

NEWS RELEASE

DFIN NAMED TO NEWSWEEK'S LIST OF THE TOP 100 MOST LOVED WORKPLACES FOR 2023

9/20/2023

DFIN Ranked as #63 Among 100 U.S. Companies Recognized for Outstanding Employee Sentiment and Satisfaction

CHICAGO, Sept. 20, 2023 /PRNewswire/ -- DFIN (NYSE: DFIN), a leading risk and compliance company, today announced that it has been ranked #63 by [Newsweek](#) in the Top 100 Most Loved Workplaces® list. The 2023 Top 100 Most Loved Workplaces® are the result of a collaboration between Newsweek and the Best Practice Institute (BPI), a leadership development and benchmark research company.

The results were determined after surveying more than 2 million employees from businesses with workforces varying in size from 50 to more than 100,000. The list recognizes companies that have created a workplace where employees feel respected, inspired, and appreciated and are at the center of the business model.

Employee sentiments and emotions indicating how engaged employees are, how positive they feel about their workplace, and how committed they are to the organization's success were analyzed to identify the Top 100 Most Loved Workplaces.

"Our inclusion on this list is a testament to how the transformation of our culture has been compelling and centered around employee needs," said DFIN CEO Dan Leib. "We were happy to not only be named to this list for two years in a row, but very gratified to know that our scores in the areas of trust and perseverance increased since last year."

"With the rapidly changing workplace and competition for top talent, more companies are recognizing the importance of employee engagement and commitment," said Nancy Cooper, Global Editor in Chief, Newsweek. "The workplaces that have demonstrated a commitment to their employees in 2023 are more likely to attract the best talent and deliver strong business outcomes."

Methodology

To identify the top 100 companies for the Newsweek ranking, companies were evaluated and scored as follows: 35 percent of the initial score was based on employee survey responses; 25 percent was derived from analysis of external public ratings from sites such as Comparably, Careerbliss, Glassdoor, Indeed and Google; and 40 percent came from direct interviews with and written responses from company officials. Newsweek then conducted additional research into every company on the list, as well as the top runners up, to determine the final list of 100 companies and their ranking. (The list includes both U.S. firms and companies with a strong U.S. presence that are based overseas.)
