

NEWS RELEASE

DFIN Partners with Galvanize to Extend Audit and Compliance Offerings to Global Clients

2020-05-20

CHICAGO--(BUSINESS WIRE)-- Donnelley Financial Solutions (NYSE: DFIN), a leading risk and compliance company, today announced a strategic partnership with Galvanize, an award-winning, cloud-based security, risk management, compliance and audit software company. Galvanize was recently named a leader in The Forrester Wave™: Governance, Risk, And Compliance Platforms for the first-quarter 2020.

“The partnership with Galvanize accelerates DFIN’s position as a leading risk and compliance company with a comprehensive portfolio of technology-enabled solutions that meet the needs of clients globally,” said Craig Clay, president of Global Capital Markets at DFIN. “In these unprecedented times, our partnership with Galvanize gives us the ability to help our clients identify areas of revenue leakage, using Galvanize’s analytics engine powered by ACL Robotics. The combination of cloud-based tools and automation with ACL Robotics has revolutionized internal control and audit management. Our clients will benefit from the HighBond software platform, a complete GRC solution that includes industry-leading internal controls / SOX compliance, operational audit and enterprise risk management software solutions.”

The Galvanize HighBond platform is comprised of financial controls, risk and audit products among others that help companies manage organizational governance. The HighBond platform’s integrated machine learning reduces the manual work and friction within the business by learning from historical data, getting smarter over time, and automatically reducing false positives, while escalating the truly worrying risk indicators. Galvanize also incorporates ACL Robotics into their solutions, saving significant time and cost by automating data preparation, analysis and remediation.

“DFIN’s strong brand and reputation make them a trusted advisor as private companies transition to the regulatory

demands associated with being a public company,” said Pascal Van Dooren, chief revenue officer at Galvanize. “The Galvanize platform offers unique customer solutions to address the full lifecycle of audit, compliance and risk methodologies for companies, both leading up to and after they go public.”

About Galvanize

Galvanize builds award-winning, cloud-based security, risk management, compliance, and audit software to drive change in some of the world’s largest organizations. We believe GRC professionals should be the most sought after people in an organization and we’re on a mission to unite and strengthen individuals and entire organizations through the integrated HighBond software platform. With more than 6,300 customer organizations in 130 countries, Galvanize is connecting teams in many of the Fortune 1,000 and S&P 500 companies, and hundreds of government organizations, banks, manufacturers, and healthcare organizations. Whether these professionals are managing threats, assessing risk, measuring controls, monitoring compliance, or expanding assurance coverage, HighBond automates manual tasks, blends organization-wide data, and broadcasts it in easy-to-share dashboards and reports. But we don’t just make technology—we provide tools that inspire individuals to achieve great things

and do heroic work in the process. Learn more at wegalvanize.com
