

Alto Neuroscience to Present at the Stifel 2023 CNS Days

LOS ALTOS, Calif., March 28, 2023 – Alto Neuroscience today announced that founder and chief executive officer, Amit Etkin, M.D., Ph.D., will present at the Stifel 2023 CNS Days on Wednesday, March 29, 2023, at 3:00 p.m. ET.

The live presentation can be accessed on the [webcast page](#) and a replay will be available for 90 days following the conference.

About Alto Neuroscience

Alto Neuroscience is pioneering precision psychiatry by developing targeted medicines to help patients get better faster. Differences in individuals' biology impact how they respond to treatment. Alto's Precision Psychiatry Platform™ measures brain biomarkers by analyzing EEG activity, behavioral task performance, wearable data, genetics, and other factors to match each patient with the right Alto drug. The company's work in identifying and categorizing core domains of mental function (cognition, emotion, and sleep processes) has resulted in a multiple modality approach that supports robust drug-response predictions. Alto's clinical-stage pipeline includes first- or best-in-class novel drug candidates in depression, PTSD, and other mental health conditions, resulting in the broadest and most-advanced precision psychiatry effort.
