Donnelley Financial Solutions Takes Top M&A Technology Award for the Second Consecutive Year

November 03, 2017

Venue® Data Room named the 2017 Virtual Data Room of the year.

CHICAGO--(BUSINESS WIRE)-- Donnelley Financial Solutions, Inc. (NYSE:DFIN) today announced that the company's Venue® Data Room solution was named the top M&A technology service provider for the second year in a row at the Global M&A Network's 2017 Americas M&A Atlas Awards celebration. At the ninth annual gala, held on November 2 at Intrepid Museum in New York City, honorees also included the year's best transformative and value-creating deals, outstanding firms, and top performing global dealmakers from the international corporate, institutional investor, private equity, and deal advisory communities.

"Being recognized by the industry's leading global dealmakers for the second consecutive year is a tremendous honor," noted Craig Clay, Donnelley Financial Solutions President of Global Capital Markets. "It demonstrates that our client focused approach to providing cutting-edge, innovative deal technology is resonating with the market."

Over the past year, the investment in the company's Venue Deal Solution's technology suite allowed for the full integration of artificial intelligence technology within the platform, that helps streamline the legal and due diligence processes, creating efficiency for clients. In addition, it addresses every step of a company's growth, investment and liquidity processes, to better support the public and private markets alike.

"The M&A Atlas Award is the gold standard. It's based on real performance according to strict criteria," commented Cynthia Clarke, Chief Information Officer, Donnelley Financial Solutions. "With our strategy of being at the forefront of the market and constantly advancing our technology solutions, we're able to give our clients proprietary tools that not only ensure a smooth transaction but also delight the user."
