DISCLAIMERS

Forward-Looking Statements

Statements in this presentation that are not statements of historical fact are forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, including, without limitation, statements regarding the future financial performance, 2024 outlook capital allocation priorities and growth prospects of CDW. These forward-looking statements are subject to risks and uncertainties that may cause actual results or events to differ materially from those described in such statements. Although CDW believes that its plans, intentions and other expectations reflected in or suggested by such forward-looking statements are reasonable, it can give no assurance that it will achieve those plans, intentions or expectations. Reference is made to a more complete discussion of forward-looking statements and applicable risks contained under the captions "Forward-Looking Statements" and "Risk Factors" in CDW's Annual Report on Form 10-K for the year ended December 31, 2023, and subsequent filings with the SEC. CDW undertakes no obligation to update or revise any of its forward-looking statements, whether as a result of new information, future events or otherwise, except as otherwise required by law.

Non-GAAP Financial Information

Generally, a non-GAAP financial measure is a numerical measure of a company's performance or financial condition that either excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with US GAAP. Non-GAAP measures used by management may differ from similar measures used by other companies, even when similar terms are used to identify such measures. Our non-GAAP performance measures include Non-GAAP operating income, Non-GAAP operating income margin, Non-GAAP net income, Non-GAAP net income per diluted share and Net sales on a constant currency basis, and our non-GAAP financial condition measures include Free cash flow and Adjusted free cash flow. These non-GAAP performance measures and non-GAAP financial condition measures are collectively referred to as "non-GAAP financial measures." Non-GAAP operating income excludes, among other things, charges related to the amortization of acquisitionrelated intangible assets, equity-based compensation and the associated payroll taxes, acquisition and integration expenses, transformation initiatives and workplace optimization. Non-GAAP operating income margin is defined as Non-GAAP operating income as a percentage of Net sales. Non-GAAP net income and Non-GAAP net income per diluted share excludes, among other things, charges related to acquisition-related intangible asset amortization, equity-based compensation, acquisition and integration expenses, transformation initiatives, workplace optimization and the associated tax effects of each. Net sales on a constant currency basis is defined as Net sales excluding the impact of foreign currency translation on Net sales. Free cash flow is defined as Net cash provided by operating activities less capital expenditures. Adjusted free cash flow is defined as Free cash flow adjusted to include certain cash flows from financing activities incurred in the normal course of operations or as capital expenditures. We believe our non-GAAP performance measures provide analysts, investors and management with useful information regarding the underlying operating performance of our business, as they remove the impact of items that management believes are not reflective of underlying operating performance. Management uses these measures to evaluate period-overperiod performance as management believes they provide a more comparable measure of the underlying business. We also present non-GAAP financial condition measures as we believe they provide analysts, investors and management with more information regarding our liquidity and capital resources. Certain non-GAAP financial measures are also used to determine certain components of performance-based compensation. Our outlook includes non-GAAP financial measures because certain reconciling items are dependent on future events that either cannot be controlled, such as currency impacts or interest rates, or reliably predicted because they are not part of our routine activities, such as refinancing activities or acquisition and integration expenses. For a reconciliation of non-GAAP financial measures to the applicable most comparable US GAAP financial measures, see the CDW Investor Relations website: https://investor.cdw.com/financials/quarterly-results/default.aspx.

- 2. Netted down revenues represent revenue recognized on a net basis, which equals gross profit. Netted down revenues result when CDW is not primarily responsible for fulfillment and acceptability of the product or service and, therefore, is acting as an agent. CDW acts as an agent for Software as a Service, Software Assurance and warranty solutions. Agent commission fees are also netted down revenues. CDW has not disclosed netted down revenues prior to 2016.
- 3. Non-GAAP operating income (NGOI) excludes, among other things, charges related to acquisition and integration expenses, transformation initiatives, workplace optimization and the associated tax effects of each. 2024 OUTLOOK

^{1.} Certain annual outlooks are provided on a non-GAAP basis because certain reconciling items are dependent on future events that either cannot be controlled, such as currency impacts or interest rates, or reliably predicted because they are not part of CDW's routine activities, such as refinancing activities or acquisition and integration expenses.

^{2.} As of May 1, 2024; all growth rates are on a constant currency basis.

RETURNED APPROXIMATELY \$6.5B IN CASH TO SHAREHOLDERS SINCE 2013

From IPO through March 31, 2024.

On February 7, 2024, CDW's Board of Directors authorized a \$750 million increase to the company's share repurchase program. The \$750 million authorization is incremental to the approximately \$338 million unused in the repurchase program as of December 31, 2023.

CDW elected to temporarily suspend share repurchases as a precautionary measure in light of the COVID-19 pandemic from March 2020 through October 2020. CDW put a lower priority on share repurchases in 2022 until its Net Leverage Ratio was in target range. The Net Leverage Ratio was outside of CDW's target range as a result of CDW issuing \$2.5 billion of senior notes on December 1, 2021, to fund the acquisition of Sirius Computer Solutions, Inc.

INVESTMENT HIGHLIGHTS

- ~\$440B⁽¹⁾ addressable market opportunity with attractive growth potential
- Market-leading provider of integrated technology solutions in a highly fragmented IT Solutions Industry
- Proven ability to evolve and capitalize on IT trends
- Flexible, nimble, performance-driven culture generating a strong financial track record
- Attractive business model with sustainable competitive advantages
- Multiple levers for growth and creation of shareholder value

APPENDIX

ESG at CDW

At CDW, our ESG work is guided by the principles of The CDW Way and our values of trust, connection and commitment. We focus our ESG efforts on the topics, challenges and opportunities where CDW is positioned to sustainably add value for our stakeholders.

As the ESG landscape evolves, we have continued to refine our ESG strategy to more closely align with stakeholder expectations, commercial business opportunities and the regulatory environment.

In 2023, we conducted a stakeholder assessment to update our ESG priority topics, which have or can potentially have a direct impact on CDW or its stakeholders. Our approach was to identify ESG topics where CDW is well positioned to make the greatest impact and sustainably add value for our stakeholders. The results of that work are shown on the next page. In addition, we have organized our topics and initiatives under the four pillars of PEOPLE, PLANET, PARTNERSHIPS & PORTFOLIO, and PRACTICES.

PEOPLE

We use our reach, scale and capabilities to create opportunities for people and communities.

PLANET

We strive to be sustainable and efficient in our operational practices and seek to positively impact the environmental performance of our value chain.

PARTNERSHIPS & PORTFOLIO

We help others advance their own ESG efforts by providing products that address environmental and societal needs, and collaborate to amplify the collective impact of the technology sector.

PRACTICES

With every interaction, we strive to inspire trust and confidence in CDW among all our stakeholders.

ESG VISION

To connect people, ideas and solutions that drive the long-term success of our business and stakeholders

ESG PURPOSE

To empower our business and stakeholders to do great things and amplify our sustainable impact

CDW's 2023 ESG Milestones and Highlights

ESG Products and Solutions

Customer demand for products and solutions that help conserve energy, reduce value chain emissions, support a circular economy, protect data and ensure supply chain reliability, transparency and efficiency continues to rise. To address these challenges, our teams have mobilized internally and elevated collaboration with our customers and technology partners to meet increasing demand and growth for environmentally certified and socially responsible products. As a result, we are well positioned to help customers address environmental and social factors when selecting, deploying, utilizing and disposing of technology products.

A FULL STACK OF ESG PRODUCTS AND SOLUTIONS

CDW offers over 100,000 products and services from more than 1,000 leading and emerging vendor partners, with many products and solutions. Our goal is to be able to offer customers a full stack of solutions to help them address their ESG priorities, primarily through an extensive portfolio of environmentally certified products (ENERGY STAR Certified, TCO Certified, and Electronic Product Environmental Assessment Tool (EPEAT) Compliant), and a broad range of cloud-based solutions that improve energy efficiency.

Our ESG program, internal training and education, and extensive collaboration with our customers and vendor partners enable us to deliver on our potential to help customers address their ESG needs. This enhanced capability comes at a time when technology is mission-critical to the success of businesses of all sizes, government agencies, education and healthcare.
