

Penguin Solutions OriginAI Honored as a Winner in the 2025 Artificial Intelligence Excellence Awards

2025-03-25

OriginAI enables organizations to confidently design, build, deploy, and manage AI factory infrastructure, optimizing performance, and accelerating results

Milpitas, Calif. – March 25, 2025 – **Penguin Solutions, Inc.** (Penguin Solutions; Nasdaq: **PENG**) today announced that its OriginAI® infrastructure solution has been named a winner in the **2025 Artificial Intelligence Excellence Awards**, presented by the Business Intelligence Group. This recognition highlights the company's commitment to innovation and its contributions to advancing artificial intelligence.

Penguin Solutions' OriginAI is a portfolio of pre-configured, validated, and tested AI factory infrastructure solutions, foundational to organizations' ability to make AI both attainable and efficient. Backed by Penguin's ICE ClusterWare™ software platform and ICE ClusterWare AIM™ service, OriginAI combines best-in-class GPU servers, networking, and storage with intelligent cluster management software for system optimization. The award-winning Penguin Solutions products have been recognized in the Internet and Technology category for its groundbreaking advancements in AI.

"This recognition from the Business Intelligence Group serves as another proof point, validating the groundbreaking nature of OriginAI and the Penguin Solutions portfolio," said Pete Manca, president of Advanced Computing at Penguin Solutions. "This award is a testament to our company's 25+ years of experience designing, building, deploying and managing advanced computing, including more than 85,000 GPUs currently deployed and managed. Penguin Solutions continues to push the boundaries of AI to create meaningful solutions that improve lives and industries."

The Artificial Intelligence Excellence Awards celebrate the most innovative companies, technologies, and

professionals who are leading the way in AI innovation. Winners are selected by a panel of industry experts who evaluate nominees based on their creativity, impact, and measurable success in AI-driven solutions.

"The AI industry is evolving rapidly, and it is through the efforts of companies like Penguin Solutions that we see real-world applications driving change," said Russ Fordyce, CEO of the Business Intelligence Group. "Their work exemplifies the kind of innovation and leadership that is shaping the future of AI."
