Penguin Computing Among 50 Fastest-Growing East Bay Private Companies and 100 Bay Area Private Companies

2014-10-06

FREMONT, Calif. - October 6, 2014 - Penguin Computing, a provider of high performance, enterprise data center and cloud solutions, is one of the San Francisco Business Times' 50 Fastest-Growing East Bay Companies and 100 Bay Area Private Companies. "Our rapid growth reflects the tremendous demand for increased compute capability and innovative methods across a multitude of industries served by Penguin Computing's products," said Tom Coull, CEO and President of Penguin Computing. "I'm proud of our employees for continuously striving to achieve the company's goals and provide customers with exceptional high performance computing resources." Penguin was one of the first HPC cloud companies with its Penguin Computing on Demand (POD) offering. The company's customers represent a broad cross section of industry computing needs, including manufacturing, life sciences, energy, financial services, education and government. The San Francisco Business Times will reveal Penguin Computing's ranking on October 21 and publish it along with the full list on October 24.
