KINROSS GOLD CORPORATION

BANK OF AMERICA MERRILL LYNCH GLOBAL METALS, MINING & STEEL CONFERENCE

CAUTIONARY STATEMENT ON FORWARD-LOOKING INFORMATION

All statements, other than statements of historical fact, contained or incorporated by reference in this presentation, including any information as to the future performance of Kinross, constitute "forward looking statements" within the meaning of applicable securities laws, including the provisions of the Securities Act (Ontario) and the provisions for "safe harbour" under the United States Private Securities Litigation Reform Act of 1995 and are based on expectations, estimates and projections as of the date of this presentation. Forward looking statements include, without limitation, possible events; opportunities; statements with respect to possible events or opportunities; estimates and the realization of such estimates; future development, mining activities, production and growth, including but not limited to cost and timing; success of exploration or development of operations; the future price of gold and silver; currency fluctuations; expected capital expenditures and requirements for additional capital; government regulation of mining operations and exploration; environmental risks; unanticipated reclamation expenses; and title disputes. The words "aim", "pursue", "plans", "expects", "subject to", "budget", "estimate", "scheduled", "timeline", "potential", "projected", "pro forma", "estimates", "envision", "view", "forecasts", "guidance", "seek", "strategy", "study", "target", 'priority", "possible", "illustrative", "model", "opportunity", "option", "objective", "outlook", "on track", "potential", "intends", "anticipates" or "believes", "thinks", or variations of such words and phrases or statements that certain actions, events or results "may", "can", "could", "would", "should", "might", "indicates", "will be taken", "become", "create", "occur", or "be achieved", and similar expressions identify forward looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Kinross as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Statements representing management's financial and other outlook have been prepared solely for purposes of expressing their current views regarding the Company's financial and other outlook and may not be appropriate for any other purpose. Many of these uncertainties and contingencies can affect, and could cause, Kinross' actual results to differ materially from those expressed or implied in any forward looking statements made by, or on behalf of, Kinross. There can be no assurance that forward looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. All of the forward looking statements made in this presentation are qualified by these cautionary statements, and those made in our filings with the securities regulators of Canada and the U.S., including but not limited to those cautionary statements made in the "Risk Factors" section of our most recently filed Annual Information Form, the "Risk Analysis" section of our FYE 2012 and Q1 2013 Management's Discussion and Analysis, and the "Cautionary Statement on Forward-Looking Information" in our news release dated May 7, 2013, to which readers are referred and which are incorporated by reference in this presentation, all of which qualify any and all forward-looking statements made in this presentation. These factors are not intended to represent a complete list of the factors that could affect Kinross. Kinross disclaims any intention or obligation to update or revise any forward-looking statements or to explain any material difference between subsequent actual events and such forward-looking statements, except to the extent required by applicable law.

Other information

Where we say "we", "us", "our", the "Company", or "Kinross" in this presentation, we mean Kinross Gold Corporation and/or one or more or all of its subsidiaries, as may be applicable. The technical information about the Company's mineral properties (other than exploration activities) contained in this presentation has been prepared under the supervision of and verified by Mr. James K. Fowler, an officer of the Company who is a "qualified person" within the meaning of National Instrument 43-101 ("NI 43-101"). The technical information about the Company's exploration activities contained in this presentation has been prepared under the supervision of and verified by Dr. Glenton Masterman, an officer of the Company who is a "qualified person" with the meaning of NI 43-101.

KINROSS TODAY

- Total gold resource base of 94 million ounces(1)
- 9 mines produced 2.6 million ounces in 2012(2)
- Solid record of operational performance
- Portfolio of development projects with significant potential

(1) Refer to endnote #1.
(2) Refer to endnote #2

PRINCIPLES FOR BUILDING VALUE

1. Focus on operational fundamentals
2. Quality versus quantity in mine planning
3. Maintaining a strong balance sheet
4. Disciplined project development and capital allocation

OPERATING MINES IN 4 CORE REGIONS

- Diversified portfolio of assets located in some of the world's best gold districts producing

2013 OUTLOOK(2,3)

gold equivalent production
2.4 – 2.6 million ounces

production cost of sales
$740 - $790/oz. Au eq.

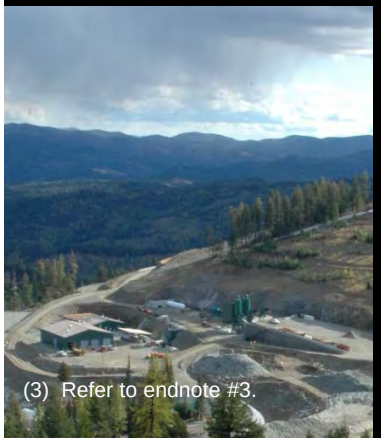

(2) Refer to endnote #2.
(3) Refer to endnote #3.

NORTH AMERICA

- 2013 regional guidance[3]: 680 – 720koz. at $635 – 675/oz.
- Well-run, stable open-pit and underground operations

(3) Refer to endnote #3.

NORTH AMERICA

- Region on track to meet both production and production cost of sales guidance for 2013

FIRST QUARTER 2013 OPERATING RESULTS

- Slightly harder ore encountered at Fort Knox not expected to continue in Q2
- Outstanding quarter at Kettle River-Buckhorn, with higher throughput compared to Q4 2012
- Round Mountain performed as anticipated

NORTH AMERICA
2013E[3]: 680-720k oz.
at $635-675/oz.

OPERATION	Q1 PRODUCTION (Au Eq. Oz.)	Q1 PRODUCTION COST OF SALES[4] ($/oz.)
Fort Knox	93,252	$558
Round Mountain (50%)	39,421	$804
Kettle River – Buckhorn	39,870	$512
NORTH AMERICA TOTAL	172,543	$597

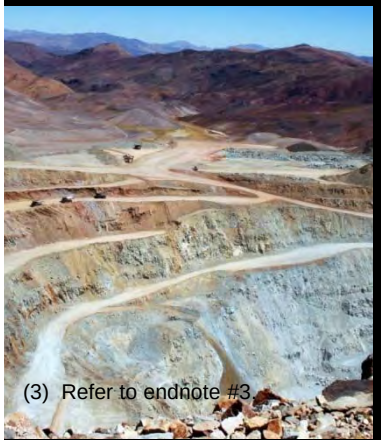

(3) Refer to endnote #3.
(4) Refer to endnote #4.

SOUTH AMERICA

- 2013 regional guidance[3]: 800 – 870koz. at $870 – $940/oz.
- Largest operating region accounting for ~33% of annual production

(3) Refer to endnote #3.

SOUTH AMERICA

- Region on track to meet both production and production cost of sales guidance for 2013

FIRST QUARTER 2013 OPERATING RESULTS

- Mill recoveries and throughput at Paracatu continued to show improvement
- Lower production at Maricunga result of less favourable heap leach performance and lower grades from transitional ore as the bottom of the current phase is mined
- Expect to suspend operations at La Coipa in the second half of 2013

SOUTH AMERICA
2013E[3]: 800-870koz.
at $870-940/oz.

OPERATION	Q1 PRODUCTION[2] (Au Eq. Oz.)	Q1 PRODUCTION COST OF SALES[4] ($/oz.)
Paracatu	119,891	$831
Maricunga	55,062	$1,091
La Coipa	53,729	$704
SOUTH AMERICA TOTAL	228,682	$861

(2) Refer to endnote #2.
(3) Refer to endnote #3.
(4) Refer to endnote #4.

WEST AFRICA

- 2013 regional production[(3)]: 415 – 480koz. at $890 – $950/oz.
- Strong focus on increasing efficiency and performance in the region

(3) Refer to endnote #3.

WEST AFRICA

- Region on track to meet both production and production cost of sales guidance for 2013

FIRST QUARTER 2013 OPERATING RESULTS

- Tasiast achieved highest quarterly production level since acquisition
- Chirano performed ahead of expectations for the quarter

WEST AFRICA
2013E[3]: 415-480koz.
at $890-950/oz.

OPERATION	Q1 PRODUCTION[2] (Au Eq. Oz.)	Q1 PRODUCTION COST OF SALES[4] ($/oz.)
Tasiast	62,757	$880
Chirano (90%)	60,417	$730
WEST AFRICA TOTAL	123,174	$808

(2) Refer to endnote #2.
(3) Refer to endnote #3.
(4) Refer to endnote #4.

RUSSIA

- 2013 regional guidance[(3)]: 505 – 535koz. at $550 – $580/oz.
- Model for successfully operating in a remote region

(3) Refer to endnote #3.

RUSSIA

- Region on track to meet both production and production cost of sales guidance for 2013

FIRST QUARTER 2013 OPERATING RESULTS

- As anticipated, Kupol mined an area of lower-grade material
- Mill throughput and recoveries remained strong

RUSSIA
2013E[3]: 505-535koz.
at $550-580/oz.

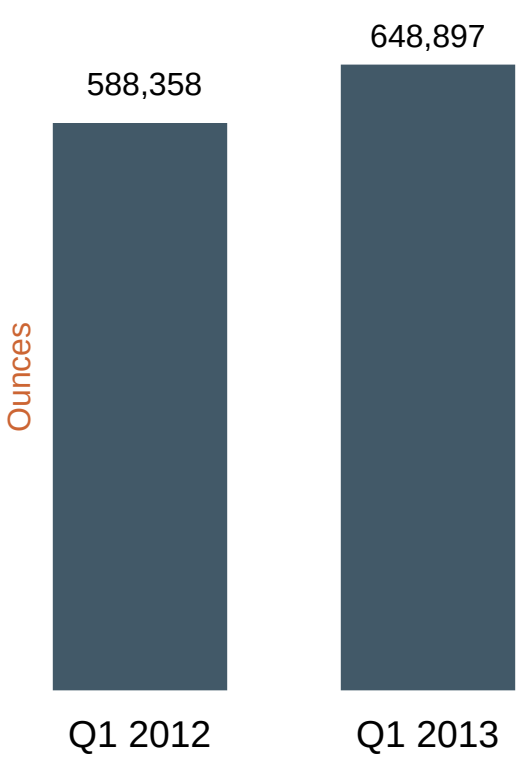

OPERATION	Q1 PRODUCTION (Au Eq. Oz.)	Q1 PRODUCTION COST OF SALES[4] ($/oz.)
Kupol	124,498	$548

(3) Refer to endnote #3.
(4) Refer to endnote #4.

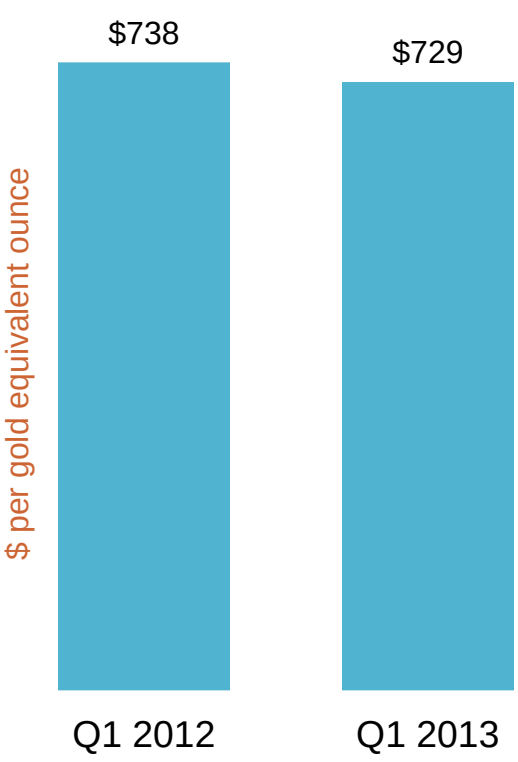

SOLID OPERATING RESULTS

- Strong performance from operations delivered solid results in Q1 2013

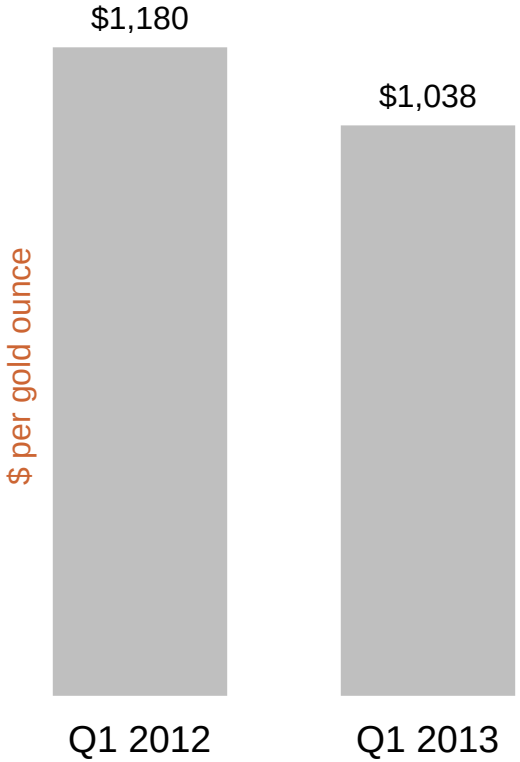

GOLD EQUIVALENT PRODUCTION[2]

PRODUCTION COST OF SALES[4]

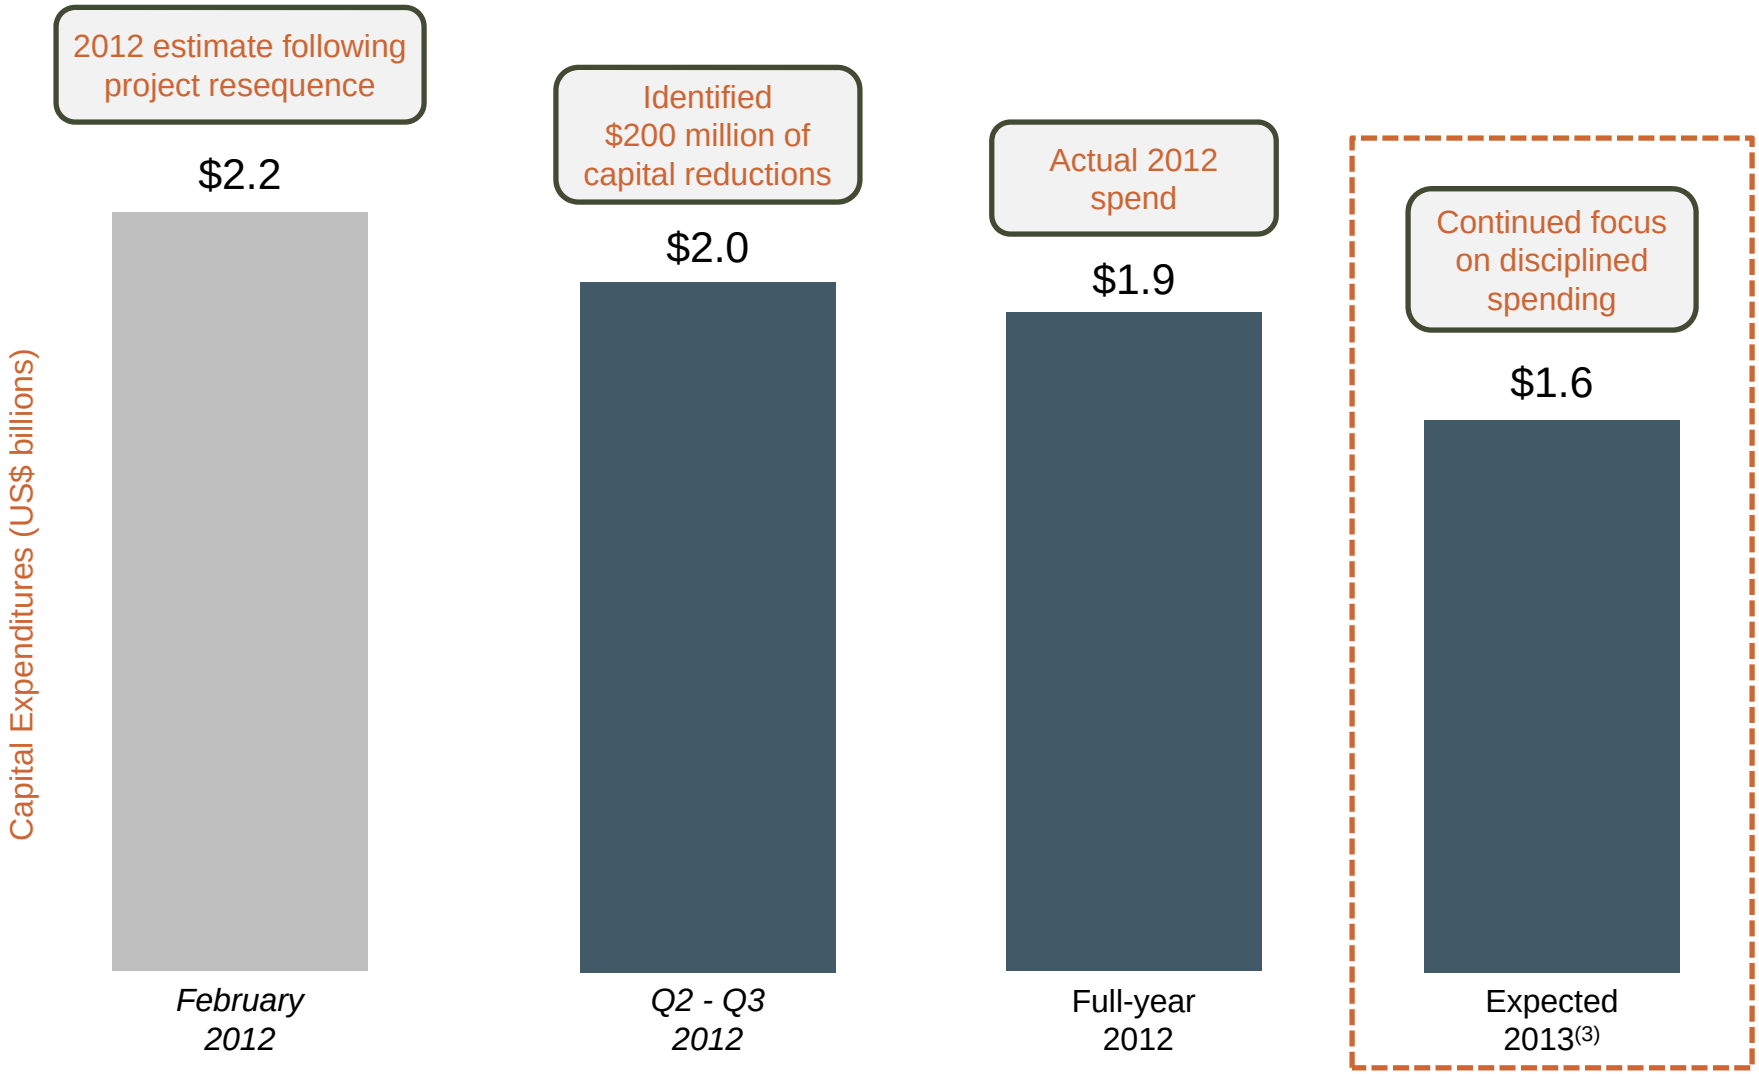

ALL-IN SUSTAINING COST[5]

(2) Refer to endnote #2.
(4) Refer to endnote #4.
(5) Refer to endnote #5.

FOCUS ON COST MANAGEMENT

CAPITAL DISCIPLINE CONTINUES IN 2013

(3) Refer to endnote #3.

2013 PRODUCTION & COSTS OUTLOOK(3)

- 2013 outlook shaped by continued focus on cost control, margin improvement and free cash flow
- 2013 all-in sustaining cost(5) expected to be $1,100 - $1,200 per gold ounce

Region	Gold Production (000 oz. Au eq.)	% of Total Production	Production Cost of Sales ($/oz. Au eq.)
South America	800 – 870	33%	$870 – $940
North America	680 – 720	28%	$635 – $675
West Africa (attributable)	415 – 480	18%	$890 – $950
Russia	505 – 535	21%	$550 – $580
Total Kinross:	2.4 – 2.6 million	100%	Gold equivalent: $740 – $790/oz. By-product: $690 – $740/oz.

Assumptions: *Gold price - $1,600/oz; Silver price - $30/oz.; Oil price - $90/bbl; Foreign exchange rates of: 2.05 Brazilian reais to the US dollar, 1.00 Canadian dollar to the US dollar, 32 Russian roubles to the US dollar, 475 Chilean pesos to the US dollar, 2.00 Ghanian cedi to the US dollar, 290 Mauritanian ouguiya to the US dollar, and 1.25 US dollars to the Euro.*

Key Sensitivities: *Taking into account existing currency and oil hedges, 10% change in foreign exchange could result in an approximate $9 impact on production cost of sales per ounce. A $10 change in the price of oil could result in an approximate $2 impact on production cost of sales per ounce. The impact on royalties of a $100 change in the gold price could result in an approximate $3 impact on production cost of sales per ounce.*

(3) Refer to endnote #3.
(5) Refer to endnote #5.

THE KINROSS WAY FORWARD

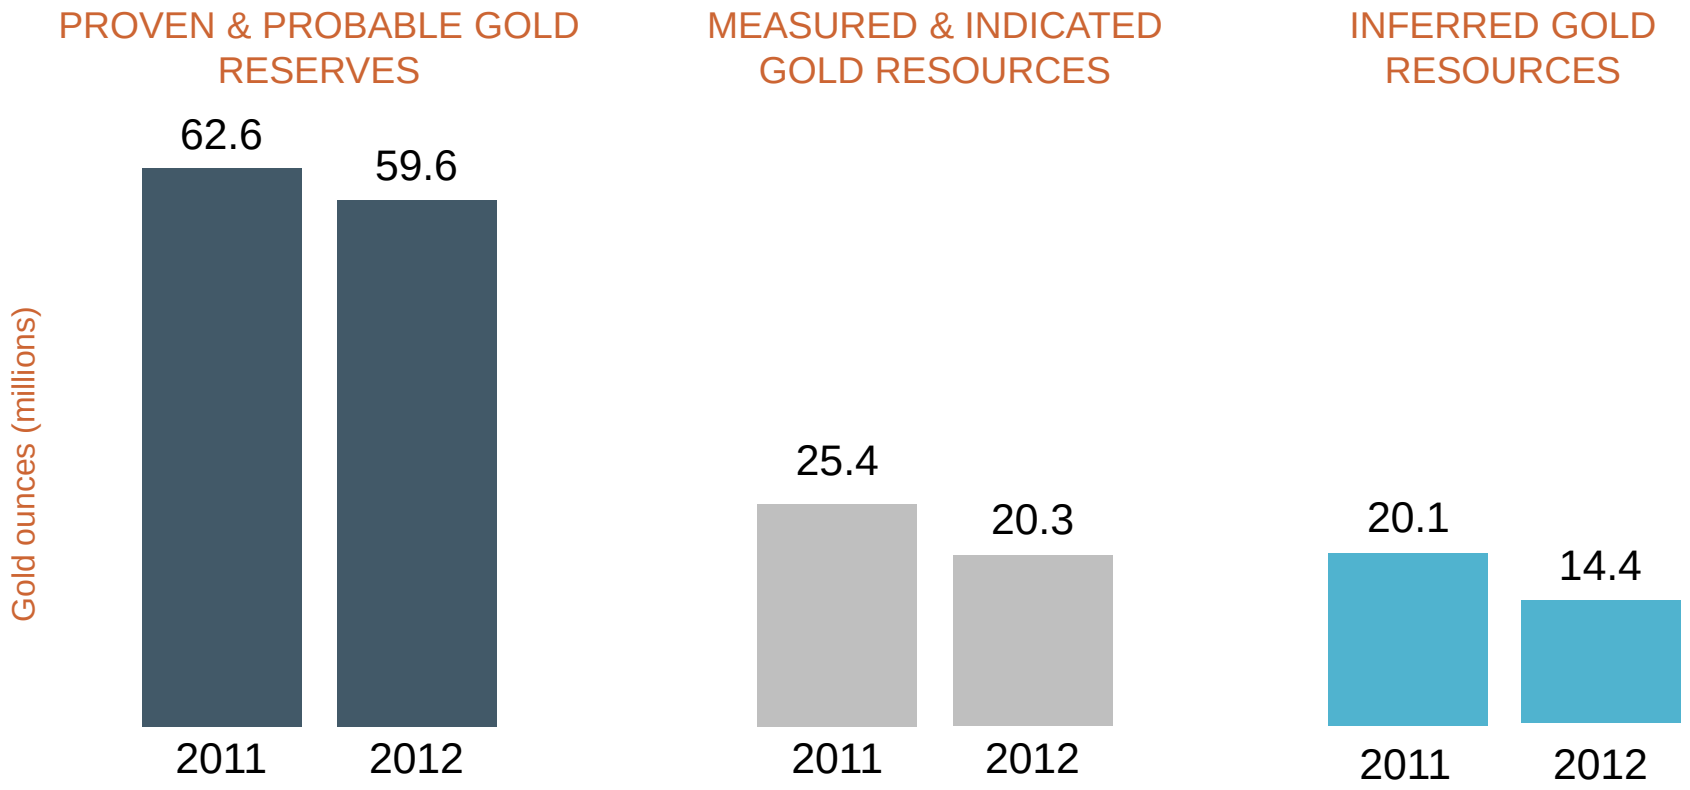

- 7 key areas form the basis of The Kinross Way Forward:

1. MINE PLAN OPTIMIZATION	• Prioritizing cash flow • Optimizing pushback widths, mine sequencing
2. CONTINUOUS IMPROVEMENT	• Exploiting zero / low-capex productivity improvements • Reducing unit consumption
3. COST MANAGEMENT & LABOUR PRODUCTIVITY	• Implementing better cost controls • Improving contractor management
4. CAPITAL EFFICIENCY	• Re-evaluating capital requirements • Managing potential deferral risks • Identified $200 million in capex reductions in 2012
5. SUPPLY CHAIN MANAGEMENT	• Expanding globally-coordinated supply chain initiatives • Planning with greater accuracy
6. ENERGY MANAGEMENT	• Establishing lower cost power purchase agreements • Reducing energy consumption
7. WORKING CAPITAL MANAGEMENT	• Enhancing inventory management • Reducing working capital requirements

CHOOSING QUALITY VERSUS QUANTITY

MINERAL RESERVE & RESOURCE ESTIMATES(1)

- Strategic decision to maintain gold price assumptions used for 2011:
  - Reserves - $1,200/oz.; resources -$1,400/oz.
- Example of Kinross' commitment to focus on higher quality, higher margin ounces

(1) Refer to endnote #1.

MAINTAINING A STRONG BALANCE SHEET

SOLID FINANCIAL POSITION

- Preserving balance sheet strength a priority objective
- Repurchased convertible senior notes totaling $455 million on March 15, 2013
  - Redeemed in cash the remaining $5 million on April 30, 2013
  - Cumulative debt balance: $2.2 billion

LIQUIDITY POSITION

($ millions)	As at March 31, 2013
Cash and cash equivalents	$1,421
Available credit facilities	$1,501
Total liquidity	$2,922

DISCIPLINED PROJECT DEVELOPMENT

PORTFOLIO OF DEVELOPMENT PROJECTS

- Optimized project sequencing, with Dvoinoye and Tasiast as key development priorities

DISCIPLINED PROJECT DEVELOPMENT

TASIAST ADVANCES TO FEASIBILITY STUDY

- Pre-feasibility study selected optimum mill size for Tasiast expansion
  - Proceeding to a feasibility study on a 38,000 tpd mill
  - Expected to be complete in Q1 2014

DISCIPLINED PROJECT DEVELOPMENT

TASIAST ADVANCES TO FEASIBILITY STUDY

- Feasibility study will explore a number of options to improve overall economics

PRE-FEASIBILITY STUDY	OPPORTUNITY TO ADD VALUE
Estimated 10 million recoverable ounces	Did not include other known mineral resource ounces
Heavy fuel oil as energy source	Exploring potential of lower-cost natural gas
Did not include potential district exploration upside	Tasiast is a large district with significant long-term exploration potential
Throughput of 30,000 tpd	Targeting higher production, lower costs with 38,000 tpd mill

DVOINOYE

RUSSIA

- Dvoinoye continues to progress on budget and on schedule
- Full production is expected to commence in the second half of 2013

DISCIPLINED PROJECT DEVELOPMENT

DVOINOYE REMAINS ON SCHEDULE

- Full production expected to commence in the second half of 2013
- Underground development progressed ahead of plan
- Surface infrastructure continues to progress on schedule
- Expansion of the Kupol mill capacity to 4,500 tpd is well underway
  - Final completion expected to take place in Q3 2013

Surface Infrastructure

Underground Development

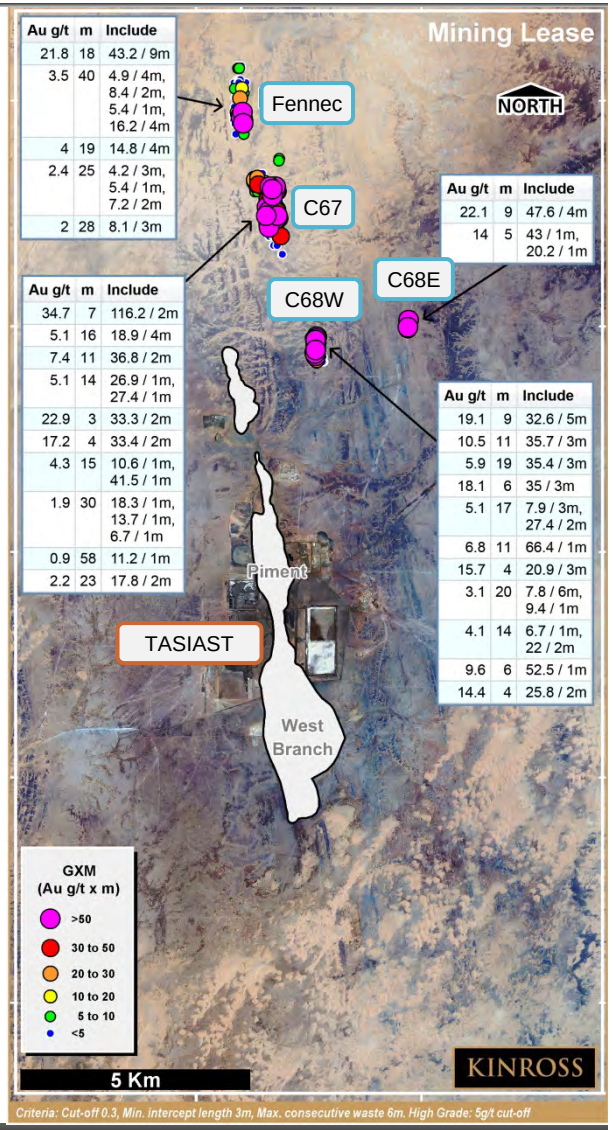

ENCOURAGING EXPLORATION RESULTS

TASIAST DISTRICT EXPLORATION(6)

- Drilling at step-out targets confirm presence of narrow, high-grade veins at C67, Fennec and C68

C68 WEST

- Drilling completed along 600 strike metres, testing the structure to an average depth of 100 metres below surface
- Further step-out and infill drilling underway to examine vein continuity and assess mineral resource potential

14.4	4	25.8 / 2m

(6) Refer to endnote #6.

ENCOURAGING EXPLORATION RESULTS

KUPOL-WEST MOROSHKA(6)

- Additional high-grade mineralization discovered at the Moroshka target located 5 km southeast of Kupol
- Presence of high-grade mineralization over a strike length of 300 metres and a vertical range of 150 metres
- Similar geology to Kupol
- Encouraged by the potential to discover additional vein shoots along the Moroshka trend

(6) Refer to endnote #6.

TAKING RESPONSIBILITY

MAINTAINING OUR SOCIAL LICENSE TO OPERATE

- Member of the Dow Jones Sustainability World Index
- Member of the Jantzi Social Index
- Listed among Canada's top corporate citizens by both Maclean's and Corporate Knights

CONSISTENCY & DISCIPLINE

ACTION PLAN FOR BUILDING VALUE

- Operational fundamentals
- Aggressive focus on cost management
- Maximizing margin & free cash flow
- Disciplined project development
- Maintaining a strong balance sheet

APPENDIX

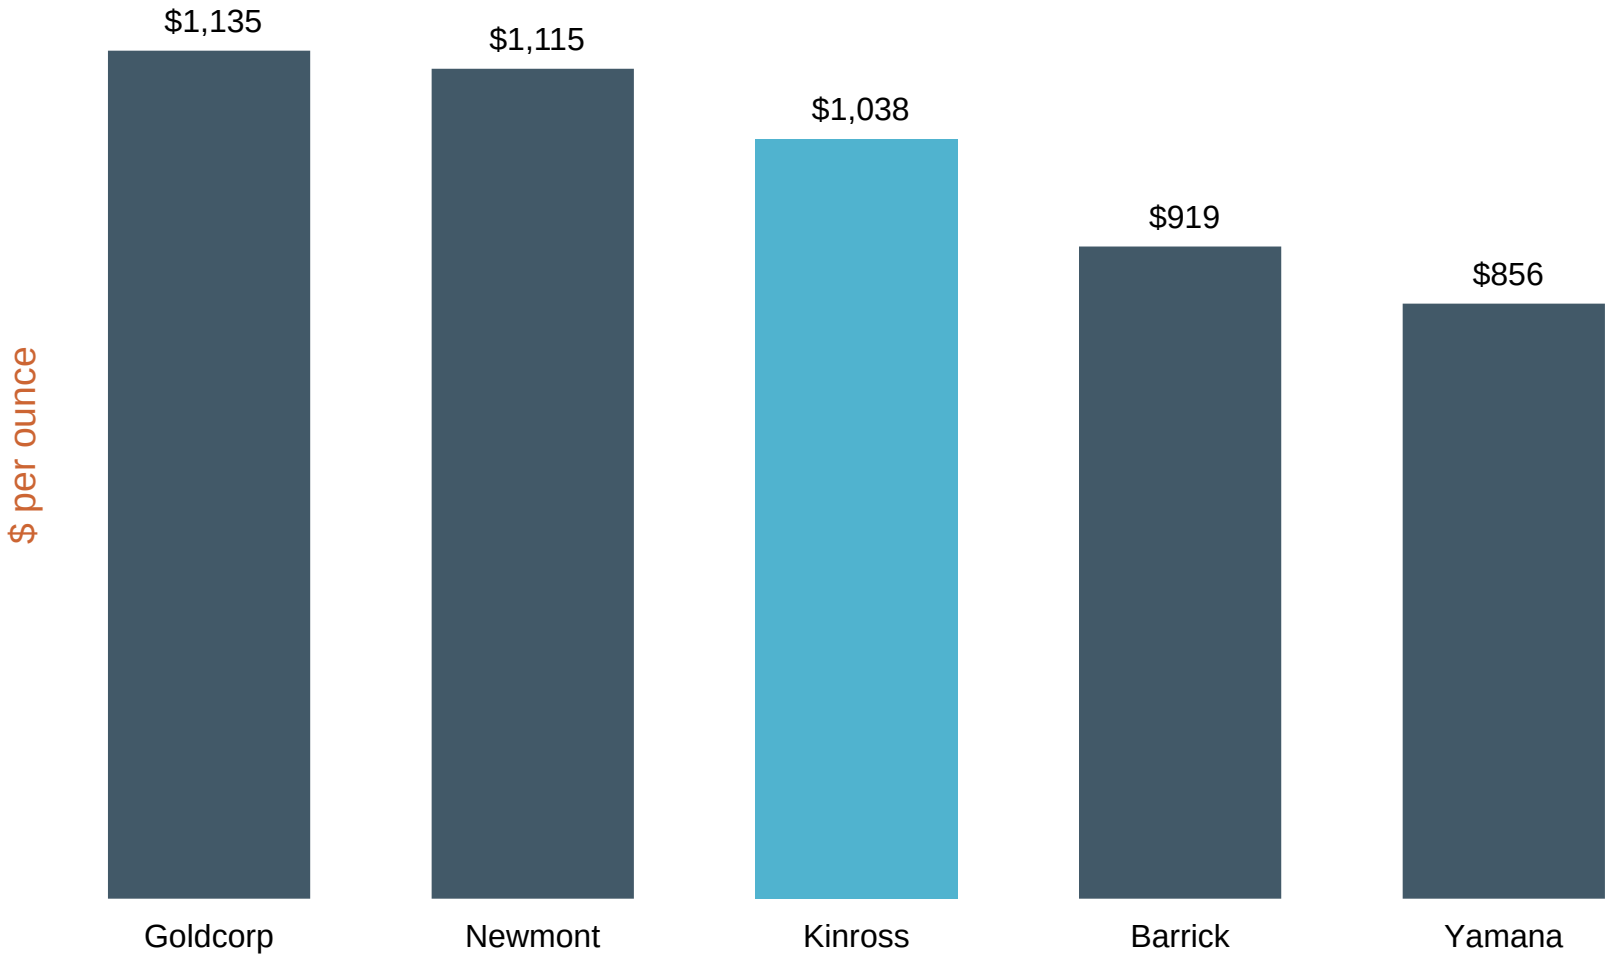

APPENDIX

ALL-IN SUSTAINING COSTS – Q1 2013

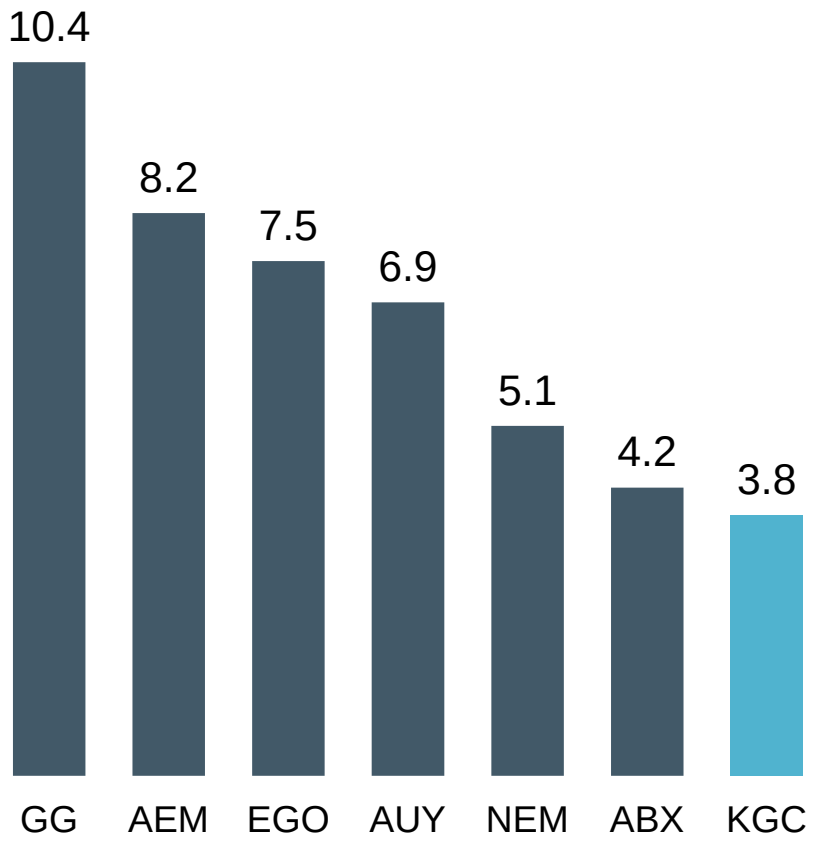

Source: Company reports. For more information regarding Kinross' all-in sustaining costs, please refer to endnote #5.

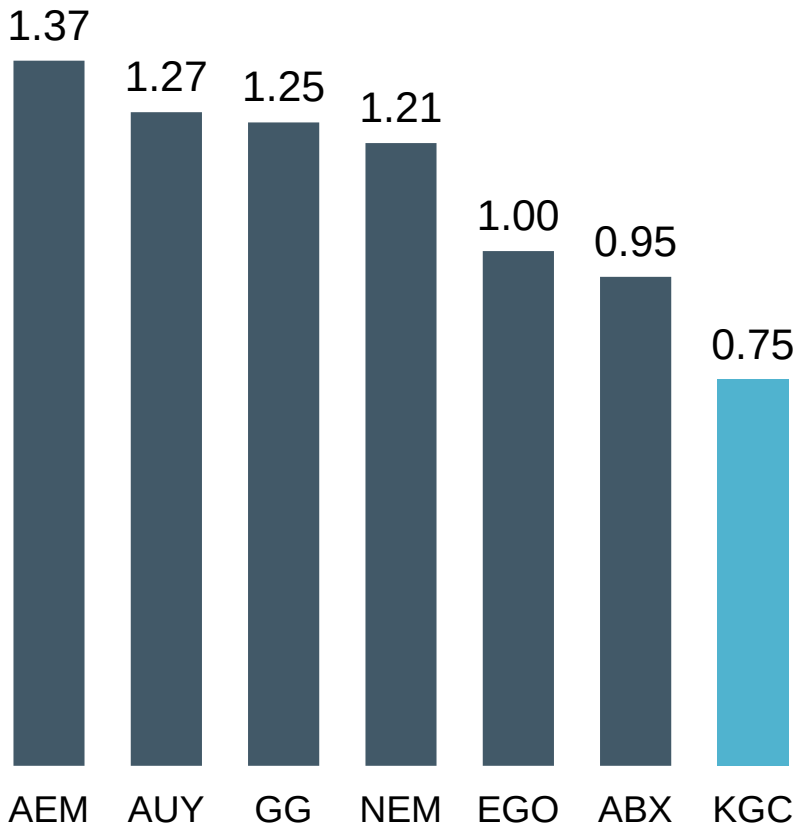

APPENDIX

RELATIVE VALUATION

ENTERPRISE VALUE / 2013E EBITDA

PRICE / NAV

Source: Bank of America Merrill Lynch North America Precious Metals Weekly – May 10, 2013.

UNITED STATES

FORT KNOX, ALASKA (100%)

- Production commenced in 1997
- Heap leach production commenced in late 2009

OPERATING RESULTS

	PRODUCTION (Au eq. oz.)	PRODUCTION COST OF SALES ($/oz.)[4]
FY 2012	359,948	$663
FY 2011	289,794	$692

2012 GOLD RESERVES AND RESOURCES[1]

	TONNES (thousands)	GRADE (g/t)	OUNCES (thousands)
2P Reserves	237,745	0.47	3,609
M&I Resources	99,824	0.43	1,375
Inferred Resources	14,953	0.50	239

(1) Please refer to endnote #1.
(4) Please refer to endnote #4.

UNITED STATES

ROUND MOUNTAIN (50%)

- Kinross-operated JV with Barrick
- Bulk tonnage open-pit operation
- Commercial production began in 1977

OPERATING RESULTS

	PRODUCTION (Au eq. oz.)	PRODUCTION COST OF SALES ($/oz.) [4]
FY 2012	192,330	$717
FY 2011	187,444	$697

2012 GOLD RESERVES AND RESOURCES[1]

	TONNES (thousands)	GRADE (g/t)	OUNCES (thousands)
2P Reserves	64,123	0.60	1,242
M&I Resources	40,182	0.72	925
Inferred Resources	19,375	0.50	310

(1) Please refer to endnote #1.
(4) Please refer to endnote #4.

UNITED STATES

KETTLE RIVER – BUCKHORN (100%)

- Entered production in Q4 2008
- Small foot-print, underground mine
- Near-mine exploration targets

OPERATING RESULTS

	PRODUCTION (Au eq. oz.)	PRODUCTION COST OF SALES ($/oz.)[4]
FY 2012	156,093	$482
FY 2011	175,292	$420

2012 GOLD RESERVES AND RESOURCES[1]

	TONNES (thousands)	GRADE (g/t)	OUNCES (thousands)
2P Reserves	813	10.18	266
M&I Resources	61	11.73	23
Inferred Resources	85	9.97	27

(1) Please refer to endnote #1.
(4) Please refer to endnote #4.

RUSSIA

KUPOL (100%)

- Completed transaction increasing ownership to 100% from 75% on April 27, 2011
- High-grade underground mine with 3,500 tpd mill

OPERATING RESULTS

	PRODUCTION (Au eq. oz.)	PRODUCTION COST OF SALES ($/oz.)[4]
FY 2012	578,252	$472
FY 2011	587,048	$378

Kinross increased its ownership in the Kupol mine to 100% on April 27, 2011. As a result, the results up to April 27, 2011 reflect 75% ownership, and results thereafter reflect 100% ownership.

2012 GOLD RESERVES AND RESOURCES[1]

	TONNES (thousands)	GRADE (g/t)	OUNCES (thousands)
2P Reserves	8,092	9.29	2,416
M&I Resources	-	-	-
Inferred Resources	482	14.94	231

(1) Please refer to endnote #1.
(4) Please refer to endnote #4.

BRAZIL

PARACATU (100%)

- Plant 2 expansions now complete:
  - 3rd ball mill commissioned in Q2 2011
  - 4th ball mill commissioned in Q3 2012

OPERATING RESULTS

	PRODUCTION (Au eq. oz.)	PRODUCTION COST OF SALES ($/oz.)(4)
FY 2012	466,709	$881
FY 2011	453,396	$720

2012 GOLD RESERVES AND RESOURCES(1)

	TONNES (thousands)	GRADE (g/t)	OUNCES (thousands)
2P Reserves	1,387,842	0.40	17,978
M&I Resources	395,756	0.32	4,040
Inferred Resources	216,393	0.39	2,713

(1) Please refer to endnote #1.
(2) Please refer to endnote #4.

CHILE

LA COIPA (100%)

- Expect to suspend mining of the existing orebody in the second half of 2013
- Continuing to assess the remaining reserves, resources and exploration potential
  - Including the future potential of La Coipa Phase 7 (Pompeya)

OPERATING RESULTS

	PRODUCTION (Au eq. oz.)	PRODUCTION COST OF SALES ($/oz.)[4]
FY 2012	178,867	$966
FY 2011	178,287	$762

2012 GOLD RESERVES AND RESOURCES[1]

	TONNES (thousands)	GRADE (g/t)	OUNCES (thousands)
2P Reserves	8,573	1.52	418
M&I Resources	9,217	1.17	348
Inferred Resources	2,676	3.31	285

(1) Please refer to endnote #1.
(4) Please refer to endnote #4.

CHILE

MARICUNGA (100%)

- Located in the highly prospective Maricunga District
- High-altitude heap leach operation

OPERATING RESULTS

	PRODUCTION (Au eq. oz.)	PRODUCTION COST OF SALES ($/oz.)[4]
FY 2012	236,369	$779
FY 2011	236,249	$457

2012 GOLD RESERVES AND RESOURCES[1]

	TONNES (thousands)	GRADE (g/t)	OUNCES (thousands)
2P Reserves	185,584	0.72	4,313
M&I Resources	141,395	0.64	2,907
Inferred Resources	55,478	0.50	889

(1) Please refer to endnote #1.
(4) Please refer to endnote #4.

MAURITANIA

TASIAST (100%)

- Open-pit mine ~300 km north of the city of Nouakchott
- Remote, flat, sparsely populated desert

OPERATING RESULTS

	PRODUCTION (Au eq. oz.)	PRODUCTION COST OF SALES ($/oz.)[4]
FY 2012	185,334	$889
FY 2011	200,619	$702

2012 GOLD RESERVES AND RESOURCES[1]

	TONNES (thousands)	GRADE (g/t)	OUNCES (thousands)
2P Reserves	149,651	1.66	7,965
M&I Resources	226,094	0.93	6,757
Inferred Resources	31,235	0.79	790

(1) Please refer to endnote #1.
(4) Please refer to endnote #4.

GHANA

CHIRANO (90%)

- 90% owned by Kinross; Government of Ghana holds a 10% carried interest
- 9 open-pits and 2 recently-discovered underground deposits
- Achieved first gold pour in 2005

OPERATING RESULTS[2]

	PRODUCTION (Au eq. oz.)	PRODUCTION COST OF SALES ($/oz.)[4]
FY 2012	263,911	$721
FY 2011	235,661	$693

2012 GOLD RESERVES AND RESOURCES[1]

	TONNES (thousands)	GRADE (g/t)	OUNCES (thousands)
2P Reserves	20,217	2.65	1,722
M&I Resources	7,036	1.76	398
Inferred Resources	4,624	1.97	293

(2) Please refer to endnote #2.
(4) Please refer to endnote #4.

ENDNOTES

1) For more information regarding Kinross' mineral reserve and mineral resources estimates please refer to our Annual Mineral Reserve and Mineral Resource Statement as at December 31, 2012 contained in our news release dated February 13, 2013, which is available on our website at www.kinross.com.

2) Unless otherwise noted, gold equivalent production, gold equivalent ounces sold and production cost of sales figures in this presentation are based on Kinross' 90% share of Chirano production and do not include production from Crixas, due to the sale of Kinross' 50% ownership completed June 28, 2012.

3) For more information regarding Kinross' production, cost and capital expenditures outlook for 2013, please refer to the news release dated February 13, 2013, available on our website at www.kinross.com.

4) Production cost of sales per gold equivalent ounce from continuing operations is a non-GAAP measure defined as attributable production cost of sales divided by the attributable number of gold equivalent ounces sold. Production cost of sales is equivalent to total production cost of sales per the financial statements less depreciation, depletion and amortization and impairment charges. For more information about this non-GAAP measure, and a reconciliation of this non-GAAP financial measure for the year ended December 31, 2012, please refer to the news release dated February 13, 2012, and for the three months ended March 31, 2013, please refer to the news release dated May 7, 2013, under the heading "Reconciliation of non-GAAP financial measures", both of which are available on our website at www.kinross.com.

5) All-in sustaining cost per ounce is defined as the sum of: production cost of sales; net of silver by-product credits; general & administrative expenses; sustaining business development and exploration costs; sustaining capital (including related capitalized interest); and a portion of other operating costs. For more information, please refer to the news release dated February 13, 2013, available on our website at www.kinross.com.

6) For more information relating to Kinross' exploration and for a link to the appendix of drill results relating to Tasiast and Kupol, please refer to the news release dated February 13, 2013, available on our website at www.kinross.com.
