflected in the financial statements. Commitments to extend credit and letters of credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Annual review of commercial credit lines, letters of credit and ongoing monitoring of outstanding balances reduces the risk of loss associated with these commitments. As of March 31, 2025, the Company had \$157.9 million in unfunded loan commitments and no letters of credit. This compares to \$155.4 million in unfunded loan commitments at December 31, 2024. Of the \$157.9 million in unfunded loan commitments, \$94.1 million and \$63.8 million represent commitments to commercial and consumer customers, respectively. Of the total unfunded commitments at March 31, 2025, \$87.9 million were secured by real estate, of which \$32.9 million was secured by commercial real estate and \$55.0 million was secured by residential real estate mostly in the form of equity lines of credit. The commercial loan commitments not secured by real estate primarily represent business lines of credit, while the consumer loan commitments not secured by real estate primarily represent revolving credit card lines and overdraft protection lines. Since some of the commitments are expected to expire without being drawn upon the total commitment amounts do not necessarily represent future cash requirements.

Operating Leases. The Company’s leases eleven branches. Our Yuba City branch is classified as owned; however, it is subject to a long-term land lease. The Company also leases two lending offices and two administrative offices and owns three administrative facilities. The expiration dates of the leases vary, with the first such lease expiring during 2025 and the last such lease expiring during 2044. Including variable lease expense, total rent expense for the three months ended March 31, 2025, and 2024 was \$852,000 and \$514,000, respectively.

Liquidity

The Company manages its liquidity to provide the ability to generate funds to support asset growth, meet deposit withdrawals (both anticipated and unanticipated), fund customers' borrowing needs and satisfy maturity of short-term borrowings. The Company’s liquidity needs are managed using assets or liabilities, or both. On the asset side, in addition to cash and due from banks, the Company maintains an investment portfolio which includes unpledged U.S. Government-sponsored agency securities that are classified as available-for-sale. On the liability side, liquidity needs are managed by offering competitive rates on deposit products and the use of established lines of credit.

The Company is a member of the FHLB and can borrow up to \$251 million from the FHLB secured by commercial and residential mortgage loans with carrying values totaling \$441 million. The Company is also eligible to borrow at the FRB Discount Window. At March 31, 2025 the Company could borrow up to \$115 million at the Discount Window secured by investment securities with a fair value of \$119 million. In addition to its FHLB borrowing line and the Discount Window, the Company has unsecured short-term borrowing agreements with two of its correspondent banks in the amounts of \$50 million and \$20 million. There were no outstanding borrowings to the FHLB, FRB Discount Window or the correspondent banks at March 31, 2025, and December 31, 2024.

Customer deposits are the Company’s primary source of funds. Deposits totaled \$1.4 billion on March 31, 2025, an increase of \$2 million from December 31, 2024. Deposits are held in various forms with varying maturities. The Company estimates that it has approximately \$510 million in uninsured deposits which

includes uninsured deposits of Plumas Bancorp. Of this amount, \$190 million represents deposits that are collateralized such as deposits of states, municipalities and tribal accounts. Uninsured amounts are estimated based on the portion of the account balances in excess of FDIC insurance limits.

The Company's securities portfolio, Discount Window advances, FHLB advances, and cash and due from banks serve as the primary sources of liquidity, providing adequate funding for loans during periods of high loan demand. During periods of decreased lending, funds obtained from the maturing or sale of investments, loan payments, and new deposits are invested in short-term earning assets, such as cash held at the FRB and investment securities, to serve as a source of funding for future loan growth. Management believes that the Company's available sources of funds, including borrowings, will provide adequate liquidity for its operations in the foreseeable future.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management, including the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") as of March 31, 2025. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the U.S. Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of March 31, 2025.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended March 31, 2025 that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, the Company and/or its subsidiary are a party to claims and legal proceedings arising in the ordinary course of business. In the opinion of the Company's management, the amount of ultimate liability with respect to such proceedings will not have a material adverse effect on the financial condition or results of operations of the Company taken as a whole.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Form 10-Q you should carefully consider the risk factors that appeared under Item 1A, “Risk Factors” in the Company’s 2024 Annual Report. There are no material changes from the risk factors included within the Company’s 2024 Annual Report.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) None.

(b) None.

(c) None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

CERTIFICATION UNDER SECTION 302 OF THE SARBANES OXLEY ACT OF 2002

I, Richard L. Belstock, Chief Financial Officer, certify that:

1. I have reviewed this report on Form 10-Q of Plumas Bancorp;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
