

CAUTIONARY STATEMENT ON FORWARD-LOOKING INFORMATION

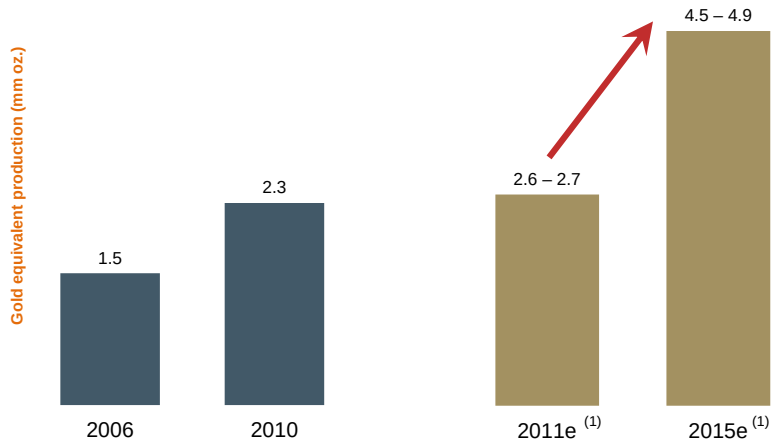

All statements, other than statements of historical fact, contained or incorporated by reference in or made in giving this presentation, including any information as to the future performance of Kinross, constitute "forward looking statements" within the meaning of applicable securities laws, including the provisions of the Securities Act (Ontario) and the provisions for "safe harbour" under the United States Private Securities Litigation Reform Act of 1995 and are based on expectations, estimates and projections as of the date of this presentation. Forward looking statements include, without limitation, possible events; opportunities; statements with respect to possible events or opportunities; estimates and the realization of such estimates; future development, mining activities, production and growth, including but not limited to cost and timing; success of exploration or development of operations; the future price of gold and silver; currency fluctuations; expected capital expenditures and requirements for additional capital; government regulation of mining operations and exploration; environmental risks; unanticipated reclamation expenses; and title disputes. The words "plans", "expects", "subject to", "budget", "estimate", "scheduled", "timeline", "projected", "pro forma", "estimates", "envision", "view", "forecasts", "guidance", "conceptual", "target", "possible", "illustrative", "model", "opportunity", "objective", "outlook", "potential", "intends", "anticipates" or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "can", "could", "would", "should", "might", "indicates", "will be taken", "become", "create", "occur", or "be achieved", and similar expressions identify forward looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Kinross as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Statements representing management's financial and other outlook have been prepared solely for purposes of expressing their current views regarding the Company's financial and other outlook and may not be appropriate for any other purpose. Many of these uncertainties and contingencies can affect, and could cause, Kinross' actual results to differ materially from those expressed or implied in any forward looking statements made by, or on behalf of, Kinross. There can be no assurance that forward looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. All of the forward looking statements made in this presentation are qualified by these cautionary statements, and those made in our filings with the securities regulators of Canada and the U.S., including but not limited to those cautionary statements made in the "Risk Factors" section of our most recently filed Annual Information Form, the "Risk Analysis" section of our FYE 2010 Management's Discussion and Analysis and the "Cautionary Statement on Forward-Looking Information" in our news release dated November 2, 2011, to which readers are referred and which are incorporated by reference in this presentation, all of which qualify any and all forward-looking statements made in this presentation. These factors are not intended to represent a complete list of the factors that could affect Kinross. Kinross disclaims any intention or obligation to update or revise any forward-looking statements or to explain any material difference between subsequent actual events and such forward-looking statements, except to the extent required by applicable law.

Other information

Where we say "we", "us", "our", the "Company", or "Kinross" in this presentation, we mean Kinross Gold Corporation and/or one or more or all of its subsidiaries, as may be applicable. The technical information about the Company's mineral properties (other than drilling and other exploration activities) contained in this presentation has been prepared under the supervision of Mr. Rob Henderson, an officer of the Company who is a "qualified person" within the meaning of National Instrument 43-101 ("NI 43-101"). The technical information about the Company's exploration activities contained in this presentation has been prepared under the supervision of and verified by Dr. Glenton Masterman, an officer of the Company who is a "qualified person" with the meaning of NI 43-101.

GROWTH THROUGH PROJECT DEVELOPMENT

KINROSS (1) Refer to endnote #1. 4

KINROSS TODAY

- **US$17 bn** market capitalization*
- **2.6 – 2.7 mm oz.** Au eq. in 2011e growing to **4.5 – 4.9 mm oz.** in 2015e(1)
- Strong liquidity position: **$1.9 bn** cash on balance sheet
- **Proven** developer in emerging gold districts

** Market capitalization as of market close November 3, 2011.*

8

OVERALL 2011 OUTLOOK CONFIRMED(1)

Region	Production (000 ounces)	% of Total Production	Production Cost of Sales(3) ($/oz.)
South America	945 – 980	36%	$650 – $675
North America	625 – 645	24%	$625 - $685
West Africa (attributable)	440 – 480	18%	$685 – $715
Russia	555 – 575	22%	$395 - $435
Total Kinross:	**2.6 – 2.7 million**	**100%**	**Gold equivalent: $565 - $610/oz. By-product(4): $520 - $570/oz.**

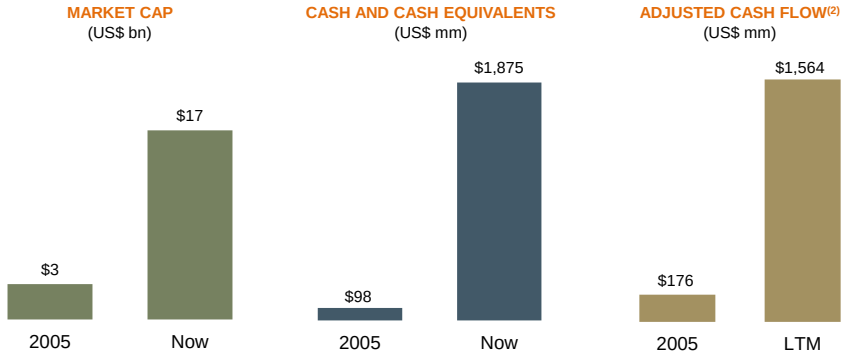

Key Sensitivities: *Approximately 60%-70% of the Company's costs are denominated in US dollars. A 10% change in foreign exchange could result in an approximate $7 impact on cost of sales per ounce. A $10 change in the price of oil could result in an approximate $3 impact on cost of sales per ounce. The impact on royalties of a $100 change in the gold price could result in an approximate $3 impact on cost of sales per ounce.*

PROJECT PIPELINE

Conceptual timeline based on current Company estimates.

15

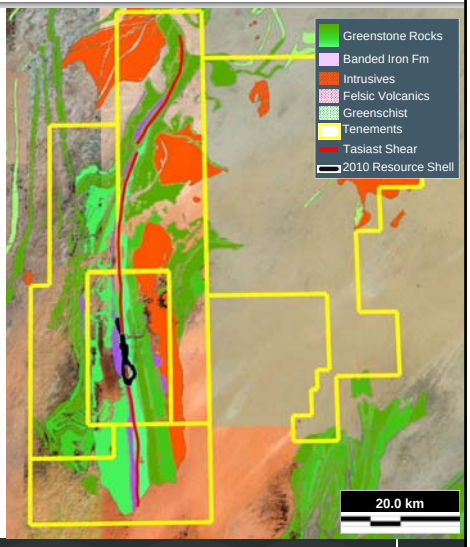

TASIAST, MAURITANIA

16

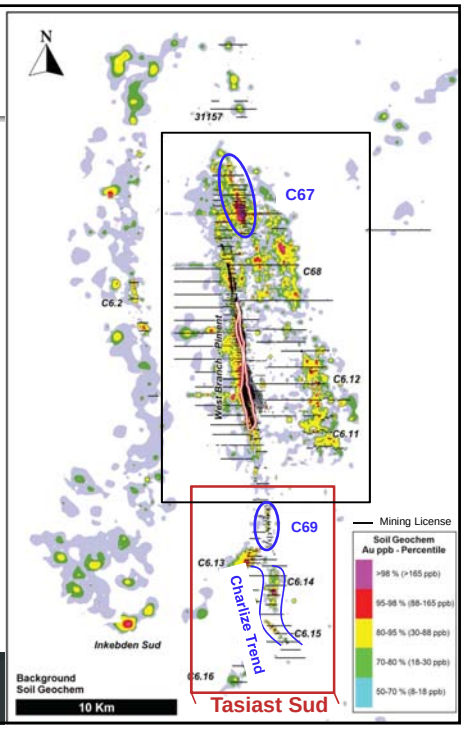

TASIAST, MAURITANIA

- Expanded drilling program focused around existing Tasiast mine
- Only 8 km of 80 km strike length tested
- Mining license area: 312 km^2
- Total exploration licenses area: 3,118 km^2

TASIAST DISTRICT

- Regional soil geochemistry and drilling
- Highly prospective district, large scale mineral system
- Drilling to focus on:
  - Scoping full extent of mineralization encountered at district targets (C67, C69)

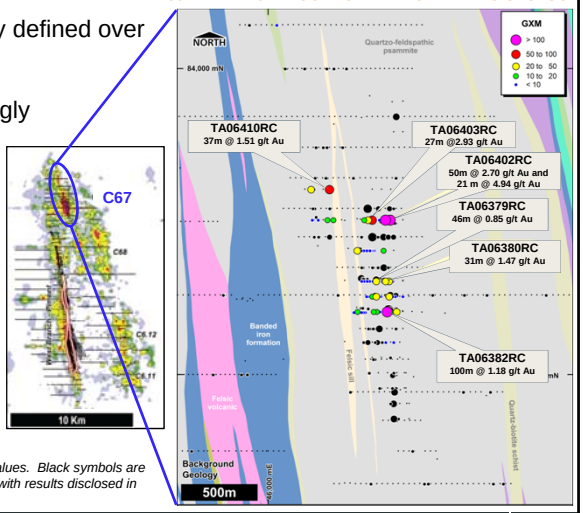

KINROSS

Refer to Kinross' news release dated August 10, 2011 for the technical information regarding this slide, which is available on our website at www.kinross.com.

C67 TARGET: TASIAST DISTRICT EXPLORATION

- Gold mineralization currently defined over 800 strike metres
- Results continue to be strongly encouraging
- Core follow-up drilling to determine orientation, geometry and potential vertical depth of mineralization

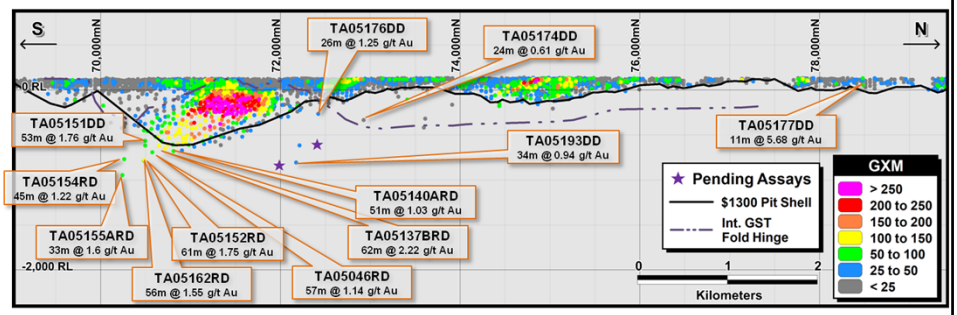

C67 DRILL HOLE LOCATION PLAN OVERLYING GEOLOGY

Symbols sized by grade (g/t Au) x thickness (metres) values. Black symbols are holes previously reported. Coloured symbols are holes with results disclosed in Kinross' news release dated November 2, 2011.

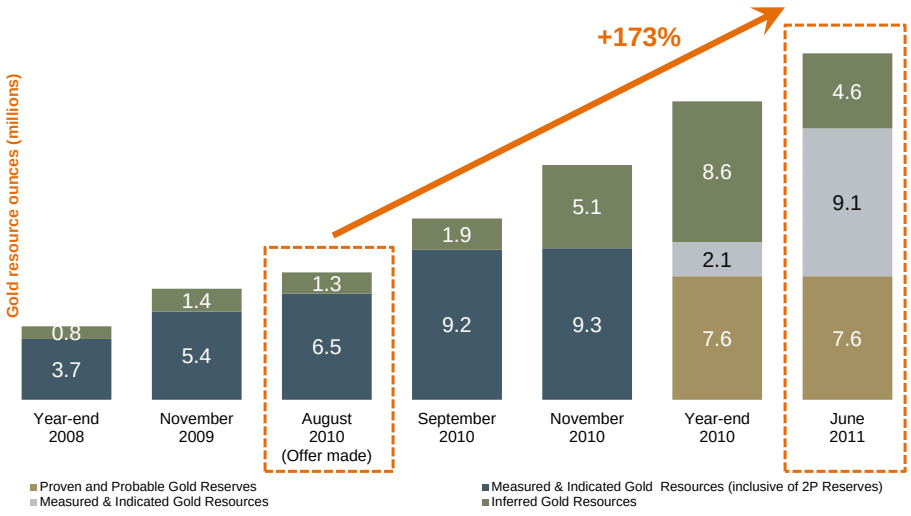

TASIAST DEPOSIT LONG-SECTION

- Deep drilling at West Branch continues to identify extensions of greenschist-style mineralization

** Coloured symbols represent grade (g/t Au) x thickness (metres) values illustrated in the GXM legend*

RESOURCE GROWTH AT TASIAST(6,8)

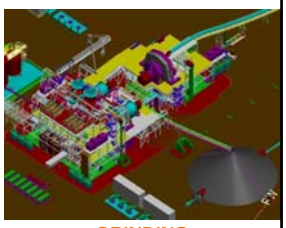

KINROSS

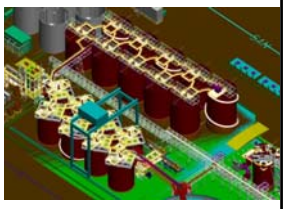

(6) Please refer to endnote #6.
(8) Please refer to endnote #8.

TASIAST, MAURITANIA

- Expansion project on schedule:
  - Feasibility study expected to be complete at the end of Q1/12
  - Construction expected to start mid-2012
  - Start-up of 60,000 tpd mill is targeted for mid-2014
- EIA for early works approved
  - Early earthworks and concrete foundations for the mill, on-site power plant foundations and 6,600 bed camp
  - Equipment and construction contractor being mobilized
- Basic and detailed engineering on 60,000 tpd process plant continues
- Advancing project procurements and equipment orders
  - Project-to-date commitments total $782 million
  - Expect capital commitments of $1 billion by year-end

GRINDING

LEACH PLANT & CIL PLANT

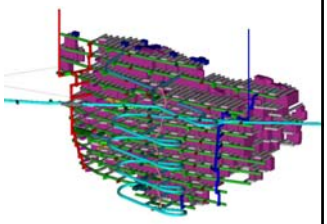

KINROSS

FRUTA DEL NORTE, ECUADOR

FRUTA DEL NORTE, ECUADOR

- Prepared pre-feasibility study and technical report
- Underground operation estimated 16-year mine life
- LOM avg. production estimate : 410k Au eq. oz. / year
- Phased commissioning:
  - Plant expected to process 2,500 tpd initially
  - POX circuit added 18 months post-commissioning
  - Ramp up over 3 years to ~5,000 tpd

Inferred Resources	19,553	5.50	3,460

(6) Please refer to endnote #6.

FRUTA DEL NORTE, ECUADOR

- Development of the exploration decline is on target and expected to be complete in 2013
- Mine and plant EIAs submitted in October
- Negotiations have progressed on exploitation agreement
- Commenced negotiations on investment protection agreement
- Feasibility study expected to be complete year-end 2011
- Expected to commission in 2014

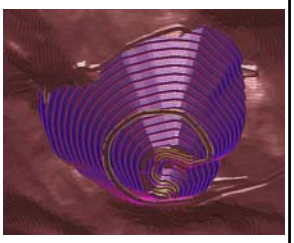

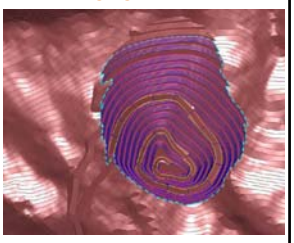

LOBO-MARTE, CHILE

LOBO-MARTE, CHILE

- Expected 47,000 tpd heap leach with SART plant
- 10-year mine life with estimated production of 350k oz. / year
- Drilling for feasibility study has been completed
- Re-deploying drills to Valy and Marte Northwest targets
- Project permitting on schedule
- Feasibility study expected Q4 2011
- Construction start-up targeted for Q4 2012
- Expected to commission in 2014

KUPOL – DVOINOYE, RUSSIA

KINROSS

28

DVOINOYE, RUSSIA

- Underground mine with an expected 8-year mine life
  - Expected avg. output of 900 tonnes per day (2013-2020)
- Ore to be processed at the Kupol mill
  - Throughput expected to increase to 4,000 tpd
- Development of exploration decline advanced to 650 metres as of end of Q3 2011
- Advanced engineering and procurement activities
- Feasibility study targeted for Q1 2012
- Expected to commission in H2 2013

2010 GOLD RESERVES AND RESOURCES[6]

NEW DISCOVERY AT LA COIPA, CHILE

KINROSS 30

POMPEYA: NEW DISCOVERY AT LA COIPA

- Significant gold and silver discovery
- Located 3 km northeast of La Coipa mill
  - Part of the CMLC JV property (75% Kinross)
- Significant intersections include:
  - **DPMP-006:** 58 m @ 1.15 g/t Au & 256 g/t Ag (6.99 g/t Au eq.)
  - **DPMP-015:** 146 m @ 2.4 g/t Au & 95.2 g/t Ag (4.58 g/t Au eq.)
  - **DPMP-016:** 166 m @ 1.86 g/t Au & 84.8 g/t Ag (3.79 g/t Au eq.)
  - **DPMP-020:** 212 m @ 1.45 g/t Au & 26.7 g/t Ag (2.06 g/t Au eq.)
- Step-out and infill drilling throughout Q4 and into 2012 to further define new zone

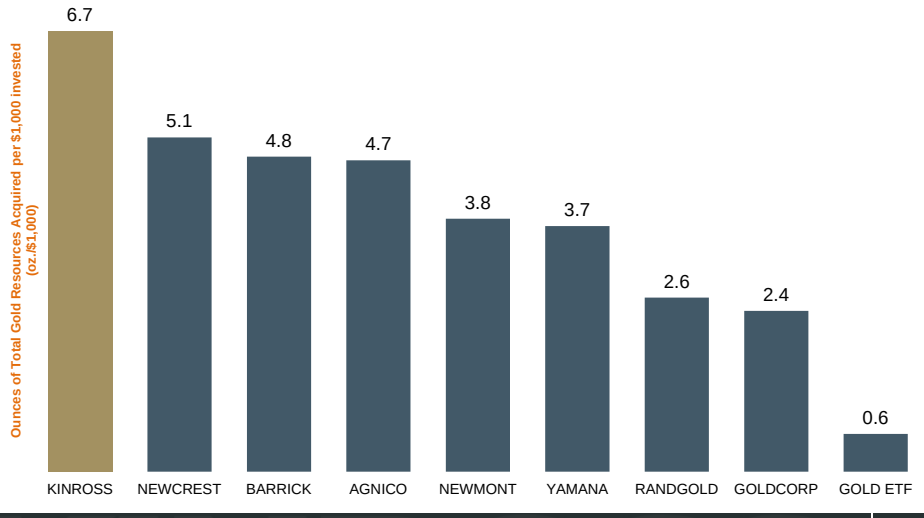

KINROSS

Refer to Kinross' news release dated November 2, 2011 for the complete list of drill results from this target and related technical information, which is available on our website at www.kinross.com.

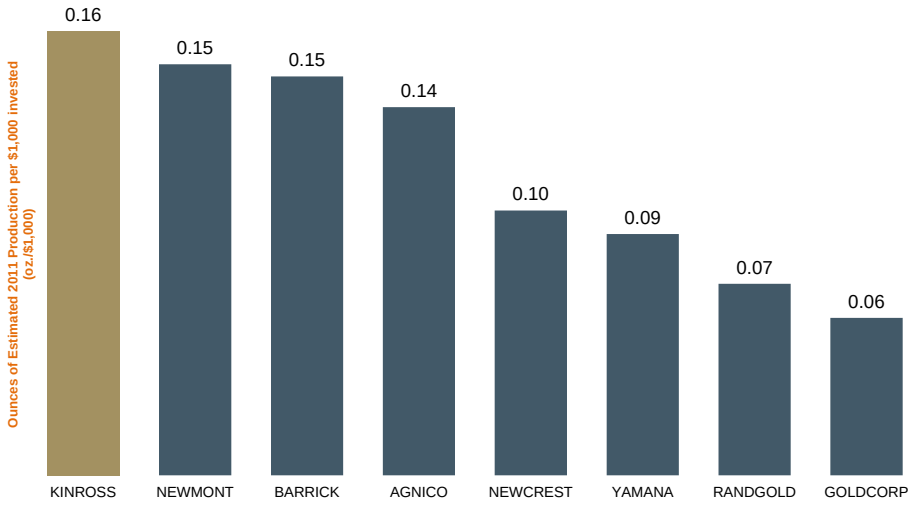

TOTAL RESOURCE OUNCES PER $1,000 INVESTED

2011e PRODUCTION PER $1,000 INVESTED

KINROSS Source: Company reports and Bloomberg L.P. – November 11, 2011 34

KEY OBJECTIVES

ADVANCING OUR PROJECTS

- ☑ Complete Tasiast scoping study
- ☑ Complete Fruta Del Norte pre-feasibility
- ☑ Complete Dvoinoye scoping study
- ☐ Complete Lobo-Marte feasibility study
- ☐ Complete Fruta del Norte feasibility study

OPTIMIZING THE ASSET BASE

- ☑ Declare NI 43-101 gold mineral resource at Dvoinoye
- ☑ Expand Tasiast drilling campaign and increase reported mineral resources
- ☑ Commence construction on La Zarza exploration decline at Fruta del Norte
- ☑ Complete purchase of Kupol minority interest for cash
- ☑ Complete commissioning of the 3rd ball mill at Paracatu
- ☑ Commence construction of the 4th ball mill at Paracatu
- ☑ Commission ADR plant at Maricunga
- ☑ Commence commissioning of new dump leach facility at Tasiast
- ☐ Negotiate Fruta del Norte exploitation agreement

BUILDING FINANCIAL STRENGTH / DELIVERING RESULTS

- ☑ Establish investment grade credit ratings for Kinross (previously un-rated)
- ☑ Complete $1 billion inaugural bond offering at blended rate of 5.28%
- ☑ Receive binding commitments for $200 million non-recourse financing for Kupol
- ☐ Achieve full year production of 2.6 – 2.7 million Au eq. oz.

KINROSS

35

WHY KINROSS?

1. Pure gold, high-growth senior producer
2. Robust operating cash flow from 10 operating mines today
3. Attractive valuation: leveraged cash flow, growth and exploration

36

FORT KNOX, USA (100%)

- Located in Alaska
- Expansion and new heap leach to extend mine life

OPERATING RESULTS

	PRODUCTION (Au eq. oz.)	PRODUCTION COST ($/oz.)
YTD Q3 2011	219,035	$675
FY 2010	349,729	$550

LEADING DEVELOPMENT IN NEW REGIONS

- **FIRST** North American gold mining company to develop a major mine in Russia
- **LARGEST** precious metals producer in Brazil and Chile
- **PIONEERING** development in Washington State and Alaska
- **ESTABLISHED** and expanding government relations and corporate social responsibility initiatives
  - New member of the Dow Jones Sustainability World Index
- **CREATED** the Kinross Way

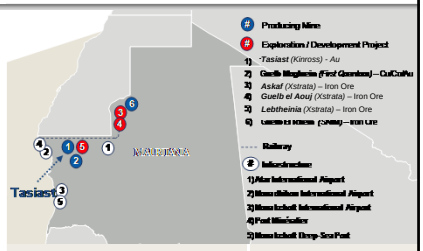

GOLD PRODUCTION FROM NEW PROJECTS

(i) Does not include current Tasiast production; estimated average annual production for first full 8 years
(ii) Estimated average annual life of mine production

MAURITANIA: KEY FACTS

- Among most sparsely-populated countries
- Gained independence from France in 1960
- Islamic state and democratic republic
  - President Aziz elected in July 2009 in UN-endorsed election
  - International agencies such as IMF and World Bank active in country
- Mining-friendly jurisdiction:
  - Well-developed, competitive mining law
  - Mining major export industry
- Major foreign companies include: Xstrata, BHP, First Quantum, SNC Lavalin, Bumi

POPULATION	3.2 million
LANGUAGE	Arabic (official); French (working)
GDP	US$6.3 billion (2008)
MINING AS % of GDP	20%
MINING AS % of EXPORTS	40%

Source: EIU April 2010 Country Report; the CIA World Factbook 2010 & Government of Mauritania

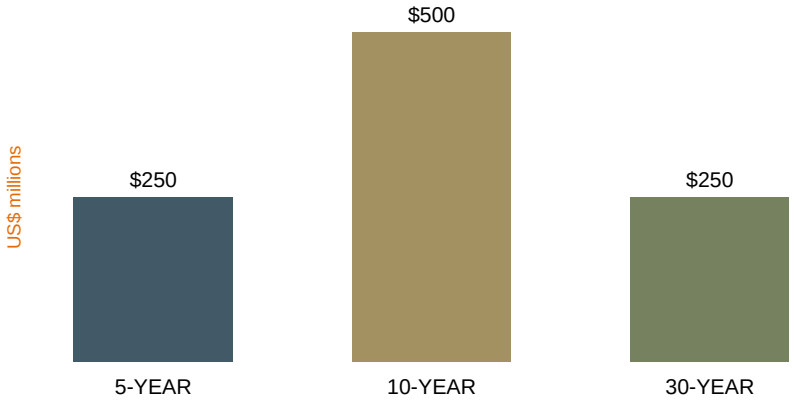

INCREASING KUPOL OWNERSHIP TO 100%

- Kinross increased Kupol ownership to 100% in 2011
  - Includes the Kupol East-West exploration licenses
- Total consideration: approx. $350 million
  - Financed through proceeds of Harry Winston share sale and non-recourse debt facility of $200 million
- Consolidates Kinross' ownership in a world-class gold district
  - Low-cost, high-margin producing asset
  - Key region with significant exploration potential
- Pre-approved by the State Commission for the Control of Foreign Investments

$1 BN THREE-TRANCHE DEBT OFFERING

- Kinross inaugural US bond issuance
- Weighted average cost of capital: 5.28%

ENDNOTES

1) "e" indicates an expectation. For more information regarding Kinross production and cost forecast for 2011, please refer to the press release dated November 2, 2011, available on our website at www.kinross.com. For more information regarding Kinross' production target for 2015, please refer to the news release dated February 16, 2011, available on our website at www.kinross.com. Unless otherwise noted, gold equivalent production, gold equivalent ounces sold and production cost of sales figures in this presentation are based on Kinross' ownership interest in Kupol (75% to April 27, 2011 and 100% thereafter) and 90% interest in Chirano.
2) Adjusted net earnings attributed to common shareholders and adjusted operating cash flow numbers are non-GAAP financial measures which are meant to provide additional information and should not be used as a substitute for performance measures prepared in accordance with GAAP. For more information about these non-GAAP measures, and a reconciliation of these non-GAAP financial measures for the three and nine months ended September 30, 2011 and September 30, 2010, please refer to the news release dated November 2, 2011, under the heading "Reconciliation of non-GAAP financial measures", available on our website at www.kinross.com. "LTM" refers to the twelve months ended September 30, 2011.
3) Production cost of sales per gold equivalent ounce is a non-GAAP measure defined as attributable production cost of sales divided by the attributable number of gold equivalent ounces sold. Production cost of sales is equivalent to total cost of sales per the financial statements less depreciation and amortization, and is generally consistent with cost of sales as reported under Canadian GAAP prior to the adoption of IFRS. For more information about this non-GAAP measures, and a reconciliation of this non-GAAP financial measure for the three and nine months ended September 30, 2011 and September 30, 2010, please refer to the news release dated November 2, 2011, under the heading "Reconciliation of non-GAAP financial measures", available on our website at www.kinross.com.
4) "Attributable production cost of sales on a by-product basis" is a non-GAAP measure and is defined as attributable production costs as per the consolidated financial statements less attributable silver revenue divided by the total number of attributable ounces sold. For more information about this non-GAAP measures, and a reconciliation of this non-GAAP financial measure for the three and nine months ended September 30, 2011 and September 30, 2010, please refer to the news release dated November 2, 2011, under the heading "Reconciliation of non-GAAP financial measures", available on our website at www.kinross.com.
5) "Attributable margin" is defined as the average realized price of gold less attributable production cost of sales per ounce.
6) For more information regarding Kinross' mineral reserves and mineral resources, please refer to Kinross' Annual Mineral Reserve and Mineral Resource Statement as of December 31, 2010, contained in the press release dated February 16, 2011, available on our website at www.kinross.com. "June 2011" or "Now" reflects Kinross' Mineral Reserve and Mineral Resource Statement as at December 31, 2010, updated to reflect Kinross' increase in ownership in the Kupol mine to 100% and the updated Tasiast mineral resource estimate contained in our news release dated August 10, 2011.
7) For more information regarding Kinross' expected exploration expenditure for 2011, please refer to the news release dated August 10, 2011 available on our website at www.kinross.com.
8) For historical Mineral Resource estimates relating to the Tasiast property, please refer to Red Back Mining's public filings, available under Red Back's profile on SEDAR.
