

NEWS RELEASE

Primo Water Corporation to Present at the BMO Global Farm to Market Conference

2023-05-09

TAMPA, Fla., May 9, 2023 /PRNewswire/ – Primo Water Corporation (NYSE: PRMW) (TSX: PRMW) (the “Company” or “Primo”), a leading provider of sustainable drinking water solutions in North America and Europe, today announced that it will present at the BMO Global Farm to Market Conference on Thursday, May 18, 2023.

The presentation, which will begin at approximately 9:30 a.m. Eastern Time, will be webcast through the investor relations section of Primo Water’s website at [primowatercorp.com](https://www.primowatercorp.com) and will be archived for replay following the event.

For purposes of public disclosure, including this and future similar events, Primo Water uses the investor relations section of its website as the primary channel for publishing key information to its investors, some of which may contain material and previously non-public information.

ABOUT PRIMO WATER CORPORATION

Primo Water is a leading pure-play water solutions provider in North America and Europe and generates approximately \$2.2 billion in annual revenue. Primo Water operates largely under a recurring revenue model in the large format water category (defined as 3 gallons or greater). This business strategy is commonly referred to as “razor-razorblade” because the initial sale of a product creates a base of users who frequently purchase complementary consumable products. The razor in Primo Water’s revenue model is its industry leading line-up of innovative water dispensers, which are sold through approximately 10,000 retail locations and online at various price points. The dispensers help increase household and business penetration which drives recurring purchases of Primo Water’s razorblade offering or water solutions. Primo Water’s razorblade offering is comprised of Water

Direct, Water Exchange, and Water Refill. Through its Water Direct business, Primo Water delivers sustainable hydration solutions across its 21-country footprint direct to customers, whether at home or to businesses. Through its Water Exchange business, customers visit retail locations and purchase a pre-filled bottle of water. Once consumed, empty bottles are exchanged at our recycling center displays, which provide a ticket that offers a discount toward the purchase of a new bottle. Water Exchange is available in approximately 17,500 retail locations. Through its Water Refill business, customers refill empty bottles at approximately 23,500 self-service refill drinking water machines. Primo Water also offers water filtration units across its 21-country footprint.

Primo Water's water solutions expand consumer access to purified, spring, and mineral water to promote a healthier, more sustainable lifestyle while simultaneously reducing plastic waste and pollution. Primo Water is committed to its water stewardship standards and is proud to partner with the International Bottled Water Association (IBWA) in North America as well as with Watercoolers Europe (WE), which ensure strict adherence to safety, quality, sanitation and regulatory standards for the benefit of consumer protection.

Primo Water is headquartered in Tampa, Florida (USA). For more information, visit www.primowatercorp.com.
