Plants vs. Zombies Garden Warfare Blasts Its Way Onto Xbox One and Xbox 360 on February 18

Powered by Frostbite 3, Plants vs. Zombies Garden Warfare Combines a Best-In-Class Multiplayer Shooter Experience with the Fresh Humor of the Plants vs. Zombies Hit Series

REDWOOD CITY, Calif.--(BUSINESS WIRE)-- Prepare your peashooters! PopCap Games, a division of Electronic Arts Inc. (NASDAQ: EA), today announced that **Plants vs. Zombies™ Garden Warfare** will be shipping for Xbox One all-in-one games and entertainment system from Microsoft, and Xbox 360 videogame and entertainment system on February 18, 2014 in North America and February 20, 2014 in Europe. *Plants vs. Zombies Garden Warfare* is an action-packed third-person multiplayer shooter that puts players in the shoes—or roots—of their favorite characters from the popular *Plants vs. Zombies* franchise.

"Gamers across the world have fallen in love with the *Plants vs. Zombies* characters and now they'll get to see them in an entirely new light," said Brian Lindley, Producer on *Plants vs. Zombies Garden Warfare*. "*Plants vs. Zombies Garden Warfare* give the series' fans and shooter players a fun, new experience that they'll both enjoy as they blast, chomp and laugh their way through co-op and head-to-head online action."

Powered by the advanced Frostbite™ 3 engine, *Plants vs. Zombies Garden Warfare* features stunning, three-dimensional worlds, blooming with vibrant colors and unique landscapes. The game has more than 10 maps and three distinct modes including two 12v12 competitive multiplayer modes called *Garden & Graveyards* and *Team Vanquish*, and a four-player co-operative mode called *Garden Ops*. In *Garden & Graveyards*, plants must defend their garden bases from zombies attempting to turn them into spooky graveyards. Players can also square off in *Team Vanquish* as they try to send the other team to the compost pile. For gamers that just want to have a fun time with their friends, they can work together in *Garden Ops* battling off waves of zombies on the attack.

On Xbox One, *Plants vs. Zombies Garden Warfare* includes two extra modes including local cooperative split screen and *Boss Mode*. With split screen, players can team up with a friend on the couch to fight against an endless horde of zombies. In *Boss Mode*, gamers can utilize their Kinect or a SmartGlass device in any of the other gameplay modes to support their teams. Players have a top-down view of the battlefield and can help out their teammates with intel, health drops, revive stations and explosive artillery strikes.

Plants vs. Zombies Garden Warfare is available for pre-order at major retailers nationwide and at <http://www.origin.com> for \$39.99 for Xbox One and \$29.99 for Xbox 360. A PC version will be available at a later date.
