NEWS RELEASE

COMPASS Pathways to participate in upcoming Evercore, H.C. Wainwright & Berenberg investor conferences

2021-11-30

LONDON, Nov. 30, 2021 (GLOBE NEWSWIRE) -- COMPASS Pathways plc (Nasdaq: CMPS), a mental health care company dedicated to accelerating patient access to evidence-based innovation in mental health, announced today that management will participate in three investor conferences as follows:

- Evercore ISI 4th Annual HEALTHCONx Virtual Conference: fireside chat at 9:40am ET on 1 December 2021. The fireside chat will feature Augustus John Rush MD, Adjunct Professor in the Department of Psychiatry and Behavioral Sciences at Duke University School of Medicine

- H.C. Wainwright 2nd Annual Psychedelics Conference: panel “Three Forms of Psilocybin” at 10:00am ET on 6 December 2021 and presentation available on demand

- Berenberg European Conference 2021: virtual one-on-one meetings on 8 December 2021

A live audio webcast of the Evercore fireside chat and the H.C. Wainwright presentation will be available on the “Events” page of the Investors section of the COMPASS website. A replay of the webcast will be available for 30 days following each event. For more information, please visit ir.compasspathways.com.

About COMPASS Pathways

COMPASS Pathways plc (Nasdaq: CMPS) is a mental health care company dedicated to accelerating patient access to evidence-based innovation in mental health. Our focus is on improving the lives of those who are suffering with mental health challenges and who are not helped by current treatments. We are pioneering the development of a

new model of psilocybin therapy, in which our proprietary formulation of synthetic psilocybin, COMP360, is administered in conjunction with psychological support. COMP360 has been designated a Breakthrough Therapy by the US Food and Drug Administration (FDA), for treatment-resistant depression (TRD), and we have completed a phase IIb clinical trial of psilocybin therapy for TRD, in 22 sites across Europe and North America. This was the largest randomised, controlled, double-blind psilocybin therapy clinical trial ever conducted, and our topline data showed a statistically significant ($p<0.001$) and clinically relevant improvement in depressive symptom severity after three weeks for patients who received a single high dose of COMP360 psilocybin with psychological support. We are also running a phase II clinical trial of COMP360 psilocybin therapy for post-traumatic stress disorder (PTSD). COMPASS is headquartered in London, UK, with offices in New York and San Francisco in the US. Our vision is a world of mental wellbeing. **www.compasspathways.com**.
