Penguin Computing to Speak and Exhibit at Supercomputing 2019

November 4, 2019

FREMONT, Calif.–November 4, 2019– Penguin Computing, Inc., a subsidiary of SMART Global Holdings, today announces it will be speaking and exhibiting at Supercomputing 2019 in Denver, CO.

WHAT: After a year of growth, Penguin Computing is bringing innovative technology demos and presentations to the show to offer expertise on a range of topics across HPC, AI, storage, cloud and more. Visit the Penguin Computing Theater and Booth #1343 for presentations from executives and industry leaders. Penguin Computing will also be speaking at select partner booths.

Penguin Computing Booth #1343
Penguin Computing experts will be onsite offering:

1. **Software Demos**
    1. Award-winning HPC on cloud for the most challenging computational needs, on-demand, in whatever mix of private, public, or hybrid cloud needed
    2. New cluster management software capabilities that make node management easier and more secure
    3. Cloud-based, virtual workstation technology that reduces production timelines and cost

1. **Hardware Displays**
    1. The latest in GPU-accelerated computing, high-speed networking, and more
    2. Rack and Power and Cooling Displays that highlight the future of HPC infrastructure
    3. The performance, versatility, and density possible in our FrostByte software-defined storage rack

Presentations at the Penguin Computing Theater
Hear firsthand from customers and industry leaders on best practices and industry trends in a variety of vertical industries as well as AI, HPC, and storage:

1. **Something Old, Something New, Something Borrowed, Something Amazing** – Phil Pokorny, CTO of Penguin Computing on Monday, November 18 at 7:30 p.m. MDT.

1. **Gemini Man: Actualizing Director Ang Lee's vision of a unique movie viewing experience** – William Wu, VP of Product Marketing and Management at Penguin Computing on Tuesday, November 19 at 3:45 p.m. MDT.

1. **POD™: The Bare Metal HPC Cloud**– Catherine Pringle, Sales Account Manager and Court Cooper, Sales Account Manager at Penguin Computing on Wednesday, November 20 at 10:30 a.m. MDT.

1. **Scyld Cloud Workstation™ – Don't move your data, visualize it**– Gary Yee, Software Architect at Penguin Computing and Thomas Ruge, CEO of Colorado Code Craft on Wednesday, November 20 at 2:30 p.m. MDT.

1. **Edge Compute –** Troy Kaster, VP of Commercial Products at SMART Embedded Computing on Wednesday, November 20 at 4:45 p.m. MDT.

1. **Optimizing Embedded Flash Solutions for Your AI Applications** – Kevin Tubbs, PhD, Sr. Director, Advanced Solutions Group at Penguin Computing on Thursday, November 21 at 10:30 a.m. MDT.

1. **Scyld ClusterWare® – Providing the tools you need for cluster management –** Joseph Dunn, Sr. Software Engineer at Penguin Computing on Thursday, November 21 at 1:30 p.m. MDT.

Additional presentations from partners including Intel, NVIDIA, AMD, Lawrence Livermore National Labs, EarthCast Technologies, Graphcore, Mellanox, Red Hat, ThinkParQ, and WekaIO are scheduled at the Penguin Computing Theater.

Penguin Computing Presentations at Partner Booths

1. **Powering AI and ML with Penguin Computing** – Kevin Tubbs, Senior Director, Advanced Solutions Group at Penguin Computing at the Red Hat Booth (#1635) Wednesday, November 20 at 4:30 p.m. MDT.

1. **Something Old, Something New, Something Borrowed, Something Amazing** – Phil Pokorny, CTO of Penguin Computing at the AMD Booth (#525) Wednesday, November 20 at 5:00 p.m. MDT.

WHEN: November 17-22, 2019

WHERE: Supercomputing 2019
Booth #1343
Colorado Convention Center
700 14th Street
Denver, CO 80202

Follow Penguin Computing on Twitter [@PenguinHPC](https://twitter.com/PenguinHPC) and use our official SC19 hashtag #HPCeverywhere to stay connected.

Tweet a photo of the Penguin Computing special edition #HPCeverywhere stuffed penguin with the #HPCeverywhere hashtag for a chance to win an iPhone or iPad. Full contest details: https://www.penguincomputing.com/sc19/twitter-giveaway/

Penguin is a Gold Sponsor at Beowulf Bash 2019 on Monday, November 18 from 9 p.m. – midnight MDT. Join us!

About Penguin Computing
For 20 years, the Penguin Computing team of artificial intelligence (AI), engineering, and computer science experts has reimagined how startups, Fortune 500, government, and academic organizations solve complex technology challenges and achieve their organizational goals. Penguin Computing is focused on open platforms, including Open Compute Project (OCP) systems. We specialize in innovative on-premise high-performance computing (HPC), bare metal HPC in the cloud, AI, and storage technologies coupled with leading-edge design, implementation, hosting, and managed services including sys-admin and storage-as-a-service, and highly rated customer support.
