# Cautionary Statement on Forward-Looking Information

All statements, other than statements of historical fact, contained in this presentation including, but not limited to, any information as to the future financial or operating performance of Kinross, constitute “forward-looking information” or “forward-looking statements” within the meaning of certain securities laws, including the provisions of the Securities Act (Ontario) and the provisions for “safe harbor” under the United States Private Securities Litigation Reform Act of 1995 and are based on expectations, estimates and projections as of the date of this presentation. Forward-looking statements contained in this presentation include, without limitation, statements with respect to: our guidance for production, cost guidance, including production costs of sales, all-in sustaining cost of sales, mill throughput and average grades, and capital expenditures; anticipated returns of capital to shareholders, including the declaration, payment, increase and sustainability of the Company’s dividends; the size, scope and execution of the proposed share buybacks and the anticipated timing thereof, including the Company’s statement targeting share buybacks for 2026 of 40% of free cash flow; statements with respect to our forecasts cash flow, free cash flow and estimated free cash flow yield; identification of additional resources and reserves or the conversion of resources to reserves; the forecast project schedules, production and economics of the Great Bear, Phase X, Curlew and Redbird 2 projects, including total production, margins, taxes, average annual production, the net present value of each project, the internal rate of return on each project, project payback period, average yearly free cash flow, life of mine unit costs, projected mine life, asset value and capital requirements; the schedules, budgets, and forecast economics for the Company’s development projects; budgets for and future plans for exploration, development and operation at the Company’s operations and projects, including the Great Bear project; planned timing for the submission of permits and impact statements; the Company’s sustainability goal and commitments including its greenhouse gas reduction initiatives and targets; potential mine life extensions at the Company’s operations; the Company’s balance sheet, debt levels and liquidity outlook, as well as references to other possible events including, the future price of gold and silver, costs of production, operating costs; price inflation; capital expenditures, costs and timing of the development of projects and new deposits, estimates and the realization of such estimates (such as mineral or gold reserves and resources or mine life), success of exploration, development and mining, currency fluctuations, capital requirements, project studies, government regulation, permit applications, environmental risks and proceedings, and resolution of pending litigation. The words “2025E”, “advance”, “anticipate”, “approach”, “beyond”, “commit”, “conceptual”, “continue”, “estimate”, “expect”, “focus”, “forecast”, “forward”, “future”, “growth”, “guidance”, “initial”, “milestone”, “on schedule”, “on track”, “opportunity”, “option”, “optionality”, “outlook”, “pending”, “plan”, “path”, “phase”, “plan”, “pipeline”, “potential”, “priority”, “proceed”, “progress”, “prospective”, “target” and “upside” or variations of or similar such words and phrases or statements that certain actions, events or results “may”, “could”, “will” or “would” occur, and similar expressions identify forward-looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Kinross as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. The estimates, models and assumptions of Kinross referenced, contained or incorporated by reference in this presentation, which may prove to be incorrect, include, but are not limited to, the various assumptions set forth herein and in our Annual Information Form dated March 27, 2025 and our full-year 2025 Management’s Discussion and Analysis as well as: (1) there being no significant disruptions affecting the activities of the Company whether due to extreme weather events and other or related natural disasters, labour disruptions, supply disruptions, power disruptions, damage to equipment or otherwise; (2) permitting and development of the projects being consistent with the Company’s expectations; (3) political and legal developments in the U.S., Canada and globally being consistent with its current expectations; (4) the accuracy of the current mineral resource and mineral reserve estimates of the Company (including but not limited to tonnage and grade estimates); (5) certain price assumptions for gold and silver and foreign exchange rates; and (6) inflation and prices for diesel, natural gas, fuel oil, electricity and other key supplies being approximately consistent with anticipated levels. Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are provided for the purpose of providing information about management’s expectations and plans relating to the future. All of the forward-looking statements made in this presentation are qualified by this cautionary statement and those made in our other filings with the securities regulators of Canada and the United States including, but not limited to, the cautionary statements made in the “Risk Analysis” section of our Management’s Discussion and Analysis for the year ended December 31, 2025, and the “Risk Factors” set forth in the Company’s Annual Information Form dated March 27, 2025, and the “Cautionary Statement on Forward-Looking Information” in our news releases dated January 15, 2026 and February 18, 2026, to which readers are referred and which are incorporated by reference in this presentation, all of which qualify any and all forward-looking statements made in this presentation. These factors are not intended to represent a complete list of the factors that could affect Kinross. Kinross disclaims any intention or obligation to update or revise any forward-looking statements or to explain any material difference between subsequent actual events and such forward-looking statements, except to the extent required by applicable law.

# Cautionary Statement on Forward-Looking Information Continued

Certain forward-looking statements in this presentation may also constitute a “financial outlook” within the meaning of applicable securities laws. A financial outlook involves statements about the Company’s prospective financial performance, financial position or cash flows and is based on and subject to the assumptions about future economic conditions and courses of action and the risk factors described above in respect of forward-looking information generally, as well as any other specific assumptions and risk factors in relation to such financial outlook noted in this presentation. Such assumptions are based on management’s assessment of the relevant information currently available, and any financial outlook included in this presentation is provided for the purpose of helping viewers understand the Company’s current expectations and plans for the future. Viewers are cautioned that reliance on any financial outlook may not be appropriate for other purposes or in other circumstances and that the risk factors described above, or other factors may cause actual results to differ materially from any financial outlook. The actual results of the Company’s operations will likely vary from the amounts set forth in any financial outlook and such variances may be material.

## Other information

Where we say “we”, “us”, “our”, the “Company”, or “Kinross” in this presentation, we mean Kinross Gold Corporation and/or one or more or all of its subsidiaries, as may be applicable.

The technical information about the Company’s mineral properties contained in presentation has been prepared under the supervision of Mr. Nicos Pfeiffer who is a “qualified person” within the meaning of National Instrument 43-101.

The studies and economic analyses referenced in this presentation are preliminary in nature and are based, in part, on inferred mineral resources. Inferred mineral resources are considered too geologically speculative to have the economic considerations applied to them that would enable them to be categorized as mineral reserves. There is no certainty that the economic forecasts on which the studies and economic analyses are based will be realized.

This presentation references Attributable production cost of sales per equivalent ounce sold, attributable all-in sustaining cost per equivalent ounce sold, adjusted net earnings per share, attributable free cash flow, attributable capital expenditures, free cash flow, all-in sustaining cost and production cost of sales, which are non-GAAP financial measures and ratios, with no standardized meaning under IFRS and therefore, may not be comparable to similar measures presented by other issuers.

All dollar amounts are expressed in U.S. dollars, unless otherwise noted.

# Table of Contents

<b>Company Overview</b>	<b>5</b>
<b>Great Bear</b>	<b>22</b>
<b>Operations &amp; Projects</b>	<b>31</b>

<b>Appendix</b>	<b>62</b>

# Kinross: A Top Performing Senior Gold Producer

## OPERATIONAL EXCELLENCE

- **Forecast Production:**
  - ~2Moz per year<sup>1</sup>
  - **6 mines** across attractive jurisdictions
  - **Consistent execution** underpinned by operational and technical excellence
- **Sizeable Gold Reserve<sup>2</sup> & Resource<sup>2</sup> base:**
  - ~21Moz of Reserves,
  - ~27Moz of M&I,
  - ~17Moz of Inferred
- **Pipeline of projects** including world class **Great Bear and Lobo-Marté**

## FINANCIAL STRENGTH

- **Rigorous Cost and Capital discipline**
- **Record Margins, Free Cash Flow Generation and Strong Outlook**
- **Robust Investment Grade balance sheet – Net Cash**
- **2025: ~\$1.5 billion total capital returned**
  - \$700m debt
  - \$752m to shareholders
  - 2.5% share reduction via share repurchases
- **2026: targeting 40% of Free Cash Flow in return of capital** through dividends and share buybacks
  - 33% increase to annual dividend<sup>3</sup> since Q3/25
- **Growing per share metrics**

## COMPELLING VALUE

- **Peer leading leverage to gold and shareholder returns**
- **Compelling relative valuation and strong Free Cash Flow yield** of ~10%<sup>4</sup>
- **Buy Recommendation** from Majority of Research Analysts<sup>5</sup>
- **Highly liquid stock** trading >US\$500M<sup>6</sup> of daily volume across NYSE: KGC & TSX:K
- **2025 TSX Top 30** ranking for 3-year Total Shareholder Returns

## LEADING SUSTAINABILITY PERFORMANCE

- **Consistent top performer** in Sustainability by key rating agencies
- On track for **30% reduction** in GHG intensity by 2030
- **99% of employees** hired within the host countries
- **\$54 billion** in Cumulative Benefit Footprint since 2010<sup>7</sup>
- Strong independent Board of Directors:
  - **7 new directors since 2019:** Proactive Board Refresh Program

1) Gold equivalent ounces (Au Eq. oz) through guidance timeframe out to 2028. Refer to endnote #1

2) Mineral Reserves & Resources as of December 31, 2025. See Appendix B.

3) Annual dividend of \$0.16 per share as announced on February 18th, 2026

4) FCF Yield Calculated as 2026E Free Cash Flow Per Share estimate per consensus / Share Price. Source: S&P Capital IQ (incl. Kinross) of April 6<sup>th</sup> 2026. Value for Free Cash Flow Per Share based on 2026E consensus as of April 6<sup>th</sup>, 2026

5) As per Broker ratings available on Bloomberg as of April 6<sup>th</sup>, 2026. See Pg. 8

6) Average daily dollar (USD) volume traded over last 30-days as of April 6<sup>th</sup>, 2026, across both TSX and NYSE

7) Spending on procurement, payments to governments, wages and benefits and community investments Kinross-wide (see 2024 Sustainability Report on [www.kinross.com](http://www.kinross.com))

# High Quality Portfolio of Assets

Backed by Top Tier<sup>1</sup> Mines and World Class Development Projects in Attractive Jurisdictions

1) Top tier defined as assets with Life of Mine (LOM) into the next decade and annual production averaging greater than 500koz and cash costs in the lower half of the industry cost curve  
 2) Forecast 2026-2028 production, costs and capital expenditures is attributable and includes Kinross' share of Manh Choh (70%). Refer to endnote #1. See Appendix A for 2025 Actuals.  
 3) Refer to endnote #3.

4) Subject to ongoing inflationary impacts and project opportunities currently under study, which have the potential to contribute in the 2030s  
 5) See Appendix B  
 6) See endnote #2.  
 7) Per metrics outlined in PEA published on September 10<sup>th</sup>, 2024  
 8) See endnote #6.

# Exceptional Operating Track Record

Kinross has a longstanding track record of meeting or exceeding annual guidance metrics

	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	Kinross Avg.	Peer <sup>1</sup> Avg.
Production	✓	✓	✓	✓	✓	✓	✓	✓	✓	-	-	✓	✓	✓	~86%	~71%
Cost	✓	✓	✓	✓	✓	✓	✓	✓	✓	-	✓	✓	✓	✓	~93%	~68%
Capital	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	100%	-

Kinross has a robust annual planning and guidance setting process

## Stable production profile

1) Per Scotiabank Equity Research published March 2025 (Peer Averages from 2011-2024 excluding Kinross; Cost guidance includes both TCC and AISC, See Equity Research report for full peer list)  
 2) Forecast 2026-2028 production is attributable and includes Kinross' share of Manh Choh (70%). Refer to endnote #1. See Appendix A for 2025 Actuals.

# Portfolio & Grade Enhancement Strategy

Long term vision of portfolio optimization stretching into the 2030s

1) Per the Manh Choh proceeding with development announcement on July 27, 2022

2) Open Pit (OP), Underground (UG)

3) All-in sustaining cost (AISC) is a Non-GAAP measure. Refer to endnote #6.

4) Economics at \$4,500/oz. Refer to Endnote #8 on Project Economics

5) Economics at \$4,500/oz. Based on Great Bear PEA. The PEA is preliminary in nature and is based, in part, on Inferred Mineral Resources. Inferred Mineral Resources are considered too geologically speculative to have the economic considerations applied to them that would enable them to be categorized as Mineral Reserves. There is no certainty that the economic forecasts on which the PEA is based will be realized.

6) Over the first 8 years

# Significant Resource Optionality

Significant resource base for potential extensions at existing operations

New growth projects that potentially contribute to the production profile through the end of the decade and beyond

	\$2,000/oz Au		\$2,500/oz Au		Growth Opportunities	Potential 2027-30 Impact	Potential 2030+ Impact
	Reserves	Resources

<b>Cost of Sales</b> <sup>4</sup> \$3,200 <sup>2</sup>   \$4,500 <sup>2</sup>	\$1,485/oz   \$1,593/oz	\$1,445/oz   \$1,495/oz	\$1,300/oz   \$1,371/oz	<b>Average incremental cost of sales<sup>4</sup> of ~\$1,515/oz</b>
<b>AISC</b> <sup>3</sup> \$3,200 <sup>2</sup>   \$4,500 <sup>2</sup>	\$1,590/oz   \$1,697/oz	\$1,684/oz   \$1,734/oz	\$1,406/oz   \$1,477/oz	<b>Average incremental AISC<sup>3</sup> of ~\$1,660/oz</b>
<b>LOM Production</b> Au. Eq. <sup>2</sup>	1.4 Moz	0.9 Moz	0.6 Moz	<b>Total contribution of nearly 3Moz</b>
<b>Initial Mine Life</b>	2028 – 2038 (11 yrs)	2028 – 2038 (11 yrs)	2028 – 2032 (5 yrs)	<b>Extending mine lives into the 2030s</b>
<b>Avg. Production/Yr</b> Au. Eq. <sup>2</sup>	~130 koz	~85 koz	~130 koz	<b>Total contribution of nearly 3Moz</b>
<b>Average Grade</b>	3.0 g/t	5.8 g/t	0.5 g/t	<b>Grade enhancement strategy (Phase X &amp; Curlew)</b>
<b>Mine / Process</b>	Underground; Mill	Underground; Mill	Open-pit; Heap Leach	<b>Leveraging existing infrastructure</b>
<b>Upside Potential</b>	Exploration down-dip	Exploration down-dip	Large Open-Pit Resource, including Top Pit	<b>Significant extension potential across all three assets</b>

1) Refer to Endnote #8 on Project Economics  
 2) Ag pricing is based on Gold Equivalent Ratio ("GER") of 85:1  
 3) Refer to endnote #6.  
 4) Refer to endnote #2.

# Attractive Project Pipeline

## Potential 2029+ Production Impact

### Great Bear *Ontario, Canada*

### Lobo-Martel *Chile*

### Tasiast UG and Satellites *Mauritania*

### Maricunga *Chile*

### Additional Open Pit Laybacks *All*

World-class resource  
Highly prospective PEA  
518koz/yr<sup>1</sup>  
\$865/oz AISC<sup>2</sup>

Potential long-life, low-cost open pit  
Strong heap leach grade (1.3 g/t) and  
Low strip ratio (2:1)

Bulk-tonnage underground and open pit satellite potential to extend Tasiast mine life

Historical open pit heap leach operation  
Potential for restart  
Large resource base (7.1 Moz M&I plus 4.9 Moz Inf.)

Further open pit extension opportunity in our resource at Paracatu, Fort Knox, La Coipa & Bald Mountain

- Advanced exploration decline development
- Main project detailed engineering and permitting
- Continue exploration from underground and on broader land package
- Main project construction

- Project study update
- Baseline studies
- Progress permitting
- Progress technical and engineering work

- Exploration drilling of UG target extensions
- Exploration for additional OP satellite opportunities
- Progress technical studies for both UG and OP extensions

- Refresh mine plan and economics
- Progress technical studies
- Progress baseline and water studies

- Exploration drilling targeting optimization of next layback
- Progress technical studies
- Environmental baseline studies

# Cost Discipline Driving Strong Cash Flow

1) 2026 AISC guidance based on mid-point value of Company guidance ranges. Newmont AISC is on a co-product basis. Refer to Appendix A for Kinross' 2025 Actuals

2) Refer to endnote #7

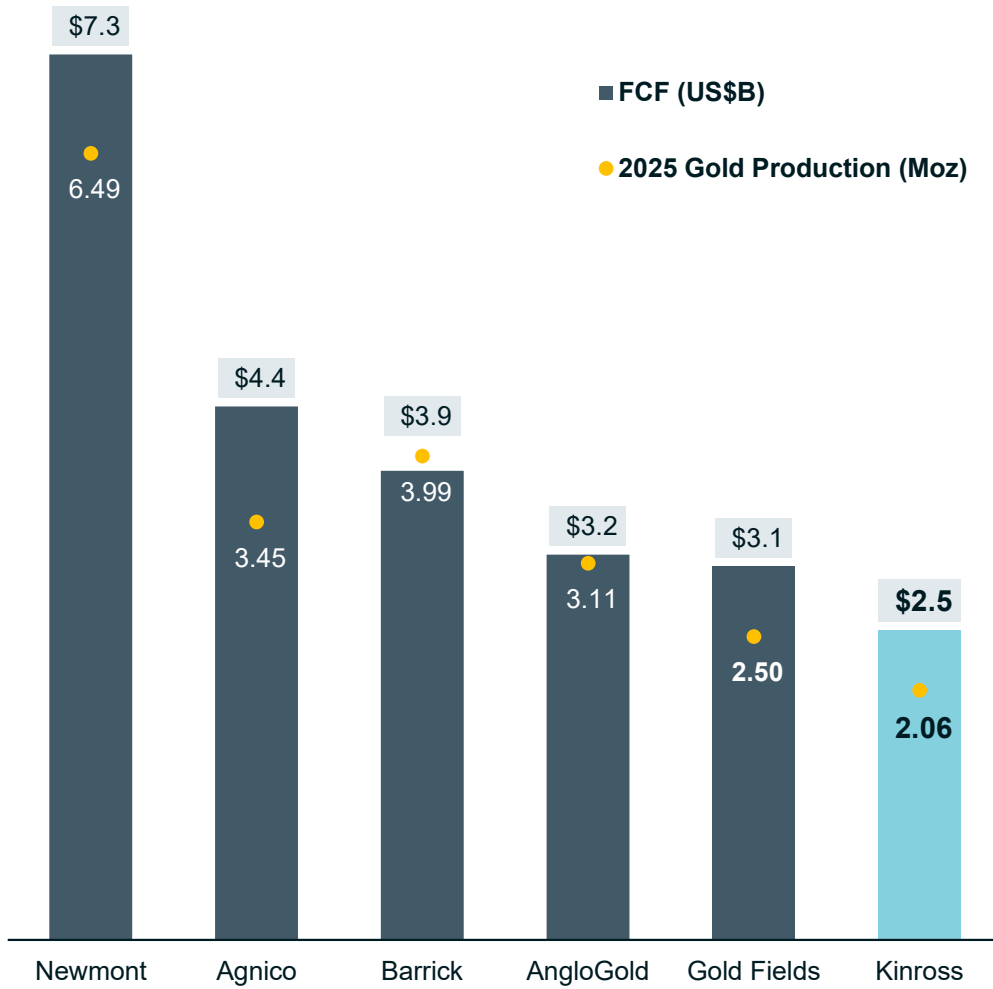

3) OCF represents Attributable Adjusted Operating Cash Flow as reported. FCF represents Attributable Free Cash Flow as reported. Financial figures are non-GAAP financial measures or ratios, as applicable, with no standardized meaning under IFRS and therefore, may not be comparable to similar measures presented by other issuers. Refer to endnote #3. "Attributable" includes Kinross' 70% share of Manh Choh cash flow,

4) Per S&P Capital IQ calculations: Annualized NOPAT / Average Total Capital (i.e., Total Common Equity + Minority Interest + Long Term Debt + Long Term Leases)

# Strong Free Cash Flow Metrics

2025 Free Cash Flow<sup>1</sup> vs. Total Gold Production<sup>2</sup>

2025 Free Cash Flow<sup>1</sup> Per Ounce of Total Gold Production<sup>2,3</sup>  
US\$/oz

1) Free Cash Flow calculated as Operating Cash Flow (OCF) minus Capital Expenditures (CAPEX). Source: S&P Capital IQ (incl. Kinross). Value for Operating Cash Flow and Capital Expenditures based on calendar twelve months ended December 31<sup>st</sup>, 2025 period values per S&P Capital IQ (incl. Kinross).  
 2) "Total Gold Production" defined as Total Gold Equivalent (GEO) Production as per Total Reported GEO sales for calendar twelve months ended December 31<sup>st</sup>, 2025 S&P Capital IQ values and as per reported Company Disclosure (incl. Kinross).  
 3) Free Cash Flow per Ounce of Production calculated as Free Cash Flow divided by Total Gold Equivalent Production (GEO) based on calendar twelve months ended December 31<sup>st</sup>, 2025 period values per S&P Capital IQ (incl. Kinross) and as per reported Company Disclosure (incl. Kinross)

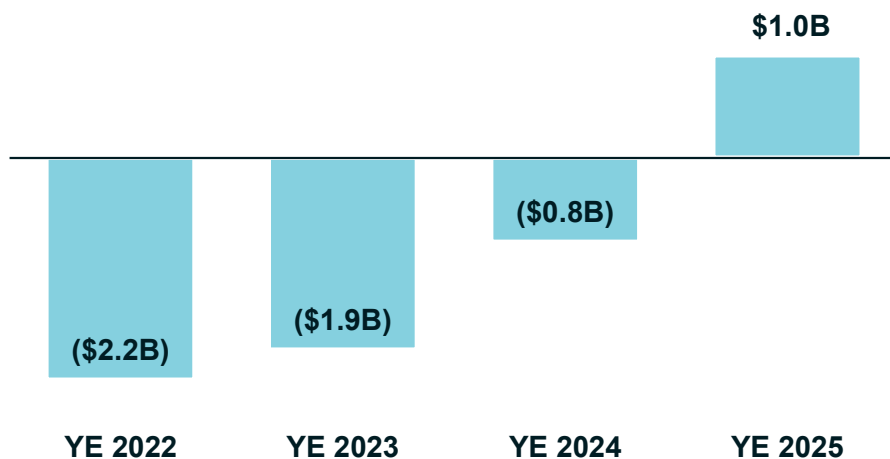

# Strengthening Financial Position

## Financial Strength

- **\$700 million** of total debt repaid in 2025
  - **\$200 million** – repaid the remaining term loan used to fund the Great Bear acquisition
  - **\$500 million** – redeemed 4.50% Senior Notes due in 2027
- **\$1.7 billion** of cash and cash equivalents with **~\$3.5 billion** of total liquidity<sup>1</sup>
- **\$1.0 billion of Net Cash<sup>2</sup>**
- \$1.5 billion **revolving credit facility renewed**, restoring the 5-year term

Net Cash/(Debt) (US\$)<sup>2</sup>

## Reduced Debt Profile

- **No near-term debt maturities:** \$500 million (2033) and \$250 million (2041)
- **Moody's Upgrade:** credit rating from Baa3 to Baa2
- **S&P Credit Outlook Updated:** Stable to Positive

Agency	Rating
Moody's	Baa2 (Stable)
Fitch	BBB (Stable)
S&P	BBB- (Positive)

Debt Maturities (US\$M)

# Disciplined Capital Allocation Strategy

		2025 ACTUAL	2026 TARGET
<b>1</b>	<b>REINVESTING IN OUR BUSINESS</b>		
	<ul style="list-style-type: none"> <li>• <b>Sustaining Capex</b><sup>1</sup> – maintaining operations safely and to world-class environmental standards</li> </ul>	<b>\$1,175M</b>	<b>\$1,500M</b>
	<ul style="list-style-type: none"> <li>• <b>Growth Projects</b><sup>1</sup> – pursuing attractive returns by leveraging our infrastructure and experience</li> </ul>		
	<ul style="list-style-type: none"> <li>• <b>Exploration</b> – capitalizing on opportunities to extend or grow production</li> </ul>	<b>\$174M</b>	<b>\$185M</b>
<b>2</b>	<b>MAINTAINING FINANCIAL STRENGTH</b>		
	<ul style="list-style-type: none"> <li>• In a strong financial position with three investment grade credit ratings</li> </ul>	<b>\$1.0B Net Cash</b> <sup>2,3</sup> (\$0.8B Net Debt <sup>3,4</sup> to \$1.0B Net Cash)	Continue to strengthen the balance sheet
<b>3</b>	<b>RETURNING CAPITAL TO SHAREHOLDERS</b>		
	<ul style="list-style-type: none"> <li>• <b>Sustainable Quarterly Dividend</b></li> </ul>	<b>\$152M</b> (17% increase in Q4/25)	<b>~\$190M</b> (14% increase in Q1/26)
	<ul style="list-style-type: none"> <li>• <b>Share Repurchases</b> – to improve per share metrics</li> </ul>	<b>\$600M</b> (Reduced 2.5% of shares o/s)	<b>Ongoing Share Buybacks</b>
		<b>Total: \$752M<sup>5</sup></b>	<b>Total: 40% of FCF<sup>6</sup></b>

1) See Capital Expenditure Guidance table in Appendix A.

2) As of December 31, 2025.

3) Net Cash / (Debt) is a non-GAAP financial measure with no standardized meaning under IFRS and therefore, may not be comparable to similar measures presented by other issuers. Refer to endnote #5.

4) As of December 31, 2024

5) Sum of dividends and share buybacks in USD from January 1<sup>st</sup>, 2025 to December 31<sup>st</sup>, 2025

6) Free Cash Flow ("FCF") is equivalent to attributable free cash flow, which is a non-GAAP financial measure with no standardized meaning under IFRS and therefore, may not be comparable to similar measures presented by other issuers. Refer to endnote #3.

# Investment Case: Why Kinross?

## Delivering Shareholder Value

- Consistent Operational Excellence ✓

---

- Rigorous Cost & Capital Discipline ✓

---

- Strong Margins & Record Free Cash Flow ✓

---

- Robust Investment Grade Balance Sheet ✓

---

- Attractive Dividend & Share Buyback ✓

---

- Growing per Share Metrics ✓

---

- Attractive Valuation ✓

---

- Highly Liquid Stock ✓

---

- Attractive Organic Growth Pipeline ✓

---

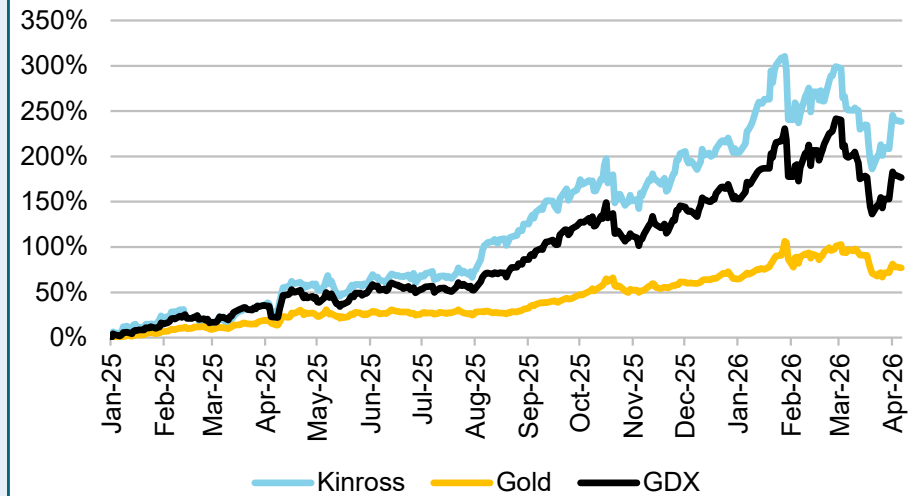

- Significant Resource Inventory ✓

# Great Bear

**National Indigenous Peoples Day**

*Kinross' Great Bear team partnered with the First Nations to participate in a learning opportunity on land-based teachings and knowledge sharing.*

# Great Bear – Project Location

## Premier Mining Jurisdiction with Strong Infrastructure

### Highly Attractive Jurisdiction

- 24 km southeast of town of Red Lake, Ontario
- Stable operating jurisdiction

### Established Existing Footprint

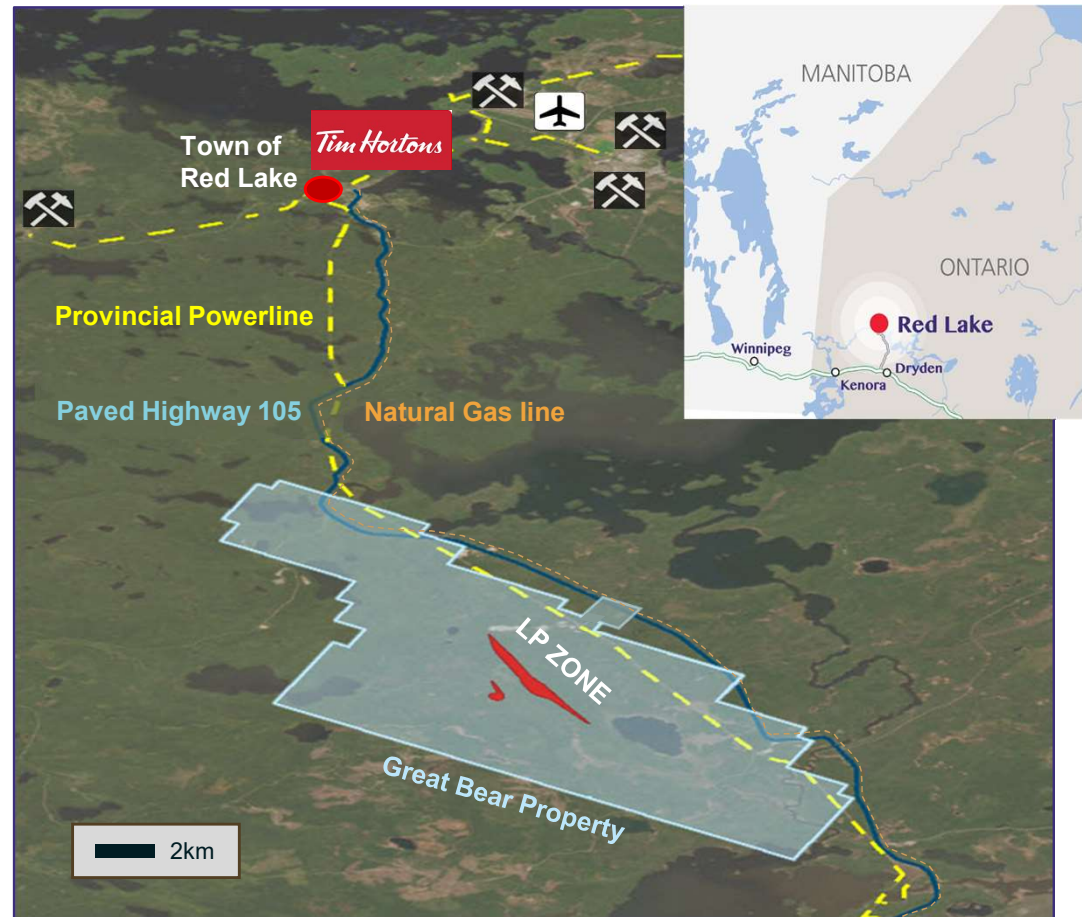

- Host to several existing mining operations
- Close to strong skilled labour pool

### Significant Regional Infrastructure

- Site accessible via paved Highway 105
- Existing provincial transmission powerline and Enbridge Natural gas line

### Strong Culture

- Continued engagement with local stakeholders and Indigenous partners.

# Great Bear – Current Update

## AEX and Main Project Progressing Well

On schedule for **first production in 2029**, subject to permitting

### ADVANCED EXPLORATION (“AEX”):

- Surface construction progressing well with **80% complete**
- Construction of **exploration decline to begin this year**, pending receipt of two provincial permits

### MAIN PROJECT:

- Detailed engineering progressing well with **~35% complete**
- **Initial procurement** for process plant and surface infrastructure **underway**
- **Manufacturing** of select long-lead items **to commence this year**

### MAIN PROJECT PERMITTING:

- Overall Federal and Provincial permitting **continues to advance**
- **Phase 2** of the Project Impact Statement submitted **in Q4/25**
  - **Final Phase 3** planned for submission in **Q1/26**
- One Project, One Process (“**1P1P**”) designation **received** by Ontario Ministry of Mines

### BROADER EXPLORATION:

- Mineralization identified 1.8km along strike from Main LP zone
- Two areas of new Hinge and Limb style mineralization identified in 2025 – follow up in 2026 regional work

# Great Bear – PEA Highlights

## PEA<sup>4</sup> Highlights Both, Strong Economics and Positive Technical Attributes

### Positive Technical Attributes

- ✓ Clean metallurgy – no deleterious elements
- ✓ High metallurgical recoveries of 95.7%
- ✓ Straightforward conventional mill circuit
- ✓ Right-sized 10ktpd mill reducing project risk
- ✓ Highly competent geotechnical conditions
- ✓ Strong underground widths for high-productivity long-hole mining
- ✓ Significant production flexibility from high-grade open pit combined with underground
- ✓ Robust tailings and water management strategy
- ✓ >500km of drilling to date including ~16km of geotechnical drilling and 35km of RC drilling increasing resource confidence

**518koz / Year**

Note: Metrics calculated after-tax at \$4,500/oz and are discounted at 5% where applicable; All dollar amounts are expressed in U.S. dollars;

1) Free cash flow (FCF) and All-in sustaining cost (AISC) are Non-GAAP measures. Refer to endnote #6.

2) Average FCF over the first 8 years of production excluding stump years.

3) Refer to endnote #2.

4) The PEA is preliminary in nature and is based, in part, on Inferred Mineral Resources. Inferred Mineral Resources are considered too geologically speculative to have the economic considerations applied to them that would enable them to be categorized as Mineral Reserves. There is no certainty that the economic forecasts on which the PEA is based will be realized.

# Great Bear PEA Production Profile<sup>1</sup>

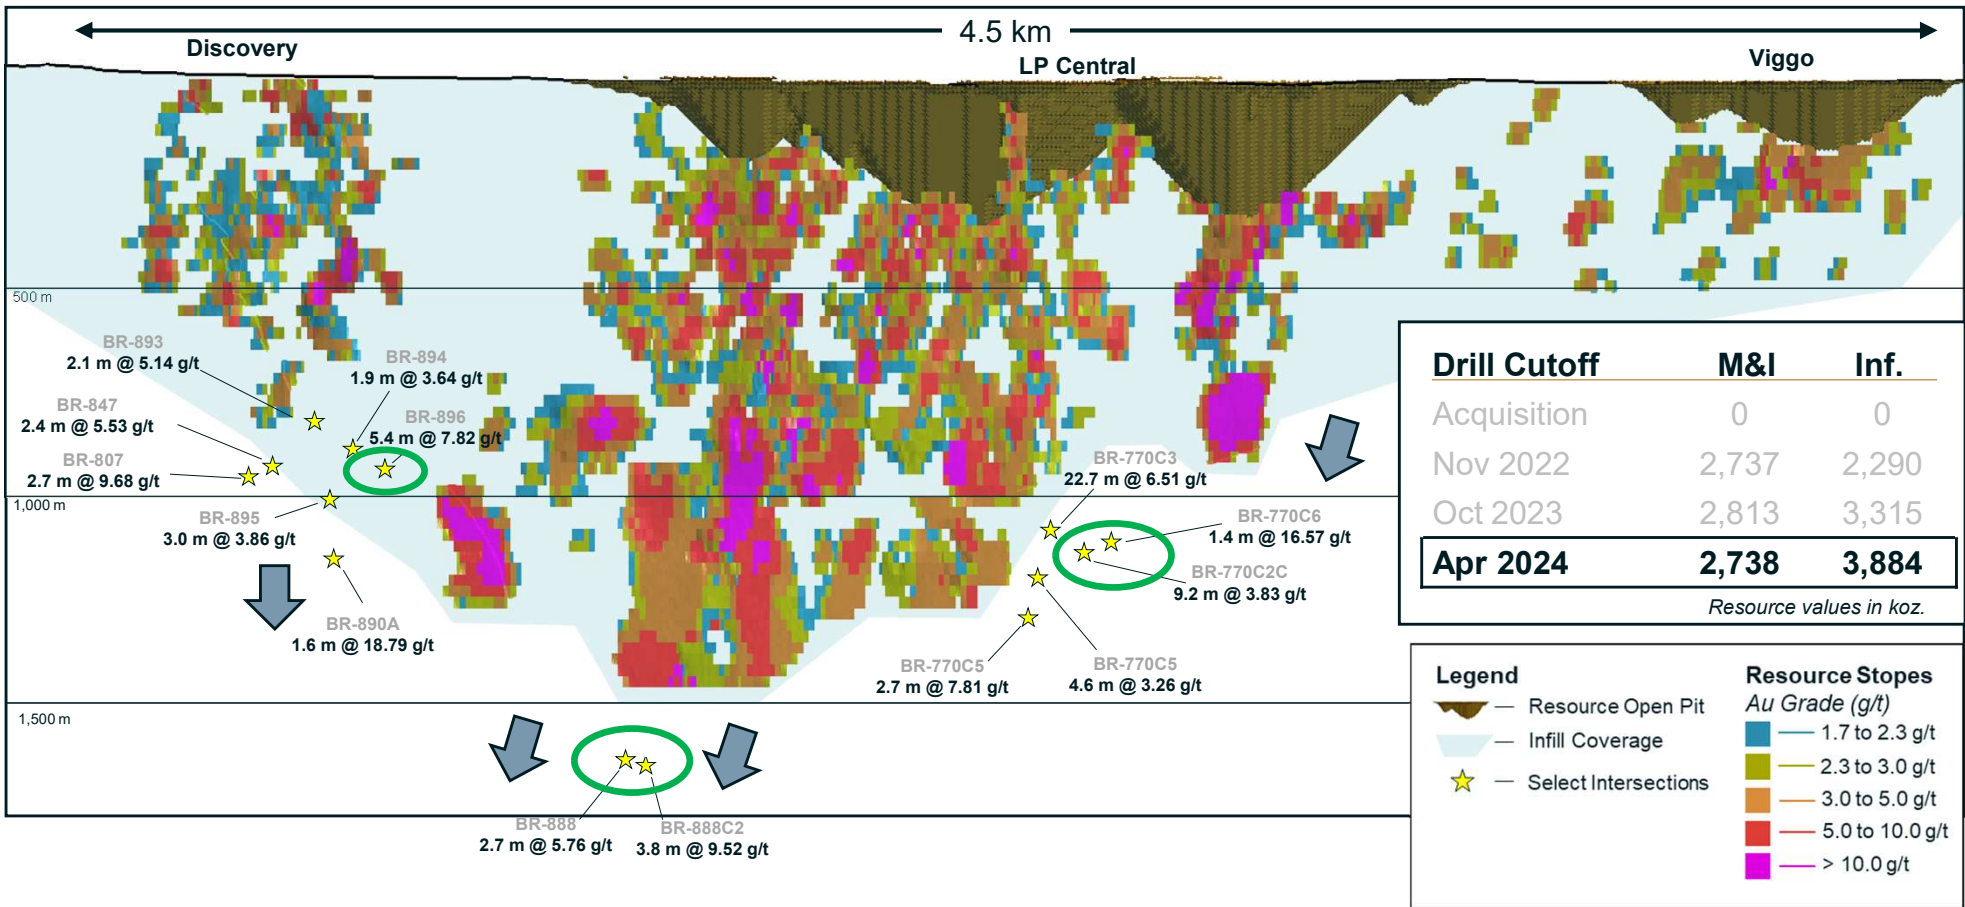

Top Tier Production Profile of ~500koz per year production from the combined Open Pit and Underground operations >4 g/t Mill Grade

1) Per Great Bear PEA published September 10<sup>th</sup>, 2024 subject to permitting

# Great Bear – High Grade Intercepts at Depth

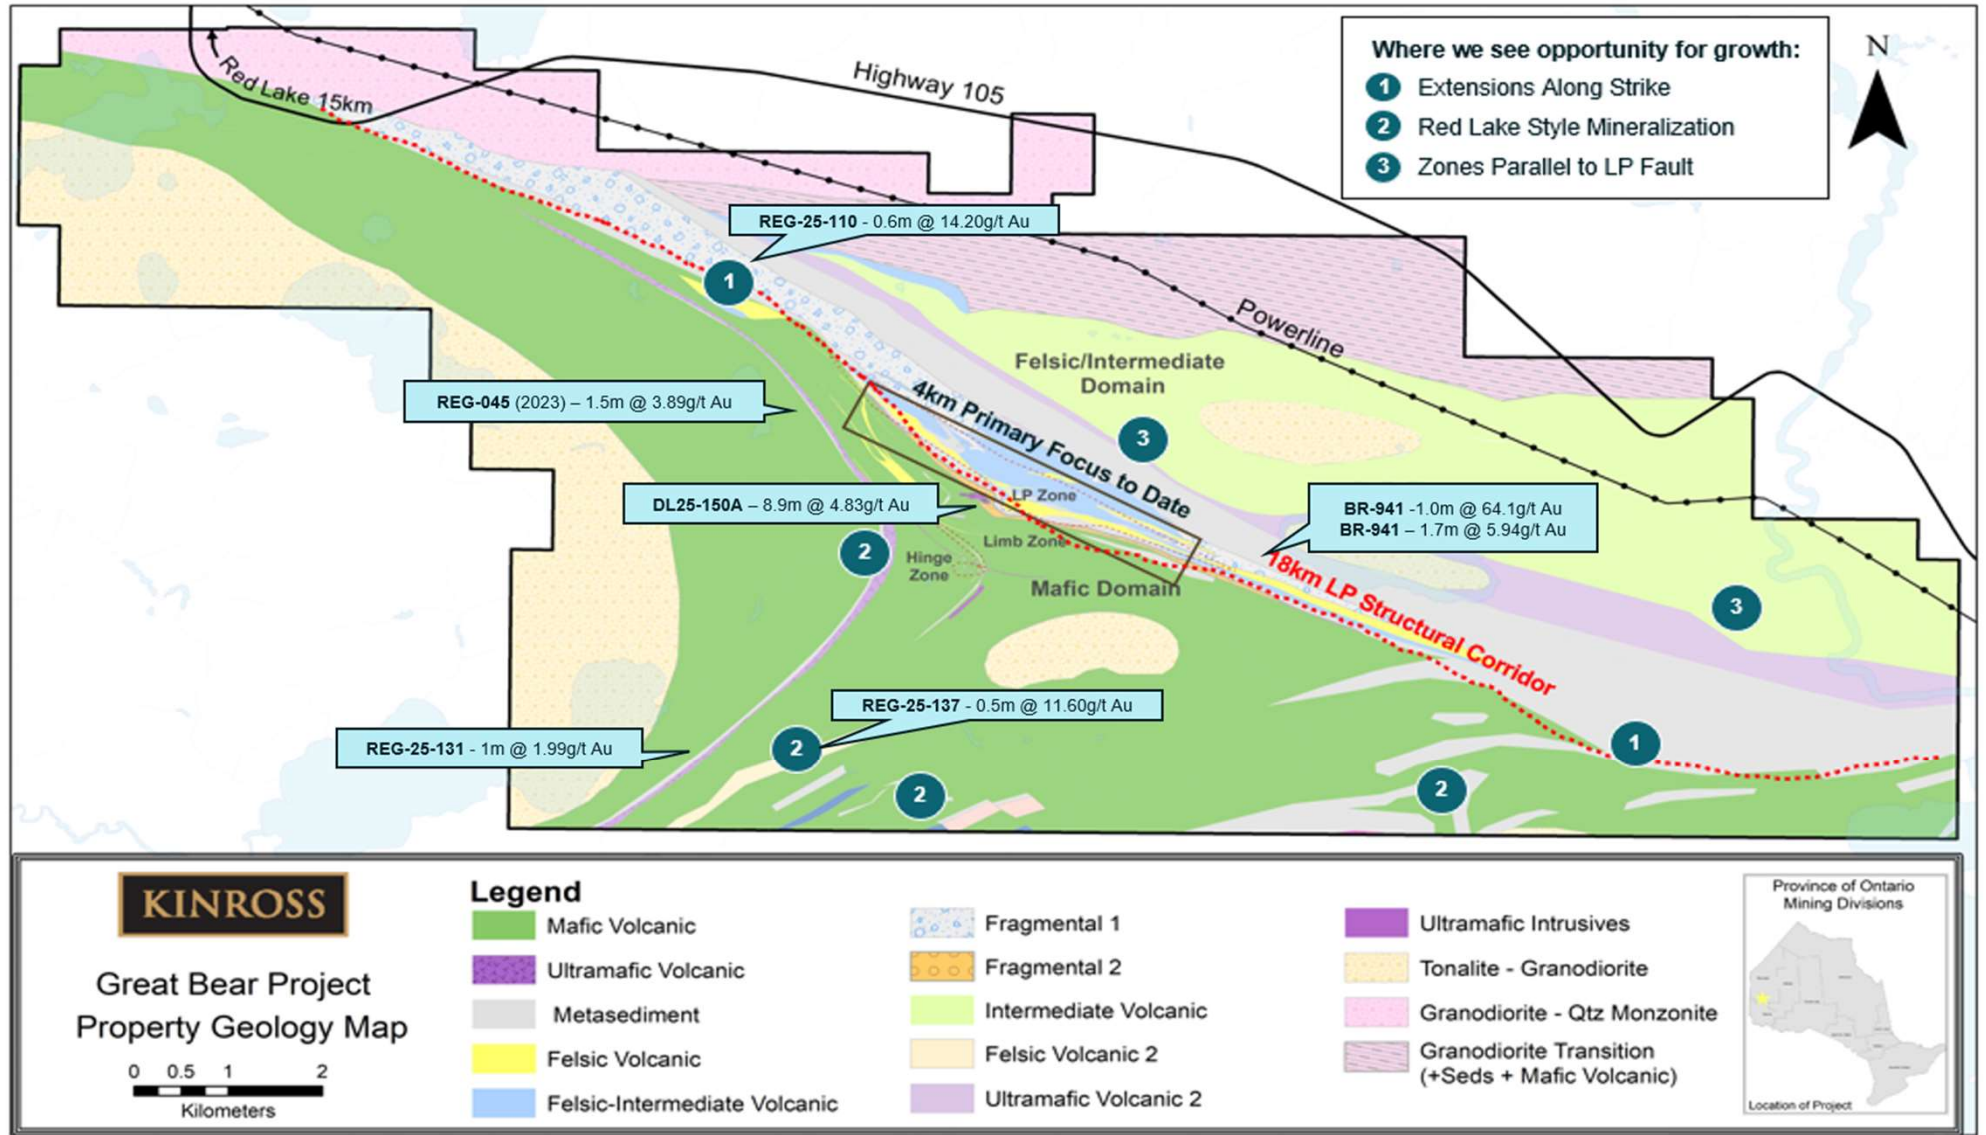

Drilling Beyond the PEA Inventory Shows Upside Potential for Resource Additions

Recent deep drilling from surface shows continued high grade mineralization at depth, highlighting potential for resource additions

# Great Bear – Regional Exploration

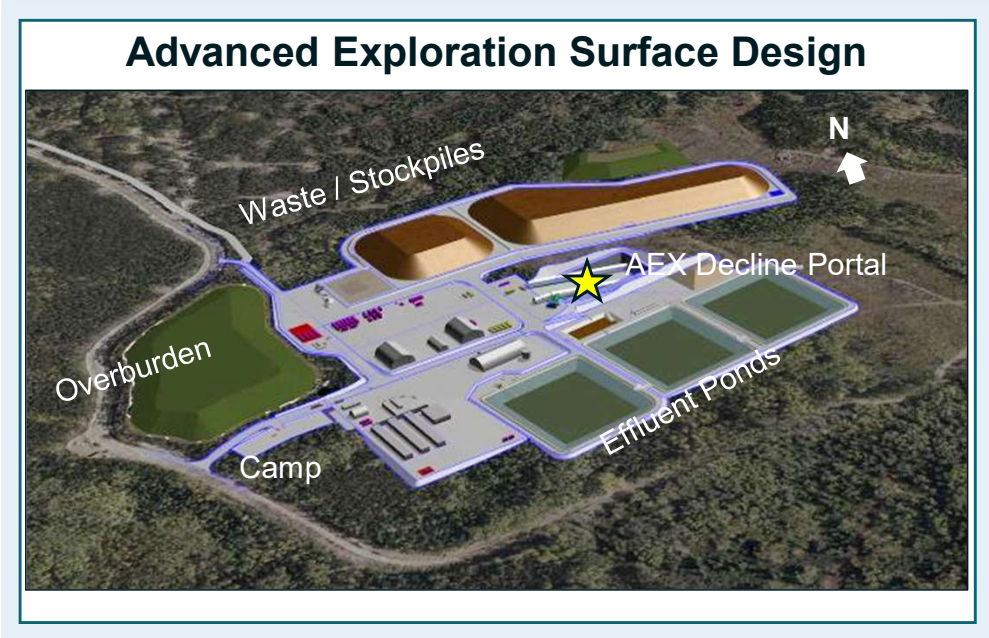

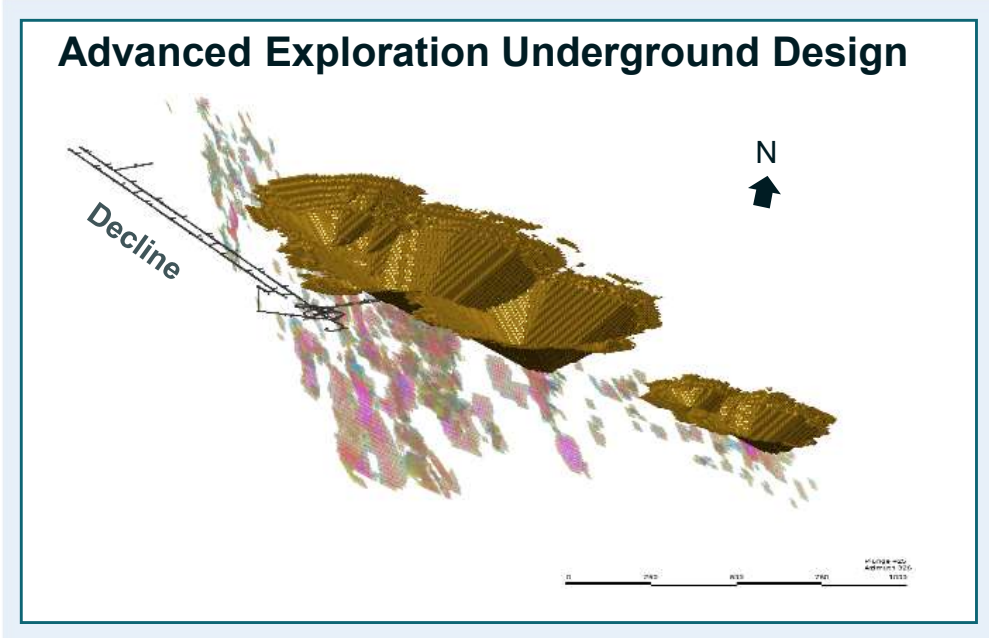

## Large 18km Trend With Limited Drilling to Date ~55km drill program planned for 2026

# Great Bear – AEX Decline

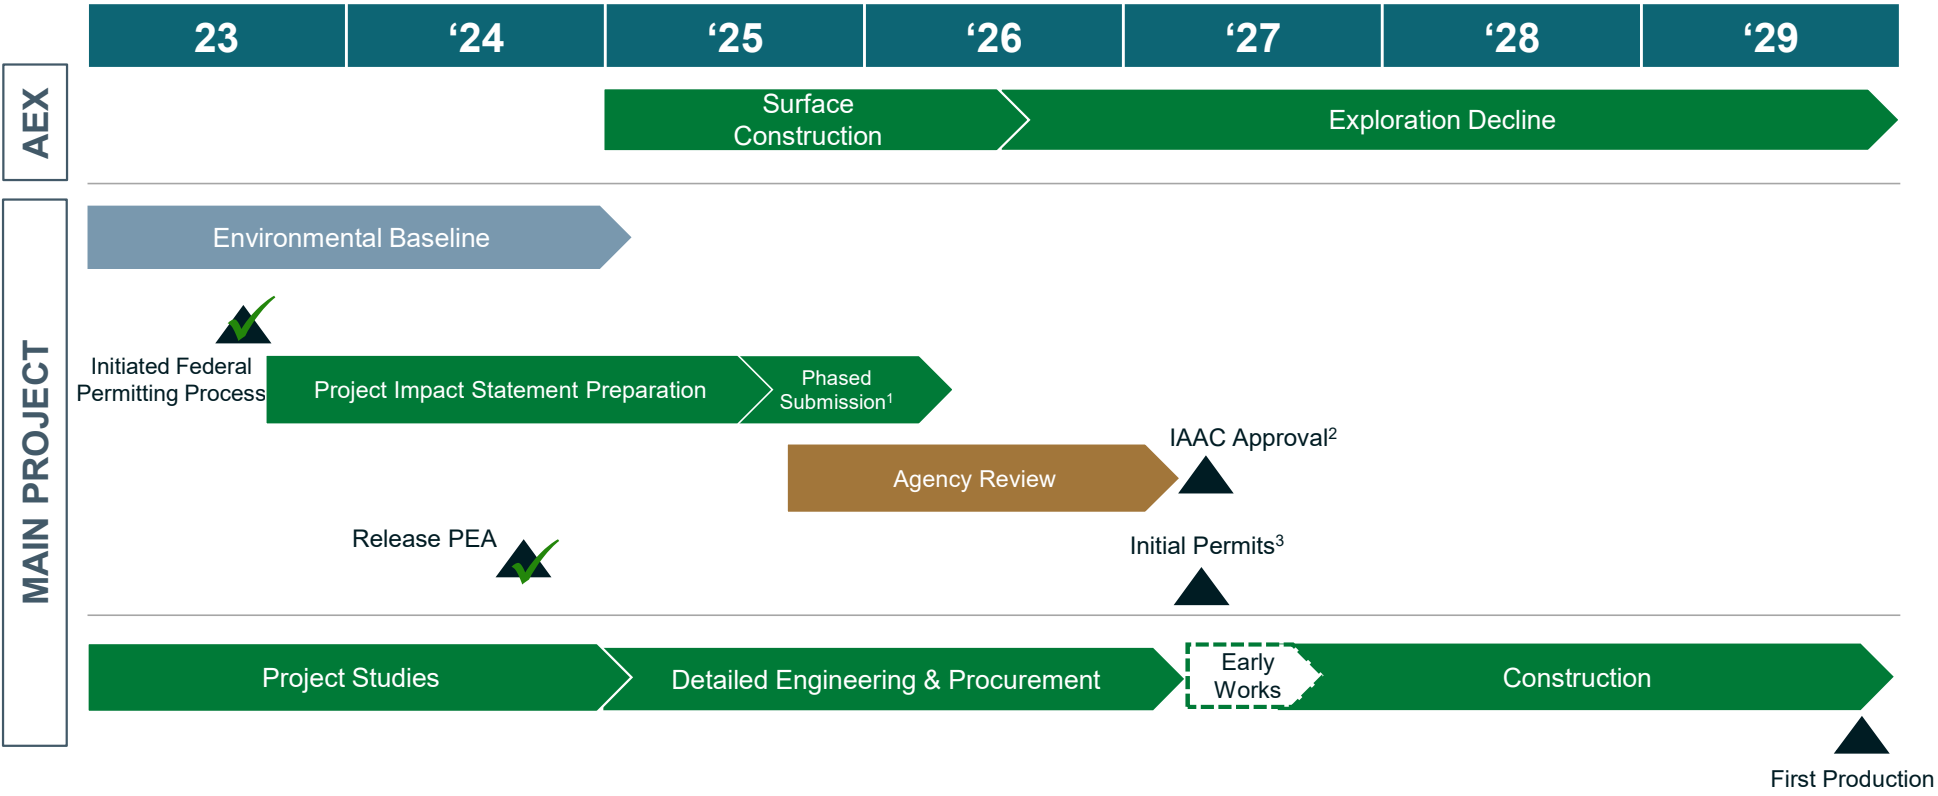

## Enables Efficient Drilling of Underground Material

### Conceptual Exploration Timeline

# Great Bear – Targeted Path to Production

## Conceptual Project Development Timeline

- Kinross Activities
- Baseline Study Requirements
- Government Activities

(1) Three phased submission of the Impact Statement completed on time. Phase 1, 2, and 3 submitted in September 2025, December 2025, and March 2026, respectively.  
 (2) Average timelines consider Impact Assessment Agency of Canada (“IAAC”) process. Permitting timelines are estimated and subject to Government process, consultation and engagement.  
 (3) Remaining construction and operating permits are to be obtained in the ordinary course during construction prior to First Production.

# Operations & Projects

# Mauritania

## 2026E Gold Equivalent Production<sup>1</sup>

## Asset

## Highlights

### Tasiast

- Top-tier<sup>2</sup> asset
- Low-cost mine
- Strong production profile supported by a large gold reserve in a prospective district
- Expected to deliver low-cost production and significant cash flow into the next decade
- Solar power facility supplying ~20% of site power

# Mauritania – A World Class Mining Jurisdiction

- Politically stable democracy which gained independence in 1960
- Safe, secure jurisdiction with positive regional relations and strong US, French, and NATO presence
- Actively promotes foreign investment with pro-mining policies and a competitive fiscal and regulatory framework
- Foreign investment is robust and steadily increasing, with investments from BP, Total and First Quantum among others
- Mining is a major industry and critical to the economy alongside fishing and oil & gas, with the mining sector contributing:
  - 19% to national GDP in 2023
  - 23% of government revenue in 2023
- Tasiast is a major contributor to the national economy through royalties and taxes, strengthening the economic benefits in country
- Kinross continues to maintain a strong relationship with the Government of Mauritania and local communities around the Tasiast mine

# Tasiast

## Low cost Mine Backed by a Substantial Reserve and Exploration Potential

- **Delivered another strong year of operational and financial performance** in 2025
- Lowest cost operation driving **robust free cash flow**
- Successfully **finalized a 5-year CLA**<sup>4</sup>
- **Ongoing exploration** highlighting the potential to extend mine life on **satellite** mineralization and/or open-pit extensions

[Link to Tasiast VRIFY Model on Kinross Website](#)

### Operating Results

	2023A	2024A	2025A	2026E <sup>1</sup>
<b>Production</b> (Au eq. oz.)	620,793	622,394	503,429	505,000
<b>Production cost of sales</b> (\$/oz.) <sup>2</sup>	\$661	\$681	\$884	\$1,050

### 2025 Gold Reserve & Resource Estimates<sup>3</sup>

	Tonnes (kt)	Grade (g/t)	Ounces (koz)
<b>2P Reserves</b>	102,765	1.3	4,401
<b>M&amp;I Resources</b>	79,067	0.9	2,396
<b>Inferred Resources</b>	35,950	2.1	2,377

# Tasiast – Production Profile

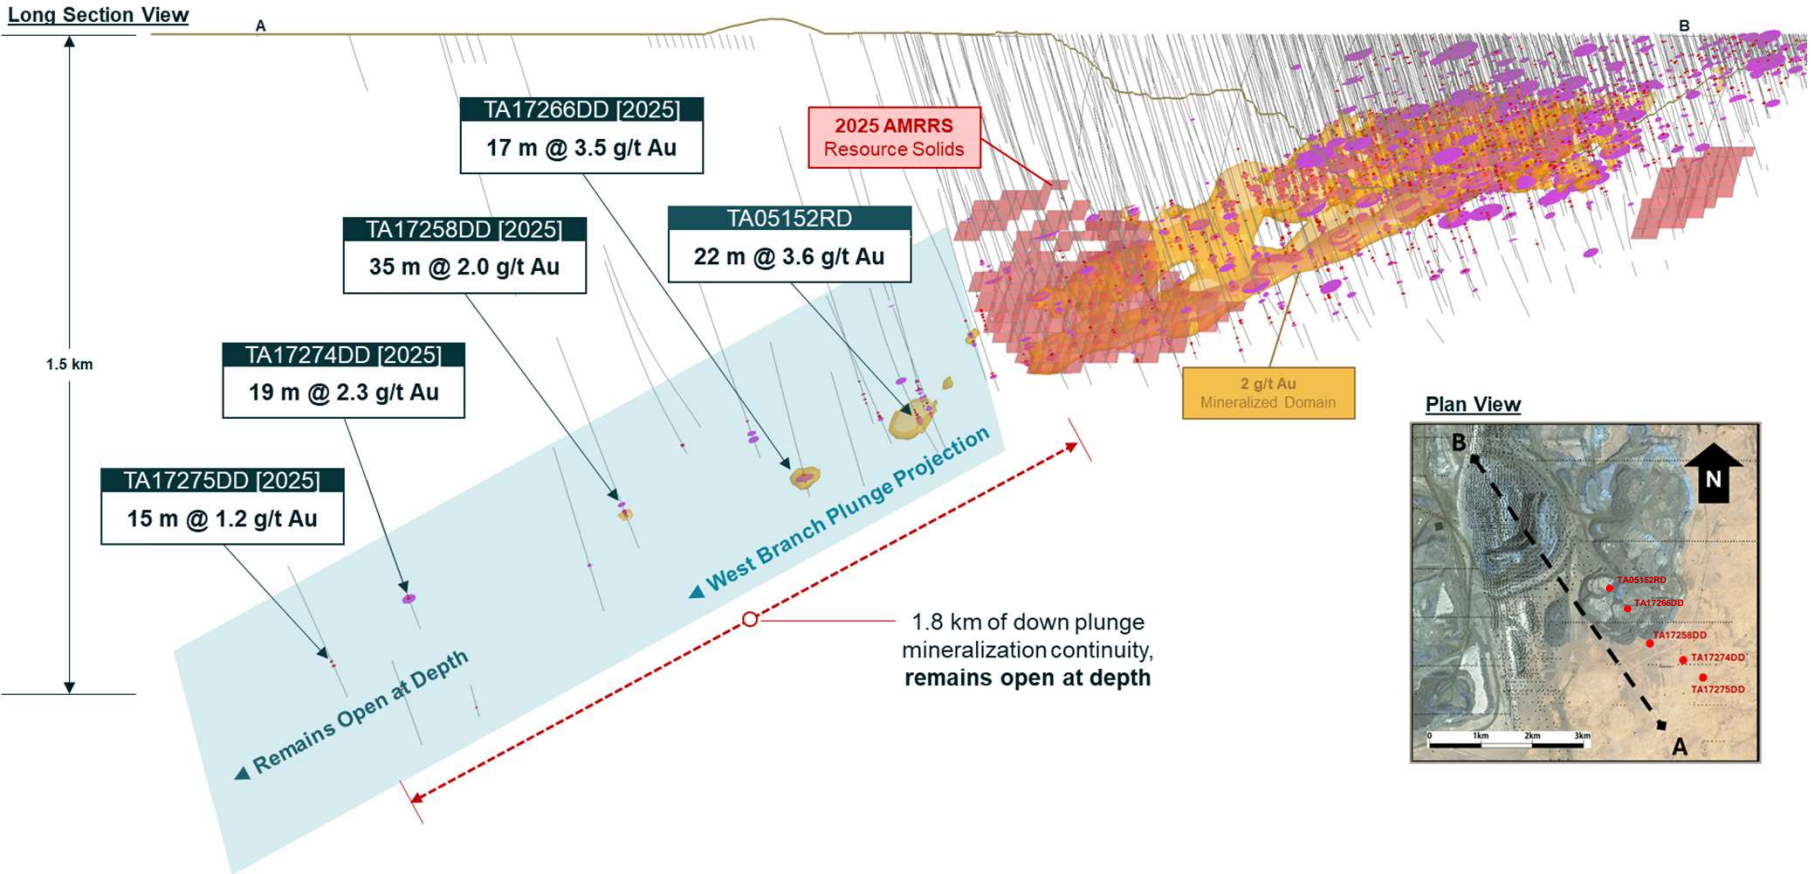

- Tasiast life-of-mine plan has been updated on the back of the 2024 reserve update
- Updated mine plan reflects continued success increasing 2025-2027 production profile via operational improvements, mine design, and satellite mining opportunities
  - **2026 & 2027:** Expected to be around 500koz/yr due to ongoing mine plan optimization
- Drilling at depth continues to show continuity of mineralization and potential for underground production in the longer term at Tasiast

# Tasiast West Branch Exploration

## Tasiast West Branch – Strong Underground Potential

- 2025 deep drilling shows mineralization continues at least 1.8km along strike and down plunge
- Confirms strong continuity beyond current resource boundaries

# Brazil

## 2026E Gold Equivalent Production<sup>1</sup>

## Asset

## Highlights

### Paracatu

- Top-tier<sup>2</sup> asset
- Largest gold mine in Brazil, and one of the world's largest gold mining operations
- Attractive cost structure and stable long mine life extending into the next decade
- Track record of strong operating performance with eight consecutive years >500koz of production
- Two hydro-electric power plants supplying ~70% of site power

# Paracatu

## Top-tier Gold Mine with Production extending into the Next Decade

- **Over 600koz produced in 2025** – highest producer driving substantial cash flow
- **8<sup>th</sup> consecutive year producing over 500koz**
- **Cost of sales decreased** over prior year
- Another **strong year expected in 2026**

### Operating Results

	2023A	2024A	2025A	2026E <sup>1</sup>
<b>Production (Au eq. oz.)</b>	587,999	528,574	601,318	600,000
<b>Production cost of sales (\$/oz.)<sup>2</sup></b>	\$909	\$1,039	\$978	\$1,240

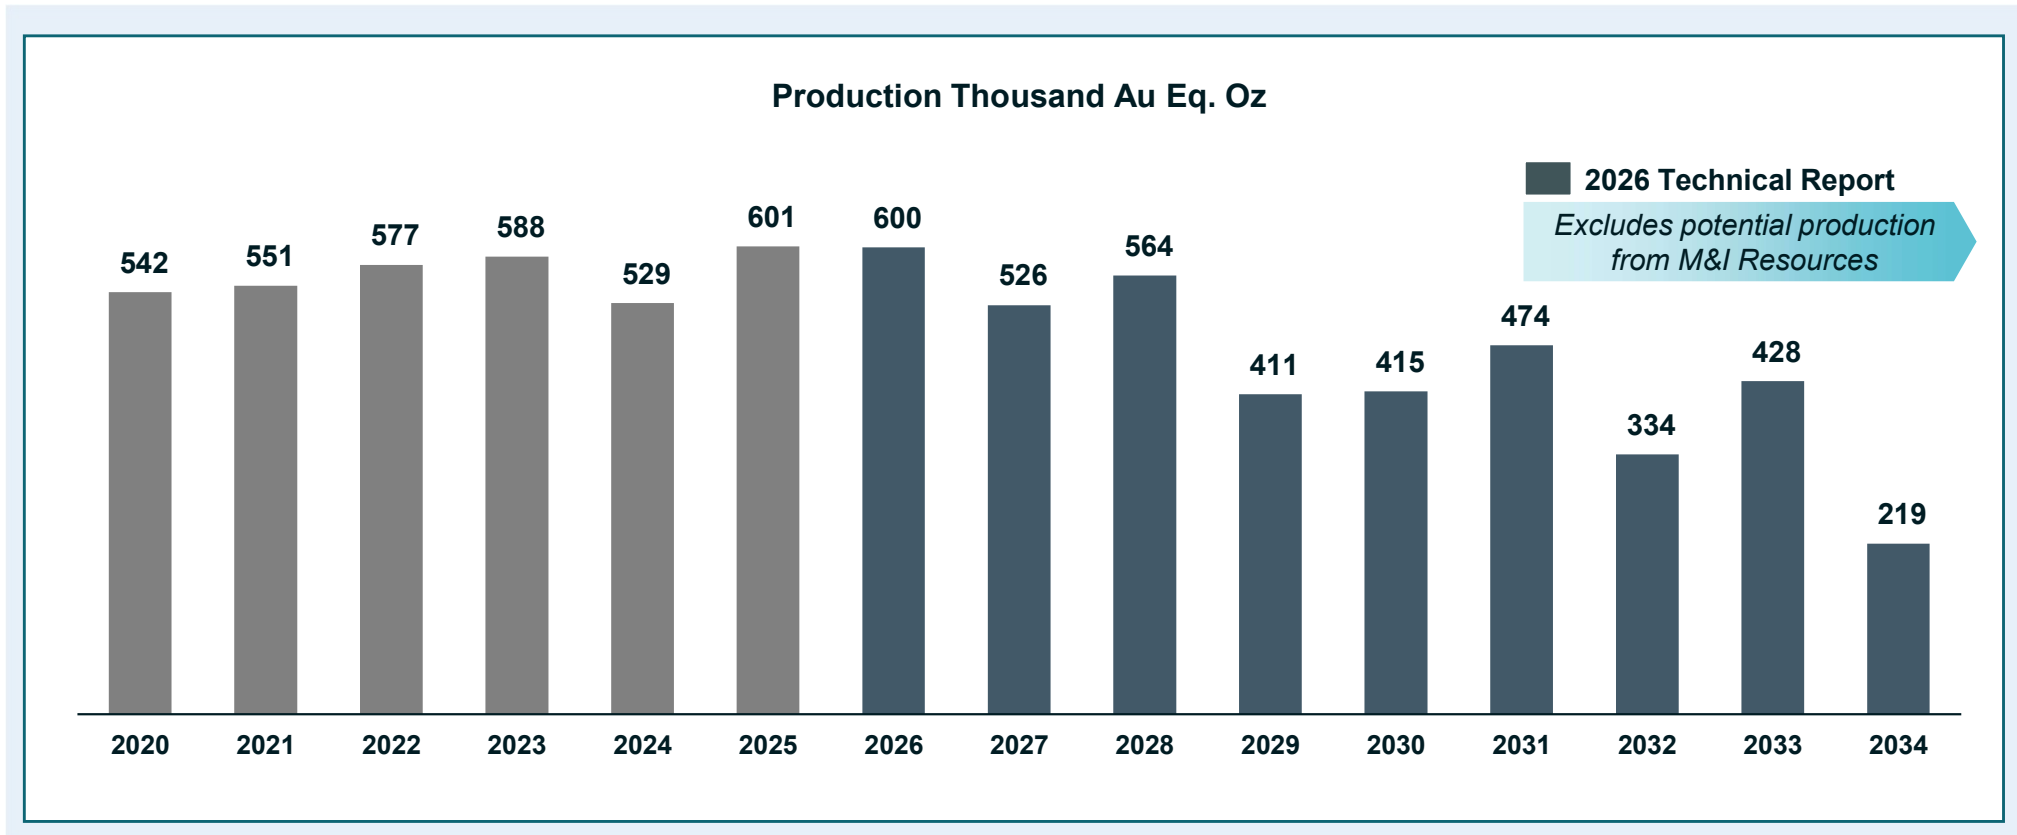

### 2025 Gold Reserve & Resource Estimates<sup>3</sup>

	Tonnes (kt)	Grade (g/t)	Ounces (koz)
<b>2P Reserves</b>	399,642	0.4	4,839
<b>M&amp;I Resources</b>	329,127	0.3	3,522
<b>Inferred Resources</b>	6,383	0.2	44

# Paracatu – Production Profile

- Paracatu life-of-mine plan updated, extending mine life to 2034
- ~760koz added to the 2026-2034 window vs. the 2020 Technical Report
- Recoveries improved from ~75% in 2020 to ~80% in 2025
- 3.5Moz in M&I Resources is incremental to the 2026 Technical Report Mine Plan:
  - Drilling and mine plan optimization continues to further extend the production profile

# Chile

## 2026E Gold Equivalent Production<sup>1</sup>

Asset	Highlights
<b>La Coipa</b>	<ul style="list-style-type: none"> <li>High-margin production with strong cash flow</li> <li>La Coipa oxide extensions show promising opportunities to extend mine life</li> </ul>
<b>Lobo-Marte</b>	<ul style="list-style-type: none"> <li>World Class Development Project with excellent long-life production potential</li> </ul>
<b>Maricunga</b>	<ul style="list-style-type: none"> <li>Past producer with significant resource</li> </ul>

1) Refer to endnote #1

# La Coipa – Met 2025 Production Guidance

- **Improved** production and cost **performance** in Q4
- **Higher grades** as mining continues through Phase 7 higher-grade ore
- Successfully **finalized a 2-year Collective Labour Agreement**

## Operating Results

	2023A	2024A	2025A	2026E <sup>1</sup>
<b>Production</b> (Au eq. oz.)	260,138	246,131	231,770	210,000
<b>Production cost of sales</b> (\$/oz.) <sup>2</sup>	\$681	\$959	\$1,208	\$1,320

## 2025 Gold Reserve & Resource Estimates<sup>3</sup>

	Tonnes (kt)	Grade (g/t Au)	Ounces (koz Au)	Grade (g/t Ag)	Ounces (koz Ag)
<b>2P Reserves</b>	7,342	1.8	436	45.9	10,839
<b>M&amp;I Resources</b>	46,001	1.4	2,128	35.3	52,143
<b>Inferred Resources</b>	4,799	1.2	188	41.2	6,358

# Chile – Strong Production Outlook

## Mined in succession, La Coipa & Lobo-Marte could enable production in Chile beyond 2040

- La Coipa and Lobo-Marte are located in Chile's Atacama (Region III), approximately 650 km north of Santiago
- Both deposits are in the Maricunga Belt with access to infrastructure, and just 50km apart.
- Lobo-Marte has the potential to be a long-life asset with a sizeable production profile
- Opportunity to share infrastructure and equipment from Kinross' projects in the region (e.g., water source, processing equipment and camp)

### 2025 Chile Gold Reserve & Resource Estimates<sup>1</sup>

	2P Reserves	M&I Resources	Inferred Resources
La Coipa	0.4	2.1	0.2
Lobo-Marte	6.7	2.8	0.7
Maricunga	-	7.1	4.9
<b>Total Chile (Moz)</b>	<b>7.1</b>	<b>12.0</b>	<b>5.8</b>

[Link to Chile VRIFY Model on Kinross Website](#)

# Lobo-Marte

## Potential to be a long-life, low cost, cornerstone asset with significant production

- Offers excellent long-life production potential in Chile
- Significant mineral reserve estimate<sup>1</sup>, with attractive grades and a low estimated strip ratio
- Planned to be an open pit heap leach operation
- Environmental Baseline studies completed
- Plan to submit Environmental Impact Assessment (EIA) by Q2/26
- Project update in 2026

### 2025 Reserve & Resource Estimates<sup>1</sup>

	<b>Tonnes</b> (thousands)	<b>Grade</b> (Au g/t)	<b>Ounces</b> (thousands)
<b>Probable Reserves</b>	160,702	1.3	6,733
<b>Indicated Resources</b>	120,762	0.7	2,752
<b>Inferred Resources</b>	32,911	0.6	670

### Metric

### Kinross Estimates<sup>2</sup> (Approximate)

Life of mine production (Au eq. oz.)	4.7 million
Annual production (Au eq. oz.)	~300 koz
Life of mine ore processed (tonnes)	160 million
Average grade processed (Au)	1.3 g/t
Strip ratio	2.0
Average recovery rate Au	70%

# United States

## 2026E Gold Equivalent Production<sup>1</sup>

## Asset

## Highlights

### Fort Knox, Alaska

- High-grade production contribution from Manh Choh

### Round Mountain, Nevada

- Established production plan to 2038 with the bulk tonnage Phase X UG operations

### Bald Mountain, Nevada

- Open-pit mining with a large mineral resource base

### Curlew, Washington

- High-grade, UG operations restart producing into late 2030s

United States Total	2023A	2024A	2025A	2026E <sup>1</sup>
Attributable <sup>2</sup> production (Au eq. oz.)	684,090	730,953	675,589	685,000
Production cost of sales (\$/oz.) <sup>3</sup>	\$1,318	\$1,295	\$1,417	-
Attributable <sup>2</sup> production cost of sales (\$/oz.) <sup>4</sup>	\$1,318	\$1,313	\$1,426	\$1,700

1) Refer to endnote #1  
 2) "Attributable" includes Kinross' 70% share of Manh Choh production and costs, as applicable.  
 3) Refer to endnote #2.  
 4) Refer to endnote #3

# Fort Knox

## High grade production contribution from Manh Choh

- Full-year production higher relative to **2024**, given stronger and full-year contribution from Manh Choh
- Lower Q4 production and higher cost of sales over prior quarter due to lower planned grades and less contribution from Manh Choh
- Current production life is expected to extend to **2030** with further optionality
- Significant mill capacity provides optionality for future production growth

### Operating Results

	2023A	2024A	2025A
Attributable <sup>1</sup> production (Au eq. oz.)	290,651	334,519	353,018
Production cost of sales (\$/oz.) <sup>2</sup>	\$1,195	\$1,205	\$1,339
Attributable <sup>1</sup> production cost of sales (\$/oz.) <sup>3</sup>	\$1,195	\$1,233	\$1,344

### 2025 Gold Reserve & Resource Estimates<sup>4</sup>

	Tonnes (kt)	Grade (g/t)	Ounces (koz)	
Fort Knox	2P Reserves	82,940	0.4	976
	M&I Resources	233,082	0.3	2,400
	Inferred Resources	47,909	0.4	599
Manh Choh	2P Reserves	2,033	6.8	444
	M&I Resources	703	2.0	46
	Inferred Resources	0	3.2	0

1) "Attributable" includes Kinross' 70% share of Manh Choh production and costs, as applicable.  
 2) Refer to endnote #2  
 3) Refer to endnote #3  
 4) Refer to Appendix B

# Round Mountain

## Planned Future of Open-pit Mining, Underground Phase X Approved

- Currently mining **Phase S open pit**
- **Phase X underground project** approved in Q1 2026
  - **High margin, bulk tonnage** UG opportunity
  - Extends operations **to 2038**
- Lower Q4 production and higher costs over prior quarter due to planned lower grades and blending of higher-grade ore with lower-grade stockpiles
- Cost of sales increased primarily due to Phase S transitioning from capital waste to operating waste

### Operating Results

	2023A	2024A	2025A
<b>Production</b> (Au eq. oz.)	235,690	215,387	143,402
<b>Production cost of sales</b> (\$/oz.) <sup>1</sup>	\$1,528	\$1,527	\$1,918

### 2025 Gold Reserve & Resource Estimates<sup>2</sup>

	Tonnes (kt)	Grade (g/t)	Ounces (koz)
<b>2P Reserves</b>	45,055	1.3	1,888
<b>M&amp;I Resources</b>	81,275	0.6	1,446
<b>Inferred Resources</b>	61,269	1.0	1,960

# Round Mt. Phase X – Production and Cost profile

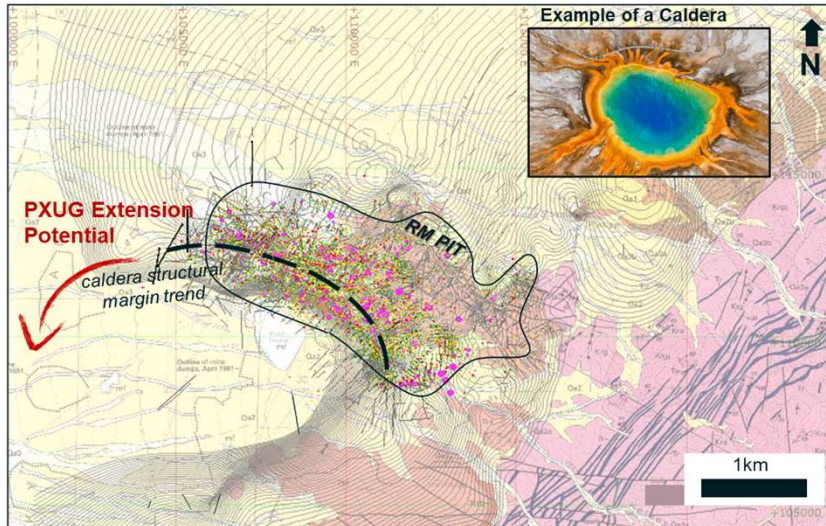

Significant incremental production at an average AISC<sup>1</sup> of \$1,697/oz at \$4,500 Au

1) Refer to endnote #6

# Round Mt. Phase X – Strong exploration potential

## Further upside potential via proximal growth and down-dip extensions

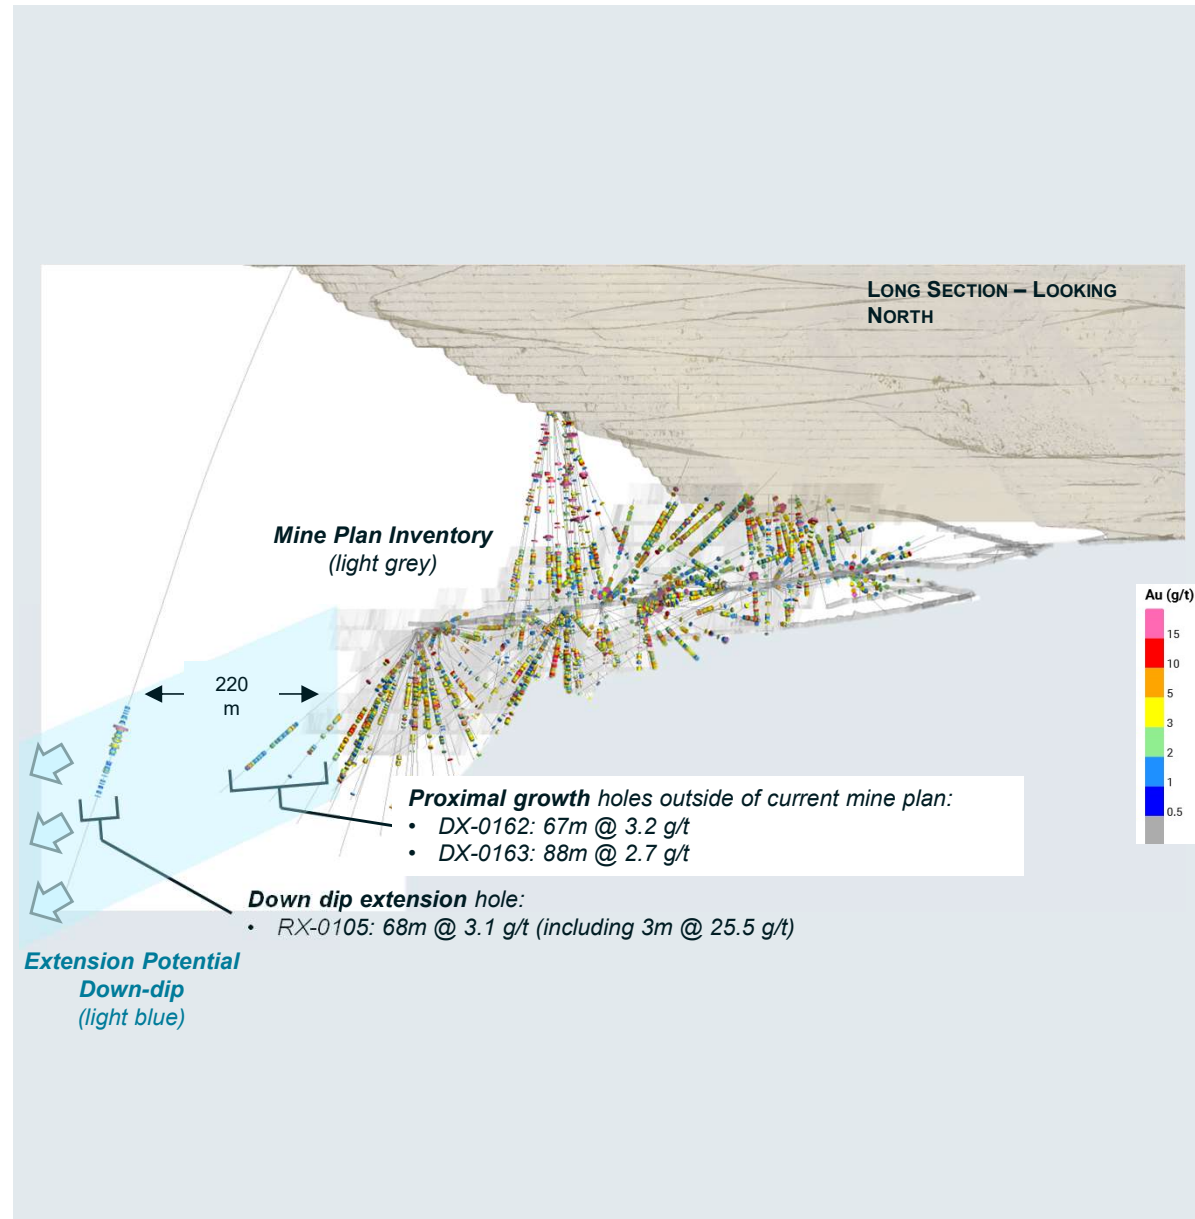

- **Mine Plan Inventory:**

- ~6,000 metres of development completed to date
- ~35,000 metres of infill drilling completed to date
- Driving strong initial reserve and resource

- **Further Extension Potential:**

- Intersected strong grades and widths outside the mine plan inventory; 220m down-dip
- Highest potential for further resource and mine plan extensions along the Caldera margin

# Bald Mountain – Extending Production

- Mine plan currently **optimized for near term cash flow**
- Redbird Phase 1 mining **continued to ramp up** in Q4/25
- **Redbird Phase 2 approved** and optimized via satellite pits; extends production to 2032
- **Substantial mineral resource base** offers optionality for mine life extension across multiple open pit pushbacks

## Operating Results

	2023A	2024A	2025A
<b>Production</b> (Au eq. oz.)	157,749	181,047	179,169
<b>Production cost of sales</b> (\$/oz.) <sup>1</sup>	\$1,241	\$1,205	\$1,198

## 2025 Gold Reserve & Resource Estimates<sup>2</sup>

	Tonnes (kt)	Grade (g/t)	Ounces (koz)
<b>2P Reserves</b>	66,306	0.6	1,225
<b>M&amp;I Resources</b>	144,944	0.5	2,548
<b>Inferred Resources</b>	78,862	0.3	790

# Bald Mt. Redbird 2 – Pits Overview

Combines the Redbird 2 anchor pit with five satellite pits, leveraging infrastructure

1) Probable reserves gold ounces contained shown in figure as of December 31, 2025. See Appendix B

# Bald Mt. Redbird 2 – Production and Cost Profile

## High-productivity, low-cost additions extend Bald Mountain production to 2032

	Units	Metric
<b>Tonnes Mined</b>	Mtonne	251
<b>Strip Ratio</b>	x	3.0x
<b>Tonnes Processed</b>	Mtonne	63
<b>Grade Processed</b>	g/t	0.5
<b>Peak Mining Rate</b>	ktpd	229
<b>Unit Mining Cost</b>	\$/t mined	2.36

Estimated Bald Mt. Production (koz Au Eq.)

Estimated Redbird 2 Incremental AISC<sup>2</sup> Profile (\$/oz)

1) Combined incremental values for Redbird 2 and Satellite Pits  
 2) Refer to endnote #6

# Bald Mt. – Longer-term Optionality

Prolific Land Package with >40 historically mined pits with further potential extensions

>40 Pits mined since 1870

5km

- ★ Historic Anchor Pit
- ★ Current Anchor Pit (*Redbird*)
- Historic Mining Area
- Current Mining Areas

Next Focus on large Resource at Top Pit

## Top Pit Resource

	Tonnes (000's)	Grade (g/t Au)	Contained Ounces (000's)
Indicated	68,445	0.5	1,109
Inferred	28,762	0.3	235

- Top is a **large indicated resource (>1Moz)** of leachable material, which could act as next “anchor pit” after Redbird
- Potential stripping in the 2030s could be complemented by further satellites and exploration targets in the area
- **Top Pit is already permitted**
- Top was initially mined in late 1800s by underground and again by open pit starting in 1985. Top was last mined in 2023.
- Studies are planned to **determine optimal approach / sequence to extract the large resource**

# Curlew – District Overview

Leveraging existing infrastructure for a quick restart in Washington State

## District Map

2.8Moz produced through the Kettle River Mill

## Curlew Mine Restart

- Leverages historic K2 mine (mined 1996-2005) portal and underground infrastructure
- Adjacent to the historic K1 mine (mined 1990-93)

## Kettle River Mill

- Significant historical production
- Put into active care & maintenance in 2017
- Conversion to filtered tailings underway

# Curlew – Production and Cost Profile

Steady, long-life asset with further upside potential to enhance in mid-to-late 2030s

1) Refer to endnote #6

# Curlew – Mill & Tailings Overview

Simple process flowsheet; leveraging existing infrastructure

## Process plant summary

- **Transport:**
  - Material from the Curlew mine to be transported ~40km by road to the mill
  - Consistent with past operations
- **Mill:**
  - 1,800tpd mill capacity
  - Conventional crushing, grinding, and carbon-in-leach gold recovery circuit
- **Metallurgy:**
  - Comparable to historical ore processed
- **Recovery:**
  - 80% average LOM recovery anticipated
- **Tailings:**
  - Upgrade to dry-stack tailings
  - Addition of a tailings dewatering plant
- **Processing Cost:**
  - Estimated at \$47 per tonne

# Curlew – Exploration Upside

## Targeting high-grade resource extension along the productive paleosurface

- **Development to Priority Targets:**

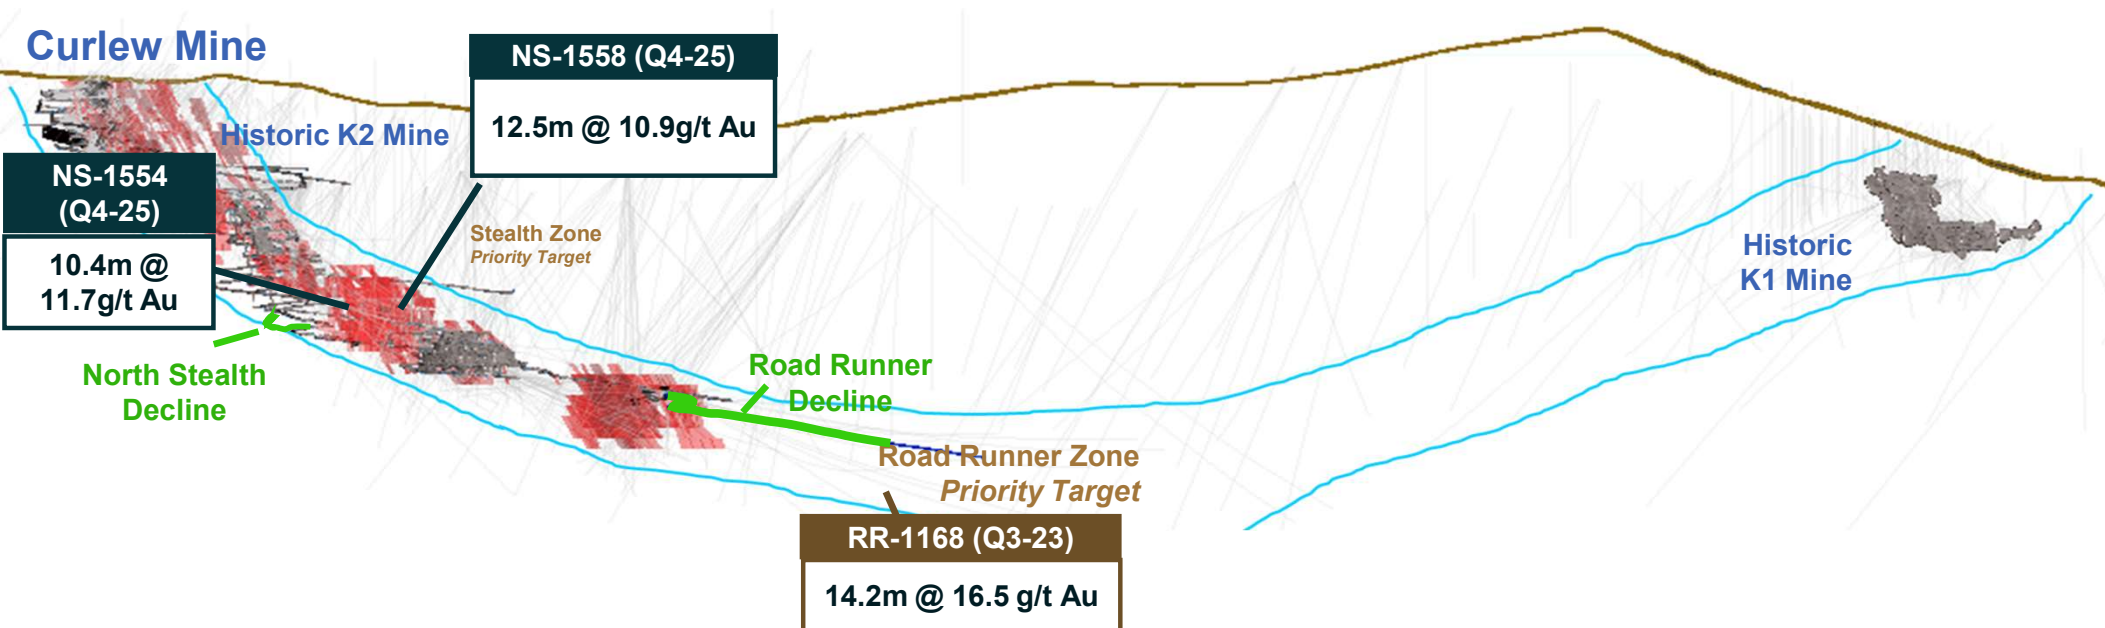

- Focused on developing to Priority Targets at Roadrunner and Stealth zones

- **Drilling underway:**

- Drilling commenced at Stealth and Roadrunner in Q4

- **Stealth and Roadrunner:**

- High-grade targets at Stealth and Roadrunner could defer upper zone and enhance production profile in the mid-to-late 2030s

# Sustainability

# Top Performer in Sustainability<sup>(1)</sup>

## Environment

### GHG INTENSITY

- **GHG intensity 677 kg CO<sub>2</sub>e/Au eq.oz** in 2024; on track towards 2030 target
- Scope 3 emissions for 2024 were 1.79 Mt CO<sub>2</sub>e; ongoing engagement program with suppliers on sustainability including emissions reduction

### NATURAL CAPITAL

- **95 ha of land reclaimed in 2024**

### WATER MANAGEMENT

- **75% water recycled** of total water withdrawn, representing approximately 227 million m<sup>3</sup> of water
- **Zero fresh water** consumed at sites in water stress regions (Tasiast and La Coipa)

### COMPLIANCE

- **Strong record** with zero significant spills; strengthened governance with modernized environment management system

## Social

99%

Host Country Workforce  
**\$4.0 billion**  
 Benefit footprint

0.33

**\$13 million**

Social investment (monetary and in kind)

### EMPLOYEE TURNOVER %

## Governance

### BOARD SUCCESSION

- **Strong Board Succession** has brought in seven new directors since 2019<sup>(2)</sup>
- **New Independent Chair** effective May 2025

### STRONG ESG SCORES

- External **Board governance** ratings (e.g., Globe & Mail) and **ESG assessments** (e.g., S&P CSA, MSCI, LSEG)

### ALIGNED WITH RESPONSIBLE MINING

- UN Guiding Principles; UN Global Compact; Voluntary Principles on Security & Human Rights
- **Responsible Gold Mining Principles**; Conflict-free gold (World Gold Council)
- Cyanide Code, MAC tailings standard and GISTM
- Limited assurance for 50 ESG metrics

# Our approach to Sustainability<sup>(1)</sup>

*“Sustainability and mining responsibly are at the core of our Kinross culture... you need an “on-the-ground,” people-focused approach, along with a clear strategy, strong governance and visible leadership at all levels of the company.”*

*J. Paul Rollinson, CEO.*

## Strong Foundations

- **Kinross DNA** - Values, policies, and systems; people
- **Sustainability is embedded in our business** – we consider impact, risk, and opportunity across:
  - **Governance**
  - **Environment**
  - **Social**
- **Two-way perspective to assess risk, impact and opportunity** - enterprise value and society / environment (“double materiality”)

## Strategy

- **Partner of choice** – trust-based relationships
- **Priority focus areas** – workforce, communities, nature, climate and energy
- **Robust governance**
- **Forward-looking**

## Our responsibilities

- **Commitments** (e.g., Cyanide Code, etc.)
- **Membership obligations** (e.g., World Gold Council’s Responsible Gold Mining Principles)
- **Reporting obligations** to our stakeholders

## Sustainability report

- Balanced and comprehensive reporting, adapting to evolving requirements
- Rigor - independent assurance of ~ 50 key metrics

# Consistently Earning Top-Quartile ESG Results

Our performance depends on our people, united by our four core values, and who are the heart of our success

**Environment** – Strong track record on environmental compliance: water management, tailings stewardship, closure and reclamation

**Social** – Putting people first for workplace safety and inclusive culture, human capital development, and local community development

**Governance** – Robust corporate programs to ensure supply chain integrity, anti-corruption, tax, Board accountability and transparency & disclosure

## Kinross Performance on Key ESG Ratings

Year	S&P Global	Sustainalytics*	MSCI	LSEG	ISS ESG	CDP Climate	CDP Water
2020	65	29.1	A	79.4	C	C	C
2021	71	34.2	A	78.5	C	C	C
2022	74	24.9	A	80.9	C+	C	C
2023	70	26.3	A	83.6	C+	C	C
2024	67	25.9	A	81.0	C+	C	B-
2025	72	25.9	A	80.0	C+	C	B-

\* Low score represents positive assessment of ESG and risk management

# Reducing our Carbon Footprint

We are making green investments and constantly seeking efficiencies to help reduce our emissions profile

## LOW CARBON FOOTPRINT

- Committed to 30% GHG intensity reduction in Scope 1 and Scope 2 emissions by 2030<sup>(1)</sup>

**67%**  
renewable

- Of energy in 2024 that is sourced from the grid and self-generation<sup>(2)</sup>

**45,000**  
tCO<sub>2</sub>e reduction  
in emissions in 2024

- Implemented 30 energy efficiency projects across the Company in 2025, leading to 1.5% emissions reduction

**2** Hydro-electric power plants in Brazil

**1** Solar Power Plant in Mauritania

- Solar plant at Tasiast performing well, providing 20% of annual power needs at the site

**100%**  
renewable

- Secured renewable power for La Coipa operations.

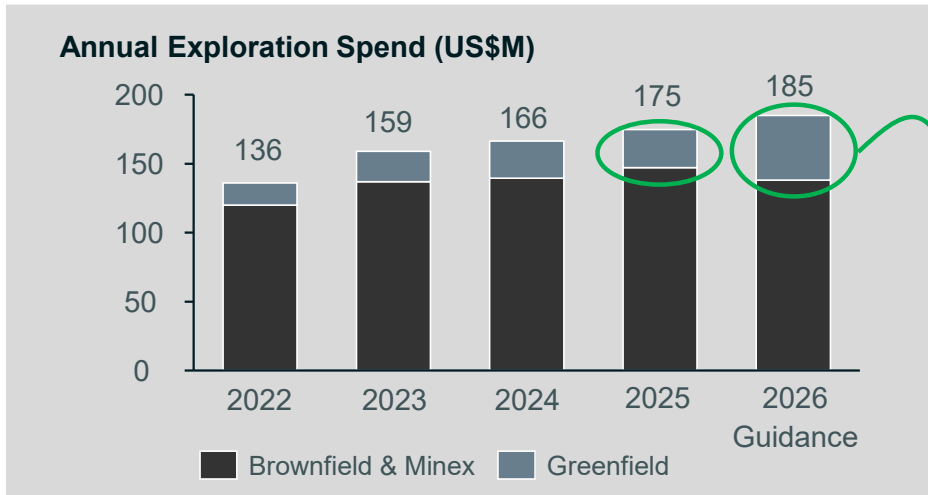

- **More than 80% of our Scope 1 and Scope 2 emissions come from the fleets we deploy in our operations and the power grids we rely on:**
  - We are committed to our GHG reduction targets and will work with our host governments, equipment manufacturers, and power utilities to help achieve these goals
- **Our estimated Scope 3** emissions are similar in scale to our combined Scope 1 and 2 emissions. We are engaging with suppliers to seek quantity-based emission factors and opportunities for greenhouse gas reduction.
- We have been reporting on our climate performance to CDP since 2005 and in line with the Task Force for Climate Related Financial Disclosures since 2021.
- Our **2025 Sustainability Report** will continue our alignment with the European Union's Corporate Sustainability Reporting Directive (CSRD) and underscores our longstanding commitment to the principles of completeness, balance and transparency in our reporting.

# Appendix

# Kinross Exploration Highlights

## Kinross Exploration – Recent Spend History

## Recent Exploration Successes is Driving Future Production Potential

- ✓ **Reserve additions** – recent high margin reserve additions at **Tasiast** and **Paracatu** through drilling
- ✓ **La Coipa Phase 7** – restart of operation on back of high grade exploration discovery
- ✓ **Round Mountain Phase X** – exploration efforts unlocked opportunity to transition to higher grade UG
- ✓ **Curlew** – significantly expanded resource in higher grade, wider areas of mineralization
- ✓ **Great Bear** – extensive directional drill program outlined robust 12 year high grade mine life (per '24 PEA)

## 2026 Exploration Priorities

	Property / Jurisdiction	Exploration Thesis
Brownfields	Great Bear, Ontario, Canada	Exploring for new zones of mineralization on the extensive ~120 sq. km land package
	Curlew Basin, Washington, USA	Exploring potential extensions of wide, high-grade mineralization to augment mine life
	Round Mountain, Nevada, USA	Targeting proximal and down dip extensions of mineralization to potentially add mine life and production scale
	Alaska, USA	Exploring proximal to Fort Knox main pit and Gil satellite pit for potential to augment medium term mine plan and future laybacks
	Bald Mountain, Nevada, USA	Prolific land package with numerous historical open pits and significant resource base
	Tasiast, Mauritania	Determine extent of mineralization at depth for potential future underground scenario, and exploring satellite targets
	Chile	Oxide Extensions at existing La Coipa pits and testing new nearby targets
	Paracatu, Brazil	Testing high priority targets on the extensive land package for similar style grade and mineralization
Greenfields	Snow Lake, Manitoba, Canada	Actively exploring multiple properties with high-grade narrow-veining, similar to nearby past producer
	Nevada, USA	Targeting low sulphidation epithermal, Carlin, Skarn and Porphyry-style deposits
	Finland	High-grade orogenic gold targets on underexplored Central Lapland Greenstone Belt

**Expanding greenfields exploration budget based on strong early results in Canada and Nevada**

# Board of Directors and Executive Team

## Independent Directors

									
<b>Kelly J. Osborne</b>	<b>George Albino</b>	<b>Kerry D. Dyte</b>	<b>Glenn A. Ives</b>	<b>Ave G. Lethbridge</b>	<b>Michael A. Lewis</b>	<b>Candace MacGibbon</b>	<b>Elizabeth D. McGregor</b>	<b>George Paspalas</b>	<b>David A. Scott</b>

## Senior Leadership Team

							
<b>J. Paul Rollinson*</b>	<b>Geoffrey P. Gold</b>	<b>Andrea S. Freeborough</b>	<b>Ryan Latinovich</b>	<b>Claude Schimper</b>	<b>William D. Dunford</b>	<b>Kathleen Grandy</b>	<b>David Shaver</b>
CEO	President	EVP, CFO	EVP, Corporate Development	EVP, COO	EVP, CTO	EVP, Human Resources	EVP, Investor Relations and Communications

\* J. Paul Rollinson is also a member of the Board of Directors

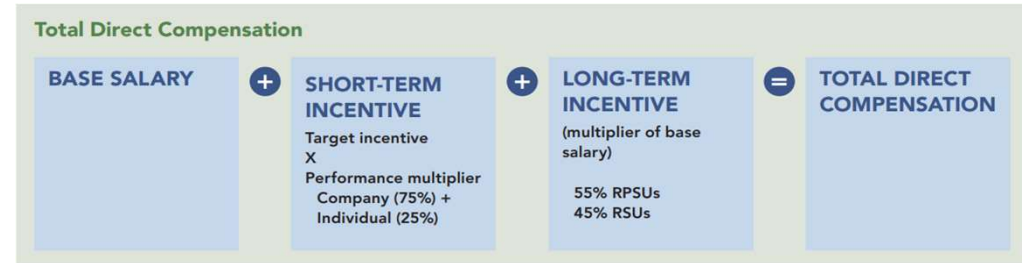

# Senior Leadership Team Incentives<sup>(1)</sup>

## Total Direct Compensation

Executive Compensation has four key objectives:

- **Align executive interests** with Kinross’ long-term strategy and those of shareholders
- **Reinforce** Kinross’ operating performance and execution of strategic objectives
- **Enable** Kinross to attract and retain high performing executives
- **Align** pay and performance in a way that is transparent and understood by all stakeholders
- Our **“Say on pay” results reached over 93%** support in 2024 and 2025, and an average of 90% over the last ten years

**At Risk Pay:** ~80% <sup>(1)</sup> of CEO and aggregate NEO Total Direct Compensation is “at risk” and tied to company performance

## Short-Term Incentive Plan – One Year

Key Strategic Area	Metric	% Weight <sup>2</sup>
Safety & Sustainability	Corporate Responsibility Performance	20%
	Sustainability Initiatives	5%
Operational & Financial Performance	Delivering against guidance	15%
	Total cost	10%
Balance Sheet	Attributable free cash flow per share	10%
Shareholder Returns	Relative total shareholder returns (TSR)	10%
Building for the Future	Deliver targeted strategic accomplishments	30%

## Long-Term Incentive Plan – Three Year

- **At least 50%** of Total Direct Compensation is Equity with:
  - **55%** RPSUs and **45%** RSUs
- Large equity component, heavy weighting on RPSUs, and inclusion of TSR in the vesting conditions aligns with the four key objectives to create long-term value for the shareholders

Key Strategic Area	Metric (3-year period)	% Weight <sup>3</sup>
Shareholder Returns	Relative total shareholder returns	50%
Operational & Financial Performance	Production	25%
	All-in sustaining cost	25%

## Minimum Share Ownership

CEO Equity Ownership is approximately **27x his salary**<sup>(4)</sup>

1) For in-depth details refer to the “Executive Compensation” section of the 2025 Management Information Circular as published on [www.kinross.com](http://www.kinross.com)  
 2) Each measure is evaluated between 0-200% to determine the final “Company Performance Multiplier” for the 75% weighting of the Senior Leadership Team’s Short-Term Incentive  
 3) Each measure is evaluated between 0-200% to determine the “RPSU vesting multiplier”, which determines the number of RPSU’s that will vest  
 4) The CEO’s ownership reflects the value on December 31, 2024

# Endnotes

- 1) Kinross' outlook, which is reported on an attributable basis including Kinross' share of Manh Choh (70%), represents forward-looking information and users are cautioned that actual results may vary. Please refer to the Cautionary Statement on Forward-Looking Information on pages 2 and 3.
- 2) Production cost of sales, cost of sales, or cash cost per equivalent ounce sold is calculated as production cost of sales, as reported on the Company's consolidated statements of operations for the years ended December 31, 2025, 2024 and 2023 divided by total gold equivalent ounces sold, as applicable.
- 3) Attributable production cost of sales per equivalent ounce sold, attributable all-in sustaining cost per equivalent ounce sold, attributable adjusted operating cash flow, attributable free cash flow and attributable capital expenditures are non-GAAP financial measures and ratios, as applicable, with no standardized meaning under IFRS and therefore, may not be comparable to similar measures presented by other issuers. Attributable production cost of sales per equivalent ounce sold is calculated as attributable production cost of sales divided by attributable gold equivalent ounces sold. Attributable production cost of sales or attributable cost of sales is a non-GAAP financial measure and attributable gold equivalent ounces sold includes Kinross' share of Manh Choh (70%) sales. Attributable all-in sustaining cost per equivalent ounce sold is calculated as attributable all-in sustaining cost divided by attributable gold equivalent ounces sold. Attributable all-in sustaining cost is a non-GAAP financial measure. Attributable adjusted operating cash flow, attributable free cash flow and attributable capital expenditures include Kinross' share of Manh Choh (70%) adjusted operating cash flow, free cash flow and capital expenditures, respectively. For definitions, purpose and reconciliations of these non-GAAP financial measures and ratios, please refer to Section 11 - *Supplemental Information* of Kinross' MD&A for the periods ended December 31, 2025, September 30, 2025, June 30, 2025, March 31, 2025, December 31, 2024 and December 31, 2023, which sections are incorporated by reference herein and as filed on the Company's website at [www.kinross.com](http://www.kinross.com), on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca) and on EDGAR at [www.sec.gov](http://www.sec.gov).
- 4) "Capital expenditures" for the twelve months ended December 31, 2025 is as reported on the Company's consolidated statements of cash flows for the twelve months ended December 31, 2025 as "Additions to property, plant and equipment".
- 5) "Net Cash/(Debt)", is a non-GAAP financial measures and ratios, as applicable, with no standardized meaning under IFRS and therefore, may not be comparable to similar measures presented by other issuers. "Net Cash/(Debt)" is calculated as cash and cash equivalents less long-term debt (current and long-term portion), as reported on the Company's consolidated balance sheet as at December 31, 2025, and December 31, 2023.
- 6) Free cash flow and all-in sustaining cost are non-GAAP financial measures and ratios that have the same definition and purpose as attributable free cash flow and attributable all-in sustaining cost, respectively, as Great Bear, Round Mountain, Bald Mountain, and Curlew are 100% owned by Kinross. Refer to endnote #3.
- 7) Cost of Sales margin, defined as average realized gold price per ounce less production cost of sales per equivalent ounce sold. AISC margin, defined as attributable average realized gold price per ounce less attributable all-in sustaining cost per equivalent ounce sold, is a non-GAAP financial measure. Non-GAAP financial ratios and measures have no standardized meaning under IFRS and therefore, may not be comparable to similar ratios or measures presented by other issuers. Attributable all-in sustaining cost per equivalent ounce sold is a non-GAAP financial ratio and is equivalent to all-in sustaining cost per equivalent ounce sold for the periods ending March 31, 2024 and June 30, 2024. For definitions, purpose and reconciliation of these ratios, please refer to the Company's MD&A for the periods ended September 30, 2024, December 31, 2024, March 31, 2025, June 30, 2025, September 30, 2025, and December 31, 2025.
- 8) Project Economics:
  - 1) The internal studies and economic analyses for the projects in this deck are preliminary in nature and is based, in part, on Inferred Mineral Resources. Inferred Mineral Resources are considered too geologically speculative to have the economic considerations applied to them that would enable them to be categorized as Mineral Reserves. There is no certainty that the economic forecasts on which the internal studies economic analyses are based will be realized.
  - 2) Average production cost of sales and average AISC represent costs for projected production for the life of mine.
  - 3) The economic analysis of the projects were carried out using a discounted cash flow approach on a pre-tax and after-tax basis, based on a long-term gold prices \$4,500/oz and \$3,200/oz in USD.
  - 4) The IRR on total investment that is presented in the economic analysis was calculated assuming 100% equity financing
  - 5) The NPV was calculated from the after-tax cash flow generated by the project, based on a discount rate of 5% and a valuation date of January 1, 2026.

# 2026 Guidance Summary<sup>(1)</sup> – Appendix A

## Attributable<sup>(2)</sup> Production Guidance

Annual attributable <sup>(2)</sup> gold equivalent production guidance (+/- 5%)	
2026	2.0 million oz.
2027	2.0 million oz.
2028	2.0 million oz.

## Attributable<sup>(2)</sup> Production and Cost Guidance

Gold equivalent basis	2026 Guidance <sup>(1)</sup> (+/- 5%)	2025 Actual
Production (Au eq. oz.)	2.0 million	2.01 million
Production cost of sales per Au eq. oz. sold <sup>(5)</sup>	-	\$1,140
Attributable production cost of sales per Au eq. oz. sold <sup>(3)</sup>	\$1,360	\$1,135
Attributable all-in sustaining cost per Au eq. oz. sold <sup>(3)</sup>	\$1,730	\$1,571

## 2026 Attributable<sup>(2)</sup> Production and Cost Guidance by Country

Country	2026 attributable production guidance (Au eq. oz.) <sup>(1)</sup> (+/-5%)	Percentage of total forecast production <sup>(4)</sup>	2026 attributable production cost of sales guidance (per Au eq. oz. sold) <sup>(1)(3)</sup> (+/-5%)	2025 production cost of sales (per Au eq. oz. sold) <sup>(5)</sup>	2025 attributable production cost of sales (per Au eq. oz. sold) <sup>(3)</sup>
Mauritania	505,000	25%	\$1,050	\$884	\$884
Brazil	600,000	30%	\$1,240	\$978	\$978
Chile	210,000	11%	\$1,320	\$1,208	\$1,208
United States	685,000	34%	\$1,700	\$1,417	\$1,426
<b>TOTAL</b>	<b>2.0 million</b>	<b>100%</b>	<b>\$1,360</b>	<b>\$1,140</b>	<b>\$1,135</b>

1) Refer to endnote #1

2) Attributable guidance includes Kinross' share (70%) of Manh Choh production and costs

3) Attributable production cost of sales per equivalent ounce sold and attributable all-in sustaining cost per equivalent ounce sold are non-GAAP ratios with no standardized meaning under IFRS and therefore, may not be comparable to similar measures presented by other issuers. Refer to endnote #3.

4) The percentages are calculated based on the mid-point of country 2026 forecast production

5) Refer to endnote #2.

# 2026 Guidance Summary<sup>(1)</sup> – Appendix A

## Attributable Capital Expenditures<sup>(2)</sup> Guidance Breakdown

Country	Forecast 2026 Sustaining Capital (1)(2) (+/-5%) (attributable million)	Forecast 2026 Non-Sustaining Capital (1)(2) (+/-5%) (attributable million)	Total 2026 Forecast Capital (1) (+/-5%) (attributable million)	2025 Sustaining Capital (2) (million)	2025 Non-Sustaining Capital (2) (million)	2025 Total Capital (2) (consolidated million)	2025 Total Capital (2) (attributable million)
Mauritania	\$80	\$195	<b>\$275</b>	\$113	\$239	\$352	<b>\$352</b>
Brazil	\$190	\$45	<b>\$235</b>	\$189	\$-	\$189	<b>\$189</b>
Chile	\$40	\$50	<b>\$90</b>	\$91	\$19	\$110	<b>\$110</b>
United States	\$140	\$500	<b>\$640</b>	\$214	\$224	\$438	<b>\$419</b>
Canada & Other	\$-	\$260	<b>\$260</b>	\$-	\$105	\$105	<b>\$105</b>
<b>TOTAL</b>	<b>\$450</b>	<b>\$1,050</b>	<b>\$1,500</b>	<b>\$607</b>	<b>\$587</b>	<b>\$1,194</b>	<b>\$1,175</b>

### 2026 sustaining capital<sup>(2)</sup> includes the following forecast spending estimates

Mine development:	\$15 million (United States), \$15 million (Chile), \$20 million (Mauritania)
Mobile equipment:	\$55 million (United States), \$95 million (Brazil), \$30 million (Mauritania)
Mill facilities:	\$10 million (United States), \$25 million (Brazil), \$10 million (Chile), \$10 million (Mauritania)
Leach facilities:	\$15 million (United States)
Tailings facilities:	\$55 million (Brazil), \$10 million (Chile), \$10 million (Mauritania)

### 2026 non-sustaining capital<sup>(2)</sup> includes the following forecast spending estimates

Great Bear AEX construction, detailed engineering and other	\$260 million
Round Mountain Phase X	\$100 million
Curlew	\$180 million
Bald Mountain Redbird 2	\$150million
Tasiast West Branch Stripping	\$180 million

1) Refer to endnote #1

2) Forecast 2026 sustaining, non-sustaining and total capital expenditures are on an attributable basis and include Kinross' share of Manh Choh (70%) capital expenditures. Actual results as reported for the year ended December 31, 2025, for sustaining, non-sustaining and total capital expenditures (which are reported as "Additions to property, plant and equipment" on the consolidated statements of cash flows) are on a total basis and include 100% of Manh Choh capital expenditures. Sustaining, non-sustaining and attributable capital expenditures are non-GAAP financial measures. Refer to endnote #3

# 2026 Guidance Summary<sup>(1)</sup> – Appendix A

## Material assumptions used to forecast 2026 guidance, most notably relating to production cost of sales, are as follows:

- a gold price of \$4,500 per ounce;
- a silver price of \$65 per ounce;
- an oil price of \$70 per barrel;
- foreign exchange rates of:
  - 5.25 Brazilian reals to the U.S. dollar;
  - 940 Chilean pesos to the U.S. dollar;
  - 40 Mauritanian ouguiyas to the U.S. dollar; and
  - 1.38 Canadian dollars to the U.S. dollar;

## Taking into account existing currency and oil hedges:

- a 10% change in foreign currency exchange rates would be expected to result in an approximate \$30 impact on attributable production cost of sales per equivalent ounce sold<sup>(2)(3)</sup>;
- specific to the Brazilian real, a 10% change in this exchange rate would be expected to result in an approximate \$50 impact on Brazilian attributable production cost of sales per equivalent ounce sold<sup>(3)</sup>;
- specific to the Chilean peso, a 10% change in this exchange rate would be expected to result in an approximate \$50 impact on Chilean attributable production cost of sales per equivalent ounce sold<sup>(3)</sup>;
- a \$10 per barrel change in the price of oil would be expected to result in an approximate \$3 impact on fuel consumption costs on attributable production cost of sales per equivalent ounce sold<sup>(3)</sup>; and
- a \$100 change in the price of gold would be expected to result in an approximate \$5 impact on attributable production cost of sales per equivalent ounce sold<sup>(3)</sup> as a result of a change in royalties.

1) Refer to endnote #1

2) Refers to all of the currencies in the countries where the Company has mining operations, fluctuating simultaneously by 10% in the same direction, either appreciating or depreciating, taking into consideration the impact of hedging and the weighting of each currency within our consolidated cost structure.

3) Refer to endnote #3

# MINERAL RESERVE AND MINERAL RESOURCE STATEMENT NOTES – Appendix B

- 1) Unless otherwise noted, the Company's mineral reserves are estimated using appropriate cut-off grades based on an assumed gold price of \$2,000 per ounce and a silver price of \$23.53 per ounce. Mineral reserves are estimated using appropriate process recoveries, operating costs and mine plans that are unique to each property and include estimated allowances for dilution and mining recovery. Mineral reserve estimates are reported in contained units based on Kinross' interest and are estimated based on the following foreign exchange rates:
  - Canadian Dollar to \$US 1.38
  - Chilean Peso to \$US 940.00
  - Brazilian Real to \$US 5.25
  - Mauritanian Ouguiya to \$US 40.00
- 2) The Company's mineral reserve and mineral resource estimates as at December 31, 2025 are classified in accordance with the Canadian Institute of Mining, Metallurgy and Petroleum ("CIM") "CIM Definition Standards For Mineral Resources and Mineral Reserves" adopted by the CIM Council (as amended, the "CIM Definition Standards") in accordance with the requirements of National Instrument 43-101 "Standards of Disclosure for Mineral Projects" ("NI 43-101"). Mineral reserve and mineral resource estimates reflect the Company's reasonable expectation that all necessary permits and approvals will be obtained and maintained.
- 3) Cautionary note to U.S. investors concerning estimates of mineral reserves and mineral resources. These estimates have been prepared in accordance with the requirements of Canadian securities laws, which differ from the requirements of United States' securities laws. Unless otherwise indicated, mining terms used herein and in any document incorporated by reference but not otherwise defined have the meanings set forth in NI 43-101. The terms "mineral reserve", "proven mineral reserve", "probable mineral reserve", "mineral resource", "measured mineral resource", "indicated mineral resource" and "inferred mineral resource" are Canadian mining terms as defined in accordance with NI 43-101 and the CIM Definition Standards. These definitions differ from the definitions in subpart 1300 of Regulation S-K ("Subpart 1300"). While the definitions in Subpart 1300 are similar to the definitions in NI 43-101 and the CIM Definition Standard, the definitions in Subpart 1300 differ from the requirements of, and the definitions in, NI 43-101 and the CIM Definition Standards. U.S. investors are cautioned that while the above terms are "substantially similar" to CIM Definitions, there are differences in the definitions in Subpart 1300 and the CIM Definition Standards. Accordingly, there is no assurance any mineral reserves or mineral resources that the Company may report as "proven mineral reserves", "probable mineral reserves", "measured mineral resources", "indicated mineral resources" and "inferred mineral resources" under NI 43-101 would be the same had the Company prepared the mineral reserve or mineral resource estimates under the standards set forth in Subpart 1300. U.S. investors are also cautioned that while the United States Securities and Exchange Commission ("SEC") recognizes "measured mineral resources", "indicated mineral resources" and "inferred mineral resources" under Subpart 1300, investors should not assume that any part or all of the mineralization in these categories will ever be converted into a higher category of mineral resources or into mineral reserves. Mineralization described using these terms has a greater amount of uncertainty as to its existence and feasibility than mineralization that has been characterized as reserves. Accordingly, investors are cautioned not to assume that any measured mineral resources, indicated mineral resources, or inferred mineral resources that the Company reports are or will be economically or legally mineable. Further, "inferred mineral resources" have a greater amount of uncertainty as to their existence and as to whether they can be mined legally or economically. Therefore, U.S. investors are also cautioned not to assume that all or any part of the "inferred mineral resources" exist. Under Canadian securities laws, estimates of "inferred mineral resources" may not form the basis of feasibility or pre-feasibility studies, except in rare cases. As a foreign private issuer that files its annual report on Form 40-F with the SEC pursuant to the multi-jurisdictional disclosure system, the Company is not required to provide disclosure on its mineral properties under the Subpart 1300 provisions and will continue to provide disclosure under NI 43-101 and the CIM Definition Standards. If the Company ceases to be a foreign private issuer or loses its eligibility to file its annual report on Form 40-F pursuant to the multi-jurisdictional disclosure system, then the Company will be subject to reporting pursuant to the Subpart 1300 provisions, which differ from the requirements of NI 43-101 and the CIM Definition Standards.
  - For the above reasons, the mineral reserve and mineral resource estimates and related information herein may not be comparable to similar information made public by U.S. companies subject to the reporting and disclosure requirements under the United States federal securities laws and the rules and regulations thereunder.
- 4) The Company's mineral resource and mineral reserve estimates were prepared under the supervision of and verified by Mr. Nicos Pfeiffer, who is a qualified person as defined by NI 43 101.
- 5) The Company's normal data verification procedures have been used in collecting, compiling, interpreting and processing the data used to estimate mineral reserves and mineral resource.
- 6) Rounding of values to the 000s may result in apparent discrepancies.
- 7) Round Mountain refers to the Round Mountain project, which includes the Round Mountain deposit and the Gold Hill deposit. The Round Mountain deposit does not contain silver and all silver resources at Round Mountain are contained exclusively within the Gold Hill deposit. Disclosure of gold mineral reserves and mineral resources reflect both the Round Mountain deposit and the Gold Hill deposit. Disclosure of silver mineral reserves and mineral resources reflect only the Gold Hill deposit.
- 8) Includes mineral resources and mineral reserves from the Puren deposit in which the Company holds a 65% interest; as well as mineral resources from the Catalina deposit, in which the Company holds a 50% interest.
- 9) Mineral resources are exclusive of mineral reserves.
- 10) Unless otherwise noted, the Company's mineral resources are estimated using appropriate cut-off grades based on a gold price of \$2,500 per ounce and a silver price of \$29.41 per ounce. Mineral resource estimates are reported in contained units based on Kinross' interest. Foreign exchange rates for estimating mineral resources were the same as for mineral reserves.
- 11) Mineral resources that are not mineral reserves do not have to demonstrate economic viability. Mineral resources are subject to infill drilling, permitting, mine planning, mining dilution and recovery losses, among other things, to be converted into mineral reserves. Due to the uncertainty associated with inferred mineral resources, it cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to indicated or measured mineral resources, including as a result of continued exploration.
- 12) The mineral resource estimates for Curlew assume a \$2,000 per ounce gold price.
