## Belden Hosts Broadcast Day for Investors and Media

ST. LOUIS--(BUSINESS WIRE)-- Belden Inc. (NYSE: BDC), a global leader in signal transmission solutions for mission-critical applications, hosts Broadcast Day for investors and analysts today at the Grass Valley facility in Montréal, Quebec, Canada. This in-person event is another in Belden's ongoing educational series for investors and media.

The four hour event includes presentations, live product demonstrations, customer testimonials and a tour of Grass Valley's state-of-the-art manufacturing facility. Roel Vestjens, executive vice president of Broadcast Solutions, and Marco Lopez, president of Grass Valley, will be on hand to kick off the day.

"Given the number of changes in the platform over the last few years, it is imperative that our investors understand our role in the industry and the trends impacting our business," said Roel Vestjens. "Broadcast Day offers an excellent opportunity for investors to get comfortable with the newest technologies and business drivers for our Grass Valley brand."

Attendees will learn:

- Business drivers and technologies driving change in the industry
- Grass Valley's role as a trusted partner in the broadcast industry
- Why customers prefer Grass Valley solutions

A webcast of Broadcast Day will be available in the days following the event on <http://investor.belden.com>.

No new financial data will be provided, and guidance or forecasts will not be updated.

### About Belden

Belden Inc., a global leader in high-quality, end-to-end signal transmission solutions, delivers a comprehensive product portfolio designed to meet the mission-critical network infrastructure needs of industrial, enterprise and broadcast markets. With innovative solutions targeted at reliable and secure transmission of rapidly growing amounts of data, audio and video needed for today's applications, Belden is at the center of the global transformation to a connected world. Founded in 1902, the company is headquartered in St. Louis and has manufacturing capabilities in North and South America, Europe and Asia.
