

Compass Pathways to Highlight Scientific Research and TRD Disease State Education Efforts at the 2026 Neuroscience Education Institute Fall Congress

2026-10-28

- Disease education booth underscores continued commitment to advancing understanding of treatment-resistant depression (TRD) among U.S. healthcare professionals (HCPs)
- Encore poster presentations highlight key safety, efficacy and patient demographics data from the COMP360 psilocybin clinical program in TRD

LONDON & JERSEY CITY, N.J.--(BUSINESS WIRE)-- Compass Pathways plc (Nasdaq: CMPS), a biotechnology company dedicated to unlocking urgently needed new treatment options in mental health care, today announced its participation at the 2026 Neuroscience Education Institute (NEI) Fall Congress, taking place in Colorado Springs, CO, from November 5-8. The Company will feature its Change the Tune in TRD educational campaign for U.S. HCPs focused on TRD, as well as encore presentations from its COMP360 psilocybin clinical development program.

Change the Tune in TRD: Advancing HCP Education

Change the Tune in TRD was developed to provide evidence-based education to U.S. HCPs on the longer, more persistent episodes associated with TRD, as well as insights into the impact on patients in navigating treatment. A three-panel discussion will be presented at the Breakfast Industry Session on Sunday, November 8th from 7:00-8:00am in the International Center. The featured panelists include:

- Sandra Jain MA, PsyD, LPC, Psychotherapist, Adjunct Clinical Affiliate, University of Texas at Austin School of Nursing; Private Practice, Austin, Texas
- Bryan B. Shapiro MD, MPH, Board-Certified Psychiatrist, Assistant Clinical Professor of Psychiatry, UC Irvine

Medical Center

- Sandhya Prashad, MD, Interventional Psychiatrist, Medical Director at Houston Center for Advanced Psychiatric Treatment

U.S. HCPs can learn more at [ChangeTheTunnelnTRD.com](https://www.changethetunnelntrd.com).

Encore COMP360 Presentations

- Efficacy and Safety of COMP360 Psilocybin for Treatment-Resistant Depression (TRD) in Two Phase 3, Double-blind, Randomized, Controlled Studies
- Demographic and Clinical Characteristics of Participants Receiving COMP360 Psilocybin Treatment for Treatment-Resistant Depression Across Two Pivotal Phase 3 Trials

About treatment resistant depression (TRD)

Depression, one of the most common mental health disorders, significantly impacts relationships, work performance, overall quality of life, and is associated with an increased risk of suicide. **Major depressive disorder** (MDD) has been ranked as the third cause of the burden of disease worldwide in 2008 by the World Health Organization (WHO), which has projected that this disease will rank first by 2030.

It is estimated that approximately 4 million patients in the U.S. with MDD live with TRD¹. TRD is broadly defined as an inadequate response to two or more appropriate courses of approved antidepressant medications. TRD has a significantly greater impact on individuals compared to MDD, including residual symptoms, poorer quality of life, increased comorbidities, higher mortality, and an increased risk of suicide.

About Compass Pathways

We believe mental health patients deserve the possibility of a better future. Compass Pathways plc (Nasdaq: CMPS) is a biotechnology company dedicated to unlocking urgently needed new treatment options in mental health care. Our initial focus is developing COMP360 psilocybin, a proprietary, investigational, synthetic psilocybin treatment under evaluation for treatment-resistant depression (TRD) and post-traumatic stress disorder (PTSD). COMP360 is a potentially first-in-class treatment and has Breakthrough Therapy designation from the U.S. Food and Drug Administration (FDA), as well as Innovative Licensing and Access Pathway (ILAP) designation in the UK for TRD. We are leading the world's largest classic psychedelic clinical program in TRD, and building upon that robust foundation, we are executing a late-stage trial evaluating COMP360 for PTSD, another condition with high unmet need. Our goal is to advance treatments that move the field of psychiatry towards treatment options that offer rapid onset and sustained durability with infrequent dosing.

Compass is headquartered in London, UK, with a U.S. office in New Jersey.

We are driven by our purpose of unlocking pathways to be – opening futures filled with possibility. Together, we are on an ambitious journey toward enabling people living with mental health conditions to find clarity through self-discovery, because every journey needs a Compass.

Forward-looking statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. In some cases, forward-looking statements can be identified by terminology such as “may”, “might”, “will”, “could”, “would”, “should”, “expect”, “intend”, “plan”, “objective”, “anticipate”, “believe”, “contemplate”, “estimate”, “predict”, “potential”, “continue” and “ongoing,” or the negative of these terms or other comparable terminology, although not all forward-looking statements contain these words. Forward-looking statements include express or implied statements relating to, among other things, statements regarding our business strategy and goals; our expectations regarding the safety or efficacy of our investigational COMP360 psilocybin treatment, including as a treatment for treatment of TRD; our plans and expectations regarding our clinical trials; any implication that preliminary results will be predictive of full safety and efficacy data from our phase 3 program; the potential for our current or any future clinical trials to support regulatory filings and approvals for COMP360 psilocybin treatment on an accelerated basis or at all; our ability to obtain regulatory approval and adequate coverage and reimbursement; our ability to transition from a clinical-stage to a commercial-stage organization and effectively launch a commercial product, if regulatory approval is obtained; our expectations regarding our commercial readiness, if regulatory approval is obtained; and our expectations regarding the benefits of our investigational COMP360 psilocybin treatment. The forward-looking statements in this press release are neither promises nor guarantees, and you should not place undue reliance on these forward-looking statements because they involve known and unknown risks, uncertainties, and other factors, many of which are beyond Compass’s control and which could cause actual results, levels of activity, performance or achievements to differ materially from those expressed or implied by these forward-looking statements.

These risks, uncertainties, and other factors include, among others: uncertainties associated with risks related to clinical development which is a lengthy and expensive process with uncertain outcomes, and therefore our clinical trials may be delayed or terminated and may be more costly than expected; the full results and safety data from our Phase 3 clinical trials in TRD may not be consistent with the preliminary results; our need for substantial additional funding to achieve our business goals and if we are unable to obtain this funding when needed and on acceptable terms, we could be forced to delay, limit or terminate our clinical trials; our efforts to obtain FDA approval, or approval from regulatory authorities in other jurisdictions, for our investigational COMP360 psilocybin treatment on an accelerated basis, or at all, may be unsuccessful; our efforts to commercialize and obtain coverage

and reimbursement for our investigational COMP360 psilocybin treatment, if approved, may be unsuccessful; and those risks and uncertainties described under the heading “Risk Factors” in Compass’s most recent annual report on Form 10-K or quarterly report on Form 10-Q and in other reports we have filed with the U.S. Securities and Exchange Commission (“SEC”), which are available on the SEC’s website at www.sec.gov. Except as required by law, Compass disclaims any intention or responsibility for updating or revising any forward-looking statements contained in this press release in the event of new information, future developments or otherwise. These forward-looking statements are based on Compass’s current expectations and speak only as of the date hereof.
